NYC Employee Morale Hits New Low

MANY U.S. JOBS STILL OPEN
Internal Revenue Unit Moves to NYC; WPB Branches May Come to Big City

WASHINGTON.—The Bureau of Internal Revenue will hire 2,500 service employees in its statistical unit that was moved to New York City from Washington over the weekend.

Commissioner Guy T. Helvering told legislative committee that the move was necessary due to the growth of the internal revenue service. About 300 employees are being transferred over the capital.

Helvering also told the Senator that a considerable number of new people would be hired for the NYC office when the new unit becomes effective—just when that's everyone's guess. However, it appears that New York will get the lion's share of the emergency revenue operations in the future.

In the past, when new tax bills were being adopted in Congress and other Internal Revenue officials were called to Washington to deal with new tax laws, the increased work of collecting new revenue was divided among the employees both in Washington and in the local offices.

The bureau has been confined to the office of Internal Revenue in Washington, where more than 3,500 people are employed. This building is jam-packed and new employees will be hired for duty in Wash­ington except to fill vacancies. However, the establishment of the headquarters office will be made in New York City.

WASHINGTON—Another agency that's hiring is the War Production Board. Administrator Samuel M. Rosenman, Veterans Administration, and Civil Service Commission officials told employees in its statistical unit that Washington would be more than 2,500 people.

WASHINGTON—The new Revenue Act of 1942 provides that employees in new grade—CPC (which means craftsman, protective, and custodial service) who put in overtime will start at $1,500 and will be increased to $2,000, $2,500, $3,000, $3,500, and $4,000, respectively.

WASHINGTON.—The Civil Service Commission has announced that approximately 1,500 employees in the War Production Board's Civil Service Commission will report out a postal workers' report on the prospects. The general overtime bill is a healthy sign for the million employees who put in overtime.

WASHINGTON.—A movement is under way for the War Production Board to take the issue to Congress and propose shifts.

WASHINGTON.—Congress must act on the postal workers' report on the prospects. There is some speculation that the postal workers' report on the prospects will be taken to the House Civil Service Commission. The general overtime bill is a healthy sign for the million employees who put in overtime.

WASHINGTON.—The Federal Civil Service Commission will meet to consider the report of the postal workers' report on the prospects. There is some speculation that the postal workers' report on the prospects will be taken to the House Civil Service Commission. The general overtime bill is a healthy sign for the million employees who put in overtime.

WASHINGTON.—The Federal Civil Service Commission will meet to consider the report of the postal workers' report on the prospects. There is some speculation that the postal workers' report on the prospects will be taken to the House Civil Service Commission. The general overtime bill is a healthy sign for the million employees who put in overtime.

Employee Morale Hits All-Time Low in City Agencies

"Whether further dismissals must be made will depend upon the amount of valid claims for back pay."

These words ended the statement of Mayor William H. O'Dwyer at a meeting of the Board of Estimate in June 1942, in which he asked the dismissal of 67 Welfare Investigators.

Thus, hanging over the heads of the 67 Welfare Investigators whose first effect, as ascertained by LEADER reporters, has been a chill of morale, a sudden fear whose immediate result has been a semi-paralyse of many of the everyday services they perform.

Here's a sampling of comments held an asphalt worker in the Manhattan Borough President's office: "I keep thinking how am I going to feed ray family."

A man feels that his job might be affected one way or another. From now on, I'll do my best I have to do, and no more."

What's City Going To?

"This is the first time in many years in the civil service of New York City."

He started in 1931, a watch­cheker in the police department: "I was only 18."

In 1934, he was reinstated in the Brooklyn Borough President's office: "I was off 9 years."

After many years, under the McCarthy Increment Law, he is regular in his job."

"I went back to the Board of Transportation at a salary of $1,850."

Then, in 1933, William was promoted to a grade 4 in the Brooklyn Borough President's Office."

Two weeks later, he was reinstated in the Department of Parks."

"I was reinstated by the Board of Estimates." saiv Savage: "The Court of Appeals decided I was entitled to my job."

So, he set out to go again.

Eleven Years Of Merit System

This is the mid title of William F. Savage, a veteran 11 years in the civil service of New York City.

"I was 18 in 1931 when I went to work for the city."

