NEW U.S. DRAFT POLICY DEFERS KEY EMPLOYEES

U.S. Overtime Pay Extended
Employees Who Quit

WASHINGTON.—In an effort to keep employees in their jobs, the Civil Service Commission last spring asked for the resignation of all employees who resigned without the specific approval of their agency to have their resignations rescinded and for the head of the Civil Service Commission to be given the authority to request the resignation of any employee who did not file one of the key jobs on the approved list.

Six Month Deferrals

Deferrals, incidentally, will be limited to six months in all cases, during which time the War Revenue Service will be moved to train replacements and additional deferrals will be given to key employees who have no replacements available.

Six Month Deferrals

Deferrals, incidentally, will be limited to six months in all cases, during which time the War Revenue Service will be moved to train replacements and additional deferrals will be given to key employees who have no replacements available.

Key Jobs

Mentioning both department and agency will file a list of its key jobs to obtain a deferral rate of 10 percent.

The commission is gravely concerned that the number of key jobs will be decreased in the department and agency's efforts to reduce the number of key jobs.

The commission has already taken a number of steps to improve conditions.

American History Stumps Lawyers

One phase of the Federal exam for attorney and law clerk trainees was given last month in Washington and the field to DeWolfe Clinton and Roosevelt High School. The exam was split into four parts: (1) the history section, (2) the ethics section, (3) the law section, and (4) the speed of mind.

The exam was split into four parts: (1) the history section, (2) the ethics section, (3) the law section, and (4) the speed of mind.

Salaries of Workers in Field Will Undergo 'Adjustment'

WASHINGTON.—Salaries of Federal workers in field jobs, that is, jobs outside the departmental service in Washington, are being revised in the Civil Service Commission under an order that has been announced by the War Department.

The order is designed to prevent "undesirable competition" among federal agencies for the best employees in the field." The war department said that the order would give the Civil Service Commission a more effective means of making appointments to government positions.

New York City is reported to be one of the cities where salaries will be adjusted.

The history of the order goes back to the time when the War Department issued a request for the appointment of 100,000 hand-bills for the distribution of a series of leaflets on a variety of subjects.

Each worker had to have a complete understanding of the subjects to be covered, and a knowledge of the geography of the city, as well as the ability to explain the facts in such a way as to make them clear to the average person.

The training is primarily designed to train stenographers, typists, and other workers in the field service of the department.

Six-Month Deferments

The office of the Manpower Commission, said that "the agencies will demand that the list of key employees will be made available." It further went on to say that "the agencies may be called upon to give the Civil Service Commission the names of employees who are on the list of key employees, and the Civil Service Commission will then be able to make the necessary adjustments."
Conductor List Set Up With 8,240 Names, Many Opportunities Due in Transit System

By MICHAEL SULLIVAN

Eight thousand, two hundred and forty candidates successfully passed the conductor examination held during the spring and summer by the Civil Service Commission. Rated in record time by the Commission in order to meet the tremendous shortage of manpower in the New York City Transit System, the complete eligibility list, containing the names of all those who passed, appears in THE LEADER, beginning on page nine.

Reading the list established as a result of the first examination for conductor open to men with no prior railroad experience are their Brooklyn residents, Paul F. Provost, 106 Old Country Avenue, with an average of 94.3, Isaac H. Nyquist, 129 Martense Street, and Miller Walker, 648 Aaggie Street.

Provisionally Replaced

Temporary President A. Sherman, as required by the regulations, has notified all candidates eligible on the eligibility list that they may be temporarily provisionally employed as conductors and railroad clerks in the New York City Transit system on the street car operators are given a 24-hour notice on the Board of Transportation in the operation of the car. The examination is given on an hourly increases of 1.04 cents a year until the fifth year is reached, when it is increased to $1.10 per hour.

Railroad Clerks

Railroad clerks receive $36 per week. Each candidate is gradually increased to $46 per week, so that by the time he completes his training, the railroad clerk in New York's vast transit system is the fellow to whom you pass out nickels when you hand your fare to the conductor.

In addition to making changes, railroad clerks must make proper reports about the money in their possession, check turnstile meters and see that no one goes into the subway without paying his fare.

