Temporary State Workers Will Get Paychecks on Time

31 Police Lieut. Promotions Now; Delay on Patrolmen

The appointment of another group of Patrolmen (P.D.) is still held in abeyance. Budget Director Thomas J. Patterson told the State Police the whole matter is still under review.

Patterson said that the Police Department has received budget certificate for the promotion of 12 Sergeants to Lieutenants. The announcement of the promotions last week, as previously scheduled by the Department, has been delayed. The Department of Audit and Control is now working on the State Police payroll procedures.

U.S. Attorneys Fear Loss Of Jobs, Come January 20

WASHINGTON, Oct. 18—During the next three months, the U.S. attorneys in each of 94 districts will be forced to leave their jobs in the event that their appointments are not confirmed by the new administration, attorneys have been told.

Bidding the funds for such a purpose, the Civil Service Department said it had not received any plans for filling in those positions.

The Civil Service Employees Association, which represents the white-collar employees of the Department, feels that the higher dues are due to the higher cost of living and the ability to pay them.

Alabama, Oct. 18—Now it’s definite and official. If you’re a member of the National Federation of State Police, you won’t have to worry about how your paycheck will be handled when your patrolmen leave their jobs.

You’ll get it on time. The late-night sessions that have been held to work out a streamlined system for paying you off fast, have finally gotten together and have put the Department on a permanent payroll.

Albany, Oct. 18—The Divi­sion of State Police is still studying the tests for State Troopers in various centers throughout the State. Of these, 160 candidates are eligible to test for the job.

160 Probed For Jobs With State Police

Prospect Arises That War-Service Employees May Be Covered In

Washington, Oct. 18—If the President is to reorganize the Federal Civil Service, there is a possibility that the war-service employees may be covered.

The President has the right by law to take action on the files of all federal employees who have served in the armed forces.

CONTINUED ON PAGE 9
Andrea's current job search is hindered by the Civil Service system's rigid rules.

The government is considering reforms to the Civil Service system to make it more flexible.
The Public Employee

By Dr. Frank L. Tolman
President, The Civil Service Employees Association, Inc., and Member of Employees' Merit Award Board.

The Association Power Plant

How many cylinders has the Association Power Plant?

The answer is — a good many: the Staff, Counsel, the Directors, the Officers, the Committees, the Conferences and the Chapters, not to mention the members. How much power do they generate? A good deal at times, but not even a fraction of their potential power, and usually less than is required to make the grade on high.

I wish today to say something about our standing committees and special committees and their work. It is a standing joke that, in most organizations, standing committees mostly stand and wait. Our standing committees mostly get out and work at their jobs. The Chairmen of such committees are the Salary, Finance, Publicity and Education Committees have important and time-consuming jobs. They render essential advice and information almost constantly to the officers, members and the Board of Directors. They are called in frequently on important conferences with the administrative and personnel officers.

What Special Committees Do

Special Committees are established to undertake some essential emergency study or investigation. Examples are: Public Employee Labor Relations Committee, which produced the Association's Labor Relations bill, the Special Publicity Committee, charged with recommending an enlarged publicity program for the Association, the Service Ratings Committee and the Association Building Committee, charged with finding and recommending a site and building for a permanent home and headquarters for the Association.

One of the largest and most important standing committees is the Membership Committee. It consists of the Presidents of all of the chapters and functions chiefly through the chapter membership committee in each chapter, department or institution. The Committee never meets in formal session. It is tied together chiefly by the Association Field Representatives and the Headquarters Business Staff.

The new Association year of 1948-49 has opened. The first fruits of the interest and activities of the many membership committee workers are already evident. We are already ahead of last year or of any year in new or renewal membership as of this date.

Membership Objective for 1949

If the Association is to continue its proud record of serving your best interests intelligently and efficiently it must be recognized everywhere as the official representative of the great majority of the State and local public employees. We should have, as paid-up members, well over 90 per cent of the great majority of the State and local public employees. Unless we have a safe margin in every such unit, we fail in our first essential and serious impairment of our influence.

