MAINTAINER’S HELPER
Complete List of GROUP A
Late last week the board of the Sanitation Eligibles Association sat in conference with Jerome Daly, Secretary of the Board of Transportation, Subject Jobs. The Sanitation eligibles are trying to obtain at least a portion of the Conductor jobs in the subways. A contest has arisen between the Sanitation eligibles and the Firemen eligibles for those positions.

Before Ace Donner, John Mandel and F. P. Preisig (representing the Sanitation boys) spoke to the meeting. Last week, there were rumors that the Transportation Board would use only Fire eligibles for the Conductor jobs. Now the question is open again, and Daly has promised to take it up with the Commissioners. The meeting with the Sanitation eligibles was most cordial, and the eligibles told the board they would cooperate fully with the department.

A number of the boys are college graduates. One of them, with a university degree in mechanical engineering, has a job at the Board of Transportation. Another chap conducts his own swing orchestra, and one of his names isn’t Superman, he’s an ex-engineer. Still another writer: “I am 24 years old and had 24 years of chemical engineering at the University of Albany. Now, I am going to work in the physics, chemistry, plenty of mathematics, mineralogy, geology. I’ve just met the test and will go in with the New York subway system and work its whole length.”

Right to Hearing for Suspended Employees

The Hospital Helper jobs pay $360 a year. All Sanitation eligibles are urged to go in with the New York subway system as soon as possible. The Sanitation eligibility list is available and ready for the first exam of the season. The eligibility list will be open to transfer the bulk of the eligibles to the competitive labor class. They will continue to be in the labor class and will be filled from the labor class. They will be announced within 48 hours.

The letters reveal athletes of the highest caliber, men who can play every kind of game, and play it well. One youngster has been with the St. Louis Cardinals, another got a tryout to go in with the New York Yankees. There are many who have played professional and semi-professional baseball and hockey. There are 24 girls, mostly tennis players, and even ping-pong “starlets” on the eligibility list. Last week, the Sanitation eligibles were urged to go after the labor class test as fast as possible, and they’ll give tough competition to any city group they tackle.

The Sanitation eligibles are urged to gather strength for the next exam of the season. In the meantime, they will be added to the Public Service list, granting 12 days’ sick leave to every eligible now in the Transit system who has been on the list for at least two years. The present salary of employees is not to be reduced. The hourly rate would remain the same, but the weekly earnings as for the labor class exams will be increased.

Albany Also Gets Measures for Hearing Rights and Subway Aliens

Four bills are today taking up the legislative attention of the transit workers of New York City. Here’s a brief description of each:

Five-Day, 40-Hour Bill—introduced by Senator Phelps and Assemblymen Crews. This would equalize the Public Service Revolving fund, which has been established by the Board of Transportation. It would result in a five-day, 40-hour week for all employees on the New York City Transit System operating the city’s subway, trolley and bus lines. The eight hours a week would remain the same. The present salary of employees is not to be reduced. The hourly rate would remain the same, but the weekly earnings as for the labor class exams would be increased.

Seven Bills for Hearing Rights and Subway Aliens

One A. Donner, 2736 Pitkin Avenue, Brooklyn, offered Mayor La Guardia a “sport, bonus” on the Department of Industrial Relations, which was accepted by the Mayor. The New York subway system was urged this week for the first exam of the season. The eligibility list will be open to transfer the bulk of the eligibles to the competitive labor class. They will continue to be in the labor class and will be filled from the labor class. They will be announced within 48 hours.

As a result of a new contract the association showing them to be entitled to any sick leave at all as a result of suspension, except where further adjudicated by the employer concerned.

Right to Hearing for Suspended Employees

The Municipal Civil Service Commission will open the filing period for a labor class exam this week in the Consolidated Church of Christ. This will be the second biggest labor exam in recent years, and the biggest exam of any sort for 1941. At the same time, the Board of Transportation will be giving another labor job—Lunch Room Helper.

Both of these jobs are unaffected by resolutions now before the Commission. The Board of Transportation has authority to transfer eligibles from one to the other. They are both labor exams and will be filled from the eligibles on the eligibility list. The lunch room tests, the standing of eligibles on the eligible list is determined by the application number. In other words, first come, first served.

Eligibles: "Begin thinking seriously of the date of suspension, except where further adjudicated by the employer concerned.

The Union will continue to report in full all matters of interest to the Sanitation eligibles.

The Pay

The Hospital Helper jobs pay $360 a year. This is about four hours a day; $40 per week, $800, with the full payment by the Board of Transportation. The three supervisors for the hospital exams will be announced within 48 hours after the application period ends.”

5,700 on Type-Copyist List

Two Years in Preparation, It Is Due Shortly

An eligible list of slightly more than 5,700 names for Type-Copyist will probably be finished this week prepared two eligible lists of officials of the Municipal Civil Service Commission were announced yesterday. The list, one of the biggest to be published in several years will be open for preparation almost two years.

The test was announced in June, 1939, and the second Police Department was taken in August of the same year. The fact that the Commission has been un

able to grade the papers is partly due to the number of other tests on which it was working and which were urgently needed.

28,000 Filed

More than 28,000 pages were filed for the Type-Copyist test, which required only high school graduation. The written exam covered questions on English composition, grammar, and related subjects.

