Assn. Seeks Extension Of Personal Leave Use; Cites 'Confused Interpretation'

A request that the cut off date for use of personal leave be extended for at least three months was made by the Civil Service Employees Association in a meeting with the State Civil Service Commission in Albany.

The Association request was based on reports of increasing confusion in various State agencies over interpretation of application of personal leave.

Under present Attendance Rules, the cut off date for using such leave is Jan. 3, 1958.

Following a lengthy meeting on the subject, the Commission announced that it had taken the request under advisement. While no decision was announced, the Commission declared that at its January meeting it would take up not only the extension of the cut off date but would also consider the whole problem of personal leave, including a method of settling uniform interpretation of such leave.

Conflicting interpretations in various State agencies have caused considerable confusion among employees, the Association reports. For instance, a recent request to use personal leave without granting any leave following its interpretation of these reasons.

Such variance in interpretation has caused some employees difficulty in using their leave. For this reason and because of the need for a uniform interpretation of use of personal leave, the Association requested the cut off date to be extended until the matter can be cleared up.

Western Conference Greetings

There are so many customs
That Christmas time brings,
And one of the nicest
And happiest things
Is the custom of greeting
Good friends, old and new,
And extending good wishes
Like this brings to you.

MERRY CHRISTMAS • HAPPY NEW YEAR

Accordance Teachers Rate Same Pay, Work Year As In Other Systems, Says CSEA

ALBANY, Dec. 23 — Proposed creation of an additional grade for State institutional teachers received the support of the Civil Service Employees Association in a meeting with the State Civil Service Commission last week.

Aim of the Association is to get institutional teachers on a par with teachers in the public school system—both on a salary and a working condition basis.

In presenting arguments to support the proposal, the Association pointed out that the 550 teachers working in State institutions have varying work years—some working 10 months and others 11. Both groups receive the same pay, however.

Because of the peculiar skill and demands these community centers for institutional teaching, the Association reminded the Commission that these teachers are not only required to be paid, but also that they must be able to assume and pay an employee's contributions for him.

The proposal was given to the Commission in response to his request that the construction of 1957 amendments to the Retirement and Social Security Law relating to Federal Old Age and Survivors Insurance.

Some Have No Choice

The Attorney General also ruled that State and local public employees who are not members of any retirement system are required by Chapter 718 of the Laws of 1957 to be covered under Social Security as a group, with no individual choice as to whether they are to be so covered or whether their coverage is to be retroactive.

The Commission is considering the only type of coverage permitted by the Federal law for non-members of public retirement systems. Also from now on, Social Security coverage is a condition of employment and must be paid.

The Declaration of Desire for Social Security Coverage executed by a member of the New York State Employees' Retirement System contains a sufficient authorization for work from his retirement anniversary account of the sum necessary to pay his retra-

Metro Employment Salutes Double Birthday

A double birthday will be celebrated Jan. 16 by the Metropolitan chapter, Division of Employment, of the Civil Service Employees Association.

On that date, 20 years ago, nearly 550 employees who are still with this Division started their careers with New York State. In recognition of this long and devoted service, State Labor Commissioner Isadore Lubin will present these employees with 20-year service pins.

In addition, it will be 20 years, as of Jan. 1, since this Division started payment of unemployment insurance benefits.

Both events will be toasted at a cocktail party from 4 to 6 P.M. in the Belmont Plaza Hotel in New York City. The party will be preceded by the presentation of pins at 2 P.M.

Grate Nutley is chairman of the event and announces that Governor Harriman, State officials, leaders from the Legislature and Association officials have been invited to attend. Others wishing to join the celebration may do so by making reservations not later than Jan. 16 through contacting Marie Doyle at 533 Fulton St., Brooklyn. Tickets are $3.25.

The event will fall on the 75th anniversary of the creation of civil service, as well.

Vehicles Inspectors Mourn Two Leaders

The Public Service Motor Vehicle Inspector's chapter of the Civil Service Employees Association lost two of its most honored members within four days this month.

Henry J. Lang who served eight years as chapter secretary and treasurer died December 5.

On December 6 Joseph J. Lettis, chapter president for seven terms and chairman of the chapter executive committee for fifteen years, died.

Resolutions of sympathy were adopted by the chapter and delegations attended the services. The chapter charter will be draped in mourning for Mr. Lettis and Mr. Lang.
Christmas Greetings

We extend our best wishes for a new year bright with the blessings of God.

May our infant Saviour and his blessed mother bless you this Christmas Day and reward you abundantly for your generosity to God's less fortunate ones.

function of lobbyist

The lobbyist, because of his presence on the scene, can sense the direction in which a bill is going. He is better able to assess the legislative program should be attached to them. There is no magical formula which is used in getting a bill through the Legislature. Basically, lobbying is a combination of hard work, a sense of timing, and the solid support of one’s constituents.

