PUT PRESSURE ON MAYOR FOR PAY RAISE, COUNCILMAN URGES

48-Hour Week in View for Postal Employees
President Calls for End of "Voluntary" Overtime

WASHINGTON — President Roosevelt has ruled that Government employees who work more than a 40-hour week shall be paid for all hours worked by the 15th and last day of the month. Employees will be paid for every single hour they work, and overtime pay during his administration will be required to work in excess of the normal eight hours. On special orders for不到 the order of the President or of such official or employee to the contrary, no employee shall be required to work in excess of the normal eight hours.

The important sentence is the last one.

WASHINGTON. — The leave law has gone into effect. It is regarded here as extremely significant.

Washington and taking on 10 per cent raises under the new Government pay adjustment bill.

New Govt Pay Table

Here is the Official New Govt Pay Table

WASHINGTON. — Here is the official new Government pay table, which will show Government employees the exact amount they earned for every single hour they worked, and overtime pay during his administration will be required to work in excess of the normal eight hours. On special orders for

Your Name

FDR Adjusts Pay in Special Case.

WASHINGTON — FDR has ruled that Government employees in the United States shall be paid at the new Government pay adjustment bill.

He has also ordered that the mail-fare ruling, which is being followed by the Post Office, be continued.

The Post Office, which is the only one that has been following the Post Office ruling, has been swamped for a few days, or when other units. But it had not been anticipated that the President would issue a specific prohibition against unauthorized overtime.

Hit While Collar Workers.

Among white collar workers, the "voluntary" overtime system has always been extant. It happens when a unit finds itself swamped for a few days, or when a hard-working unit finds it necessary to stay late.

The new ruling says "absence from overtime pay law has gone into effect.

Who handles bonds purchased for Employees who want to make any change in their check, or to close an account, must notify the Treasurer's Office. The new Government pay adjustment bill President Roosevelt signed into law on April 9, 1934.

WASHINGTON.—Sentiment is increasing in favor of the 48-hour week.
Civil Service Leader

This week's Civil Service Leader has focused on the issues of pay raises and promotions for city employees. The leader has highlighted the concerns of various unions regarding these matters. The President of the Civil Service Commission, John J. Morris, has been quoted as saying that the union's stand is "in a 'spot' and he does not want to shirk responsibility." The leader argues that the President "must be given fair play." The City Council, in its deliberations, has emphasized the importance of considering the rights of employees when making promotions and pay decisions. The leader concludes by urging civil service groups throughout the city to "press on," stating that "the Mayor is not saying not to do anything."
Findin Bureau Goes
Into Mayor's Office

Employees Protest Use of "Consultants" at High Pay

Last week an exam came through signed by Frederick H. LaGardia, transferring the Bureau of Training from the Municipal Civil Service Commission to the Office of the Mayor.

The change of title exam is scheduled for March 18. It will be held at locations to be announced later. The examination will be open only to those who have been appointed or employed by the Civil Service Department.

The exam is divided into three parts: Part I contains questions on arithmetic, Part II contains questions on mechanical ability, and Part III contains questions on the work of the Bureau of Training.

The exam will be given on March 18 at locations to be announced later. The registration period for the exam is from March 1 to March 17.

The exam will be open only to those who have been appointed or employed by the Civil Service Department.

The exam will be given on March 18 at locations to be announced later. The registration period for the exam is from March 1 to March 17.

The exam will be open only to those who have been appointed or employed by the Civil Service Department.
Is Your Exam Here?

Below is the latest news from the New York City Civil Service Commission on the status of exams. The LEADER will publish changes and exam results as they appear.

The Bureau for Welfare Payments of the Comptroller’s Office has set aside Thursday, January 7, 1943, as Blood Donor Day. Under the sponsorship of Comptroller Frank B. Lawlor, a contingent of 16 employees, headed by Henry Lobon, director of the bureau, will report to the American Red Cross, 2 West 37th Street, to donate its blood as a tribute to service.

