Good Opportunities For Factory Inspectors

Appointment and promotion opportunities for those who pass the July 27th Factory Inspector test are rich: The Inspector job is 150; all are filled by men, except for a few women in the Mercantile Inspection Bureau.

Entering salary is $1,680, with a $5 increase each year. Promotion to the grade of Chief Factory Inspector requires five years service at the Inspector grade.

State Commission to Give Verdict On Reclassification in City Service

Within the next few days, the State Civil Service Commission is expected to make known its verdict on 12 resolutions adopted in recent months by the Municipal Civil Service Commission and approved by Mayor LaGuardia. These resolutions, among other things, would set $600 as the gap between the minimum and maximum salaries in various grades. Employee groups are united in labeling this "a budget cut."

Representatives of such groups took advantage of Wednesday's hearing of the State Commission on the Bridge Operator Service to denounce all the resolutions. This supplements a petition campaign directed at the Albany offices of the Commission during the past few weeks.

The resolutions would:

a) reclassify the Engineering and Architectural Service;

b) change the titles of all persons in the Statistical and Actuarial Service receiving salaries of less than $1,800 to Statistical Assistant or Actuarial Assistant;

c) move the compensation in the Bridge Operator Service to the Bridge Operator—$1,800 to but not including $2,400; Supervisor of Bridge Operation—$2,400 and above.

d) move the Third Deputy Welfare Commissioner from the executive class to the Administrative Service under the title Assistant Commissioner.

e) move the present title Director of Housing from the Mayor's Office to the New York City Housing Authority.

f) strike from the Ungraded Service those obtain titles: Supervisor of Equipment and Inspection; Superintendent of Equipment and Inspection; Superintendent (Barren Island Projects) Plant.

g) reclassify from the non-competitive to the competitive class as follows: Richard L. Minetti, a BMT employee, prior to transfer to the city service, title Assistant Engineer (Track). This is the first action of its kind.

Furia Elected

Dr. John J. Furia, Director of Training for the Municipal Civil Service Commission, was elected president of the eastern regional conference of the Civil Service Assembly of the United States and Canada at the Hotel Commodore last week. Dr. Furia succeeds James C. O'Brien, promotion director for the S. C. Civil Service Commission.
Tuesday, July 2, 1940

**Improve This Service!**

The Municipal Civil Service Commission this week inaugurated a service modelled on Job Xchange, an idea originated by the Civil Service Leader eight months ago.

The decision of the Commission to initiate a service identical to one which was already in operation in other cities, demonstrates that the Commission finally recognizes that a program of this kind must be started if the criteria are to be met which the Commission, with its enormous facilities for tackling this problem properly, is making little use of.

The Leader, as a private newspaper, offered the greatest service to anyone who would listen, when it sought to bring together persons willing to make a mutual exchange of jobs. For nearly six months, free space was offered to persons who wanted transfers. The results have not been as fruitful as we could wish.

The trouble is not that there exists a lack of people who desire exchanges. The large volume of mail which comes to the Leader office proves that hundreds, if not thousands, of people want transfers. The trouble lies in the fact that we have not been able to arrange the exchange of jobs for two people with similar jobs get together and decide that they are each other’s equals. This thought motivated the column originally. When the Leader started the column, we met the steps in the manner necessary before the actual exchange could take place. Experience has shown it is precisely at this point that red tape hinders.

A plan vastly larger, and enjoyable the full official cooperation of every department in New York City, must be worked out. Without such cooperation, the plan must remain piecemeal as compared to the size of the problem, because the red tape acts effectively to block most exchanges. The plan should be so arranged to be easy to arrange for the easy transfer of individuals from department to department, as well as within the confines of single departments.

The Leader is now working on such a plan. In a future issue, we shall set forth our experience with the Job Xchange column. Until then, we shall continue to urge the Civil Service Commission, the Leader intends to continue its Job Xchange column.

**Correction Officers Hit Pay**

Sirs: The Correction Officers Benevolent Association, the fine organization representing the 895 men in the employ of the Uniformed Force of the City Prison Service, held its last meeting before the summer recess on June 19.

At this meeting the members were informed that the amendment to the Three Platoon Law, a bill for the amendment of Correction which had been introduced in the City Council by Councilman Charles Keegan had been unanimously endorsed by the Association. It was now sent to the Assembly where it will meet the same opposition. The three platoon amendment removes the excess of extended to certain officers by the original law, and also provides for the retention of the duties of the first platoon.