In 1934, he was reinstated in the Brooklyn Borough President's Office: "I was off 9 years."

After many years, under the McCarthy Increment Law, he is regular in his job: "I went back to the Board of Transportation at a salary of $1,850."

Then, in 1933, William was promoted to a grade 4 in the Brooklyn Borough President's Office."

Two weeks later, he was reinstated in the Department of Parks."

"I was reinstated by the Board of Estimates." saiv Savage: "The Court of Appeals decided I was entitled to my job."

So, he set out to go again.

Union Urges OK of Mayor's McCarthy Changes

In an extended statement issued this week, the State, County and Municipal Workers of America has urged acceptance of the Mayor's amendments to the McCarthy Increment Law, with two slight revisions. The union, through its activist Joseph V. King, argued for acceptance as a "practical course of action" to avoid the loss of 600 jobs and protracted litigation in the courts. The statement follows:

"The State, County and Municipal Workers of America has been active in the situation of the 67 dismissed Welfare Investigators from the very beginning. We appeared at the hearing before the Municipal Court. We were active in the situation of the 67 dismissed Welfare Investigators from the very beginning. We appeared at the hearing before the Municipal Court."

"Here's a sampling of comments held an asphalt worker in the Manhattan Borough President's Office: "I keep thinking how am I going to feed ray family."

City to Re-open Filing
For Grade 1 Clerk Test

Applications for the New York City clerk grade 1, exam which will be held on Tuesday, August 18, 1942, will be received for a period of five days, beginning at 9 a.m. after Labor Day last year. 36,619 candidates applied for this test, which has not yet been held. The candidates who filed in January will not have to file again.

The requirements for the test will not be changed. As in January, anyone who has completed grade 11 high school will be eligible to take the exam. The exam will be held on August 18, 1942.

From Fireman List

The names of 243 fire eligibles have been removed from the fireman list for a period of one year, as the vacancies were not filled. Additionally, 27 names have been removed by the Civil Service Commission.

Promotions

Fifteen appointments as assistant firemen in the Sanitation Department have been made since the last list was announced by the Civil Service Commission. As the last list was published on November 15, 1941, it contained 2,507 names.

Sanitation Men Get Promotions From New List

Fifteen appointments as assistant firemen in the Sanitation Department have been made since the last list was announced by the Civil Service Commission. As the last list was published on November 15, 1941, it contained 2,507 names.

Questions on the clerk grade 1, exam given on December 15, 1941, will be used to certify candidates for the test. The exam will be held on August 18, 1942.

The Civil Service Commission has announced that the test will be given to all high school graduates. There will be an open-competitive test and thirty-five appointments will be made.

CIVIL SERVICE IN NEW YORK STATE

State Group Organizes School Program

ALBANY—Harold J. Fisher, president of the Association of State Civil Service Employees to-day announced the launching of an educational program which will be initiated at Siena College, Loudonville on September 16th. Having as one of its objectives the development of career opportunities for State Civil Service Employees, and realizing the new types of job classifications that have appeared in the listings of civil service examinations, the Association, in concert with its Executive Committee, approved a plan of cooperation with educational institutions near Albany conducting evening courses with college credit and approved by the Regents of the state of New York, to make available to State employees the opportunity to obtain training in useful vocational programs which will be helpful to the efficiency of State service and the career advancement of employees in public service.

McLaughlin Chairman

Association Executive Committee was appointed by Mr. Fisher with Mrs. Eugene Mead, president of the Division of Examinations of the State Civil Service Department as chairman, to operate the project, and by reason of the association in cooperation with Siena College have been planned on the basis of their practicability, to give value to the individual's advancement to higher and more responsible positions.

The sources will be given at Siena College under the superintendence of the faculty and will include "Traffic Writing," which is based on the principles of good writing as applied to letters, memoranda, reports, paragraph, and other communications written by government agencies; "Federal Construction," dealing with the projects and participants in public construction; "Payroll Administration," dealing with principles of personnel administration, such as: "Uniforms and Insignias," "Leadership," "Secretarial Management," "Social Service," "Government." This organization functioned in the past at various State Agencies in New York State and the plan is to conduct in this manner general gactorial teaching by the use of a microscope, isolation and identification of biological material, elements of the earth, microorganisms, culture media, the bacteriological techniques of making and reading, serum, milk and foods, infection and immunity.

