HOW TO BECOME AN APPRENTICE IN A WAR TRADE

U.S. Wants Men and Women PURCHASING AGENTS

The Straight Facts About Living and Working in Washington

15 NAVY YARD OCCUPATIONS OPEN

FIRE CHIEF VS. 3-A MEN
**Goldsworth Heads Letter Carriers**

**By CHARLES SULLIVAN**

Just What Are the Straight Facts About Living and Working in Washington, D. C.?

WASHINGTON—"I wish someone would write a story that accurately stated conditions in war-time Washington," said an official connected with the Civil Service Commission last week.

"Most of the stories I've seen," he explained, "are to the extreme opposite of what they really are. Civil Service employees aren't sleeping in park benches in Washington. They'd rather do that than have those elaborate places to stay like the government-owned Meridian Hill Hotel. Our recruiting problems aren't due to the vital problem of supplying the government with workers. If they need any—they need—10 times more difficult than the stories that go out.

A survey by The LEADER convinces us that the Civil Service is generally correct. The Civil Service employees don't represent general conditions. The following is an attempt to answer accurately the questions which arise daily in the minds of thousands of people who are considering joining the Civil Service to take a government job.

1. Can I get a place to stay if I go to Washington?

Answer: Yes, but that needs explanation.

Yes, there are hotels, boarding houses, and rooming places—though the going may be a little slow. They'll be held simultaneously in a number of cities throughout the country.

2. Who will do the recruiting?

Answer: The recruiting commission officials will do the recruiting.

3. What are the deductions from my pay?

Answer: Much of your pay will be deducted by the government for such things as insurance, taxes, and so on. Any earnings you may make in your spare time will be deducted, too.

4. What kind of a salary am I likely to get in Washington?

Answer: For example, Washington is a cheaper place to live than New York City. We don't house employees in Washington, so you'll have to arrange to rent or purchase your own houses. It's a very nice place to live in, and there are a lot of nice houses. It's a good place to live in, but it's not as cheap as New York City.

5. What's my chance of advancement?

Answer: There are very few Civil Service employees who can't improve their standing over the years. Many employees have been promoted by the hundreds every year.

6. What does this "appointment for the duration" mean, and will I even be looking for a job after the war is over?

Answer: After the war is over, we expect there will be a great many Civil Service jobs. We don't know what the government will do after the war is over, but we expect there will be a great many jobs.

**Hiring Peak Near For Vet Agency**

Within a month or two, according to C. J. Reichert, manager of the Veteran's Administration office at 340 Broadway, Manhattan, the Federal agency should "reach the top of its hiring wave" and will from that point on reduce its size through ordinary turnovers.

"We should soon reach capacity for our new building," Reichert said recently. "The agency now has about 315,000 veterans occupying positions in the various agencies, and this number should reach 325,000 by April 1. We are now hiring at a rate of about 1,000 per month, and this number will be reduced to about 500 per month when the new building is completed. We expect to have all the veteran employees in the new building by the end of the year."

Employment offices in the various agencies will be reduced to 500 per month, and this number will be reduced to about 500 per month when the new building is completed. We expect to have all the veteran employees in the new building by the end of the year.

**U. S. Can't Get Enough Clerks**

WASHINGTON—Junior clerks and supporting clerical offices are making a stir in Washington, D.C. The Civil Service examination centers are controlling the jobs are downright simple. The government is finding it necessary to step up the number of clerks and clerical positions in order to keep pace with the amount of work that is being done.

The committee of the Civil Service Commission has persuaded the Post Office Department to step up its clerical force to 3,000 in order to handle the amount of work that is being done.

**U. S. Jobs for College Graduates**

WASHINGTON—The Civil Service Commission will send a group of college graduates to Washing

FEDERAL CIVIL SERVICE NEWS

15 Trades in Navy Yard

The Brooklyn Navy Yard States that the vacancies in 15 trades, which are available in 15 trades.

Here they are: Shipbuilder, boilermaker, machinist or shipper who repairs the hulls of ships, aeronautics, et cetera, and who is able to give you the correct answer.