Members Plan Main Role

The real strength of any organization is always the individual but it is the expression of the members of the organization through the leaders. The leaders of an organization can only plan and direct, their letters, their visits, their telephone calls, that really demonstrates its force and strength.

Metro Public Service Has Christmas Party

The Metropolitan Public Service chapter held its annual Christmas party on Thursday afternoon, December 19, at the Commission offices.

Guests present were James Casey, field manager of the Civil Service Employees Association’s New York office and Paul Kier, editor of the Leaders.

The members of the chapter who helped with the arrangements for the party were Mildred Ragler, Mary Davdoff and Elsie Galloway. The chapter extends its thanks to them for their able assistance.

The event was filled with merriment and gave the office a most agreeable spirit.

No State Residence Needed
In College Series of Tests

The State's search for candidates to fill clerk jobs will begin on Monday, January 6.

The title of the test is beginning office worker. The pay in most instances $2,720 to start, and the top of the grade, attained through annual increments, $3,456, except that a longevity increment can bring pay to $3,596. The job is in clerical and administrative positions.

Eligibles on the present list will be held on Saturday, March 29. No Experience Needed.

The examination will be given for filling jobs in the clerk title and three specialties—the clerk, account clerk, and statistics clerk. The grade 3 scale applies to clerk and file clerk jobs. Account clerks and statistics clerks will be appointed to grade 4.

Promotion Opportunities
The jobs offer an opportunity for promotion not only to clerical but also administrative positions.

Many of the jobs will be filled by the State in its New York City offices. Eligibles on the present list in the same title may compete in the new test, if they feel they can earn a higher score than they got the last time, and don't expect to be reached for appointment from the present list. The examination will be given for filling jobs in the clerk title and three specialties—the clerk, account clerk, and statistics clerk. The grade 3 scale applies to clerk and file clerk jobs. Account clerks and statistics clerks will be appointed to grade 4.

Queries Answered On Military Pensions

The Federal government has answered questions on pension credit for military service as follows:

HOW IS THE AMOUNT OF MILITARY SERVICE RETIRED FIGURED?

HORBERMAN NEW DIRECTOR OF PERSONNEL RELATIONS

Personnel Director Joseph Schechter appointed Solomon Horberman as director of personnel relations for the City Department of Personnel. Mr. Horberman for three years has been director of the division of training and career development and has been with the New York City department 17 years. He is a lecturer in public administration at the Graduate School of Public Administration at NYC.

Residence Law Repeal

The issue of repeal of the Lyons Residence Law appears to be coming to a head. Mayor Robert F. Wagner has declared himself personally in favor of repeal, adding that the Council has not seen fit to go along. Now Personnel Director Joseph Schechter, in a speech before the Citizens Budget Commission, advocates repeal to stimulate recruitment.

The issue has ramifications that will have to resolved before anything approximating agreement can be reached. Basically it's sound merit system practice to eliminate the requirement of three years' continuous New York City residence immediately preceding appointment. The makeshifts are laudatory, though the effect on that could be said in favor of repeal, and said it expertly.

The issue has ramifications that will have to resolved before anything approximating agreement can be reached. Basically it's sound merit system practice to eliminate the requirement of three years' continuous New York City residence immediately preceding appointment. The makeshifts are laudatory, though the effect on that could be said in favor of repeal, and said it expertly.

Arguments in Opposition

But there are tenable arguments against repeal, too. The City government, like all other branches of government, resorts to every conceivable device, short of raising pay to adequate levels, to stimulate recruitment. Some of the makeshifts are mandatory, though the effect on pay may not be. Applications are issued and received by mail, examinations are kept open continuously, others reopened because of insufficient number of applicants, examinations for hard-to-fill jobs are held repeatedly. Fast examination and hiring are practiced in filling stenographer, typist, and engineering jobs, and recruitment aid is enlisted from departments and universities. In the long run all alternatives to proper pay fail short. Policemen and firemen are opposed to absolute repeal of the Lyons Residence Law and think of out-of-town experience with the cost of living in New York City. To fill at present rates, might lose weight if examinations are necessary, to attract City residents to jobs that are hard and rightly so, that complete repeal would injure their stand.

Group to Study Law

Aldany, Dec 23 — Governor Dewey has appointed the administrator of a commission to study, recommend, and report on the feasibility of amending the current Law. Explanatory examination of the problems and implications of the application of the century-old McLaughlin Rule and the feasibility of amending the current Law will be the duty of this committee. Serving on the study committee will be:

- Edward S. City, City Auditor, S.
- Dr. Francis E. Shaw, Director of the Department of Mental Hygiene.
- Dr. Christopher F. Terrence, Director of the Rochester State Hospital.
- Dr. Herbert Wiesler, Professor of Law, Columbia University.

