WASHINGTON—Civil Service Commission has taken a beak on the rights of Federal employees who enter the armed services. It has made Government agencies to see that such employees are reinstated upon their return, without pay status.

The pay and benefits of many good employees have been lost, and it is not uncommon to hear of Federal workers who have had to do work that others are paid for in civil service.

Judge Exposes Harsh Loan Shark Operations Upon City Employees

Branding loan-sharks and sales racketeers as "ravenous wolves preying upon large numbers of New York City employees," Judge Albert Doerbeck of the Court of General Sessions, revealed last week that the money-lending racket is under increasing stress of war.

Judge Doerbeck, who is legal advisor for the Mayor's Commission on Credit Counseling, in his capacity as such for the first time invited employees to come forward.

"Many employees," he said, "are being victimized by loan-sharks. I urge them to come forward now to report these racketeers, and to participate in a campaign to exterminate this social evil.

The City Civil Service Commission will hold an examination in the near future for the position of Junior Medical Officer, Nursing, Health Department. The commission has already examined a number of candidates for the position of Assistant to the Commissioner of the Commission on Civil Rights, and the examination for this position will be held shortly.

Meanwhile, the Civil Service Commission has received applications from a number of women who would like to get the $500 a month salary that is paid to the position of Assistant to the Commissioner of the Civil Rights Commission. The applications are so numerous that only 18 candidates are being selected for the position.

PUBLIC WORKS

Cleaning Women Aren't Happy

Department of Public Works is trying to straighten out their cleaning women problems with the Budget Director's Office.

They may have to hire 600 permanent and temporary cleaning women getting $80 a year. However, an average cleaning woman earns $80 a year.

For a long time, they have been hiring women to do the early morning cleaning work in City buildings and paying them $80 which is only 60 cents-of-living bonus. Then the Municipal Civil Service Commission took over, accepted applications, drew up a list, and told the DPW to hire them on a permanent basis. But the Budget Office said: "They can only get $80."

So, the jobs were filled on a permanent basis at that figure. But the department women wouldn't take a permanent job at a lower salary, others, who had been hired to replace men in the City, were willing to stay on as temporary workers. The result is a group of women permanents and others who work alongside them.

The women (those who get the lower salary, aren't happy about it. The Department isn't happy. The Federation of State, County, and Municipal Employees isn't happy. And the APL, who is asking the Budget Office to do something, is equally unhappy. But, however, President Marsh of the American Federation of State, County, and Municipal Employees, who is the leader, said: "The women are asking for the Budget Office to do something, but so far no result.

HOSPITALS

If You're Sick

A day before she leaves, a hospital employee called The Leader and said she was angry.

She was on vacation and she took her job. Her director told her that she had to report to a hospital.

The hospital said the employee had the right to be following the rules and explained the situation.

They said that if she wanted sick leave, she'd have to come back to work the day after the vacation. Then she's a risk. The book which says that an employee in the Hospital Department can't get sick leave after the vacation unless he or she works for two days.

This reporter asked what happened if the employee has something contagious like smallpox, or is too sick to be able to work.

The employee has to take the matter up with the Secretary of the department. If the employee has given some convincing reasons for not being able to work the two days, the Secretary can make an exception. Otherwise, the employee has to do two days work, no pay while getting sick.

In other departments, if an employee can produce a certificate issued by his personal physician, his and their employees should be careful just when they take sick.

In the field of recreation, she has also able to work and see the growth of the Department of Parks from infancy to present widespread and diversified proportions.

Mayor's permanent lifetime of service was devoted to the children, of the Lower East Side playgrounds, in Tompkins Square Park, 106th Street and First Avenue, New York City.

A testimonial plaque has been presented to her commemorating her long and faithful service in the Department of Parks.

Almost Time To Clerk Promotion Test, But Plenty of Unsettled Angles Remain

The Municipal Civil Service Commission will hold examinations for promotion to General Grade 3 and 4, in November. The Commission has found that it isn't possible to give the examinations this year.

To begin with, some people have the ability to do so well on the tests that they fail to make enough money on the written examination should be the determinant for promotion. Others with long years of experience don't want to be behind, feel that experience counts, and would like to take the exam to add to the older worker's chances of making a good score.

Group Complainants

There have been specified complaints about some employees organizations against the way the test has been conducted.

The State, County and Municipal Workers of America, CIO, have provoked the experience requirements for these grades to a point. They say the two-year waiting period isn't necessary, hampers the advancement of efficient employees, and is in variance with the Civil Service in other classes.

They say that according to present methods, only about 200 clerical employees are promoted each year. With about 800 clerical employees in the City service, that means that some employees will have to wait 75 years for their promotion, they say.

They like to see a six-month experience requirement with the extra credit given for seniority adding to the older worker's chances of making a good score on the list.

The Civil Service Commission adds another objection. Their plan is against the manner in which the two parts and the list are being given.

Almost Two in Two Parks

The Budget office sees promotion as a gradual process. They like to see each employee pass the examination and get the service and get all his increments.

The tax on his salary is, and has won a place on a promotion which the employee would be satisfied to reach his top salary and the 400 employees raised before he begins to think in terms of the next grade and the salary, view of may have influenced the Service's decision against the establishment of requirements for clerical promotions.