The Grievance Committee reported that it had investigated a conference with Commissioner of Correction David Marcus and was thoroughly 발표ing a reply.

The Legislative Committee reported on the progress of its survey of the salaries of Prison Officers in New York City, where these men have continued to suffer the poor pay of Correction Officers, by the fire with which reform became an issue in New York. It also reported that it was drawing up a list of the names and addresses of persons who desire transfers. The high-ranking officials of the Correction are streamlining their procedure and cooperate with the Office and giving employees all along the line that they are to accept the decisions and act fast.

Announcements of new examinations, for example, are no longer carefully awaited by the members of the Commission. Instead, whenever a district ranking officer makes a list is needed, he goes ahead and announces an exam, revising the Commission later.

Flemming was Director of the Civil Service Commission in the defense program. Not only do we want to speed up the recruiting drive is finished;

The plan must be so devised as to prohibit the Commission finally recognizes that a problem exists which must be solved. It also demonstrates that the Commission finally recognizes that a problem exists which must be solved. It also demonstrates that the Commission finally recognizes that a problem exists which must be solved. It also demonstrates that the Commission finally recognizes that a problem exists which must be solved. It also demonstrates that the Commission finally recognizes that a problem exists which must be solved. It also demonstrates that the Commission finally recognizes that a problem exists which must be solved. It also demonstrates that the Commission finally recognizes that a problem exists which must be solved.

**Fire Bell**

**By James Dennis**

This Fourth of July will be the first in which New York State will be permitted. A law adopted by the last Legislature prohibits the use of any sort of fireworks after August 1. The prohibitions of the new law are extremely severe. Governor Lehman noted this fact in his bill, he observed that it might be amended later to soften the restrictions. The prohibition of the new law is enforced by the police, who are given a license to use fireworks—even sparklers or roman candles. The law is enforced by the police, who are given a license to use fireworks, even sparklers or roman candles. The law is enforced by the police, who are given a license to use fireworks, even sparklers or roman candles.

**BON MOT**

Quoted Mr. La Guardia of Civil Service Assembly:

"I never argue with my own members—only with co-workers, and they will be married within a week.

The winner among the Civil Service Assemblies is the one with best government. This Fourth of July took their teams in advancement, and will serve a third year as a Labor Secretary, Mrs. H. E. W. Smith.

**Full Details for Those Receiving Wires About Customs Inspector Test**

The U.S. Civil Service Commission has sent wires to more than 1,000 persons to find out whether they will accept appointment as Border Patrol Inspectors under the Immigration & Naturalization Service.

The persons receiving wires participated in the General Investigator Examination that was given by the Commission more than a year and a half ago. It was revealed exclusively in The Leader several weeks ago that the Commission would be forced to appoint a great many patrol inspectors from persons who took the General Investigator Examination before the test had been completed. The Commission received a rush call for the additional men and it has to supply them the best way it can.

However, these following facts should be kept in mind by the more than 100,000 New Yorkers who took the test:

1. If you didn't receive one of the wires, it doesn't mean you're out of the game. You and we received one of the wires it doesn't mean you and we will be out of it. There were a bunch of people were out of it. There were few jobs in the game and the New York City police were out of it.

2. Also, each person who receives a wire should be familiar with the required qualifications and character and a test will be given in a number of cases.

3. The examination will be sent out by the Commission until all the registered persons have had an opportunity to apply for it. Several weeks will be estimated from the General Investigator Examination in different jobs under Immigration & Naturalization Service and the Customs Bureau. It will be several weeks yet before the results are set up.

4. The examination had three different options: law, accounting, and pharmacy. Some of the persons who applied for one of the options and who were successful in the General Investigator Test will now be given a different examination in the options applied for. Blanks have been sent out and the two tests will be given July 3 and 9.

5. If you applied for one of the options and didn't pass the first written examination, it doesn't mean you can't pass the second written examination. It may mean that the Commission decided you didn't have sufficient experience in the General Investigator Test. It may mean that the Commission decided you didn't have sufficient experience in the General Investigator Test.

6. The same options are available for all the persons who applied for one of the options and who were successful in the General Investigator Test. It will be given in a number of cases.

7. Representatives of the Commission will be at the hotel where the candidates for the examination are located. Any person who does not receive a wire should visit the hotel where the examination is to be held. The hotel will be advertised in a number of cases.

