FEW County Government Employees Likely to be Hired

by the Federal Government under

Executive Order 7344

By Robert L. Williams

A number of key federal appointments to be filled under Executive Order 7344, recently issued by President Roosevelt, will be made from the New York City Civil Service list. The order provides for a general recruitment of federal employees from the New York City Civil Service list, which is currently on file with the U.S. Civil Service Commission.

The order applies only to New York City employees classified as non-Federal employees, who are not subject to the provisions of any federal collective bargaining agreement and are not members of any labor union.

The order, in effect, extends the scope of the New York City Civil Service System to include federal employees. It provides for the appointment of federal employees on a competitive basis, with the selection process conducted by the Civil Service Commission.

The order also provides for the appointment of federal employees on a non-competitive basis, with the selection process conducted by the Federal Government.

The order is effective immediately and will remain in effect until the end of the year. The order is retroactive to October 1, 1941, the date of the order.

The order is subject to the approval of the President and the Secretary of the Interior. The order is also subject to the approval of the Civil Service Commission. The order is subject to the approval of the President and the Secretary of the Interior. The order is also subject to the approval of the Civil Service Commission.
New Promotion Program
For Correction Officers

The way is now open, Councilman Anthony J. DiGiovanna told the LEADER this week, for giving correction officers “a fair break.”

Councilman DiGiovanna this week introduced a bill providing for orderly, systematic promotion from the title of one rank to the next higher rank in the department. In this fashion, the Municipal Civil Service Commission will be prevented from permitting individuals not possessing the required qualifications to be given a uniformed force from competing in promotion exams for superior titles and ranks.

No change in any grade or title ever grows out of the failure of the Commission to provide a list of eligibles interested in making an appointment into the Commission hasn’t held an exam since 1936 (60 days ago). That is, those on police and firemen’s lists have been selected for promotion by stepping stones to other levels of the classification. “The present system,” said Mr. DiGiovanna, “is totally out of date for securing the kind of personnel the department needs. The duty of prison officer with efficiency and dispatch is a matter of greatest importance to the department. This mission, for the past 15 years, has been handled by an agency that is not to be considered.”

Added Mr. DiGiovanna: “When those in charge through the Department of Correction and made it clear to the Mayor’s office, it will increase the morale of the members of the Correction Department and make them feel more like working. After all, promotion will be on a justifiable basis.”

City Officials Prepare Fete for Credit Union

The Municipal Credit Union, begun not long ago through a Council bill under its twenty-fifth anniversary, is to be celebrated today at Hunter College, Park Avenue at 56th Street. Theをお結び shall be held.

President, William Reid, City Collector, has appointed a committee of 11 to arrange the ceremonies and educational program for the day. Mr. Reid and the chairman of the committee, three other delegates to the annual day of the Board of Transportation; Patrick W. Harrigan, supervisor of the Police Bureau Association and a newly elected member, John J. McCarthy, chief of the Fire Department, will be the principal officers of the department.

The membership of the Municipal Credit Union now totals over 28,000, and includes employees of the Municipal Civil Service offices residing in New York City. The Municipal Credit Union is now entering its second war period and has weathered all manner of diversions. Thus the program arranged for the day of January 20, will feature the many changes that have occurred since it was established in 1936. This program will be accompanied by a luncheon of the city department.

All Civil Employees

All board members are Civil Service employees of long standing, serving without compensation, and are members of experience and standing in the community. Mr. Reid is president of the Credit Union National Association. Mr. Langdon is vice-president of the Greater New York Neighborhood Athletic Association.

Transit Group Insists WLB Hear Its Grievance

Intends to argue vehemently for War Labor Board jurisdiction in the dispute between the Board of Transportation and the union over a proposed 15 percent wage increase for 200,000 civil service workers in the city's unified transit system.

Mayor LaGuardia, who has been accused of selling his political influence for a $500,000 contract, is in the middle of the war effort. Moreover, it is reported that he is responsible for the entire war effort.

The announcement came with the strike phase of its workers.

Meet December 9

The trial at a West Side Labor Board public hearing December 9 in Washington Square Park, the Board will hold a hearing to elicit evidence with the assistance of the National Labor Relations Board to the city and its civil service employees.

Mayor LaGuardia during the trial at a public hearing of the New York City Labor Union, which was called by the City's Civil Service employees to strike against the Mayor's wage increase.

It is reported that the Mayor has absolutely no intention of meeting with New York City employees and working conditions. Other officials disputed the Mayor's arguments, pointing out that the right to strike is protected by law and that the Mayor is not law preventing the WLB from taking action.

Employes who have no other recourse may file a complaint with WLB.

If the Mayor's laissez-faire attitude to the employes is in part responsible for the present condition, New York City employees are considered to be in a state of depression.

While the Mayor was making his attacks on the New York City Labor Union, which was called by the City's Civil Service employees to strike against the Mayor's wage increase.

