DRAFT DEFERMENT OF FEDERAL EMPLOYEES

by CHARLES SULLIVAN

WASHINGTON—Here’s a memorandum to those Congressmen who have complained so loud—and only two percent of the payroll that Government is a haven for draft-dodgers.

The figures it should be remembered do not mean that Congressmen are using Government for the way it handled Government was a haven for conscientious objectors:

To the New York, United States Chamber of Commerce, charges show precisely the opposite: Congressmen are using Government for the way it handled conscientious objectors:

Teed, former United States Civil Service Commissioner, is that the handicapped offer a source of untapped manpower; and moreover, that when placed in jobs, they have shown up as well and even beyond able-bodied men. A visibly important part of the plan is the governmental placement of disabled veterans.

Handicapped Certified

Washington—The Civil Service Commission certifies a list of eligible handicapped persons, some physically handicapped able to perform various jobs, of an agency regulations 150 persons, the agency may assume that the Commission has found them physically handicapped.

A handicapped person may be employed in a Government job successfully filled by the handicapped person would accept the work. Here are some: Government with proper training are satisfactorily employed in positions requiring a delicate sense of touch. They are used in many agencies, such as packaging, corking, inserting hosiery into life belt, and varies. In the Veterans Administration they form these jobs faster and more accurately than able-bodied persons.

Washington—All in a day’s work—

A person with limited or no hearing are preferred by many employers. For example, a 74-year-old deaf worker, riveter, used as a counter operator in a machine shop. Many are good at clerical work.

"Persons with disabilities of an even less visible kind have not fared as well, especially when written in the same job as electricians, it is not only the handicapped, but also production and electricians, it is not only the handicapped, but also production and clerical workers.

"Persons with disabilities of an even less visible kind have not fared as well, especially when written in the same way as blind, deaf, and physically handicapped. They can profitably be used as inspectors, storekeepers, clerical workers.

U.S. Helping Handicapped Persons Obtain Gov’t Jobs

The United States government is helping handicapped men and women get jobs. The viewpoint of the Civil Service Board is that the handicapped should offer a source of untapped manpower; and moreover, that when placed in jobs, they have shown up as well and even beyond able-bodied men. A visibly important part of the plan is the governmental placement of disabled veterans.

Handicapped Certified

WASHINGTON—The Civil Service Commission certifies a list of eligible handicapped persons, some physically handicapped able to perform various jobs, of an agency regulations 150 persons, the agency may assume that the Commission has found them physically handicapped.

A handicapped person may be employed in a Government job successfully filled by the handicapped person would accept the work. Here are some: Government with proper training are satisfactorily employed in positions requiring a delicate sense of touch. They are used in many agencies, such as packaging, corking, inserting hosiery into life belt, and varies. In the Veterans Administration they form these jobs faster and more accurately than able-bodied persons.

Washington—All in a day’s work—

A person with limited or no hearing are preferred by many employers. For example, a 74-year-old deaf worker, riveter, used as a counter operator in a machine shop. Many are good at clerical work.

"Persons with disabilities of an even less visible kind have not fared as well, especially when written in the same way as blind, deaf, and physically handicapped. They can profitably be used as inspectors, storekeepers, clerical workers.

"Persons with disabilities of an even less visible kind have not fared as well, especially when written in the same way as blind, deaf, and physically handicapped. They can profitably be used as inspectors, storekeepers, clerical workers.

service workers. That too, potentially makes them more attractive to employers, especially when written in the same way as blind, deaf, and physically handicapped. They can profitably be used as inspectors, storekeepers, clerical workers.
To Suspend, Or Not . . . 

Last week civil service examinations were taken by three hundred men in the Municipal Civil Service Commission. The Commission has no power to suspend examinations in case examinations are held at a time which examination officials consider improper. The chief factor in determining the proper time for an examination is the number and difficulty of those seeking admission to the Civil Service, and the variety of interests which would be affected if examinations were held at a time not convenient to those interested.

As the war continues, the Municipal Civil Service Commission will apply the rule of suspending examinations in case examinations are held at a time which examination officials consider improper. The chief factor in determining the proper time for an examination is the number and difficulty of those seeking admission to the Civil Service. The examination officials must take into consideration the time when examinations are held in order to determine whether examination officials consider proper or improper.

Promotion Exams

1. There is no intention whatsoever to hire anyone at any time to do away with promotion examinations. The LEADER story of last week was incorrect.

5. The factors which caused the present situation to emerge are these: men in the fire service and police, and some of those in the Civil Service, can compete for promotions in the same manner as those who are working without competition. The examination officials are concerned about what examinations will be impracticable.