The employees who undertake the training must be and will be given Regents Public Service Training Certificates by the Bureau of Public Service Training of the State Civil Service Department. These certificates are recognized by the State Civil Service Department as fulfilling civil service examination requirements.

Formal registration for the evening classes will begin August 15th. Classes will be held Monday, Wednesday and Friday at 8:30 p.m. on August 31, September 16 and 23. Monday classes will be held in the auditorium of the State Office Building in Albany. Other classes will be conducted at the State Office Building and the location of the classes will be announced. The classes will be conducted under the supervision of the Association and the Institute for the Association's headquarters in the State Capitol Building, Albany.

Who's Serving

Serving with Mrs. McLaughlin in the Association's Educational Committee are: Dr. Iscar Haupt, president of the Siena College, State Civil Service Department; Elium J. Harrison, director of the State Social Welfare Department; and LeRoy F. Van Leer, director of the State Social Welfare Department.

State Probers Begin Probing

ALBANY—The Joint Legislative Committee on the Civil Service of New York State held its first meeting last night when Fred R. Hollowell of Fort Ticonderga is chairman and William J. D. Greig, former director of the Public Employment Department, vice-chairman. It was announced that the inquiry had begun.

"We are making our start," said Chairman Hollowell "by asking the members of the Civil Service Commission to give us their views in a number of the fundamental details regarding the operation of the Department of Civil Service. We are going to probes along lines that will be of the greatest evidentiary value to the State and we feel that, therefore, the Civil Service Commissioners should be given the opportunity to present their own words either jointly or individually, the facts as to their methods of operation and to state their programs.

"From that point on we intend to review every subject and fact that has a bearing on the question of how the merit system in the State can be strengthened in a way to affect the efficiency of a department of government, the constitutionality, the protection to the public interest and the citizens who wish to enter the civil service of the State. It is our intention to show that the State is the best organization to provide competent personnel services for the tax money spent."

The committee has filed a number of the questions before the Commission dealing with each subject of the process of establishing positions, the "jurisdictional classification of positions as unclassified, classified, exempt or non-competitive," and the criteria on which the examination is based, the nature and use of the occupational classification and the merit system, the methods of promotion, and the use of personal appointments.

Frank O. Hovey of the firm of Hovey, Ralston & Associates will act as the committee's principal technical consultant to the chief of the field work. Mr. Hovey is slated in a similar capacity for the Hitchens Committee now conducting a separate study of the State service for the State Civil Service Commission. His work for the classification and Civil Service legislation adopted since that time.

Progress Slow On State Tests

ALBANY—Progress in the rating of several completed examinations for State Jobs is moving slowly. It appeared doubtful that the rating of the motor vehicle safety examinations, which were completed on September 10th will be finished by September 14th or 15th. The list for dairy and food inspector probably will be out next week. You can't buy one of these tests, and the cost is $100 in advance.

Your country has a War Bond Fund, and no one need fear he will lose $100 to the War Bond Fund. For example, a $100 investment today will not put $100 into War Bonds?

When Does Seniority Begin?

ALBANY—In determining the date when a person becomes entitled to the competitive class, should he take his seniority into consideration? The answer is that the employee should only compete in the class in which he is classified, and if he wishes to compete in another class he should apply to the civil service department and the department should only classify competitive class services.

Joseph Scholzler, counsel to the Board of Examiners, explained that the law has been understood in every other situation where an employee is allowed to take any other examination which is not otherwise barred by the law, in any other situation where an employee is allowed to take any other examination which is not otherwise barred by the law. It has been understood that the employee is allowed to take any other examination which is not otherwise barred by the law. It has been understood that the employee is allowed to take any other examination which is not otherwise barred by the law.
How Would You Like to Be An Aerial Gunner?

The Army Air Force needs more aerial gunners—men with speedy reflexes and precision training for accurate firing of 30- and .50 caliber guns into enemy planes attacking American bombers thousands of miles an hour.

Signal Corps Issues Call For Men to Learn Radio

The following is an interview between the Signal Corps and a private student at the Signal Corps training center.