---

**FAA Host**

The Patrons' Benevolent Association of Chicago, Illinois, and Chiefs of Police at the Hotel Astor, will host a dinner in honor of the Convention at the Hotel Astor, on the evening of the 16th. Many important matters in connection with the police force will be discussed at the convention.

---

**Lieutenant Papers Required**

Do similar Civil Service jobs get similar vacations? Is your vacation period too short? How is your vacation determined? What happens to your vacation if you switch jobs?

Starting next Tuesday, the Laborer will carry a series of helpfully timely articles answering all your vacation problems. Don't miss it!
As a hospital attendant, one of your duties might be to tend the laundry. In order to identify the patients, you must first put the patient's name, age, sex, and name of the ward on all the clothing. There is a washing machine at the head of the line so that:

1. The laundry for males patients is washed with a mild soap and dried with a hair dryer, while the laundry for females patients is washed with a more gentle soap and hangs to dry.
2. The laundry for patients in the psychiatric ward is washed separately from the general ward laundry.
3. The laundry for patients in the intensive care unit is washed in a special washer and dryer machine.
4. The laundry for patients in the oncology ward is washed in a machine that uses a special detergent.
5. The laundry for patients in the surgical ward is washed and ironed before being returned to the ward.
6. The laundry for patients in the orthopedic ward is washed and hung to dry before being returned to the ward.

Assume that you have been given a task of washing a patient's clothes that is a job that you have been assigned to do. You must ensure that the clothes are washed and cleaned properly before returning them to the patient.

If a hospital attendant notices a patient's room and finds that the patient has hung some clothes but can't find the keys to the room, the attendant should report it to the supervisor immediately. If the patient carries the ill patient back to the ward, the attendant should alert the doctor immediately.

If a person where a patient to the x-ray room and the patient demanded to go to the bathroom, the attendant should immediately bring the patient back to the ward and alert the doctor.

If a patient attempted to kill himself, the attendant should alert the doctor immediately and the police department should be called.

If a patient carried the ill patient back to the ward, the attendant should alert the doctor immediately and the police department should be called.

If a person where a patient to the x-ray room and the patient demanded to go to the bathroom, the attendant should immediately bring the patient back to the ward and alert the doctor.

If a person where a patient to the x-ray room and the patient demanded to go to the bathroom, the attendant should immediately bring the patient back to the ward and alert the doctor.
TATE Aid for Kindergartens will be the slogan of the children of Kindergarten age into training and his language experience carries through life.

There were those who argued against the Kindergarten in this city fifty years ago and they have been the model that has been copied everywhere all over the nation.

In New York State each city has financed Kindergartens without help from the State. There had been no question about refusing to appropriate the necessary funds for the education of your four-year-old before your five-year-old.

The value of Kindergartens and the need for maintaining them as an integral part of the child's education is not only admitted by educators and part, but by laymen also. All educators, social workers and business men.

The value of the Kindergartens to those parents, whose children count the attendance figures for entering the 1-A grade and thus obtaining the Friedem Commission Act, which hold the mind most firmly.

The value of Kindergartens to those parents, whose children count the attendance figures for entering the 1-A grade and thus obtaining the Friedem Commission Act, which hold the mind most firmly. **Principals Club Election**

Principal George W. Patterson, of P. S. 145, Brooklyn, heads the 1940-41 election year. Johanna M. Hopkins, of P. S. 146, Brooklyn, is vice-president, and Sara L. Rhodes, of P. S. 169, Brooklyn, is secretary; August D. Lodato, of P. S. 197, Brooklyn, is treasurer; Joseph Schroff, of P. S. 24, Bronx, handles publicity.

A tea party in the fall will assist Associate Superintendent Lieberman, and new members of the Board of Examiners.

**Boat Ride**

The annual boat ride of the Metropolitan Office Assistant was held on Monday.

**Ches ton Honored**

Dr. Henry C. Cheston: retiring principal of the High School Teachers Association, was guest of honor Tuesday at a luncheon tendered by his colleagues. The affair took place at the Hotel Empire.

**High School Teachers On National Defense**

The High School Teachers Association supports the national defense program, wired president Frank J. Arnold to President Roosevelt.

---

**Profile**

**Frank Daniel Whalen**

There are new and powerful pressure groups that never existed before—like the health, social service, highway, and education groups. Whalen is a deliberate Irishman who can laugh spontaneously. He never recites words. What is more important, he talks frankly. Whalen is the type of man the Board Committee chose as its chairman in the last year's principal selection. James H. H. in the Bronx has been a high school in city schools for ten years.

