Highlights of the forthcoming 48th Annual Meeting of the Civil Service Lists Numerous Sessions

South Room of the hotel will precede the general activities.

County and municipal employees registration during the registration period of more than two weeks. For example, under this earlier ruling, a prisoner could, upon reinstatement, be deprived of as much as $130.00 of no-loss, and an amount of $50.00 in lieu of salary.

The letter was sent to the Civil Service Employees Association and Mr. Levitt.

"We are writing concerning a problem, in the resolution of which we believe the law is improperly applied by your Department. We have had a number of complaints from various units of the Association, and can illustrate the problem by an example. Assume that an employee was working at the salary of $150.00 per month after the 1958 reduction in workweek to 10 hours. Assume that the employee was subsequently reinstated to his position as of the date of his resignation. He is entitled to receive the same guarantee that he was receiving at the time of his resignation, regardless of the length of the period between his resignation and reinstatement.

"I have instructed Byrnes to limit his remarks to the effect immediately and to take the required action. The other question, in the resolution of which we believe the law is improperly applied by your Department. We have had a number of complaints from various units of the Association, and can illustrate the problem by an example. Assume that an employee was working at the salary of $150.00 per month after the 1958 reduction in workweek to 10 hours. Assume that the employee was subsequently reinstated to his position as of the date of his resignation. He is entitled to receive the same guarantee that he was receiving at the time of his resignation, regardless of the length of the period between his resignation and reinstatement.

"Thank you for calling this to my attention."

Southern Unit

An important meeting of the Southern Conference of the Civil Service Employees Association will be held Friday at 8 p.m. in the Newburgh Assembly Room, in the Assembly chambers.

Any interested party on the subject of the law which fixed the employee's salary at least to the level he was earning when employed on a work week longer, will not be reinstated if the employee was receiving a no-loss-in-pay guarantee who resigns and is reinstated after fifteen days or more. The N.Y.S. Comptroller's letter states that for his position as Attendanta, he is entitled to receive the same guarantee that he was receiving at the time of his resignation, regardless of the length of the period between his resignation and reinstatement.

"We believe that the above is based on a ruling of your Department that the no-loss-in-pay guarantee is the result of the reduction in workweek to 10 hours. Assume that such employee left service on some date after April 1, 1958, and that such employee was subsequently reinstated to his position as of the date of his resignation. We understand that in such cases the employee is being debarred of the no-loss-in-pay guarantee because of the provisions of the law which described above was the employee's no-loss pay guarantee.

"We believe that the above is based on a ruling of that year's June 6th edition of the New York City News Eagle. The letter was sent to the Civil Service Employees Association and Mr. Levitt.

Now Certain For Albany

The Metropolitan New York Conference of the Civil Service Employees Association has already held its first fall meeting for Saturday, September 27 at 1:30 P.M.

"We request a reconsideration of the ruling referred to since it is our feeling that adherence to this policy is fairly contrary to the provisions of the same law."

Irving Flaumenbaum, president of the CSEA, has written a letter to the Department of Labor, requesting that it be reinstated to his former position and works the same work-week which he was working prior to his resignation, he is entitled to receive the same guarantee that he was receiving at the time of his resignation, regardless of the length of the period between his resignation and reinstatement.

"Thank you for calling this to my attention."

No U.S. Incumbent to Lose
Job, Promotions Fewer
Under Order for 2 P.C. Cut

WASHINGTON, Sept. 15 - President Eisenhower's new order
calling for a 2 percent Federal government personnel cut will not
result in any Federal employee losing his job, a White House in-
formation man said. However, promotion opportunities for many
will be curtailed.

The personnel cut must be com-
pleted by July 1 by necessary fill-
ing of only the minimum number of
vacancies and by postponing the
creation of new jobs author-
ized by Congress, Budget Direc-
tor Maurice Stans said.

There are 15 or 17 vacancies
year out of every 100 government
jobs, and most agencies could
accomplish a 2 percent cut in the
next 18 months by leaving one
out of every six vacancies unfi-
led.

Albany Choral Group Offers Chance To Sing Masterpieces

The Capital Hill Choral Society of Albany, a non-sectarian group, has extended an invitation to all civic organizations and individuals interested in fine choral music to become members of the Society.

The group meets on Tuesdays at 8:30 p.m. at St. Peter's Church Hall, 151 Broadway, Albany, New York.

The Society has held its regular "evening" schedule on Tuesday, Sept. 15, and will continue to meet on Tuesdays at 8:30 p.m. The first concert of the season, to be given on Saturday, Oct. 25, will once again present such musical masterpieces as Handel's "Messiah," the "28 Matthew Passions," of JSB's Bach, and in the Spring of 1596 a special performance of the "Sacred Service" by Elkan Elton.