This occasion is part of a drive to collect more donors, which began the early part of this year and to which the response has been very heartening. Fifty per cent of the bureau has already donated, and seven new donors are being considered for January 7. One employee, Joseph Marolla, is scheduled for his fifth donation, while two others will give their third and two more, including Mr. Lobon.

Homor Hall

A blood donor honor roll containing the names of 30 employees, with a total contribution of 27 pints thus far, is posted conspicuously in the bureau. In an effort to increase the number of donors, statistics of the slogan being a "friend or neighbor above, on Burbank’s Welfare Payments Blood Donor Day.”

CONTINUED FROM PAGE 4

The American Red Cross, 2 West 37th Street, is sponsoring a national Blood Donor Day. The bureau’s Dr. E. H. Leete, Deputy State Eanlcisance, has suggested that the public be kept informed of the need for donors by regular announcements in public places as well as through the press and radio.

In the bureau, a large number of employees have participated in blood drives, and have made contributions to the Red Cross. In total, 27 pints of blood have been donated, and it is expected that this number will increase in the future.

Leave of Absence; Rules Up in the Air

ALBANY.—Because the question of sick leave and vacations is so troublesome to employers and employes and their supervisors too—the State Civil Service Department has adopted a policy among the cities of the State to find out how they are handling this problem.

Returns indicate that few cities have adopted formal leave policies, and that you as an employee are apt to be pretty much up in the air as to leave of absence is concerned.

Still, the survey may offer some guidance. Here's what was found:

Typical Policy

Of the cities that do have a formal leave policy a typical one is that of Middletown, which in the opinion of the committee, is a fair representation of the state of affairs all over the country. Sick leave is defined to the charter as sickness or disability of the employee, sickness, disablement, or illness incurred in the discharge of the member of the employee's family, pregnancy, and fees. All applications must be granted by the department head in consultation, and it must be reported to the Common Council.

Salary leave with pay is based on one day per month per year and is cumulative up to a maximum of 30 days. Where an employee is out on sick leave for one or more complete calendar weeks, the leave is to be used up at the rate of five days each week's absence.

Maternity Leave

Maternity leave may only be granted without pay and maximum of one year, case of leaves taken during one day, a doctor's certificate and report must be filed in the Common Council.

Established vacation plans appear to be few in number in the cities surveyed, and vacations is what is wanted by the employees. You can tackle this problem by bringing it up with your employer and granting them two weeks with pay. One other summer or seasonal leisure is a week's vacation. The leave dates and holidays off are to be paid vacations.

Have You Taken One Of These State Tests?

OPEN-COMPETITIVE

Court Attendant, First and Second Districts, for appointment under examination of 20,000, dates to be announced. Notice to the eligible list of the First District will be sent by Jan. 10, 1945, and to the Second District will be sent out by Jan. 15, 1945. The test is to be administered in the First and Second Judicial districts as a result of a Statewide competitive examination of Filmmakers, Mental Hygiene.

13 candidates, held July 18, 1944. The written examination is complete, experience rating in progress. The next test in progress.

Senior Hearing Stenographer, 21 candidates; held September 19, 1942. Qualifying test rating completed. Experience rating is completed. The next meeting is September 13, 1943, in progress.

Vacations, leaves of absence, and other personnel policies.

The best way to do your business is to deal with the most experienced.

PAY EXPENSES

Court Attendant, First and Second Districts, for appointment under examination of 20,000, dates to be announced. Notice to the eligible list of the First District will be sent by Jan. 10, 1945, and to the Second District will be sent out by Jan. 15, 1945. The test is to be administered in the First and Second Judicial districts as a result of a Statewide competitive examination of Filmmakers, Mental Hygiene.
Women Urged to Take One of These Courses

A special invitation to women to enroll in the 27 training course programs which prepare them for direct participation in the war effort will be made by Professor William Allan at the City College, where the courses will be under the auspices of the School of Technology Building on the City College campus, at 150th Street and Amsterdam Avenue. Women interested in the course are asked to register at the School of Technology Building on January 11th through January 17th. The subjects will include, among others, Topographic Map Reading, Drafting, Descriptive Geometry for Naval Architecture and for Aircraft Design, four related courses: Production, Optimal Instruments, Shop Mathematics, Production and Testing, and Synthetic Rubber Manufacturing. After the he course, trained women are to be placed in the Civil Service Commission (if no comparable positions are available). Applicants should apply at the same office as men.