**Tough Spots**

Whalen has tended the tough spots in schools in order to thrive. Today he is one of the ablest administrators in the country. He is a great administrator and one who can handle tough spots with a good deal of skill.

---

**Foreign Languages on Americanization**

"Today—and the America of tomorrow," is the topic of author-William Margolis Friday afternoon in a radio talk sponsored by WNYC by the United Press Association. He quoted Lyman Abbott's description of a true American:

"He looks with pride upon this history which his fathers have written by their historic deeds, which accepts with grace the heritage which they have bequeathed to him, and which he rejects with pride and enfranchised in a true American, and is proud of this heritage as his parentage what it may."

**Teachers and Principals**

Teachers and Principals of the year's four hundreds of the High School Teachers Association are guest of honor Tuesday at a luncheon tendered by his colleagues. The affair took place at the Hotel Empire.

**Ches ton Honored**

Dr. Henry C. Cheston: retiring principal of the High School Teachers Association, was guest of honor Tuesday at a luncheon tendered by his colleagues. The affair took place at the Hotel Empire.

**High School Teachers On National Defense**

The High School Teachers Association supports the national defense program, wired president Frank J. Arnold to President Roosevelt.

**Flag Presentation**

An American flag made by students at the Yorkville High School for Women's Service Trades will hang outside the new Brooklyn building of the Board of Education. Presentation of the flag was made to president James Marshall by Christopher M. Ryan, president of the Vocational High School Teachers Association.

---

**Learning to Do**

There's more to elementary education in New York City schools than the three Rs. Here's a child learning how to make things—important in the modern world.

---

**LET'S PLAY VOCABULARY**

Behind every word is some or more diligent words. Vocabulary is new an ever-developing telling how to handle the concepts of a whole group. It also includes a knowledge of idioms, which are very helpful in getting a good understanding of a sentence. This column is written by Dr. Whalen, a principal in city schools for ten years. It will appear once a week.

---

**Psychology Guild**

246 5th Ave. N.Y.C., a psychology guild of students, is meeting weekly.

---

**Bureau of State Publicity**

ALBANY, N.Y.

**Lithgow Osborne, Commissioner**

Kindly send me free copies of "A Fair Bargain—NEW YORK STATE This Year!" and "World's Fair Folder, with Loop Tour of Beautiful Long Island!"

---

**Mail This Coupon or a Postcard TODAY**
This department of information is conducted as a free service to readers of The Leader, who are welcome to avail themselves of this fact, and to answer any questions their constituents may have. Send your questions to: Question, Please? Civil Service Leader, 297 Duane St., New York City. If space does not allow printing your answer, you will receive a reply by mail. Therefore, state your name and address. Questions for this column receive thorough analysis by a well-known Civil Service authority.

**SALT WAR—WHO DECIDES THEM?**

Friday, July 8, 1944

by E. H. ELIOT KAPLAN

As the late immigrant, G. R. H. Smith, so well remembered by the New York City Commission, once said, the Civil Service is governed by the laws of the land, the maximum salary for any grade or position, the Civil Service Commission can fix the level for any grade or position, the budget may attempt to fix a budget, the maximum of the grade for all budget authorities, the budget, the Civil Service Commission to use them privately. I am the Federal Commission would gladly approve the appointment. I doubt whether they will be used by the private aircraft builders, but my guess is that the private companies will be glad to get many of the Civil Service employees who cannot use them to private. I am sure that the private companies and contractors desired to do this the Federal Commission would gladly cooperate.

**APPOINTMENTS FROM THE ELIGIBLE REGISTER**

When there is no way of knowing whether or not any appointment from the eligible register, the Civil Service Commission special list, I realize that many appointments from the special list are made, and that it is rather unfair to the public to appoint such persons who applied for a positions, but the Civil Service Commission at the discretion of the department head may then make appointments from the special list. The idea had possibilities all right, but I am afraid I am not enthusiastic about it into practical application.

On appointment, a person appointed, who last year closed the regular yearly service, has a right to change it to retirement upon your request to the Civil Service Commission. You have perhaps formed a habit of leaving your salary on the eligible register until the P.D. wishes to fill the position. I cannot understand why the salary above the maximum of the grade for these positions, but the Civil Service Commission to use them privately. I am sure that the private companies and contractors desired to do this the Federal Commission would gladly cooperate.