**Where to Apply**

The jobs seeking should join and work or write in person at the office of the Civil Service Commission, 18 U. S. Navy Yard, in Brooklyn. An application blank. Applicants will be judged from their experience in the Navy Yard, and if for a practical test as soon as possible. Their qualifications will be judged only by proving that they are able to perform the work adequately.

**War Agencies Get Equipment of Non-War Offices**

Less essential Federal agencies are being stripped these daysBrains in the excitement of the war—right to rubber bands and rubber bands—and that the government may make more effective use of these personnel in other capacities. Federal agencies are being stripped of their more essential personnel and equipment in order to free them for the war effort.

**Youth Preparing for Civil Service**

The New York City Board of Education has announced that the number of students preparing for the Civil Service examination has increased this year. The number of students preparing for the examination has increased this year.

The excess of enrollment has been due to the interest of the students in earning money.

The students have been preparing for the examination in order to prepare for the examination.

CIVIL SERVICE IN NEW YORK CITY

Is $1,200 Pay-Minimum Possible Now in NYC?

BY ARTHUR RHODES

Both of these proposals as of Councilman Louis P. Goldberg and Sen. Louis A. Bressler, as well as a minimum for all city employees ought not to be interpreted as attempts to gain more for themselves but rather in the Board of Estimate, where it might have some effect. Then there'll be action.

Mr. Carroll told The LEADER this week.

"The place to get more city employees Is a good one, had ten years ago." He urged to be patient. Tentative final arrangements are made and the date selected, it will be an annual subscription to the Civil Service LEADER for Two Dollars. A complete job guide on the fireman list certifies to speed action on Councilwoman Gertrude Weil, who is urging the Board to raise wages. This was the sign which should have been hung out by the Fire Department last week, according to the Civil Service Commission had a lot to do with the death of a fireman, for instance, who was killed in the line of duty. The amendments raised the employee minimum to $1,200.

Asst. Foreman List

The duties of an assistant fireman in the Fire Department have been made up to $1,200 a year, and 5 of foremen.

The executive board includes the members, Al D'Allesandro, Al DeCrescenzo, Joseph Guidice, treasurer. The amendment to the Civil Service Law that stirred civil service for weeks was signed, Tuesday night, the Fire Department has the right to back up because of his draft status. They then are expected to raise the salaries list by applying any increase to the whole situation has to be studied. The eligibility rule is to be qualified by the Municipal Workers of America, and 5 of foremen.

The amendments raised the employee minimum to $1,200 per annum; 109 will re-...
**Welfare Workers Go To 5½-Day Week**

Welfare Department workers are very probably—perhaps just—satisfied with this change. It should mean more to get another half day. And when they don't work, they don't have to go back to the office and have a heavier work load. They are going back on a regular 5½-day week. They start working Friday, from 9 to 12, and their wedding hours are to be from 9 to 6:30, with three-quarters of an hour for lunch and an hour for coffee. They are to be on their own at the end of the day. All the rest will be done by the municipal buildings to which they apply.

This is a perfectly logical thing to do. The welfare department has to be a public service and it should not be a job. It should be a job for two people. The people who are employed by the department should be able to work on a regular basis and have a regular work schedule. This will also help to reduce the workload for the department and make it easier for the workers to manage their time. This change is a step in the right direction and will help to improve the quality of service for the clients.
Two Patrolman Rosters Set Up; Jobs Came Fast for No. 2 List

CIVIL SERVICE LEADER

Two Patrolman Rosters Set Up; Jobs Came Fast for No. 2 List

A decision by the Civil Service Commission to adhere strictly to the examination announcement and establish two separate eligibility lists for patrolman and special patrolman resulted in the issuance of these lists last Thursday, six days after candidates had been notified of their results. Plans are to combine the two lists into one which could be used to fill vacancies as patrolman in the Police Department. The decision was made after the possibility of containing the lists was thoroughly discussed early last week with representatives of the Police Department.

Harry W. Marsh, president of the Municipal Civil Service Commission, told The LEADER, "The Commission decided to establish the lists exactly as announced in order to avoid future litigation."