Social Security

The 1954 Amendments to the Social Security Act provide a system of aid to those who are totally disabled or who are disabled in certain cases of disability. Totally disabled workers between the ages of 18 and 65 who meet specified work and disability standards can receive monthly benefits under the old-age and survivors insurance program beginning with July, 1957. It is estimated that about 400,000 will be eligible to receive benefits for that month and that about 900,000 will be receiving benefits by 1957.

To be "disabled" within the meaning of the social security act, the claimant must be unable to engage in any substantial gainful activity by reason of any physical or mental impairment which can be expected to result in death or to last for a period of at least 12 months, and the claimant must be found to be unable to engage in any substantial gainful activity by reason of any physical or mental impairment which can be expected to result in death or to last for a period of at least 12 months, and the claimant must be found to be unable to engage in any substantial gainful activity by reason of any physical or mental impairment which can be expected to result in death or to last for a period of at least 12 months, and the claimant must be found to be unable to engage in any substantial gainful activity by reason of any physical or mental impairment which can be expected to result in death or to last for a period of at least 12 months, and the claimant must be found to be unable to engage in any substantial gainful activity by reason of any physical or mental impairment which can be expected to result in death or to last for a period of at least 12 months, and the claimant must be found to be unable to engage in any substantial gainful activity by reason of any physical or mental impairment which can be expected to result in death or to last for a period of at least 12 months.

Saving and Loan Examiner Jobs are Offered by U.S.

The U.S. government is seeking applicants for the position of savings and loan examiner in grades GS-7, $4,525-$5,335 and GS-9, $5,440-$6,250. Jobs to be filled are with the Federal Home Loan Bank Board and are located throughout the United States.

The job is open to men only. Applicants must be citizens of the United States and at least 18 years old. There is no upper age limit. Applicants will be accepted until further notice.

A savings and loan examiner makes examinations and audits of Federal and insured State-chartered savings and loan associations. He determines the quality of the institution's assets, the extent of its liabilities, the results and trends of its operations, and, to a limited degree, the integrity of accounts and records, and ascertains conformity with the provisions of its charter, bylaws, and governing laws and regulations.

For GS-7, the applicant must have had three years of general experience plus one year of specialized experience, at least one year of which should have provided him with a thorough knowledge of state and Federal laws applicable to savings and loan associations or banking institutions and of their operations and procedures.

For GS-9, he must have had three years of general experience plus two years of specialized experience, at least one year of which should have provided him with a thorough knowledge of state and Federal laws applicable to savings and loan associations or banking institutions and of their operations and procedures.

For detailed information and application blanks, write to the Second Regional Office, U.S. Civil Service, 641 Washington Street, New York 14, N.Y. Ask for announcement No. 122-B.

U.S. EXAMS

10-1-3 1957, STUDENT TRAINEE civil engineering, $3,415. Jobs are with the Bureau of Reclamation in the West, Oregon, and Alaska.

12-9, STUDENT TRAINEE (highway engineering), $3,415. HIGHWAY ENGINEER (trainee) and HIGHWAY ENGINEER, $4,800. Most jobs are with the Bureau of Public Roads, Department of Commerce.

Looking Inside

(Continued from Page 4)

And what about space itself—where does it stop, or doesn’t it? Einstein said that space is unlimited but finite. He pointed out that its quantity is determined by the finite nature of space, since curvature can account for complete continuity without determinable end.

The(Environment) turned the eyes of the world to space. It was now evident that interest would be stimulated also in what lies beyond even the orbit level of an artificial earth satellite. Not only was the world’s imagination fired, and deserved credit given the Russians, but astronomers, and mathematicians in general, began to speculate on whether it would ever be possible to launch an artificial satellite that would parallel the unique behavior of the Earth’s only natural satellite, the Moon. Of all the known satellites, the Moon alone rotates on its axis in exactly the same time that it completes one orbit around the Earth, further corroborating the fact that the Moon is the Earth’s only natural satellite.

The machine that the eyes of the world have been watching is but a small part of the much larger machine that is the universe. The success of the machine that is the universe in building up, dying out, or just maintaining the status quo, depends on what lies beyond.

Social Security
(Continued from Page 6)
In death or to be of long-continued
and indefinite duration.
A waiting period of six consecutive
months of disability is required
before benefits may be payable.
In order to qualify for disability
benefits a worker must be both
fully and currently insured and
also must have had 20 quarters of
coverage during the 40-quarter
period ending with the quarter
in which the disability begins.
These requirements are intended
to limit the payment of disability
insurance benefits to persons who
have had a sufficiently long period
of coverage under the program to
indicate that they were dependent
upon their covered earnings over
an extended period before they
became disabled and who had
enough current income to indicate
that they had enough
from covered work was probably
due to their disability.