Empowerment, who sometimes think of the Budget office in the person of its chairman, will agree with the policy of promoting employees when the promotion means an increase of $30 or $40 a year, but will not one out of three rates the chance of making promotions from the civil service list, but the Mayor has the power to authorize the hiring of em­

John L. Lewis Muscles In

JOHN L. LEWIS, through his United Mine Workers Union, has wedged his way into New York City's municipal civil service.

This is not a stunt with serious implications for every City employee, carries a moral: You can't kick employees around forever!

Here's how it happened.

The 74th year in New York City's school system has gotten a deal that must be called "raw." The workers themselves use harsher, and sometimes obscene, words to describe their contract, which they have agreed to be locked around by their bosses, the custodial engineers; they've been denied civil service status by the City; they are badly underpaid; they get their pay increased; they are other unions; for years they were hired, punished, and fired at will by their bosses. Finally they got together in a union, Local 74, of the Building Service Employees, AFL-CIO. What resulted was a contract, which was upheld by the courts, and improved working conditions—on paper. However, when it came to the showdown, their own independent organization, they asked a charter of John L. Lewis's United Mine Workers. They expect they will now get the aggressive backing they were unable to procure before.

CUSTODIAL WORKERS, LISTEN!

Now, a word to the custodial men and women. You have joined the organization of a man who didn't cavil at the New Deal, but seized it, the State of national peril. You have joined the union of a man who can take you into his bosom only through subterfuge—for you aren't mine workers or white collar, but into any of the groupings which the "catch-all" District 50 of the UMW has taken in. If you are a New York City utility worker, you have found John L. Lewis is aggressive, but is the sort of thing he did with the miners of aggressiveness which will help you? Your plight is bad, and you deserve the sympathy of this City's people. But you have taken the "oak" of a petulent child. You'll get nowhere without John L. Lewis's sympathy, and you won't get that sympathy through lining up with Lewis. Let's be frank and admit that you haven't thought the thing through all the way with women. And remember this: What has been done, can be undone.

A WORD TO CITY EMPLOYEES

A word, too, to other City employees: The UMW isn't going to stop with the gain of one union amongst City employees. It will go on to the others, and you when you hear the siren song.

THE POLITICAL MAKERS

And to the political-makers of the City administration, a word: Just read that moral at the top of this editorial. Let's not cavil at New Deal. You can't get away with kicking employees around.

Don't Stop Now!

The Third War Loan drive is finished. That doesn't mean, however, that the time for investing in war bonds is finished. The crescendo of bond-purchasing, particularly for Government, must rise and rise until the war is won. And NOW is the time to buy that extra Bond you meant to get during the drive—but didn't!

"Our daughter has a hope chest... in an envelope"

"When our little girl's great day comes—and it may not be more than 10 years off—she's going to have all the things a girl dreams about.

"Bright-flowered luncheon sets and fine Irish linen... satin-smooth percale sheets and soft fluffy bath towels... and lovely lace-edged lingerie..."

"A setting-out like that will cost at least $400!"

"We'll only pay $300. Because, you see, we're buying War Bonds for her. And for every $5 worth we buy we get $4 back in 10 years."

"So every single month we buy a $25 War Bond which costs us only $18.75."

"Buying freedom"

"And there's something else you can't help but think about when you buy War Bonds. We're doing more than saving money and making a good investment for the future. We're buying the guns and planes and tanks to defend our home. If we don't help our country now to defend our little girl's future, she won't have any future. Except a short and terrible life of slavery to a Jap or Nazi master."

"This little girl's father is putting every spare cent of cash into War Bonds, through the Pay-Roll Savings Plan. So are the great majority of Americans. But there are still some Americans who ought to be buying War Bonds through the Pay-Roll Savings Plan... and aren't.

"Others are in, but haven't hit their 10 percent yet. Some could stretch it to 12 percent or 15 percent, just as thousands of other hard-working people are doing.

"Everybody—every pay day—10 percent or more of your pay for War Bonds through the Pay-Roll Savings Plan is New Year's goal. And that we'll top the 10 percent in New Year. And that we'll top the 10 percent in New Year."

"These young people are reserving a space for the War Bond they're going to buy. This is the most important thing about the Pay-Roll Savings Plan. For the cost, the risk, the value, it is the best way to save money and buy War Bonds."

"Your comforths and your fun must wait. Your Bonds will buy them all some day... more of them than you can ever buy now."

"If you are in, be sure you're putting not 6 percent or 7 percent or 8 percent, but at least 10 percent into War Bonds every pay day!"

"If you aren't in the Pay-Roll Savings Plan... sign up tomorrow!"

"WHAT YOU SHOULD DO"

1. Already setting aside 10 percent of your pay for War Bonds through the Pay-Roll Savings Plan—boost that 10 percent if you can.
2. Working in a plant where the Plan is installed, but haven't signed up yet—sign up tomorrow.
3. Working in a plant where the Pay-Roll Savings Plan hasn't been installed, talk to your union head, foreman, or plant manager, and see if it can't be installed right away. The local bank will be glad to help.
4. Unable to get in on the Pay-Roll Savings Plan for any reason, go to see your local bank, or other issuing agent. They will be glad to help you start a plan of your own.
