Pay-Raise Drive Takes Turn for Worse: May Be Months Before Congress Acts

By CHARLES SULLIVAN

WASHINGTON. — The pay raise drive may take a dramatic turn today which would force the Congress to act on it immediately. It's a long shot, but insiders are considering it.

On July 1 the authority of the Army and Navy to pay time-and-a-half after 40 hours to its field employees expires. That's why the President urged Congress to pass his overtime bill by that date.

It's taken for granted that the overtime bill won't be passed by the end of the current session of Congress.

So the Army and Navy already have put a bill through the House that would give them authority to continue paying time-and-a-half for work over 40 hours. The Senate has stymied the Army, though it's expected to work out some agreement on this session of Congress.

Ain't Mathematics Wonderful!

Dear Sir: After reading the time and a half bill and applying some simple algebra, time and a half dwindles to time and a twelfth. Remember: A man who works 40 hours a week works 2,000 hours a year, equivalent to 260 days of 8 hours each. To find the daily rule in private industry you divide the annual salary by the number of days worked, and you'll see many field transfers.

John D. Pellah

The Truth About OPA and The Phony Rumors

WASHINGTON. — You've been a lot of nonsense about the "900,000 to 1,000,000" manpower the Office of Price Administration has to check up on an ya day and me. The only thing you're spared is that there are 30,000 rationing boards and to have one for every 2,500 people would mean a thousand boards a day. There is no way you can turn the problem over to them.

John S. Ryan

1-A Men OK As Mechanical -learners

WASHINGTON — What are the chances of the 1-A applicants who have filed for the "mechanical learner" category, getting in the Navy? One naval expert answers this question.

Under a revision of the Civil Service program for the U.S. Army, income will be replaced by a system of merit selection by competitive examination for all positions. In this instance, the "mechanical learner" category would be eliminated.

"Recruiting for mechanical learner training is going on for the U.S. Army Signal Corps, but under a different category," said a Signal Corps official. "The new training will be conducted under the classifications of classification of non-reimbursable trainees (radio) at $1,440 per year, and the classification of reimbursable trainees (radio) at $1,500 per year. The courses of study will include the use of essential tools, basic shop mathematics, and simple circuits and symbols. Each learner will be paid $35 per month, with a chance of a raise to $60 per month after three months.

Sheet Metal Men Needed at Airport

Applications are now being accepted for aircraft sheet metal worker and helper and aircraft sheet metal worker jobs at the Seattle Army Air Depot, Renton, Wash.

Those who apply must have at least four years' experience for the aircraft sheet metal workers and one year's experience for the helper. Both must have a high school education or experience which may include the work of a skilled metal worker in a first-class shop and an understanding of the aircraft sheet metal worker's job.

Applicants must have the ability to work with a high degree of precision and still an estimator is added for this.

Copies of the plans and application forms may be secured at the Seattle Army Air Depot at Deputy Director of Civil Service Examination, Room 4-20, at the Post Office, Seattle, Wash., and at U. S. Civil Service District, 601 Washington Street, Honolulu, Hawaii.

Lawyer Exam Is Possible

WASHINGTON. — The Board of Civil Service Commissioners of the District of Columbia, in response to a request for information on junior lawyer examinations, has decided to provide it with full details of the next examination prepared for all applicants for the post of junior lawyer.

The board will get its examination in the next examination for submission to the Executive Committee for consideration. The examination will be held at the end of the current session of the Board.

It is reported the board will pay $500 upon the passage of the appropriation bill.
This is quite a departure from the usual type of civil service news... but you suddenly discover that public employees are artists, too, and so their work becomes news. Some 60 water colors painted by civil service employees are on exhibit in the lower (30th floor) of the Municipal Building. We've selected three of the 60 to show you the competence of the work.

The photo directly above, whose design seems to have been unconsciously inspired by a microphone, is the work of Jack Feldman, WNYC. On the right is a two-water scene. The upper one is by Salvatore Lasusa, of the Board of Education; the lower, greatly different in technique, was painted by Samuel Dubler, who works in the office of the Borough President of Manhattan. He calls it "Fisherman's Wharf!" Our advice: Go see the exhibit.

Commission Adopts Wartime Emergency Measure to Speed Hospital Recruitment

A wartime emergency resolution was adopted by the Municipal Civil Service Commission at its last public hearing last week. It calls for the transfer of hospital helpers from the labor class to the non-competitive class.

Result of the resolution is that the Department of Hospitals is permitted to hire hospital helpers directly. Candidates for these positions will not have to file applications with the Civil Service Commission, take a literacy test and be certified to the Department of Hospitals before they can be appointed. The resolution calls for candidates to be appointed, as far as possible, from lists furnished by "appropriate public agencies."

