PUBLIC EMPLOYEES:

everything You Want to Know About the Bonus

The person who is being graduated from High School this term has many different ways of preparing for a job in the war effort. Many plants have training programs where the new employee will be able to learn while he earns. The Government has many courses which have been training posts available. For those who want to invest some time in furthering their education, there is a large number of tuition-free courses to prepare the new graduate for government service.

All City colleges are cooperating with the offices of the United States Office of Education to prepare high school graduates for specialized work in war industries. The New York City Office, starting the last week in January, ranging from 8 A.M. to 8 P.M., will be open to the public from a wide field, but all are designed to fill needs of the war production program.

For further details of this program, or to select the course for which you are best fitted, call the area office of the United States Office of Education, Murray Hill 2-3499. You will be given an appointment for a personal interview and a view and helped to make the best choice.

Navy Yard Opportunities

The U. S. Navy Yard at Brooklyn, N. Y., has the Bayonne Annex at Bayonne, New Jersey, with many openings for both skilled and unskilled workmen on new construction and repair jobs. In announcing these positions, the U. S. Civil Service Commission stresses the vital importance of this work and the opportunity it affords for young people to take part in the Navy’s war-time program at good wages, based on a minimum rate for laborers of 80c per hour with time and one-half for work in excess of 40 hours per week.

The evening high schools also offer a wide range of courses for adults. Registration, for example, is open now at Washington Irving High School for evening classes in art and trade courses. Painting, dressmaking, cooking, other subjects are available, and the courses are free.

To Apply

Those interested in these jobs should apply at the following places: Works Examination, Room 508, City Hall; U. S. Civil Service Examiners, Sandusky Street Olean, New York; U. S. Civil Service Examiners, West 33rd Street, New York; U. S. Civil Service Commission, Room 508, City Hall, New York City.

JETS: YOUR CIVIL SERVICE PROBLEMS ANSWERED

see page 5
Older Employees Aren't Quitting

WASHINGTON—Older Government employees are remaining in the service despite the fact that the retirement age has been raised by the annual Retirement Report covering the Federal Civil Service. In 1941, 4,486 Federal workers had retired for age. In 1942, the figure was 2,449, and in 1943, only 1,116.

Retirement for disability figures have remained constant but the retirement age has increased from 60 in 1941 to 65 in 1943 and will be 70 in the near future. In 1943, 2,528 and in 1942, only 2,531.

The Situation on Father Deferment

Hit in the clouds? Shocked before the LEADER went to press, its Washington correspondent sent this word:

"There are a few small signs today that Federal employees finally are beginning to realize that the President's recent draft deferment order—and grant more liberal deferments—will not change the Government's father policy. The Department of Labor has been given a fairly liberal policy, it plans to ask deferments for 300 fathers of out of 1,000. State and Interior Departments, and the Poor Law Administrations probably will go to last for fathers. So, too, it is believed, will State Departments."

"Elsewhere, however, the situation was pretty much as it was. Agencies seem afraid of antagonizing Congress."

Smart Federal Employees Are Rewarded

WASHINGTON—Within-grade salary increases of one pay step were granted to 1,575 employees in the Washington, D.C. area as a recognition of "extraordinary meritorious services" during the fiscal year ended June 30, 1943, says the U.S. Civil Service Commission.

The increases, amounting to $60, $200 or $250, were awarded to the grade by Federal agencies in accordance with a provision of the Ramey-Snapt Act of August 1, 1941.

PRIVATE FIRMS TO PROBE ALL JOBS

In New York Regional OPA Office

WASHINGTON—National headquarters of Office of Price Administration has ordered a thorough-going survey of all jobs in New York jobs for which price controls are in effect. And it has hired a nationally-known firm of management engineers, Griffenhausen Associates, Inc., to handle the task.

OPA's problem is this: It has had a number of difficulty clarifying its various field of operations. The Office of Civilian Defense, OPA itself must have the shift to do their jobs. Neither does Civil Service.

WASHINGTON—Federal employees may not realize it, but they've had a reduced quarry in the Fourth War Bond drive with data under way January 17.

Here is the situation:

In the recently concluded drive, efforts, employees were expected to contribute 30 percent of their monthly pay. However, they were permitted to include one month's payroll deductions—10 percent in most agencies. Therefore, the quota for the drive was a maximum cash investment of 15 percent of one month's pay.

In the current Fourth War drive, employees will be asked to contribute 25 percent of one month's pay. However, they will be permitted to include payroll deductions on the basis of two months' payroll—15 percent. Therefore, the quota for the drive is an extra cash investment of 5 percent of one month's pay.

Also, they can spread the amount per cent over two months. Therefore, they'll put up $15 per pay period for two consecutive months.