Rehabilitation Enter.
The disability benefits program
will be administered in close re-
liation with the vocational
rehabilitation program.
Applicants for disability insurance
benefits will be referred to the vocational
rehabilitation agency. The law
contains special provisions de-
signed to keep the disability bene-
fits consistent with the objective
of rehabilitation.
A beneficiary who engages in
remunerative work pursuant to
a program for his rehabilitation
carried on under a state-approved

Questions Answered

I work for the same firm and my job was recently covered under Social Security. My income is over $4,200. Must I pay the Social Security tax at both places? V.O.R.

Yes, deductions will be made by both employers on your salary up to the $4,200 maximum for each. However, at the time you file your Federal income tax return you can apply for a refund of the taxes paid on all wages over the first $4,200.

I am a Fireman and on my days off I work for my son. Is this covered under Social Security? J.B.

No, employment by a son or daughter or a spouse is excluded from coverage under Social Security.

Now that I have Social Security, will my 17-year-old son be able to draw benefits based on my Social Security insurance? L.J.

Your son would not be able to draw benefits based on your Social Security coverage. The only ones who could draw on your account would be a dependent husband, children under 18, or dependent parents.

Dr. Ulysses Schutzer, director, commended Camilla Fitzgerald, principal stenographer, for her service at the Binghamton State Hospital, in honor of her completion of 50 years of continuous service. Among the guests was Dr. Kenneth Keil, director of Willard State Hospital and former staff of the Binghamton Hospital. The employees and staff of the hospital presented Miss Fitzgerald with a television set.

From left, Dr. Schutzer, Miss Fitzgerald, Mary Murphy, Cathleen Rickard, Florence Drew, and the Rev. Walter Rodd, hospital chaplain.

ACTIVITIES OF EMPLOYEES THROUGHOUT THE STATE

New York City

"Mr. New York City Chapter" is the title of the program for the 23rd, 1958, the chapter's executive committee meeting which will be held in the Department of Public Works to honor Joseph B. Byrne, treasurer of the chapter. Joe Byrne is a former police officer for 33 years, a number of years having been in the largest buildings in New York City.

Although Mr. Byrne is retiring from state service, he will continue to serve state employees. Joe Byrne was an elevator constructor in the state service.

December 23, 1958, the chapter's executive committee meeting will be held in the Department of Public Works. The program will be an exhibition of his paintings at the Art Gallery in New York City. Mr. Byrne is a former police officer for 33 years, a number of years having been in the largest buildings in New York City.

We hope that all the employees who are present will contact their local representatives in the State Department of Public Works.

for the last several years. Check it with your own record. If it is not correct, contact your local office and an investigation will be made to see why your wage were not reported.

I AM A WIDOW just turned 62 and I never worked under Social Security. My husband died in 1949. At that time the Social Security people told me he hadn’t worked long enough to be insured and so I wouldn’t be entitled to any benefits. Would it pay for me to apply again?

NEW YORK TIMES SUPPLEMENT

Tuesday, December 24, 1957
Ideas From All Over Win Money and Recognition

Time- and money-saving ideas from State employees continue to receive approval for award suggestions. Edward D. Tene, Chairman of the Employees' Merit Award Board, announced that applications are now being accepted for the 1957 Employees' Merit Award.

Certificates Given

Certificates of Merit were awarded to:

- Ruth A. Beals, a Senior Stenographer with the Department's Division of Professional Engineers and Land Surveyors.
- Donald V. Bowen, 417 Benson Avenue, Rensselaer, an Unemployment Insurance Claims Examiner in the Employment Division of the Labor Department.
- Mrs. Florence C. Winter, 1937 College Avenue, Albany, a Senior Stenographer in the Department of Taxation and Finance.

The savings gained from these and other accepted suggestions are equivalent to one and one-half million dollars, resulting in benefit to both the taxpayers and the State.

In addition, the following employees were awarded Merit Awards by the Board:

- Garmin Plummer, Nassau, Chapter of the Civil Service Employees' Association.
- Allan A. Babor, a Personnel Technician with the State Workmen's Compensation Board, announced.

The special program is being sponsored by the International Council of Latin American Cooperation, which will be coordinated by the State Division of Labor.

Chairman Harman stated that New York is one of the few States that has an equal voice in determining the policies and programs of the Council.

The refreshment committee was composed of Mrs. Miner, chairman; Miss Needle, co-chairman; and Miss Willoughby. Forty-two members donated cakes. Miss Needle prepared a cake for the brand new unit and the cake cutting was accompanied by a chorus of "Happy Birthday."