A possibility that the special patrolman list might still be used at some future date to fill vacancies as patrolman in the Police Department was apparent when Pre- sident Marsh made this statement. Although the special patrolman list has been exhausted, there is a possibility that additional names might be transferred to it from the general list for patrolmen.

Meet the No. 1 Man On Patrolman List

Number 1 man on the new patrolman list is an affable, intelligent, soft-spoken Southron lad. Leonid Rosenband, who holds a 91.66 average, explained: "I'm glad to be on top with a grade of 91.66. He graduated from Stuyvesant High School in 1936. Since then he has been working in the Sanita- tion Department. He'll be glad to get into the Police Department, because the night work suits him. He's now a sanitation man. He took the most cut 191 on the list of 7,826 names. He holds the necessary information. To get the necessary information. To get the necessary information. To get the necessary information. To get the necessary information.

The LEADER keeps you up on Civil Service News.
State Departments Request Examinations

The following departments have recently asked that tests be held by the State Civil Service Commission in the state ballot box indicated. Those which are approved will appear on the November examination list. Wayne County, Public Welfare; Allston State Training School, Institutional Teacher (Miss A. Bartley, temporary principal); E. S. Employment Service, State Prison from April 30, 1942 to June 1, 1942; Public Service, property managers.

In many cases women have been excluded. In order to fill an opening, civil service requirements have been used. The qualifications are as follows:

- The law requires that educational, vocational, and training and experience ratings be given to candidates.
- The rating of training and experience is in progress. Interviews are completed. The rating of the written examination is in progress.
- A survey is being conducted by State Comptroller Joseph V. O'Leary which shows that some $50,000,000 in unexpended funds is in last year's budget. It will go back into the treasury and that theFs. $50,000,000 may be used for unspent obligations of appropriations made by the Legislature.
If You Want to BeCOME an Apprentice In Industry, Here's How to Do It

It's still time enough to become an apprentice to help you get where you want to be.

One way to become an apprentice is to register with a local Vocational Employment Service office equipped with a record of companies engaged in war production.

The student either may expect to be placed in the employment service in a job fitting his qualifications or may seek the necessary ability— or may seek a specific ability. Each man learns to send and receive radio waves to prove his knowledge of one of the main processes for training radio operators.

The Apprentice Training Service is run by the United States Employment Service under the expert supervision of trained instructors and technicians.

See below for the details on wages and working conditions.

Here's What N.Y.A. Offers To Young Men, Women

Almost 3,000 students are being skilled for the war effort by the National Youth Administration in the New York City-Long Island area and the demand for more skilled workers is increasing.

The student either may expect to be placed in the employment service in a job fitting his qualifications or may seek the necessary ability— or may seek a specific ability. Each man learns to send and receive radio waves to prove his knowledge of one of the main processes for training radio operators.

Marine Corps Tests Are Simple

Men who wish to join the Marine Corps need not fear to be examined. As a matter of fact, they're given few, choice questions, save those to prove their merit.

Getting specialist's rating in radio work are given a rigid physical exam and a series of aptitude tests in theory and mathematics. Then they're sent to Quantico.

Many of the students who apply for general training are sent to Parris Island, S. Carolina, where they are given a physical exam and put through basic training courses and basic apprenticeship tests in mechanics. This is followed by a course in the armed services, such as telegraphy, telephone communications, or minor radio details, according to an enlistee's choice at Quantico. Once personnel has a thorough knowledge in one of those subjects, he may go on to specialize in rating.

Enlisted are merely judged for remaining and the knowledge of English and spelling when they are retired. After a short course of instruction, students are quickly trained for the job by taking advantage of classes and training classes in the schools.

Fire Commissioner Vs. Fire Eligibles

I N THIS quarrel between the fire eligibles and Commis­

sioner Walsh of the Fire Department, it seems to

be that the eligibles are clearly on stronger ground.

In N Y C:

1. There is no legal sanction available to a commis­

sioner to call up his own draft regulations. He can't

refuse to hire 3-A men. The law is definite and precise on

this. It allows him to pass only one 3-A man.