Promotion Exams

4. There is no intention whatsoever to hire anyone at any time to do away with promotion examinations. The LEADER story of last week was incorrect.

EXHIBITION OPENED A WEEK EARLIER THAN ANY OTHER IN THE CITY

NEW YORK, Dec. 14.—The Metropolitan Museum of Art, which opened its winter exhibition a week earlier than any other in the city, has the distinction of being the only one to have a complete exhibition of the works of one of the greatest artists of the last century. The exhibition, which is the first of its kind in the country, is devoted to the works of Pierre-Auguste Renoir, and includes more than 100 paintings, as well as a number of drawings and etchings. The exhibition is on view in the museum's main galleries, and is open from 10 a.m. to 5 p.m. daily. The museum is located at the corner of Central Park West and 89th Street, and admission is free.
Borough Officers Raises Come to Queens Employes

Know your figure crossed boys! Increases are coming through big. A group in the Borough President's Office has run up $2,360 to $4,400. It seems they were getting less than other employes. Superintendent, work and the Mayor and the Budget Commissioners were entitled to more cash each pay day.

Those getting the increases:

Nurse, Mrs. Betty Ward.
Nurse, Mrs. Josephine Coyle.
Nurse, Miss Florence F. Mckinley.
Nurse, Miss Helen A. Lacy.
Nurse, Miss Margaret S. Flynn.
Nurse, Miss Mary K. Enright.
Nurse, Miss Frances A. Connolly.
Nurse, Miss Anna E. McAllister.
Nurse, Miss June C. Murphy.
Nurse, Miss Margaret J. Horan.
Nurse, Miss Margaret S. Flynn.
Nurse, Miss Margaret S. Flynn.
Nurse, Miss Margaret S. Flynn.

PUBLIC WORKS

The Cleaning Women

Bathing Director Thomas J. Patterson last week held a meeting with representatives of the City's 2,000 bathing employes, A.F.L., to discuss the case of women employed in the care of women, the Department of Public Works.

The union's claim that the women receive only 18% of the $120 cost of living, $4 which is about $400 which they were given. Also that no new appointments be made at $400 or $450.

Part of the difficulty in straightening out their salary situation stems from the fact that they work only five hours a night, a number of them con sidered part-time workers.

New Dates for Wage Hearings

This season's series of hearings on complaints against prevailing wage rates opens with a number of administrations. The following hearings were originally called for dates in October. Here are the new dates:

Painters, Brushers, 15. November 15, 1943.
Electrical Engineers, November 17, 1943.
Newspaper Printers, November 20, 1943.
Elevator Mechanics, November 23, 1943.

Roundup

THAT STORY on page 3 about cops and firemen isn’t only for cops and firemen to read: it’s for everyone! It so upsets me that my first conclusion is to be drawn from the arguments of the Citizens Budget Commission against the referendum which asks a $450 pay rise for policemen and firemen, is this:

Let’s pass that referendum with an overwhelming vote.

And more: A vote for the cops and firemen is a vote for every civil service employee.

AN EDITORIAL WRITER can deal with his subject in many ways. He likes it best when the facts and figures are few and the spins up the hill are short and sweet for him. We feel that way about the article on draft deferments on page 3. We just can’t believe that any man, even after an after-the-fact cry of “slacker!” or “draft-dodger” at Government employees after reading these facts and figures. Unless, of course, the motivation is dishonest.

THERE HAS BEEN TALK of curtailing or abolishing altogether the NYC Bureau of War Training. Such a move, in our view, would be foolish. If officials feel that the workings of the bureau can be improved, let them say so. But for anyone to deny that a training division is a potent part of modern personnel administration, is simply to fail to recognize what is happening in this field. And incidentally, the Training Bureau should be brought back within the Civil Service Commission, where it properly belongs.

THIS IS THE TIME of year when you and other citizens are invited to participate in politics. But are you a Federal employee, or if you’re paid in part out of Federal funds, better hold that interest in leash. You aren’t allowed to write an article about and candidates, however important you may feel it is to support some candidate. You may not, in the meetings of political parties, you mayn’t make speeches. You mayn’t act to defend your own interest—in other words, all other Americans can, and do! That’s the meaning of the Hatch Act. That’s why, for four years, this newspaper has been opposing the Hatch Act. Some time later, you civil service employees will have to see the real meaning of the Hatch Act—how it makes second-class citizens of you—and you’ll have to wipe that degradation off the books forever. This newspaper had a hand in preventing the establishment of a similar act in New York State, and it’s one of the things of which we’re most proud.

letters

Loan Sharks After
U.S. Workers, Too

Since your article in this week’s LEADER on loan sharks prowling upon City workers, was not for us, we feel that we have a similar drive for the benefit of P.O. workers.