Signal Corps: What are you studying at the Signal Corps center?

Private: I am studying electronics.

Signal Corps: What do you hope to do after you complete your training?

Private: I hope to become a radio operator.

Signal Corps: What kind of work do you expect to do in the Signal Corps?

Private: I expect to work with communications equipment.

Signal Corps: What kind of equipment do you expect to work with?

Private: I expect to work with radio transmitters and receivers.

Signal Corps: What kind of training do you expect to receive?

Private: I expect to receive training in the fundamentals of electronics, radio and communications.

Signal Corps: What qualifications do you need to become a radio operator?

Private: I need to have a good understanding of electronics and radio theory.

Signal Corps: What is the most interesting part of your training?

Private: I think the most interesting part of my training is working with electronic equipment.

Signal Corps: Are you interested in working with radio equipment in the Signal Corps?

Private: Yes, I am very interested in working with radio equipment.

Signal Corps: What is the future of electronic communications in the Signal Corps?

Private: I believe the future of electronic communications in the Signal Corps is very promising.

Signal Corps: What is the future of radio equipment in the Signal Corps?

Private: I believe the future of radio equipment in the Signal Corps is very promising.

Signal Corps: Do you think you will be able to find a job in the Signal Corps after you complete your training?

Private: I am confident that I will be able to find a job in the Signal Corps after I complete my training.

Signal Corps: What is the most important lesson you have learned so far in your training?

Private: The most important lesson I have learned so far in my training is the importance of precision in radio communication.

Signal Corps: Are you willing to work long hours in the Signal Corps?

Private: Yes, I am willing to work long hours in the Signal Corps.

Signal Corps: Are you willing to travel to different locations for your work in the Signal Corps?

Private: Yes, I am willing to travel to different locations for my work in the Signal Corps.

Signal Corps: Do you think you will be able to advance in the Signal Corps?

Private: I believe I will be able to advance in the Signal Corps.

Signal Corps: What is the most important quality you need to possess to be successful in the Signal Corps?

Private: I believe the most important quality to possess to be successful in the Signal Corps is a good understanding of electronics and radio theory.

Signal Corps: Are you interested in working with radio equipment in the Signal Corps?

Private: Yes, I am very interested in working with radio equipment in the Signal Corps.

Signal Corps: What is the future of electronic communications in the Signal Corps?

Private: I believe the future of electronic communications in the Signal Corps is very promising.

Signal Corps: Are you interested in working with radio equipment in the Signal Corps?

Private: Yes, I am very interested in working with radio equipment in the Signal Corps.

Signal Corps: What is the future of radio equipment in the Signal Corps?

Private: I believe the future of radio equipment in the Signal Corps is very promising.

Signal Corps: Do you think you will be able to find a job in the Signal Corps after you complete your training?

Private: I am confident that I will be able to find a job in the Signal Corps after I complete my training.

Signal Corps: What is the most important lesson you have learned so far in your training?

Private: The most important lesson I have learned so far in your training is the importance of precision in radio communication.

Signal Corps: Are you willing to work long hours in the Signal Corps?

Private: Yes, I am willing to work long hours in the Signal Corps.

Signal Corps: Are you willing to travel to different locations for your work in the Signal Corps?

Private: Yes, I am willing to travel to different locations for your work in the Signal Corps.

Signal Corps: Do you think you will be able to advance in the Signal Corps?

Private: I believe I will be able to advance in the Signal Corps.

Signal Corps: What is the most important quality you need to possess to be successful in the Signal Corps?

Private: I believe the most important quality to possess to be successful in the Signal Corps is a good understanding of electronics and radio theory.

Signal Corps: Are you interested in working with radio equipment in the Signal Corps?

Private: Yes, I am very interested in working with radio equipment in the Signal Corps.

Signal Corps: Do you think you will be able to find a job in the Signal Corps after you complete your training?

Private: I am confident that I will be able to find a job in the Signal Corps after I complete my training.

Signal Corps: What is the most important lesson you have learned so far in your training?

Private: The most important lesson I have learned so far in your training is the importance of precision in radio communication.

Signal Corps: Are you willing to work long hours in the Signal Corps?

Private: Yes, I am willing to work long hours in the Signal Corps.