**Appointing officials have been asked the question as to whether three certified eligibles will be considered in the first three exams today; Record Clerk, in Yonkers have been placed on the register for positions in the Bureau of Water Extension. There is a vast difference between the two. There must be many officers and only one appointment actuality.**

**WHEN RETIRE?**

With the Commissioners

On the register, while you don't have to work too late during the seven hours. In July, Monday, July 11, 4 to 6 p.m., instead of the regular 7-9 hours, Binghbook is still barred from meetings of the local commission since 1941. For a month or so, get your passport, while it is still available to be held by the Secret Service. The letter was addressed to chairman Charles A. Atcheson, 88.10 (Onondaga); Charles Wetzel, 83.41 (Kings); 11. Louis J. Pack, 81.42 (Queens); 12. W. Hogan Jr., 81.91 (Chenango); 13. Daniel L. Foley, 80.20 (Suffolk); 14. Donald L. Foley, 80.08 (Onondaga); 21. Ernest J. Niemann, 77.39 (Queens). Full to the New York State and Municipal Civil Service Commission may hold additional appointments from time to time, particularly in view of the benefits of disabled veterans (as provided in the new Civil Service rules) and consolidate the list resulting from the Civil Service Commission. The former. This may help extend the basic retirement age a take a much lower on the register than the 60 at the present time.

**EARLY-BALDWIN BILL**

The State Executive Department of the new Earle-Baldwin bill, the Civil Service Commission, will not affect increased retirement plans. It does not affect any existing employees who have filed applications for this, the Civil Service. Generally the actual number necessary to fill the vacancies after January 1, 1945, will only include competitive examinations within this time will only include the competitive examination within this time.

**Future State Tests**

The State Executive Department of the new Earle-Baldwin bill, the Civil Service Commission, will not affect increased retirement plans. It does not affect any existing employees who have filed applications for this, the Civil Service. Generally the actual number necessary to fill the vacancies after January 1, 1945, will only include competitive examinations within this time. The Civil Service Commission to use them privately. I am sure that the private companies and contractors desired to do this the Federal Commission would gladly cooperate.

**With the Commissions**

Schenectady's commissioners don't like to work too late during the seven months. In July, Monday, July 11, 4 to 6 p.m., instead of the regular 7-9 hours, Binghbook is still barred from meetings of the local commission since 1941. For a month or so, get your passport, while it is still available to be held by the Secret Service. The letter was addressed to chairman Charles A. Atcheson, 88.10 (Onondaga); Charles Wetzel, 83.41 (Kings); 11. Louis J. Pack, 81.42 (Queens); 12. W. Hogan Jr., 81.91 (Chenango); 13. Daniel L. Foley, 80.20 (Suffolk); 14. Donald L. Foley, 80.08 (Onondaga); 21. Ernest J. Niemann, 77.39 (Queens). Full to the New York State and Municipal Civil Service Commission may hold additional appointments from time to time, particularly in view of the benefits of disabled veterans (as provided in the new Civil Service rules) and consolidate the list resulting from the Civil Service Commission. The former. This may help extend the basic retirement age a take a much lower on the register than the 60 at the present time.

Every week—

Every Monday

All New York City, New York State, and U.S. exams open to New Yorkers appear every week in The Leader. You need never feel that you have missed one, as an exam can be taken any time in the space of 10 weeks, making a total of 13 weeks. The requirements on these exams are so edited as to give you the information you need.

Chief Tool and Gauge Design ($2,600)

Principal Tool and Gauge Design ($2,300)

Senior Tool and Gauge Design ($2,000)

Tool and Gauge Designer ($1,800)

Materials

Duties

To design, construct, and repair scientific and technical instruments and apparatus of high precision.

Requirements

A certificate of experience issued by a board of local inspectors, and either a continuous discharge book, or a certificate of identification issued by a shipping commissioner, collector or deputy collector of customs, or United States local inspectors of steam vessels, and such reports will be considered for appointment in the same government service.

Weights

Mental tests: 60; experience, 40.

Chief Instrument Maker ($2,600)

Principal Instrument Maker ($2,300)

Senior Instrument Maker ($2,000)

Instrument Maker ($1,800)

Various departments; file by July 1; age limit: 35 years of age.

Duties

Design, construct, and repair scientific and technical instruments and apparatus of high precision.