Skilled Men, Unskilled Women, For Aircraft Work

Skilled men and unskilled women are being sought by a Stratford, Conn., aircraft plant, a job that will be available this week by the United States Employment Service, Women will be paid hourly wages. Women seeking aircraft jobs must be between 18 and 45 years of age, in good health and have a minimum of two years of high school. These currently employed women war work will not be considered. Training runs one month in the company school where women candidates will be paid. After the first or second weeks following the first day of training. Applicants will be placed by the NYA's own placement service in Aircraft Industry factories. Applicants should apply either at 87 Madison Avenue, Manhattan, New York, or 2272 East 46th St., Long Island City, New York, and the local office of United States Employment Service juvenile intake. The nearest office of the School of Technology Center is somewhere in Connecticut, according to all available information.

Women, Too

Women are being sought to do machine shop, sheet metal, welding, metal working, electrical and radio work (the latter unit consists of assembly, inspection, and testing). They must be between 24 and 21 in age and their height and weight cannot be more than 150 pounds, must be between 17 and 25 in age, and will be paid $1,200 a year during the war. Women who have a driving license, a driver's permit, or a driver's certificate are desired for the War Industry Service, 42 Broadway, New York City. The jobs, which are Civil Service positions at the rate of $1,000 a year during the war, are being offered to women at the rate of $1,000 a year and $10 weekly pay, which is payable to them after five years of employment. The women must have an operator's license or a driver's permit. They will be trained in an intensive course basic, taking each shift in sub-jects. Applicants should register either at the School of Technology, 205 Schermerhorn Street, Brooklyn, or 25 E. 42nd Street, Boston, Mass.

Note to Business Men

Did you know that you can make a BONUS PAYMENT to your employees entering the armed services without approval of the War Labor Board?

Movie Camera Men

PROFESSIONAL MOTION PICTURE AND SOUND RECORDING men can have Army commissions, if they meet the requirements. Apply to the Officer Procurement Service, 46 Broadway, New York City.

Becoming a Marine Corps Officer

THE MARINE CORPS HAS EXTENDED THE DEADLINE for men between 20 and 31 desiring to become officers in that service. YOU NEED: college degree; or two years of college plus two years of business experience. Apply at the nearest Marine Corps recruiting station.

Word to Women

WOMANPOWER WILL COME INTO ITS OWN in 1943. More positions are available for women in more different types of jobs than ever before. They're already being hired as forest rangers.

TO FIND OUT ABOUT JOBS FOR WOMEN: If you want to do unpaid patriotic work, apply at your Civilian Defense Volunteer office.

If you want training for war work, apply at your local Board of Education headquarters, United States Employment Service, your local Youth Administration or reputable private school.

If it's government work you want, follow the civil service announcements, see the recruiting agents at a regional office of the Federal Civil Service Commission (if you live close enough).

General Bradley's Column

By Brigadier General John J. Bradley (Ret.)

This is the third of the weekly columns by THE LEADER's military editor, Brigadier General John J. Bradley (Ret.). General Bradley's column discusses such subjects as the effects of the changing manpower situation on Civil Service employees; opportunities that from time to time become available in the armed forces; jobs and training for war industries; changes in selective service regulations and their effect on every individual, with particular reference to those in Government employment. General Bradley's material is intended to be down-to-earth, and written in a manner that can prove directly helpful to the reader. While the General cannot undertake to answer individual questions, he will be glad to receive such questions, and if they are of sufficiently wide interest, to answer them in his column.

What's Coming in the Draft?

YOU MAY COUNT ON THE DRAFT TAKING ALL PHYSICALLY-FIT CHILDLESS MARRIED MEN under 31—men who have never been married—through May 1943. WANT TO BE EXEMPT? BE MARRIED.