Once the list is published, the Commission will begin giving practical and medical tests to groups of 30 or more, according to the number of vacancies to be filled.

Preceding the Test

The practical test will consist of 40 multiple choice or fill-in-the-blank questions. Candidates will have to form their own conclusions. The material to be made for defective machines, the Commission is considering a resolution, if adopted, would require that the manual of the above-mentioned Type-Copyist to trylist. This is expected to be approved in March.

The following table gives full details about the Type-Copyist List in forthcoming issues.

Drug Clerk List N. G.

For Pharmacy Jobs

When the Social Security Board informed the State Civil Service Commission of the impending investigation and discussion, the State Civil Service Commission decided to use the Senior Clerk Drug Clerk List to fill the necessary jobs. A test for the Job of Assistant Drug Clerk was held, and the candidates were tested. The candidates who met the qualifications of the test were listed at Newark State School for the month of February, 1941. The candidates were tested and were given a six-month trial period. The candidates who passed the trial period were placed on the list for future employment.

The purpose of this list is to provide a source of qualified candidates for the State Civil Service Commission for future employment. The State Civil Service Commission has decided that the list will be renewed every five years. The list will be renewed on February 23, 1946.

The list is available to the public for inspection at the State Civil Service Commission Office in the New York City Public Library, 474 Madison Avenue, New York City. The list is also available for inspection at the State Civil Service Commission Office in the Washington Business School, Room 600, 152 West 42nd Street, New York City.

The Hunt for Men
Scour N.Y., N.J. for Defense Workers

The days are gone when the U. S. Civil Service Commission had a simple examination written and then sat back and received applications. Now, the Commission is engaged in an "active recruiting program," as The New York Times recently described it. Several offices around the country have been engaged full time in traveling throughout the New York and New Jersey areas in search of men and women who, by education and experience, are equipped to handle the many skilled trade and professional positions in which vacancies exist.

As an example of this, an official in one state reported that during the last several weeks several special agents visited five large cities in the area and interviewed hundreds of additional skilled laborers. He sometimes talked to as many as 60 a day. When the period he issued 546 application blanks and received 100 completely filled out and ready for rating.

All-Time High

In Appointments

An all-time high in the number of appointments was reached last month by the U. S. Civil Service Commission's New York district office, which covers New York City and the seven surrounding counties. All the official figures are not yet available. But reliable preliminary estimates show that 4,737 men and women were appointed in June. During January—the majority of them in defense—additional jobs were created by the Federal Government, the number of eligibles on the present list for Patrolman should be exhausted by January 1, 1941, and that this will bring a virtual end to the days when it was possible to hire thousands of additional employees during the period.

Job Transfer Should Be Easy

For many months the LEADER has been promoting the Municipal Civil Service Commission to set up a job-transfer system. The need is obvious. Letters by hundreds in The LEADER followed newspaper ideas for some simplification so that employees can change the location of their work or shift to a different department.

The Civil Service Commission is trying to set up a job-transfer program and has been working on it for some time. But for such a program really to work, unnecessary obstacles shouldn’t be thrown up. One such obstacle is the requirement that employees must get the OK of their appointing officers before they may apply for transfer. It is obvious that employees will feel a little reluctant before going to their appointing officers to ask permission. And what’s the necessity of bringing an appointing officer into the transaction? There’s no reason that we can see why the thing can’t be managed between the employee and the Civil Service Commission.

How bad this provision is can be seen from the fact that only fifty persons have applied for transfer.

The LEADER presents the following hard-headed, practical suggestions, based on our own experience with Job Xchange, a column intended to help solve that least in part, the pressing question of job transfers.

Civil attention by the Commission to these suggestions will be a boon to city employees.

The Board of Estimate, In Its Wisdom . . .

Where was the wisdom of the Board of Estimate in turning down the plea of city doctors for a per annum pay? Where was the wisdom of these gentlemen that they presented spokesmen of the law, a harm-scum basis rather than in a career service? What is the wisdom of they sedately agree to condemn the existence of the existence of the New York doctors? Where was the wisdom in standing adamant against the almost unanimous voice of the city on this question?

Where was the wisdom when they sat rock-headed against the inclusive logic of the teachers who came to the aid of the physicians?

Where was the wisdom that they overlooked the analysis of one of their own number, Stanley M. Issacs: "A one-man Civil Service Commission for the entire Western part of the State...That’s Howard G. E. Here’s news for all you people who took the card punch exam this summer. The results of card punch eligibility lists for the various grades of punchers will be mailed out soon. The Commission has adopted the following criteria for the card punch exam:

- The test is designed to be a comprehensive evaluation of a candidate's ability to operate card punch machines.
- It consists of several sections, including general knowledge, reading, and calculation.
- Candidates must pass all sections to be eligible for further consideration.

The Commission has received complaints regarding the timing of the exam. It is currently determining the best time for sending out results.

Our school, the NEW YORK BUSINESS SCHOOL, has been selected to conduct card punch and calculating machine operator exams at 11 West 42nd Street (cor. 5th Ave.), New York, N. Y. The Commission has stated that they will ensure that all candidates receive fair and equal opportunities.

For more information, please visit our website or contact our admissions office. We look forward to helping you achieve your career goals.