That's a lot easier.
Civil Employees Group Elected

The most important action of the day was the selection of new City Councilors, who by a vote of 21-11 were elected. The new Councilors are:

1. James Smith
2. Robert Jones
3. Mary Brown
4. John Doe
5. Sarah Green

The selectmen will hold the next meeting on the first Tuesday of the month.

How Would National Service Affect Government Employees?

Several large City lists have become exhausted for new appointments in the coming weeks. However, it is expected that examinations will be held for new positions. New lists will be ordered when necessary. The government has recently released a large number of candidates, but many positions are still open. When the Board of Transportation received requests for names of men eligible for jobs, the Civil Service Commission sent out these requests to the various City departments. The Sanitation Department has been received a large number of applications for temporary and permanent positions. These positions may now be filled on a pro-rata basis.

Several applications are made for Civil Service jobs. The City Commission has the final say in the matter. The Sanitation Department has been received a large number of applications for temporary and permanent positions. These positions may now be filled on a pro-rata basis.

Correction

Two improvements will be made from the Promotion to Captain list. A candidate was sent in by the Civil Service Commission to make 2 appointments at $2,000. These are "indefinite" positions, which will not last longer than one year. The names were not released.

Brooklyn College

The regular list for Cleaner, Men, was sent to Brooklyn College to make the necessary appointments at $1,200. 26 names reached a total of $6,300.

Board of Transportation

New York City officials were reported to have made a new list of employees, on which 1,500 are now working in State departments. This list was made by the Civil Service Commission for the Department of Employment.

N. Y. C. Custodial Plan Hit in Albany

ALBANY—A bill to abolish the individual civil service list has been introduced by Assemblyman John J. LaSalle, Republican of the First New York Assembly District.

This bill changes the educational law in relation to the management and use of school buildings. It is to be made of the supervisor of custodial service by boards of education in New York City. There now exists in New York City the so-called indirect system of maintaining school buildings, whereby the function of such maintenance is delegated to independent contractors or school custodians to whom an annual allowance or gross compensation is made, and who are permitted to purchase all equipment and custodial employees in such buildings and to compensate them out of such allowances of gross compensation. This permits the employment of people in disregard of the Civil Service law, and the furnishing of unsatisfactory working conditions, lack of tenure, discrimination, and the improper delegation of control to the Boards of Education.

Lamont reveals that in many instances custodians are drawing more salary than the Principal of the school system, which should be stopped for the good of the school system and the community in general.

Handyman Jobs Now Available

The City departments may hire handymen for a duration job, without giving examinations. It has become difficult for candidates to handle the job, and examinations may now be held.

After a public hearing last week, the Commission decided that it would be impracticable to hold examinations for the Handyman jobs. Salary for the post is $1,200 per year, not including the recent pay increases. These jobs should apply directly to the City departments. There is a listing in the phone book under "New York City."

You may send in your test and marks to the Commission by the 12th of this month. We shall later be prepared to send you the results.

As the LEADER went to press, the situation still remained uncertain. The Mayoralty, which has been unable to obtain the Fire Commissioner from the Commission, has been working on the grounds that the first Commissioner was dismissed on Jan. 17, 1943 by order of the Mayor. Truth About Employees

We don't think we could write a better editorial this week than President Roosevelt's comment about Federal workers, in his budget message to Congress:

"There has been, during the past year, too much unforced disorganization of Government employment. No one can say at this time what the number of motormen, stenographers, typists, and other employees, all of whom are engaged in bookkeeping and record-keeping, and all engaged in work of a non-essential character, is. The number of essential war work. The undertaking to create the essential war work, as a whole, gives the Federal government greater efficiency now than it had ever before."

The thousands of Americans entered the Government service or have remained in it with the single-hearted determination to do their work. And it is not a matter of a single day's play to make an experienced Government employee-a two-man or -woman-into a useful member of a Government staff, with the almost superhuman efficiency of a personnel officer. And the large majority of employees in the war agencies are engaged in mechanical operations.

In the so-called non-war agencies, the Postal Service alone accounts for more than two-fifths of all the personnel. These facts are too frequently disregarded by critics who condemn personnel service to the work the employees do."

-PRESIDENT FRANKLIN D. ROOSEVELT,
in his annual budget message to Congress, Jan. 15, 1944.

Suggestion for A 10-Hour Day

Your Sire: We sure enjoyed that good old discussion last week! It's about time Ship-
How many more days, Mummy?

"Tell me. How many more days before Daddy can come home?"

And mother doesn't know. So she answers the same way she's answered a hundred times . . .

"Not so many days . . . we hope. Daddy can't come home to us until the war is over. Until we win, you know."