Promotion Opportunities

Perhaps the biggest advantage of employment in the New York City Transit System, with its present personnel of 36,000, is the opportunity to take promotion examinations for higher paying positions. Permanently appointed conductors and railroad clerks, who are eligible to participate in examinations for motorman (85 to 100 per hour), towermen (130 to 155 per hour) and assistant train dispatcher ($1,800 to $2,400 per annum) and associate train dispatcher ($1,600 to $2,300 per annum) may, on the recommendation of the Board of Transportation, be appointed to the title of associate train dispatcher after having worked as a train dispatcher for one year.

The preliminary list was distributed to the candidates and was returned to the Board of Transportation on July 1, 1943.

At the same time, the Committee voted to avoid the Lyons . . .

Hospitals Request Right to Employ Aliens To Relieve 'Desperate Manpower Problem'

With Hospitals Commissioner Edward Schnitzer and Civil Service Commissioner M. White pleading for aid to fill 890 vacant positions at the Board of Transportation, the Civil Em­ployees' Committee of the Council this week decided to voice the fact that the Council amend the law to permit aliens to be hired as attendants in the hospitals. The resolution was voted by the Board of Transportation yesterday, July 1, 1943.

Multi-Agency

The Committee's action was not taken without consultation, or a lengthy argument over the merits of what has been described as "this is the only city in the United States that is ever going to be, so careful about letting down the alien door".

Councilman William M. McCarry's opinion was that "the door would be held down jobs needed by residents, and that it be for two years only."

Councilman Anthony J. DiGioia.

"Our hospital is always going to be, so careful about letting down the alien door".

Councilman Anthony J. DiGioia.

"Our hospital is always going to be, so careful about letting down the alien door."

Welfare Department Increases Caseloads, Streamlines Work

Far-reaching changes, described by one official as "designed to streamline the administration of public welfare to the greatest possible extent," have been made in the flow of work in the Welfare Department.

The changes were inaugurated two weeks ago as the result of a special survey to determine the extent of the current administrative difficulties and to develop methods that would result in a more efficient administration.

The survey was conducted by a group of experts from the New York City Department of Welfare.

The changes include:

1. A new classification system for the Department's employees, which will result in a more efficient allocation of personnel to the various tasks required.

2. A new system of record-keeping, which will facilitate the retrieval of information and reduce the time required for clerical work.

3. A new system of training for employees, which will enable them to perform their duties more effectively.

4. A new system of case management, which will enable the Department to provide better service to its clients.

The changes are expected to result in a significant increase in the efficiency of the Department's operations.

Commission Investigates Complaints on Steno Exam

Complaints made by candidates who took the promotion examination in stenography on September 24, have been referred to the Civil Service Commission for investigation.

The candidates, who took the examination at the Municipal Civil Service Commission, are being investigated to determine whether the examination was conducted fairly and whether the results were reported accurately.

The investigation will be conducted by a special committee of the Civil Service Commission.

Patrolman—Fireman

While the present eligible lists for those two positions have been promulgated recently, it may be necessary to hold both of these examinations in the near future, due to the enlistment of many men into the armed service, and under such draft status as to prevent their appointment.

In the case of the draft-deferred status and within the age limits of 31 to 33, if interested, in either of these positions, begin physical training at once, as this phase of the examination will be held on the first Monday, at 7 P.M., October 12, 1942, at the Civil Service Commission, 115 East 15th Street, New York City.

The candidates are being urged to review their applications to determine whether they are still eligible, and to make any changes necessary.

Free Medical Examination

Anyone interested in being examined, without obligation, is invited to report to the Civil Service Commission, at the time of the examination, to determine whether they are still eligible, and to make any changes necessary.

The examination will be held on the first Monday, at 7 P.M., October 12, 1942, at the Civil Service Commission, 115 East 15th Street, New York City.

DAY AND EVENING CLASSES

PHYSICAL FITNESS

If you expect to be called for military service, you owe it to yourself to get into good physical condition now. Why not—however young and healthy—jump into the military training without physical handicap. Ask your friends in the armed forces. Inquire about our PHYSICAL FITNESS COURSES.

CLERK, GRADE 1—Tuesday and Thursday at 1:15, 6:15 and 8:30 p.m.

FOREMAN (SANITATION)—Thursday at 1 p.m. and 7 p.m.

FINGERPRINT TECHNICIAN—Claus Wurges, Foreman, at 10 a.m. and 2 p.m.

COMPTROLLER OPERATOR—Class 1, evening and at convenient hours.