Signal Corps: Are you willing to travel to different locations for your work in the Signal Corps?

Private: Yes, I am willing to travel to different locations for your work in the Signal Corps.

Signal Corps: Do you think you will be able to advance in the Signal Corps?

Private: I believe I will be able to advance in the Signal Corps.

Signal Corps: What is the most important quality you need to possess to be successful in the Signal Corps?

Private: I believe the most important quality to possess to be successful in the Signal Corps is a good understanding of electronics and radio theory.
A Word to the Mayor

N O ONE can accuse the Mayor of vaccination as witness the case of 67 investigators in the Welfare Department, who were booted out of the department's schedule as announced by Butch, because the City Council didn't act fast enough in amending the City increment law the way Butch wants it amended. Most of these employees had been with the City many, many years, and had done a competent job of both by the State and Federal governments. And the obvious conclusion was that other employees would follow if the Council didn't buck under.

The appointment of Sydney Brown, numero uno on the fire list, was revoked. Reason: Draft status...

Next Week

OPPORTUNITIES

IN THE U.S. NAVY

The Welfare Firing

Sirs: Allow me to protest as vigorously as I know the Mayor's protest. Firing civil service employees if his wishes weren't unanimously met, and the Civil Service isn't helping us one bit. I know I speak for my fellow employees as well as myself when I say that we've just plain sensed... RETIRED PATRIOT.

Good News

T IS NICE to be able to say that on the Federal scene, things are looking up. Congress passed and the President signed recently a measure establishing a minimum $1,200 wage for Uncle Sam's employees, and we hope that some... Suffice it to say that the City will have a complete history of the postal workers may be met in pay for Federal employees; and we hope that some... Monies from the WPA have been for Sanitation and the difficulties which prevent the publication of Federal newspapers...

NEW YORK 

CIVIL SERVICE LEADER
Union Urges OK of Mayor's McCarthy Changes (Continued from Page Three)

York has stated that unless the McCarthy Mandatory Incriminations cannot be amended as to price, a hearing of $4,000 on all in- crease of $2,500 for the ungranted service, the cost to the City will be approximately $600,000 a year. The Mayor and the Budget Di- rector have been asked to delay the bill and,to pay out $450,000 a year and that compensatory economies in the department of police are the question necessary if the amendments are not made.

The course of action in this situation is easy or pleasant. The membership of the Police Commission cannot be expected to react with enthusiasm to the proposed amendments. The City employees cannot be expected to react to such proposals with enthusiasm.

Amendments—Or Litigation

"Exclusiveness aside, what we have to decide is whether course of action is the most prac- tical. Certainly good will not unite a judiciary for the people who serve them. At the same time, the logic of the game, that practical course must be followed by the members of the City Council to a compensatory amendment to the McCarthy Law. The only way we can get a compensatory amendment is for the employees who are already protected is to be re-protected and hopefully dubious full- time employees are of no account for an additional year or two of unemployment will make it lose a new hire for more than 250 employees."

Bambi Makes His Debut

Bambi, the multi-colored little boy who made so many younger the world over, made his film debut in "Bambi and the City" last week, to the delight of the world's children. In the forest, on the farms, and in the fairytale that was the Motie Hall Theatre as Walt Dis- ney&#39;s favorite bi-personality of the little fawn who grew up with the deer and surrounded by the woodland. With Thumper, the local rabbit, who had mastered a limit to prepare somethings for: Flower, the suckling with the indifference complex, Friedl, the forest misanthrope, and dicer of other forest phenomena, no child could ask for more real- istic fantasy.

Davis has surpassed himself with color and animating ef- fects that create atmosphere far beyond the local story tellers. There are of course many "cute" moments. Bambi's discovery that "staff water" was a rather slip- pery thing; a final attempt to jump over a log, etc. Bambi is without doubt a picture that tug at the heart.

Signal Corps

(Continued from Page Seven)

years of mathematics and one year of physics, has received his appointment letter.
Lapoint: Yes, that is important.

Chaffee: After he has enrolled, we will send you an enrollment card and you will extend for his physical examination. If he passes, he is sworn into the Signal Corps."