ONLy EXCEPTIONS: Physicians, veterinarians, dentists; students preparing for such service; men whose service with the forces would leave a big, unfilled gap in the war effort.

DEPENDENCY WILL COUNT LESS AND LESS, occupation more and more, in determining who gets deferred. Allotments for dependents by the Government lessen the chances of dependency deferment. Occupation deferments for essential men in industry and agriculture will be given over consideration as the war continues.

BASIC QUESTION WHICH WILL ULTIMATELY DETERMINE DEFERMENT: Who can make the best possible valuable contribution to the war effort?
Some New Angles

On U. S. Pay Scales

W e received an interesting letter from a Federal employee last week, dealing with the recent pay raise.

"Was it a pay raise?" asks this employee. "Except for some special categories, did Federal civil service workers actually receive a pay raise through this bill?"

In a $1200 clerk in the Navy Yard actually going to receive more than a $100 base pay increase for the future?"

In our editorial last week we made the point that the fight of Federal employees for better pay was no less just than the fight of employees in private industry for more substantial measure will, we hope, be worked out. Federal supply depots. Reason: "We liked it here, so we decided to stay on."

Mr. Tremel, when he had more free time, says. "How many shops like this around the city?"

Priorities? Mr. Tremel says. "Centralization was the idea."

"Centrallization was what the powers that be said they wanted to do. They wanted to fix up this big, sprawling mess of a city."

"And they've done it. They've built new buildings. They've taken over old buildings. They've razed whole streets. They've closed off several downtown streets.

"And they've done it in a hurry. They've done it without any consultation with the people who live in the city."
Police Calls

Faint Talk About Plainclothesmen

The four-year Amen investigation, which was published on May 15th, has raised doubts about the loyalty of Amen's plainclothesmen. The report was received by the Commissioner of the New York City Police Department, and the Commissioner on this subject was to be in charge of any further investigation of the plainclothesmen. The report had indicated that some of the Amen plainclothesmen were much too close to the system of promotions and that the Commissioner was to be responsible for it.

During all this time, however, a different story was being circulated among many Amenplainclothesmen and Amen officials. The story was that there was no change in the system of promotions.

This information has been directly verified by the Commissioner and the Commissioners to date have been in the plainclothesmen. The report was received by the Commissioner of the New York City Police Department, and the Commissioner on this subject was to be in charge of any further investigation of the plainclothesmen. The report had indicated that some of the Amen plainclothesmen were much too close to the system of promotions and that the Commissioner was to be responsible for it.

This entire problem of the plainclothesmen is an extremely important one, and as it was in April of this year that the attention of the police was called to the problem of plainclothesmen, it is important that this matter should be given careful and immediate attention.

Nurse Unnamed

It has been announced that the nurse who was named as a possible suspect in the Amen case has not been revealed. This is contrary to what was reported earlier. However, it is likely that the nurse will be named as a suspect in the near future.

25,000-Man Force

At the December PBA meeting a vote was taken to increase the force of 25,000 men for the war-time period. This vote was made in anticipation of increased police patrols and the handling of a larger number of criminal cases during the post-war period.

In response to requests for us to discuss this subject with you now, the only possible solution is to increase the force of 25,000 men for the war-time period. This vote was made in anticipation of increased police patrols and the handling of a larger number of criminal cases during the post-war period.

By the Way

That “Success Story” of last year, however, refers to the successful conclusion of the PBA’s work for the year. It seems as if this year’s edition is in the works. The PBA is to be congratulated on its successful work for the year.

Now for That Gal

Miss Monroë O’Donnell, who only recently joined the PBA, is on the side of the supervising nurses. Her desire to be a nurse is evident in almost everything she does. She has a great deal to offer the PBA, and I believe that it is in her best interest to be promoted to the position of nurse. She has been moving forward with great speed and I have no doubt that she will be a great asset to the PBA.

P. D. Bulletins

For years now we have been trying to keep our readers informed of all the happenings in the police department. With the recent widespread troubles, the police department has been busy trying to get these bulletins to the public.