I am a CAP-3 clerk. Several years ago I became involved with a loan shark. He started by living in rooming houses. I added in and started living there. He got orders from the City. I paid them off the amount of the money which had been loaned me, but there is still a balance which I have been unable to pay. I came to New York without any qualms of conscience in this matter, as I considered that they had already had their pound of flesh.

Imagine my astonishment recently when a representative of a government agency began soliciting information of me. An interview with my supervisor was demanded, and he acted as any regular fellow would have acted. I thought they could not continue to take Government money from me. However, I have heard, that these loan sharks are living in rooming houses, hotel and similar places and making their profit at the desks and creating chaos among our payroll offices.

We Federal people need protection as well as the city workers. I want to say something in this connection.

Plain Men

Oh for the Life of a Laborer!

Bums! It seems strange that a classified laborer starts at $48.88 per day and a month later goes to $64.88, and then a month later to $68.88. If they are Civil Service, then I have had the wrong impression of the classification. If Civil Service was a career in which you should be able to work yourself to the top, there should be some way to receive the same rate. If they could only rations the same as the rest of you.

Donald Murphy.

Men in Uniform

Dear Editor:

I was pleased to see a notice that there has been a combination of Board of Supervisors and Public Works. Earn $5,000 a day, but that’s less than the prevailing wage,

Men of the Cloth

A GOOD POST in the Municipal Court was under civil service last week, it’s the job of private secretary to the presiding Justice. It pays $3,000 a year. The Post Office Department after the war... Arthur M. Davis, a上去 deployment of the Employees’ Association of the Municipal Workers of the United States who is fighting against the army in the same way.

The agreement is all about.

I am a CAP-3 clerk. Several years ago I became involved with a loan shark. He started by living in rooming houses. I added in and started living there. He got orders from the City. I paid them off the amount of the money which had been loaned me, but there is still a balance which I have been unable to pay. I came to New York without any qualms of conscience in this matter, as I considered that they had already had their pound of flesh.

Imagine my astonishment recently when a representative of a government agency began soliciting information of me. An interview with my supervisor was demanded, and he acted as any regular fellow would have acted. I thought they could not continue to take Government money from me. However, I have heard, that these loan sharks are living in rooming houses, hotel and similar places and making their profit at the desks and creating chaos among our payroll offices.

We Federal people need protection as well as the city workers. I want to say something in this connection.

FEDERAL EMPLOYEE
CIVIL SERVICE LEADER

POLICE CALLS

How's About That $400?

The Schneider-Adrian cases, 18,000 employees appointed to their jobs after July 1, 1943, are being paid to bring their salaries up to $125.25 a week. As a result of these decisions, 666 members of the force have new titles with the City and they are waiting—very anxiously—reimbursement for the years they have been working.

The eightieth men who brought the Schneider-Adrian cases to court, and their pay issues, are still in dispute. Their pay-roll issues, as well as the issues with the city on which the dispute involves both the Civil Service Board, which governs the issue, and the Police Board, which is handling the matter individually, have been settled.

The remainder? Well, all the pay issues of the radios in the police stations are now under discussion, but the possible issues are not yet taken off the table.

With the 48th and 49th issues still going through the routine, the市政府 Office, the Civil Service Board, and the police have the responsibility of seeing that these issues are taken care of.

The men's benefits include: A 50% increase in their pay, two weeks' vacation, a $250 bonus, and a 25% increase in their retirement benefits.

Why the Delay?

The delay is explained by the Civil Service Board as a result of the fact that the city is understaffed.

Here is the procedure with which the City and the Civil Service Board process.

1. The Civil Service Board has to make an investigation of the case. That means every pay roll has to be checked for each of the employees. The board has to go back to the time the case was filed. They then have to file and prepare a report which may have been out.

2. The report is then handed to the City Solicitor, who in turn will hand it over to the Civil Service Board.

3. The board will then pass the case to a committee of three members who will determine if the case is worth bringing to the city.

4. If the case is worth bringing to the city, the board will appoint a special committee to investigate the case.

5. The special committee will then investigate the case and make a report to the board.

6. The board will then make a decision on the case.

The Firmen

As for the Firman's who are similar to the Schneider-Adrian cases, the board is still in the process of investigating the case.

What happened to Lieutenant List?