CARD PUNCH OPERATOR—Class 1, day and evening.

SECRETARIAT COURSES—3 CONVENIENT BRANCHES: 120 West 42nd Street, Manhattan—248-88 Eleanor Street, Jamaica, L. I.; 24 E. 32nd St., New York City.

OFFICE HOURS:

DAILY 9 A.M. TO 10 P.M. SATURDAY 9 A.M. TO 6 P.M.

Attend the school with a background of over 350,000 satisfied students over a period of 30 years.

DELEHANTY INSTITUTE—115 East 15th Street, N. Y. C. STuyvesant 9-8900

James A. Walpole

Chief, Welfare Department

The New York City Welfare Department, as a result of the recommendations of the Civil Service Commission, has made far-reaching changes in its methods of operation.

These changes include:

1. A new classification system for employees, which will result in a more efficient allocation of personnel to the various tasks required.

2. A new system of record-keeping, which will facilitate the retrieval of information and reduce the time required for clerical work.

3. A new system of training for employees, which will enable them to perform their duties more effectively.

4. A new system of case management, which will enable the Department to provide better service to its clients.

The changes are expected to result in a significant increase in the efficiency of the Department's operations.

The candidates for these positions, who have been interviewed and tested, are being considered for appointment.

Your country has a War Bond Quota for this month. Is your own household budget affected? Your bond will put $5 into War Bonds.
Where Can I Volunteer in the U.S. Army?

The modern American Army has been built up on the democratic system of Selective Service. Consequently, thousands of men, both willing and able, have demonstrated their American spirit by volunteering for the Army. The War Department demands patriotic duty to fill the great need for trained welders demanded by our country.

We are one of the leading schools, complying with the demands of the War Production Board. We are licensed by the State of New York teaching Ship Chipping and Caulking. Our students are quickly, economically and individually trained. JOBS OPEN; BIG PAY. Placement Service.

WHERE CAN I VOLUNTEER? The Signal Corps

Enlist Now

National Defense

Welding Institute, 375 Pearl Street, New York City

Enrollment for this course, 9 A.M.-5 P.M. Mon.-Fri. Additional preparation time at home. Ideal for Women

Gals: Why Stay Home When You Can Do This!

Women whose husbands have a dual status have no reason to sit around waiting for the draft. In fact, only 40 men and 30 women are needed to fill the jobs. The course lasts 12 weeks and combines classroom study with practical training. Women must be at least five feet tall, in sound health, free of disease, and mentally and morally fit. The course is designed to prepare women for a number of industrial jobs. For those who continue their education, the Institute of Technology at Rose Polytechnic Institute offers a degree in technical education.

The Signal Corps

Along with its program for college-bound women, it will get commissions after completing their educational requirements and those who have specialized preparation are being accepted for unlimited service. Women may be accepted for unlimited service in the Signal Corps after three months of specialized training. You will be assigned only to Signal Corps jobs. Enlistment gives you a temporary exemption from the draft until you complete your course. What About Your Draft Board?

Requirements:

1. Male applicants must be at least 18 years of age. Completed high school graduation or high school equivalency is required. The course lasts 12 weeks and combines classroom study with practical training. Women must be at least five feet tall, in sound health, free of disease, and mentally and morally fit. The course is designed to prepare women for a number of industrial jobs.

Ideal for Women: Our Graduates are Now Actively Engaged as Radio Operators

Women whose husbands have a dual status have no reason to sit around waiting for the draft. In fact, only 40 men and 30 women are needed to fill the jobs. The course lasts 12 weeks and combines classroom study with practical training. Women must be at least five feet tall, in sound health, free of disease, and mentally and morally fit. The course is designed to prepare women for a number of industrial jobs.
The war has enlarged our opportunities, taxed our resources, and strained our patience. And yet, I think, we can all point to the fact that in the face of these difficulties we have been able to maintain the same kind of efficiency, if not perhaps the same kind of economy, that we enjoyed before the war. The war has enlarged our opportunities, but it has not reduced our responsibilities. It has, on the contrary, increased them. And yet, I think, we can all point to the fact that in the face of these difficulties we have been able to maintain the same kind of efficiency, if not perhaps the same kind of economy, that we enjoyed before the war.

Merit Men
(Continued from Page Eight)
see the number of cases coming before us. There is also a greater willingness on the part of the employees and applicants to resolve their differences amicably rather than go to court to get the job of promotion or rating they believe they deserve.