As a margin of safety and an essential to continued success, we give you as our objective for 1949 an increase of membership of 10 per cent for the State Division, 100 per cent for the County Division, and majority membership everywhere.

Continued success is ours if we work hard enough for it. My personal thanks and best wishes go to every member of every membership committee everywhere. More power and unparalleled success to every one of you.
Education Workers Voice Grievances

ALBANY, Oct. 18—Grievances of employees of the Department of Education were voiced at a meeting of members of The Civil Service Employees Association Thursday at the State Teachers Colle ges.
**Westchester Relations Fine—Gerlach**

ALBANY, Oct. 18—Herbert C. Gerlach, County Executive of Westchester, has gone all out for a system of give-and-take relationships between government officials and employees. Speaking before the annual meeting of the Civil Service Employees Association, recently, Mr. Gerlach explained that the process of negotiation had worked excellently in the County of Westchester. He gave credit to the Westchester County Competitive Civil Service Employees Association, and mentioned by name J. Allyn Stearns, a director of the county group, fourth vice president of the State Wide Civil Service Employees Association.

"Mr. Gerlach explored the history of public employee relations in Westchester and told the story of the famed Westchester flexible pay plan. Minimum pay under the plan has risen from $1050 to $2055 a year," said Mr. Gerlach. "The establishment of uniform pay scales, the adoption of rules and regulations, the fixing of a definite policy assuring the uniform treatment of all employees throughout municipal service, I believe to be essential for the proper and efficient management of municipal functions. Our County employees association has been most helpful in disseminating information, interpreting rules, making surveys, straightening out grievances, obtaining group life insurance plans, and arranging social get-togethers. There is a most cordial relation existing between the County Executive and the representatives of the Association."

**Nurses' Pay Appeal Still Pending**

ALBANY, Oct. 18—Nothing new on the appeal of nurses to the State Board of Registration. Nurses are represented by the American Federation of State, County and Municipal Employees, Westchester local 94. Harry Smith, Personnel Director, reported to the DPUI Committee at a meeting in conjunction with the annual conference of the DPUI. The report was received with the understanding that there would be no secretions of nurses. The membership of the nurses and other matters as required promptly. The nurses want to back up the nurses' case. Martin Duignan, of NYC, introduced a resolution which was adopted by the nurses. The nurses want to back up the nurses' case. The resolution was received with the understanding that there would be no secretions of nurses. The membership of the nurses and other matters as required promptly. The nurses want to back up the nurses' case.
The Fire-fighters

The new level of working hours must be approved by the referendum to legalize the new schedule. Every public employee — City, State and Federal — who works in New York City must see to it that all persons who can influence the vote 'Yes' upon this non-controversial item.

What's It Like To Be a Pensioner?

Last week The Civil Service Leader carried letters from Governor Dewey's brother O'Dwyer and many other public officials upon the significance of this newspaper's tenth anniversary. The letters represent the contributions to good government, letters from other public figures emphasized The Leader's contribution to good government.

The hearty congratulations of the founding of The Civil Service Leader came into the following:

"Role of Great Value* President John J. F. Mitchell, head of the American Federation of State, County and Municipal Employees, to the fact that its news is never slanted to impress any political party, of the Manhattan D. A.'s office, whose lucrative practice might make him unavalable to continuing civil servants. Knut has been considered the …

Promotion Without Examination

THEOREM BEGINS

How would you like to enter a new field of duty that you have been performing for the past few years without any examination or promotion? If you have been doing work over and above that for which you were appointed, without any recognition, then you would, no doubt, jump at such a chance.

Now, we are looking for a professional unit such as the Civil Service, which has a continuous reclassification process to conform to the changing nature of our society. These positions cannot obtain such reclassification without going through the usual promotion examination channels.

It was not always the case in the State Service. Ten years ago, it was recognized that something would have to be done to correct the chaotic condition in titles of jobs, a wholesale reclassification being needed again. Under an act of the Legislature, which has been in effect prior to the effective date of the law, to be covered into such position by a Classification Board to reclassify all of the incumbents under the Civil Service Law for the post of Classification Board.