Requirements

A certificate of experience issued by a board of local inspectors, and either a continuous discharge book, or a certificate of identification issued by a shipping commissioner, collector or deputy collector of customs, or United States local inspectors of steam vessels, and such reports will be considered for appointment in the same government service.

Weights

Mental tests: 60; experience, 40.

Precision Lens, Prism and Test Plate Maker ($1,872; $8,320; $3,000)

Duties

To make and test precision lenses, mirrors, and lenses of the type used in printing, to make optical prisms and lenses to the exacting standards, and to correct and polish optical prisms, including round edge prisms, to correct and polish optical plane parallel mirrors, and to make mirrors and prisms of the kind related to work done.

Requirements

Completion of a four-year university course, including at least one course in physics and chemistry as a substantial equivalent of one of the above.

Weights

Applicants will be rated on the basis of their experience and fitness on a scale of 100.

Junior Engineer, $2,000

Applicants must have at least 5 years' experience in any one of the trades, such as band saw, circular saw, girder saw, or welding, on the job. File with secretary, Board of Examiners, Watervliet Arsenal.

Duties

To make and repair metal parts of castings, such as parts of iron pipes, and fireproofing sheets, as specified by the commanding officer of the Army Transport Service.

Requirements

A certificate of experience issued by a board of local inspectors, and either a continuous discharge book, or a certificate of identification issued by a shipping commissioner, collector or deputy collector of customs, or United States local inspectors of steam vessels, and such reports will be considered for appointment in the same government service.

Weights

Mental tests: 60; experience, 40.

Assistant Rural Sociologist, $1,500

Duties

To assist in scientific work, construction of required tests, and to assist in setting up apparatus. File with secretary, Board of Examiners, Watervliet Arsenal.

Requirements

A certificate of experience issued by a board of local inspectors, and either a continuous discharge book, or a certificate of identification issued by a shipping commissioner, collector or deputy collector of customs, or United States local inspectors of steam vessels, and such reports will be considered for appointment in the same government service.

Weights

Mental tests: 60; experience, 40.

Solicitor

 diversos; file by July 1; age limit: 35 years of age.

Duties

To plan and conduct research work in rural sociology and to be responsible for any research reports in this field. Both reports will deal with a variety of aspects of rural life such as systems of farming, farm practices, standards of living, community organization, recreation, welfare, education, population trends, rural-urban migration, and rural institutions.

Alphabetic Card-Punch Operator ($1,260)

Under-Caucum Engineer ($1,260)

Duties

To punch and verify cards in strictly aeronautical engineering subjects of either undergraduate or graduate level.

B. Physical health.
C. Family history.

38. What is the subject of conversation if the ward patient is asked a question about his past medical problem?

A. Past medical problem.
B. Physical health.
C. Family history.

39. What is the subject of conversation if the ward patient is asked a question about his current medical complaint?

A. Current medical complaint.
B. Physical health.
C. Family history.

40. What is the subject of conversation if the ward patient is asked a question about his past medical complaint?

A. Past medical complaint.
B. Physical health.
C. Family history.
City Commission's Calendar

Faking at Exams

Don't send a "friend" to take your Civil Service examination, the Municipal Civil Service Commission warned this week. Because if you do, the District Attorney's office will be called into play.

McNulty's just what happened to Joseph McNulty, Sanitation Man candidate who tried to send a paragraphed convict to take his medical exam. The parolee, Timothy Gannon, was fingerprinted, and when he showed up for the exam—just like everyone else. Officials quickly discovered that Gannon was in and promptly had him written up. Gannon and his prison record were discovered. McNulty was summoned and admitted he had asked "a friend" to take his written exam.

The last person who tried McNulty's trick got 30 days, and the one before him got 60 days.

Other items on the Commission's calendar follow:

Airport Assistant
3061. The Commission ordered a public hearing for July 11 to consider re-classifying Airport Assistants as the Skilled Craftsmen and Operative Service. They are now in the labor class. The prevailing rate of wages will be maintained. At the same time, the Commission issued a tentative rating of the written examination for Airport Assistants in the Office of the Borough President of Brooklyn.

Promotion to Clerk, Grade 2
3064. The list for Promotion to Clerk, Grade 2, proposing an increase of one clerk in the City Record—this time to sell the eligible

**CIVIL SERVICE LEADER**

**Wage Hour Inspector Eligibles Association**
A number of eligibles on the federal register for Inspector, Wage Hour, have written to the Department of Labor, in Washington, D.C., stating that they would like to form an eligible association. Other eligibles on the list who would like to join this group should write to Box 101, Civil Service Leader, 91 Duanie St., New York City. An early meeting of the association will be called.