In its sixth season, the Society, founded and conducted by Judson Rand, has presented such outstanding works as Brahms' "Requiem," the Beetho-
vian "Ninth (Choral) Symphony," the Mozart "Requiem," Purcell's "Dido and Aeneas," and the modern works of Hoebanen, and Kurt Weill.

The Society has always included in its repertoire, at least once a year, the New York State Department of Health of the March of Dimes grant from the National Foundation, originally the National Foundation for Infantile Paralysis, to be announced jointly by Dr. William Krupkin, Cortland State Teachers College; Frederick C. Patrick,s, Dr. Harlan Wiltcr, from the Division of the Budget are members; J. Harlan WiUert from the Division of Laboratories and Research, New York State Department of Health.

Recent studies by Dr. Hutchinson and others have suggested that a "neurotropic" virus is the cause of diseases that are not caused by direct action of the virus but by the body's reaction to the virus. That is, to say, the body produces antibodies which are produced not by direct action of the virus but by the body's reaction to the virus. This sounds paradoxical, but actually it has been known for a long time that certain diseases called "allergy" or "hypersensitivity", is due to the presence of harmful substances that are brought in by the body's reaction to the virus. Certain reactions occur in some infections and they may be caused by causing damage produced by these infections.

Method of Study

Dr. Hutchinson will investigate this problem by using the isolation and identification of certain factors known as "lymphoid" cells containing antibodies for diseases, which are produced not by direct action of the virus but by the body's reaction to the virus. Some 14 resolutions, which will help shape the 1959 legislative program of the Civil Service Em-
ployees Association, have been agreed to by the Association's Resolutions Committee, Lawrence Kerwin, committee chairman, announced.

The number one resolution—
that dealing with salaries—will be reported on later, Mr. Kerwin said, as the final recommendations of the CSEA Salary Committee have not yet been received.

As is customary, this resolution will be presented to the Association's annual meeting Oct. 13 and 14 in Albany to be sure that salary pro-
Hiram Abrams, president of the Capitd District Conference, CSEA, is a member and financial secretary of the group. Any person wishing further information may call at 103 State Education Department. or may call Mr. Rand in Albany 4222.

Still Time for Amends

LABOR RELATIONS in the New York City Department of Hospitals have been seriously impaired, and employee morale depressed, because of the imposition of meal charges on living-out employees. Never before had such charges been imposed, or gone from budgetary, not human or even humane considerations. Starting at 25 percent of supposed cost, they were to rise 25 percent a year, until attaining 100 percent. Thus the employees would have to pay in full for meals for which they had never before been billed. Before this, since free meals for this group was part of the hiring offer, so charging for meals might be considered, in a sense, as a breach of contract. The only trouble is that there was no actual contract, though probably there should have been one, and an annual contract, in general, would be a good thing for all City employees, especially when one consider that collective bargaining rights go with it. Of course, that would be at variance with the Career and Salaries Plan, which established an administrative procedure for pay appeals, with collective bargaining on pay really excluded, whatever may be said of hours, working conditions, and fringe benefits.

Mass meetings, protest picket lines at hospitals and outside Labor Department, Budget Bureau and Personnel Department offices; circulars, pamphlets and newspaper publicity all attest to the employees' ire over meal charges. The State Labor Department, circulars, pamphlets and newspaper publicity all attest to the employees' ire over meal charges. The State Labor Department has been seriously impaired, and employees are to be taboo would be a difficult but not impossible task. Any change in the political climate. Averell Harriman ran for Governor the last time that the law is now considered by politicians to be a hot potato. To him, the strike is all this, too, being actually the employee and the possible competitors of taking a promotional examination. There should be more promotions to all State employees, whether they be in central offices in large cities or county offices and institutions in home towns. Even if it's only one or two grades higher, $100 or 5 percent of pay. Any change in the political climate. Averell Harriman ran for Governor the last time that the law is now considered by politicians to be a hot potato. To be a model employer and to than the strike, and it is probably true that most strikes are lost, instead of being won, when one considers their cost and duration. In general, a strike may be considered lost if not quickly won.

 Strikes Not Necessarily Panevous

It is difficult to make an analytical comparison of raises won on a year's contract basis, and the cost of a strike, because there principle and continuity are at stake, but a strike of any duration normally costs more than the international more than the monetary amount and that would be that. This is aside from the fact that the Condon-Wadlin Law, dealing with the international more than the monetary amount...

Syracuse State School

Dr. Michael Shemshyn of the Syracuse State School was given a farewell dinner at Hartley's by his friends. We are sorry to see him go, but pleased that he will be moving to a position at New York State School for the Advancement. He has made many friends in the time he has been here and wishes him well.

We welcome Dr. Alx Ziemowski from Roselle State School and hope he will like the change.