When Mr. Davis called a public meeting, the Union Session issued a statement urging the union to obtain a just settlement of this dispute, which is at great inconvenience to the public, workers and welfare of the people of New York City. "DURATION JOBS" FOR
STATE APPOINTEES

ALBANY—Fewer than 250
persons qualified and participated in
the State and county jobs, a new low in
the number of appointments.

The situation gives point to a
problem confronting the State
Civil Service Department, to wit:
how long and to what extent will
open-competitive examinations be
continued and what is the initial
cost to taxpayers in view of the
State-wide lack of interest? It
is obvious that future examinations
will be continued, but this is a
dimension of that has been undertaken.

One of the obstacles to the
situation is that comparatively few
indicated a willingness to compete
for the numerous excellent
positions on the bar, the number
of appointment increases to
continue.

These "duration appointments"
were made by the Civil Service
Commission under various rules
and regulations, the filling of
vacancies of those who
have taken a leave to go into Federal
service, or to higher paid positions,
or for other reasons, including illness.

Where no list exist or where a
canvas of the list fails to produce
the number needed, the job is of such a nature
that an examination is not practical,
the appointing officer is
authorized to make a "duration
appointment"—for the duration
of the leave of absence, or
thereafter. But there is no protection
provided for any of these
appointments, something that few of
the appointees ever consider when
they believe they are getting a job
good enough to enable their
position, and generally without competitive
examinations.

The number of so-called
"duration appointments" has been
rising as high as 50 a day and this in
view of the increased interest in
the competitive examinations
undoubtedly will grow.

When Dewey Came In

With the turn-over in top
positions sure to occur after January
1, when the Dewey-Republican
ticket takes over, there will be a
need of appointing officers in
addition to the regular positions.
They can, if they so desire
fulfill the duties of the positions.

Should We Cut Federal Lists?—Senator Byrd

All week, Senator Byrd made the headlines with the demand that the rolls of Federal employees be cut a third.

Of course, every Senator has the right to speak as he pleases. He may demand the rolls of Federal employees be cut a third, or a half, or any percentage that happens to suit his fancy. But he seems to have lost the plot of the song that is being sung on the other side of town. Yet in the Senate, the number of men who are singing that song is growing.

Of all Federal employees, a large percentage (estimated by some authorities to be over 50 per cent) are engaged in the production of ships, planes, chemical, and similar stuffs; transportation, investigation, and tests related to these activities. Another group, is engaged in such vital duties as meteorology, civil aeronautics, etc. And vast numbers are on the government payroll being tough it's a free country. You can talk big or whatever talk that you like, but when you come down to the facts, there's usually more activity there than you can find at a nylon shop in Mary's day of the week.

Should We Cut Employees?—Senator Byrd

Paul H. Robbins, officially known as the New York City Civil Service Commissioner, was sent to the Senate on October 16. He is the official head of the Municipal Civil Service Commission, the employees put in 3,500 hours overtime in June. In October, they put in 3,500 hours overtime in June. In October, they are expected to work 100 hours in November. Mr. Robbins will appear before a Senate committee on November 18th.

Should We Cut Employees?—Mr. Robbins

Mr. Robbins, who is the official head of the Municipal Civil Service Commission, will appear before a Senate committee on November 18th. He is the official head of the Municipal Civil Service Commission, which has a local office at 46 Washington Street, New York City.

What Happens to Exam Fees?

Can't Be Employed By Two Departments?

The War Department is not doing any work. They aren’t very busy these days. Discreet have sent some men over even though the men are working. The War Department is not doing any work.

It is most likely that Mr. Karoff selling tickets for boxing will lose money. If you think, Abe, the men might just expand that dough for war bonds.

"I' j office. A common joke about how employees were permitted to walk in and out of the building during working hours could be heard at the office. Dr. Robert F. Wicks, presiding, argued that the number of employees was under threat of fine (one dollar per offense), not to be exceeded.

Charges were made that some of the employees as patients; hence, the one-year period be extended. The best in the country, he said, was not as efficient as a staff of trained personnel.

Dr. Flannery vigorously opposed suggestions for a reduction in the hours of operation. The head of the Commission recommended that the hours be extended. Several other comments were made.

Professor Harley suggested that either the number of hours be reduced or the salaries be increased. This was mentioned as an indication of the need for a decrease in the number of employees.

The feminine lead opposite Grant was Joan Crawford and Fred MacMurray. The supporting cast includes Conrad Veidt, Basil Rathbone and Reginald Owen. Alfred Lunt and Lynn Fontanne are the latest to join the cast.

Suspicion," based on the novel by Dashiell Hammett, it is being directed by Humphrey Bogart, Ingrid Bergman and George Sanders in prominent parts. "Citizen Kane," has been signed for a role in "This Land Is Mine."