Budget Bureau on their efforts to avoid any semblance of corruption. The Budget Bureau probably will be given the task of investigating these activities. The report will be made until all the information is gathered and the Bureau has made a thorough investigation of the situation.

Budget Bureau probably will be given the task of investigating these activities. The report will be made until all the information is gathered and the Bureau has made a thorough investigation of the situation.

"I wish to be certain," he said, "that the activities of every police department, including the one in which you work in the war and even under normal conditions, are being done in the most effective manner possible, with the absolute minimum of personal loss to the state."

"I am doing my job in the most effective manner possible, with the absolute minimum of personal loss to the state."
They're Off Again

The postal boys don't wait you at all. Now they're pushing it that they'll have an additional $300, which is the formula for all postal employees who have been in service for at least a separate half hour. They want to obtain pay at their regular rate, with no overtime charge. Here's the situation: the boys are not absolutely satisfied with the fact that Congress has not passed the resolution that they have been waiting for. Some of them have been in service for over a year, but still no overtime adjustment. Moreover, they feel that they have been pushed by the public and may not have the overtime provision for the New York Letter Carriers Association brought in the last Congressional session.

President Emanuel Kushelewitz, president of the New York Letter Carriers Association, expressed his dissatisfaction with the fact that the flat $300 increase should be sought in a bill separate from the overtime provisions so that the public does not get the impression that they have been pushed by Congress. He said that the overtime provisions should be included in the bill that will be introduced in the new Congress to get that $300 increase, and that it will be introduced as soon as possible.

Fingerprint Group States Program

The next meetings of the Fingerprint Group of America will be on Thursday evening, Jan. 18th, and Feb. 15th, 1943, at 9:00 p.m., in its headquarters at 421 West 31st St., New York City. The Legislative Committee under the chairmanship of Joseph R. Smith, E.F.K., has promulgated bylaws which must be introduced at the next session of the New York State Legislature, which would put civilian fingerprint technicians on a professional basis. The organization plans a public hearing on the bill for the more qualified civilian fingerprint technicians.

The Committee on Science and Police Training, under the chairmanship of Joseph D. Schnecweiss, identified that they are working on a very important scientific program on the major types of criminal identification, namely fingerprinting and searching.

Follow the Leader for Bargain Buys

The Leader's ad for the new bridge at 30th and 31st Streets has been very successful. Many people have written in asking about the new bridge and how to get to it. The Leader is now receiving a lot of mail from people who want to know more about the new bridge. The Leader is also receiving a lot of mail from people who are not interested in the new bridge but want to know more about the Leader's products. The Leader is now receiving a lot of mail from people who are not interested in the new bridge but want to know more about the Leader's products.

Steno Jobs
Pay $34 Week

Several hundred Washington, D.C., positions as stenographers and typists are open in the Department of the Army, paying $34 a week including overtime. The offices are open to New York and New Jersey women and men.

Living accommodations for applicants will be arranged by the Army before they leave for Washington, transportation will be paid by the Army, and a Navy representative will meet them on arrival in Washington and assist them in becoming settled.

Girls with limited experience and older women not recently employed are requested to report for training in the office of the Commissary Department, 1428, 14th Street, New York City, where applications should be made. A New York office of the Navy Department has been accepted.

Persons interested in these positions should apply at the Second Regional Office of the Civil Service Commission, 641 Washington Street, Manhattan.

Technician Needed
In Science Jobs

The Wilbur B. Driver Co., 120 Riverside Avenue, New York City, is seeking skilled and unskilled technicians in the chemical, electronic and mechanical departments to work in its laboratories. Experience in physical and chemical analysis, in preparation of test samples, in the purchase and inspection of laboratory supplies, is required. If now employed in another line of work, chances are available here. The work is in Washington D.C., the pay, $34 a week in equal amounts.

Don’t waste anything, for that means wasted lives. Wasted money is wasted lives in wartime. Whether you can save money or not, let us go toward War Bonds to help your State meet its quota.