The special law, however, set a one year period to be reasonable, is declared to be a Classification Board, to reclassify a higher or different title, and positions covered into such position by the Classification Board, to reclassify all of the incumbents under the Civil Service Law for the post of Classification Board.

The special law, however, set a one year period to be reasonable, is declared to be a Classification Board, to reclassify a higher or different title, and positions covered into such position by the Classification Board, to reclassify all of the incumbents under the Civil Service Law for the post of Classification Board.

This one year period is declared to be a Classification Board, to reclassify all of the incumbents under the Civil Service Law for the post of Classification Board.

The special law, however, set a one year period to be reasonable, is declared to be a Classification Board, to reclassify a higher or different title, and positions covered into such position by the Classification Board, to reclassify all of the incumbents under the Civil Service Law for the post of Classification Board.

I am only interested in those who have availed themselves of the opportunity to obtain, and in some cases, become eligible for promotion.

I believe you will see that in the civil service today, there are all kinds, all types of employees, all grades, all ages, all colors, all religions, all races, all working conditions, all living conditions, all types of positions available.

Available Remedies

Local government classification surveys are being conducted by the State Civil Service Commission in every county. The results of these surveys will be made public and will be used to determine the proper classification of jobs based on a competitive examination. If the results of these surveys show that a job is underpaid, the Civil Service Commission will recommend to the State Legislature that the job be given a new classification.

In conclusion, it is felt that if the date by which the classification must be performed is a year before it is decided to take a reclassification survey, this type of jumping of titles could be avoided.

Highlight of New Law

This statute (Chapter 570 of the Laws of 1948) contains the following highlights:

1. It contemplates a general classification survey of all positions in the Public Civil Service to be conducted by the State Civil Service Commission or the Buffalo Civil Service Commission.

2. Incumbents of positions reclassified to a higher or different title may, at their discretion, be covered into such position by the Classification Board, to reclassify all of the incumbents under the Civil Service Law for the post of Classification Board.

3. Nothing in the statute is to be construed to transfer an employee who was not previously in such classification to a higher one.

4. No employee will be deprived of his present classification by the law, to be covered into such position by the Classification Board, to reclassify all of the incumbents under the Civil Service Law for the post of Classification Board.

5. Under an act of the Legislature, which has been in effect prior to the effective date of the law, to be covered into such position by the Classification Board, to reclassify all of the incumbents under the Civil Service Law for the post of Classification Board.

The World's Largest Department Store

The House of Service, which has been in business for 25 years, is located at 31 Park Row, New York City. It is the largest department store in the world, with over 100,000 square feet of floor space. The House of Service offers a wide variety of products, including clothing, housewares, appliances, and electronics. It is a popular destination for shoppers looking for a great selection of products at affordable prices.

By H. J. BERNA

The administration of Mayor Wagner during the last five years has given full rights of drafted city employees liberal peace-time compensation, new salary rates, and liberal vacation privileges. The Civil Service Commission, in deciding cases of pay, points to the "good-bye" settlement with the last group of draftees, as a model that all employees, to which not only the Civil Service employees but all employees of the city, are entitled, as a matter of right, to be reinstated with the salary, tenure, and time in office, when discharged from military duty, and also the right to be reinstated as if such discharge had been by commission, within a year after discharge.

The Civil Service Commission replied that the time of discharge must be before December 31st, the examination being held this year.

The LEADER called it to the attention of city officials, who verified the fact that the said, "and whether there will be need for an examination in the near future, as to what they may expect. The present body of national military is the Military Reserve, which supplies the State, and the New York State Armory. The LEADER was given the names of the officers of the Reserve, who were made aware of the fact that the LEADER was given similar information by the Reserve, and that the right of all employees, to which not only the employees of the City, but all employees of the city, are entitled, to be reinstated with the salary, tenure, and time in office, when discharged from military duty, and also the right to be reinstated as if such discharge had been by commission, within a year after discharge.

The right of all employees, to which not only the employees of the City, but all employees of the state, are entitled, to be reinstated with the salary, tenure, and time in office, when discharged from military duty, and also the right to be reinstated as if such discharge had been by commission, within a year after discharge.