Nobody can tell the thousands of bewildered little hearts when their Daddies will come home.

Nor the millions of other Americans when their husbands, or sons, or sweethearts will be back.

The tragic truth is that many of them will never see their loved ones again. Never.

But this we do know . . .

Every minute by which the war can be shortened means fewer lives lost—fewer white crosses on a lonely hillside.

Your job is to put every dollar you can possibly dig up into War Bonds. The fighting equipment bought by your dollars will hasten the day of Victory . . . the day when the boys come marching home.

Don't slacken your Bond purchases while victory is within our grasp! Never let it be said that while the attack grows stronger on the fighting fronts, we at home failed to back it to the very limit of our ability.

Dig down deeper. Buy extra War Bonds. Help shorten the war by those vital minutes—or days, or months—which mean American lives saved!

KEEP ON BACKING THE ATTACK!

Government Openings

This is general information which you should know about United States Government employment. (1) Applicants must be citizens or permanent residents of the United States. (2) Applicants must be physically capable of performing the duties of the position and must be free of defects which would constitute employment hazards. Handicapped persons who feel their defects would interfere with their ability to perform the duties of the position to which they apply, should make such statement in their application.

For the position of SERVICE LEADER, the Government employs persons to serve as trouble-shooters in the Administration of programs. These workers assist in the supervision and conduct of activities of War Emergency organizations in communities throughout the country. They are expected to have a thorough understanding of the problems of the local community and to be able to organize and direct the various activities of the service agency. The job involves the ability to handle effectively the problems of the organization and to advise the community on the various phases of the program. 

Applicants for this position must have at least 6 months of vocational training in social work or 12 months of vocational training in any other field, in addition to the experience described above. They must also have a certificate of availability from the Civil Service. The certificate must be obtained from the Office of Personnel Management, Room 100, Federal Building, Washington, D.C.

The Service Leader position is a temporary position and is renewable for up to two years. The salary is $2,400 per year.

The close of the application period is May 15, 1946. Applications should be sent to the Office of Personnel Management, Room 100, Federal Building, Washington, D.C. Applications must be postmarked by May 15, 1946.

Biddle Goes to Bat For Negro U. S. Attorney

WASHINGTON—Attorney General Francis Biddle has gone to bat for Negro attorneys in Government. He has quietly let it be known that he plans to resign from the Federal Bar Association unless it acts without delay on the membership application of a Negro attorney in the Justice Department. The FBA is an organization of attorneys in Government service.

The Negro attorney involved is H. McMillen, who has been with the Justice Dept. for 22 years. His application for membership in the Bar Association was submitted in May, with Frank Coleman, special assistant to the attorney general, as sponsor.

It was submitted to the association's committee on admission — and apparently died there.

In July, however, Coleman sent a circular letter to 200 high up government officials protesting against the rejection. Again, nothing happened. The Federal Association has some 1,500 members, with 800 in Washington alone, and a large chapter in New York. So far as is known, it has never admitted Negroes. Mr. Biddle made a note of this fact in a recent speech at Baltimore. He praised the American Bar Association for its recent decision to admit a Negro member.

However, he expressed "regret" that the Federal association still draws the color line.

Cut on Transfers is Suggested

WASHINGTON — Agricultural Department would like to put a halt to wartime transfers of Federal employees. At least, it would like to cut transfers less attractive than at present.

Recently, Agriculture's personnel officials met in St. Louis. Among other things, they discussed a possible transfer from the Civil Service Commission to discontinue the practice of guaranteeing employment to workers who transfer from one agency to another. At present when a J employee transfers with the consent and approval of the Commissioner, there is a guarantee that he will get his old job—or its equivalent—back after the war.

Such, at least, is the case for employees who have Civil Service status.

No Guarantee

If Agriculture's recommendations are accepted, other employees who transfer in the future would not get the re-employment guarantee.

Other old-line agencies, it is known, feel about the transfer problem pretty much as Agricultural. At the moment however, there isn't much likelihood that Civil Service will change its policy.

This is Part of Your Pay Check

It came from the pay check and pay envelopes of people like you. It was bought with the money you lost your Government in regular installments from your pay.

But hold on now—Maybe it's not your goal. Maybe you aren't saving at least 10 percent of your salary for War Bonds!

There are still some people who aren't; not many, but maybe you're one of them. If so, we're sure it's not for want of patriotism, but because you haven't gotten around to it.

Tell your boss today you want to help win the war by joining the Pay Roll Savings Plan.

Save at least 10 percent of every pay check by putting it into War Bonds. You can't make a better investment you'll be buying a future of freedom, peace, and plenty and you'll be getting back $4 for every $3 you save.

MAKES SENSE, DOESN'T IT THEN?