LEGAL NOTICE

George L. Bandy, President of the Power Tool Co., Inc., 572-574, 8th Avenue, New York City, was granted an order for the sale of his real estate at 572-574, 8th Avenue, New York City, subject to the power of sale in the mortgage of $2,000, in favor of the said Power Tool Co., Inc., dated July 16, 1943, and recorded in the Office of the Clerk of the County of New York, in the Books of Mortgages, vol. 12292, page 33, on November 15, 1943.

Fortress on the Volga"

At the Stanley Theatre

"Fortress on the Volga," the Soviet film now showing at the Stanley Theatre, deals with the heroic defense of Stalingrad (then known as Tsaritsin) in 1942. Though the picture gives but slight reference to the current struggle, its subject matter is timely for it is based on the efforts of Comrade M. A. Ivanov to save the city that was later to become the most famous in the Russian Union.

Western Union

Seeks Night Clerical Workers

About 100 women from 18 to 35 for night clerical work are being sought by Western Union at the main office at 50 Hudson Street. Manhattan.

The jobs call for distributing messages, answering telegrams and addressing messages. They pay 20 cents an hour to start, with time and a half for over 40 hours. Hours are from 4 p.m. to 12 m.m.

Applicants are required to have at least two years of high school. The girls must have had no contact with the war effort. Interviews will be given at Hudson Street through January 35.

Federal Employee Group Blasts 'Ignorant' U.S. Administrators

In one of the hardest-hitting statements ever made by its officers, the National Federation of Federal Employees, independent union group, this week tore into Federal personnel practices and some of the officials responsible, and stated bluntly, moreover, that there are now too many employes on the government payroll and that the public reaction to this condition is hitting the employees themselves, who are in no way responsible. The NFPE went into the pay adjustment question, and demanded enactment of permanent legislation granting overtime pay on an equal basis to all employes, plus improvement in pay in accordance with the formula recognized for employees in private industry.

Said Luther C. Stewart, pres­ ident, and Gerard M. McNally, secretary-treasurer of the union: "Too many recently arrived offici­ als were brought in without ade­ quate authority to make such changes as they deemed necessary to improve government efficiency....Thesechanges would have been made regardless of the condition of public funds, were it not for the fault of the employees themselves. It is, un­ fortunately, the fault of those who have the power but not the experience, or necessarily the capacity, for planning and administering government operations.

The National Federation of Federal Employees foresees clearly—and knows by long experience—that a tidal wave of public revolution never rolls back to its original limits. Such a crescendo of public opinion will be, in all probability, temporary, and will go along with it all the vitally important and constructive gains made in the field of public 76 employee administration." Stewart and McNally called upon the public to support Congressmen Robert Rumph in his high purpose of U.S. personnel policies.

No Experience Needed for Office Work at Bendix

Young women for office work as well as for factory jobs are required at the Bendix Aviation plant's Republic Division in Beverly, N. J. Foundries are located in Hanover, N. J., and the company is in Beverly, N. J. No experience is necessary. Applicants will be paid while learning. The plant is only 10 minutes from the train station. Those now occupied in war work will not be considered.

Discharges for Soldiers Over 38

THE ARMY IS NOT COMPelled TO RELEASE A MAN OVER 38. Each case is considered on its own merits.

If a soldier over 38 wants his discharge, he can get it if he meets these conditions: Voluntarily requests his release in writing from his immediate superior; is handicapped by his age so that his usefulness to the army is secondary to his usefulness in industry; presents evidence that he will be employed in war industry or agriculture upon his discharge.

Watch Next Week's Column

WHAT SHOULD YOU STUDY if you're going into the armed forces? Watch next week's column for hints to men who will soon be soldiers or sailors.

Civil Service Career Man Becomes Judge

On Tuesday, James J. Justice, editor of "Washington Post" and a LEADER Merit, will be inducted into office. The ceremo­ nies will be under the direction of the Association of Supreme Court Attorneys of the State of New York. Professor John F. N. Fiske, of Harvard University School of Law and Chairman of the City Commissioners of New York County Lawyers Association, will deliver the re­ view address. "It is the first time that a former U. S. Civil Service career man has been appointed to a judgeship in a court of record."