2. While the department has always insisted that a man who may be called to

military service, the commissioner is depriving them of a

right which should properly be theirs upon their return

from service—the right to a job in the Fire Department.

3. The draft regulations are in a state of flux, and

must not be left to the whims of local officials.

4. If the Fire Department succeeds in keeping out

2-A men on the frivolous excuse that they weren't mar­

tured to hire 3-A men. The law is definite and precise on

before it results in a knock-down fight-out battle in

POLICE CALLS

Big Show This Week
"Around the Clock," the annual Public Service Holiday Show which has thrilled thousands in Madison Square Garden, will be held this year. The program features well-known radio movies, with Chet Huntley in the lead. Tickets are available for the two-hour show. Full details are given in the ad of Colonel Morris and Army officials.

Honor Legion's Ball
Enthusiasm is being built up for the benefit dance which will be held at the Astor Hotel, October 21. Tickets are $3.00 each and may be purchased now at any Legion post. This is to be the last dance of the season. Attendees are asked to wear white and are encouraged to come early for dinner and the dance. The Legion is also offering a special menu, with corned beef, cabbage and potatoes, for those who wish to come early.

WANTED! BY U.S. GOVERNMENT
500,000 TYPEWRITERS

SEND YOUR TYPEWRITER OFF TO WAR!

The government has authorized us to purchase in its behalf as many typewriters as possibly 가능한 벡터

Call Beckman, 3-3355. Tell us today what typewriters you want to sell or what special work you can do for our Army and Navy.

By DONALD MACDOUGAL

Is He Guessing?

Pulitzer convention highlights: William J. German, national secretary of the American Legion, announced that the Legion's official convention will be held November 1 for postal employees. Those attending will be asked to select the candidate they believe will be elected by others or the flat ban quo.

What They Want

This is the last week for the New York State Library Center's three-day open-competitive tests for police officers, and 20-year optional retirement.

Subs' Salvo

Two plagues of the subs growing out of the war is the subject of a conference of Subpost Office Clerks representing Brooklyn, New York and Boston Sept. 10 held in the local headquarters of the New York Federation of Post Office Clerks, Local 9.

THank you for your support of the government.

Government-Entitled, Price Schedules.
Your Chances for Appointment

IMPORTANT: PLEASE READ 1918

The highest numbers certified on New York City eligible lists for
purposes of appointment are indicated in the following schedule.
Candidates should take careful note of the column indicating the
name of the eligible list, the second column, the department to which
the list applies, and the third column, the number of positions to
be filled. The fourth column shows whether the certification was
in a competitive or non-competitive examination. With columns
above the third, the number of positions to be filled is shown.
Readers should remember that certification does not necessarily
mean that all positions will be filled.

The Civil Service Commission does not notify eligibles when they
are appointed. In the event of a certification, they will be notified
and you will not have been notified is not your fault. The depart-
ment to which you are appointed will notify you when your
name is to be reached for appointment.

Parks Short of Cash

The time is coming, of course, when the Parks Department may have problems. It has them now—very soon—and ask for appreciation from those who have ample means. Understand that personal department spokesmen are selling the idea of a长长的ixin this way.

Here is how there is to consider, said he: the maintenance departments may have a better than average start for insurance companies, but they can't do too much. Even the most severe man is in which the draft has been going out permanently. Most of the older men are still in their prime and have a good chance because of advanced age and dependability. To remain there for some indefinite period. It has been the clerks and transcription workers and the attendant who have been finally removed from the department.

Older Men Threatened

The threatened removal of some of these older men from operational turnover occasioned the committee to understand this hint that a part of the caution was at any addition. It was understood that the sum of $10,000 has been especially heavy but this has been as much because of the gas rationing program, causing costs to go up on the people who wouldn't otherwise do, as on the more average man in the department. Then, too, the loss of these men has been summer substitutes to help the department.

The shortage, in short, is going to take some time to be overcome, and the people who are responsible for the situation are working on it. If it becomes critical at which time a new department will be required in the help. The result is that a Park Department is necessary. After all, there is not enough money to keep a Park Department.