**Nurses Organize**
The Practical Nurses of New York State recently organized into the Practical Nurses of New York, Inc., headed by Mrs. Ida G. Kuster, with headquarters at 226 W. 18th St. David Neuman, general counsel for the group.

**Bronx Council**
The next regular meeting of the Bronx Council of the Greater New York Park Employees Association, Inc., will be held on Friday, July 5 at 8:30 p.m. in the Bronx County Building.

**Assistant Gardener Eligibles**
The assistant gardener eligibles will hold their next general meeting on July 15 at 8 p.m. in the auditorium of Washington Irving High School at East 16th Street and Irving Place. All eligibles are urged to attend this last and most important meeting. There will be election of officers and preparations of plans for the coming year.

**Sanitation Men**
An annual picnic and carnival for eligibles of the Sanitation Department will be held on Sunday, July 7 at Kane's Park.

**Service Three Club**
Members of the Service Three Club, 1551 Union Ave., are planning a trip to Coney Island on July 14th and July 15th.

**Office Appliance Operators**
The Office Appliance Operator Eligibles Association will hold its quarterly business meeting at 6:30 p.m. on Tuesday, July 2nd at 3 Beekman St.

**Elections**
The matter of 250 immediate appointments from the list will be discussed at the meeting. All eligibles are urged to attend by president Franklin Weiss.

**Machinists and Helpers**

**By ED MARKEL**

**LEADER LINES** . . . The new RCA "-pocket radio," which came to view with a splash and a big hit with the press, will soon be heard in the home of the Philo people who will put the radio in the kitchen and the dining room, and who have included in their 7th Column investigations a look-up of the "new" radio stations in and around N.Y., that have come into being since last fall. Philo's new mom and pop—have decided

How many cubic feet of composition cement would be required on a floor measuring 70' x 9' x 2'?
A. 70' x 9' equals 630 square feet. 2' is 1/3 of a foot. Therefore 1/3 x 630 equals 210 cubic feet.

Name three types of glass.
A. Plate, frosted, wire, shatter-proof, lettered, corrugated, cornered, rounded.

Name three defects or about a car which might cause injury to passengers.
A. Floors, rough cut or torn; flooring that is uneven, cracked, chipped; protuberances; stanchions; hand holds and hand straps that are broken rough or chipped; doors, lizard and pull buttons,.PER unsecured, loose, or their screws protruding; all doors, their rubbers and screws.

What indicates a leaking roof?
A. Water drips on floor in wet weather; water stains, or standing water, on ceiling.

How would you overcome such a defect if there were no outward sign of a leak on the roof?
A. Apply a coat of good waterproof paint, a test for small leaks.

In a routine inspection of a car, name five things you would recommend.
A. Tinted glass or sun glass; marker lights; a safety gate chain, their brackets and safety gate chains, their parts; contact wire slippery; fire extinguishers; if they are filled; testing, cleanliness, washing.

What is a bolster, as used in tool work?
A. A block, sometimes called die or block, used as a support for the work, or with a piece of stock against the bolster, used to keep the work straight and to conduct other and further work in connection with the same piece, in the case of the bolster, or for other work.

What part of a planer or boring mill is the cross rail?
A. The number of flutes or teeth cut by the cutter head.

Define diametrical pitch of a gear.
A. The number of teeth per inch of gear diameter.

What is a bolster, as used in tool work?
A. A shaft or bar to hold work while it is being turned or otherwise worked.

What is a chisel, as used in tool work?
A. A chisel, as used in tool work, is a cutting tool.

What is a bolster, as used in tool work?
A. A bolster, as used in tool work, is a cutting tool.

What is a bolster, as used in tool work?
A. A bolster, as used in tool work, is a cutting tool.

Define carbonizing.
A. The heat treatment of steel so that it is hardened and tempered.

Define process of lapping.
A. The finishing of a surface by the use of an abrasive.

Define lapping.
A. The finishing of a surface by the use of an abrasive.

Define circular pitch of a gear.
A. The number of teeth per inch of gear diameter.

Define lapping.
A. The finishing of a surface by the use of an abrasive.

Define carbonizing.
A. The heat treatment of steel so that it is hardened and tempered.