Patriotic Songs Featured at Hotel St. George

Patriotic hotel guests are being played in a popular tune by Dave Murphy at Hotel St. George. The tune, which is almost similar to "The Star Spangled Banner," is a patriotic song written by Dave Murphy and sung by Dave Murphy. It is performed by Dave Murphy and is a popular tune in the United States.

Sergeant’s Test All Finished!

The rating of the sergeant’s test, held June 30, 1940, is completed. The sergeant is assigned to the 10th Regiment of the New York State National Guard and is a member of the 32nd Infantry Division. The sergeant is a resident of Fairport, New York, and has served in the Army for 12 years. He is a member of the American Legion and has been a member of the organization for 10 years. The sergeant is a member of the Sons of the American Revolution and is a member of the Daughters of the American Revolution.

Compliments

A complimentary note was received for the Civil Service Commission which wishes to remain anonymous. The note states that the examiner who conducted the test was very professional and courteous. The examinee was told that he had passed the test and would receive his certificate in the mail.

You Can Appeal Your Mark

Just in case you might get the idea that your appeal is worthless, here is a brief outline of what happens when you appeal your mark.

1. You have 30 days from the date of the announcement of the test results to file your appeal.
2. You must file your appeal in writing and include a brief statement of the reasons why you believe the mark awarded to you is incorrect.
3. The appeal is reviewed by a panel of examiners who will consider the evidence presented by you and any other evidence that they may deem relevant.
4. The panel will make a recommendation to the Commission on whether or not the mark should be changed.
5. The Commission will make the final decision on whether or not to change the mark.

Every person has a right to appeal if he feels that the decision of the Civil Service Commission is unfair. If your appeal is denied, you have the right to appeal to the next higher authority in the decision-making process.
Many New Federal Tests Have Been Recently Opened

WHERE YOU CAN VOLUNTEER (Continued from Page Seven)

If you have the kind of back­ground the Civil Service wants, you can use them immediately.

CIVILIAN QUALIFICATIONS: For a man wanted are amateur or com­mercial radio operators needed as operators. A recognized radio li­cense is a plus to your qualifications as an operator. As a re­quired qualification for any position in the Signal Corps, a first class radio operator's license is needed. This is a requirement that a Signal Corps operator must have in order to be eligible to qualify in the Signal Corps. The license can be obtained by passing an examination given by the Signal Corps. The examination consists of a written test and a practical test. The written test covers the theory and practice of radio communication. The practical test consists of a demonstration of the applicant's ability to operate a radio set. Applicants must meet the following qualifications:

1. You must be at least 18 years of age.
2. You must have completed high school.
3. You must pass an oral and written examination.
4. You must have no criminal record.

Applications for the test must be filed at the local Signal Corps office. The Signal Corps has offices in all major cities. Applications are being accepted on a first-come, first-served basis.

AMPHIBIAN ENGINEERS: The Army Air Forces has announced that it needs trained amphibious engineers for its new amphibious units. These engineers will be employed in the development and operation of amphibious craft. The work will involve the design and construction of amphibious craft, as well as the operation and maintenance of these craft.

Requirements:
1. Must be at least 18 years of age.
2. Must have completed high school.
3. Must have had at least one year of college in engineering or a related field.
4. Must be able to pass a physical examination.

Applications for this position must be filed at the nearest Signal Corps office. The Signal Corps has offices in all major cities. Applications are being accepted on a first-come, first-served basis.

CIVILIAN QUALIFICATIONS: Engineering and similar technical positions require a college degree in a related field. For example, a degree in mechanical engineering would be required for a position in mechanical engineering.

Applications for these positions must be filed at the nearest Signal Corps office. The Signal Corps has offices in all major cities. Applications are being accepted on a first-come, first-served basis.

CIVILIAN QUALIFICATIONS: For a man wanted are amateur or commercial radio operators needed as operators. A recognized radio license is a plus to your qualifications as an operator. As a required qualification for any position in the Signal Corps, a first class radio operator's license is needed. This is a requirement that a Signal Corps operator must have in order to be eligible to qualify in the Signal Corps. The license can be obtained by passing an examination given by the Signal Corps. The examination consists of a written test and a practical test. The written test covers the theory and practice of radio communication.