Note to You

Now that the autumn season is on top of us, and no doubt you are attending more meetings when you see the Park Department, drop us a line regularly letting us have notices of meetings and later on, what happened? Also how to keep us informed every week about what's going on in your division.

Stenodrome Course

As machinery takes the place of manpower in industry, it has been shown that stenographers power for stenographers. Stenography is the advanced skill in which you can get very good results at the last budget. The Park Department was told, there have been notices of meetings and, now, too, The Leader was dealing with the manpower in industry, it has been shown that stenographers can get very good results at the last budget. The Park Department was told, there have been notices of meetings and, now, too, The Leader was dealing with the manpower in industry, it has been shown that stenographers can get very good results at the last budget.

Languages and Business

The fact that Stenodrome and Business has been added to the Park Department gives the day and evening courses in Commercial Geography for Secretaries and Stenographers at no additional tuition change. With a view to the future commercial时期 between the U. S. and Spanish America, a course in Interna-

curriculum. Mr. Kerwin gives free demonstration lessons on the service and equipment. The course is directed toward the stenographer's interests and to the type of work that he is studying. Each para-

UNION INCREASES WAR ACTIVITIES

The SCMWA is heightening its activities in the interest of the war effort. An honor roll is being compiled including the names of all who are in military services as well as in civil service. A service flag is going to be prepared and presented to union members with public ceremonies. The exact date for this presentation has not been set yet.

Distributes War Booklets

James V. King, the union's secretary-treasurer, states that the union is continuing with the distribution of literature regarding the issues involved in the war. Several copies of a pamphlet already been distributed to civil service workers of Vice-President Wallace's historic speech, the Federal workers, "In Defense of Our Country", the National Maritime Union public letter on the need for the immediate opening of a secret front, and the Lend-Lease decree will have the gravity on the situation on the Eastern Front. Arrangements are now being made for a widespread distribution of these pamphlets, as requested by the Office of War Information on the Four Freedoms.

The union has already conducted several secret marriages at different points throughout the city in support of President Roosevelt's agreements with the Soviet Ukrainians. For the opening of a secret front, King said the union will continue "until the only sure guarantee of victory for the United Nations - the opening up of a second land front in Europe is achieved."

Support Fingerprinting

In support of the Mayor's proposal that all civil service employees and their families be fingerprinted as a means of identifying criminals, the SCMWA has continued its efforts to spread awareness. The union's efforts have been focused on educating employees about the benefits of fingerprinting and how it can help prevent future hardships for individual families.

TAMARA KONDRAKOV

who has a featured role in "Spring Song", a new Soviet comedy-drama, now playing at the Stanley Theatre.
Purchase Officers Wanted by U.S. Gov't

Purchase Officers are being sought for many administrative posts throughout the United States and abroad. Salaries range from $2,000 to $6,000 a year. Purchasing Officers prepare specifications for the purchase of government supplies, and inspecting to buy, and must keep abreast of current information with respect to market trends, fluctuations, and power of supply as well as laws and regulations pertaining to Federal procurement.

Qualifications required of applicants are: From 2 to 6 years of progressively responsible experience as purchasing or procurement office in large organizations handling extensive lots of wholesale materials of considerable variety.

No written notes are being given for the positions of Purchasing Officers. Applicants will be rated until further notice on the extent and quality of their experience. There are no screening tests.

Refuge Aides

The Civil Service Commission announces the openings for Refuge Managers and Refuge Aides, appointees to be made in the Bureau of Fish and Wildlife.

77 Promoted In Fire Dept.

The promotion of 77 officers in the Fire Department became official today, Tuesday, September 16. Included in the ranks are the advancement of 2 battalion chiefs to rank of deputy assistant superintendent, 2 lieutenant chiefs, 24 lieutenants to captains, and 46 lieutenants to captains.

Promoted to deputy chief at salaries of $2,500 a year were: Bat­ talion Chiefs: Maurice H. Cline, 3rd Battalion; and Antonio Pre­ nodando, 2nd Battalion.

The following captains were promoted to the rank of lieutenant: Assistant chiefs: John J. Burke, 3rd Battalion; and John J. Flannery, 4th Battalion.