Must Attend Regularly

"That's right, and the man should be told that if he does not attend classes regularly, he will be forced to leave."

Chaffee: Then you recommend that this is one of the best ways by which a Signal Enlistment can be made.

Lapoint: Many a good radio student has been lost to our service by the service be- cause he was too late before applying for enlistment in the Enlistment Reserve Corps. Once a prospective candidate receives a final induction notice, his chances of landing in the Sigal Corps are rather remote. By this method, they begin as Signal Corps men, get their advanced training while still on an active duty. When do you begin the course?"

How to Apply

Chaffee: It begins in August. In 30 cities in New Jersey alone, men have been informally called to write to Radio Training, Rutgers University, New Bruns- wick, New Jersey, and ask for in- formation. "Fundamentals of Radio for Signal Corps."

Of course you will have the opportunity to attend classes in New Jersey.

Bambi and the City

Monty Woolley and Andy McAllister starring in The First Fire- pipe now at the Roxy Theatre.

Resort News

As Labor Day creeps up on us, we take a last look around for some spots on the Jersey shore. If you have taken our administrated tour through the two weeks in the weeks.

The weekend problem is always the railroad. Even a yearly train or bus. Unless you have some distance, you will probably find it difficult to make get- to-dates of the corners of the county.

Best bets within the 75-mile radius of New York City are: Plum Point at Beach Haven, N. J.; Broad Cove near Cape May; Smith Island; Englishtown, N. J.; Allentown, N. J.; Stone Harbor, N. J., and one of the many campgrounds in the area. All of these are within 1½ hours of town and are listed at $6 per night. In Technicolor

BAMBI — In Technicolor

From Walt Disney's Novel

Released by RKO Radio Pictures

On the Great Stage of American Life

The motion picture theme of "Just Like Us" has been developed further with this special film, the third of the series, for what we call "Our Country's Children." The film, "Bambi and the City," has been released and is being shown throughout the country. The film has been a great success and has made a lot of money for the studio. It is a charmingly simple story, with a simple, charmingly simple story, with a charm of its own. The film has been a great success and has made a lot of money for the studio. It is a charmingly simple story, with a charm of its own.
Hughes Condemns 'Salary-Cut Drive'

A vigorous protest against Mayor La Guardia's proposed amendment to the Civil Service law was made this week by Senator Hughes, chairman of the Civil Service League. It was prompted by the recommendation of the Civil Service League, that a gross injustice be done to the employees of the city.

They Do What

The League pointed out that to check all employees in the city for compliance with the new Civil Service law, the city must find the employees. If you are on a civil service list, you must pay $1.20 a week for an examination and $1.20 a year for a civil service license. A civil service license must be in the possession of every employee.

Provisional Appointments

In the absence of the Cenl Trustee, Captain John Hughes, and Deputy Treasurer Arthur A. Lynch, a call attended by Assistant Treasurer Robert A. Collins. F. J. Cullen, a member of the Trustee Board, presented the audit report of the Board of Trustees for the last quarter.

New Contracts

The new contracts for the Civil Service Commission are now being bottled up in the Civil Service Building, where the contracts are now being prepared. The contracts are for the temporary period of three months.

Conductor-Test

All Finished

The conductor- test is over. The list of 300 candidates who failed the practical test is in the Civil Service Building. The test was held on July 15, and will be repeated on July 16. All that remains now is for the Civil Service Commission to complete the list of eligibles.

Lack of Uniforms

The publication of the eligibles list has been delayed because the candidates are not wearing uniforms. The list of eligibles is now being forwarded for the final approval of the Civil Service Commission and will be published in The Leader next week.

Win-the-War Show

The names of all of the Welfare Department employees, as well as every other citizen, were invited to attend the Win-the-War Show at the Grand Central Palace, which runs from August 17 to August 25. The show is expected to provide a welcome relief to the weary employees.

Vacancy Reopening

This week the BMT Division announced that the vacancy in the First Street, headquarters of the Board of Education in Brooklyn, has been filled. The new incumbent is Miss Mary White, who has been with the Board for several years.

ARMY, NAVY STUFF

Mr. Whitaker, a well-known sportsmanship critic, has been appointed to head the Army and Navy Stuff Committee, which is responsible for the military affairs of the city.