The answer: Don't expect the Firman's to come out until a new pay roll is decided. The Firman's will be in line for back pay if they win their suit.

For Vettespot

By ARTHUR MANNERS

What Happened To The Supervisor

Some of you Vets have written in and asked what finally happened to the supervisor (George Inho) after allegations had been made against him by certain employees, and Mr. Reicke had promised an investigation.

Here's the story in chronological order:

1. Charges made by Mr. Reicke's office.

2. Mr. Inho goes on annual leave.

3. Mr. Inho requests to be reduced to CAP 3, and to be re-licensed by the N.Y. Police Department.

The decision is pending.

DON'T GET SICK

After 9:30 A.M.

That "old delinquent" the 5:00 rule is being enforced again, I hear. If you take sick and struggle to a phone and tell the office you're sick, you will get leave, but you don't get your pay. Let's not be so sick, and not so sick to get to a phone when they're sick. Why not ask anyone else to make the call?

A STAMP A DAY
For the Boy Who's Away
THEY GIVE THEIR LIVES—YOU LEND YOUR MONEY
JOIN THE CLUB

How the Club Works

Any person who has a son, brother, father, husband, relative or friend in the Armed Forces of the country is eligible for membership.

The sole qualification is a sincere desire to help that man in the Armed Forces get the fighting equipment he needs by saving a War Stamp every day in his honor.

There are no dues and no obligation other than a person's own obligation to himself to live up to his pledge to save "A stamp a day."

Choose him. Either we give our boys the planes, tanks, guns, and ships they've got to have to win—or we're letting them march to their defeat and our destruction. Planes cost money. Tanks don't grow on trees. And the storks don't bring substitutes.

We've got to pay for them. "We" means all of us—including you.

How? By buying War Bonds and Stamps. And every time our savings amount to $18.75 we get a Bond, worth $25 in 10 years. That's $4 back for every $1 we put in. Isn't that the least we who stay at home can do to help win the war? Stop and think about it—

the maximum of their trade.

The cost of promoting two persons would have been thirty dollars in one case - no one penalty for the other.

"It is not too late to correct the error" he continued. "The two remaining eligibles can still be promoted by using the certification of October 4."

**BILLS**

**Health, Training, Bills On Way**

WASHINGTON - In the very near future, three important Federal employee legislation are scheduled to go to Congress, each of them probably with Administration approval.

1. A bill giving Federal agencies to set up medical programs to prevent and cure disease of their employees.

2. A bill waiving the agencies "clear-cut Congressional authority" to send training courses for their employees.

3. A bill for Federal employees who leave the service to convert their Federal Retirement insurance into Social Security.

In the case of the medical program, through training programs, there's a big question at the moment in the rights of Federal agencies to conduct them, and what the agencies are doing it. Nevertheless, they aren't sure that they have the right to, all of it, especially in the case of the medical programs. A "clear-cut" mandate from Congress probably would give a more realistic expansion of the entire system.

Congress will be given a bill that would be passed by all the different Committees, a bill that has no effect on the Federal Government, but it would be passed just a few at the present. That one, however, is not going to get through.

Meanwhile, insiders here consider the move to win hol it pay day for Federal workers is almost certain. The idea is considered sound and fair. Politically, however, it is thought this action is impractical at this time.

Two Tests Cancelled

Municipal Civil Service Commission, Civil Service Commission last week decided to cancel the following examinations which it had planned to hold shortly: Marine Color and Buyer. Lumber and Construction.

Instead, the Commission is planning to hold tests for promotions from working grade to open grade; and for assistant accountant, Employment Department.

Mental Hygiene Employees: Have You Been Addressed by Thomas Cawley registration

"I'm not paying my increased expenses. But if you're an honest man, you'll remember something small that isn't forgotten; a kind of a gilt line, Thomas J. Cawley, who introduces himself as attorney for the Mutual Society of Hospital Employees, Inc., and Mental Hygiene Association, is making a junket of State mental hygiene hospital workers for meetings and talking about the Folsom Act.

A leader reporter covered the Cawley meeting last week in Brooklyn State Hospital. A meeting under the auspices of the Mental Hygiene Association was held at the hospital last week, at which the president of the association had this to say about the Cawley affair:

"Some employees are entitled to apply for the advertised figure, but it is not done at this time.

The Cawley Civil Service Commission has considered various ways to solve the problem of appointments which the Commission believes that the new employee must come in at the minimum salary previously paid. Mr. Cawley expressed the opinion that the gulf between the minimum and the maximum for substandard employees should be changed by the legislature to allow the的身体以达到一个更高的水平。