Civiil Service Leader

The Department of Hospitals has been experiencing enormous difficulties in filling its hospital helper positions. The turnover has been extreme, with new hiring in droves for military service, defense jobs, and women finding other positions which have opened up in private industry.

The department has asked that the proper emergency measures be taken to help it meet what might turn out to be a serious crisis in manpower. Hence this action.

The use of labor class lists during the past two years, according to Eugene Chudnow, director of the Department of Hospitals, "has been a terrible flop." Among the lists certified to the Depart­ ment have been those for porter, laboratory assistant, and about 20 others. Thousands of call letters were sent out by the department to eligibles on lists, and less than 10 percent accepted position offers. Even among those accepting, the turnover has been 50 percent a year—probably the highest turnover in any public job. These are 5,000 hospital helper positions in all. Of these, 800 are new, and 1,000 are occupied by provisionals.

Went to Public Agencies

The Hospitals Department, after two years experience, came to the conclusion that it is futile to bother with civil service lists and procedures. If the positions were put into the non-competitive class, they argued, it would save expense and work for the Civil Service Commission; and would save useless work to the department in sending out letters to eligibles who won't accept the positions.

The only requirements, therefore, has been for the department to go to the WPA, UES, and Home Relief Bureaus to ask for persons who could be put into the jobs as provisionals. But provisionals can't be given the inducements that can be given to persons in the non-competitive class, such as permanence of the job and regular salary increase.

So the department asked the Civil Service Commission to place its present provisionals into the non-competitive class, which would permit the department to hire employees hereafter directly and give them the protection of the non-competitive class. The approval of the Commission to this plan makes it possible to hire people living in the vicinity of the institutions, as in the same borough. If public agencies don't provide enough people, the Department of Hospitals will then turn to public agencies to hire directly for its hospital.

It is realized by everyone, including hospital officials, that the real trouble is the salary-lowest in the city service. However, the new budget has made improvement in this respect, by raising the present salaries by $50 a year. The present $20 salary goes up to $25 (employer and the the WPA, UES, and Home Relief Bureaus) go into effect July 1. Under the non-competitive setup, employees are entitled to a $10 increase in salary after one year of service, and three additional increases each six months thereafter.

The department has a special classification for persons with particular skills and those willing to take special hazards. One hundred and fifty employees are in this category. It includes the position known as "guaranteed attendant" in tuberculosis hospitals, housekeeper, window washer, supervisor of privies (the department sometimes borrows privies from the Correction Department to aid in hardwater), and a sheepfold (the department maintains 30 sheep). For these persons, when the department finds them, it is willing to pay $90 to $1,199, even though technologically they are still known as hospital helpers.

Commission Approves Tests

Open competitive tests for executive assistant (torts) grade 2, medical assistant (nurses agency), senior property manager, bureau of real estate, and promotion exams for junior chemist, Department of Hospitals, junior counsel, grade 3, Board of Transportation, and law assistant, grade 2, Board of Transportation, have been ordered by the Municipal Civil Service Commission. In addition an open-competitive test for stenographer, grade 2 (see page 4) was also ordered.

Neither the application dates nor the requirements for the examinations have been set as yet by the Civil Service Commission. As soon as they are announced, full details will appear in The Leader.
### Recent Personnel Changes in New York City Departments.

The following personnel changes have been made by City departments:

#### Department of Public Works
- 35th Avenue Bridge at 23rd Street, Midtown.
  - Michael J. Lally, auditor, at $1,500 per year.

#### Board of Education
- John Panagioti, May
  - William Nolan, laconic, of Highways.

#### Board of Education
- Thomas P. King, after May
  - John T. Quinn, stenographer, at $1,460 per year.

#### Borough President, Queens
- John J. Whalen, auditor, at $270 per year.
- George Brown, Inspector, Fire Protection, at $750 per year.

#### Borough President, Brooklyn
- Anthony Bucco, May
  - Leo Mc(Mc), clerk, at $1,500 per year.

#### Borough President, Bronx
- John Panagioti, May
  - Frank Converse, auditor, at $750 per year.

#### Borough President, Queens
- John J. Whalen, auditor, at $270 per year.
- George Brown, Inspector, Fire Protection, at $750 per year.

#### Borough President, Queens
- John J. Whalen, auditor, at $270 per year.
- George Brown, Inspector, Fire Protection, at $750 per year.

#### Borough President, Bronx
- John Panagioti, May
  - Frank Converse, auditor, at $750 per year.

#### Borough President, Queens
- John J. Whalen, auditor, at $270 per year.
- George Brown, Inspector, Fire Protection, at $750 per year.

#### Borough President, Bronx
- John Panagioti, May
  - Frank Converse, auditor, at $750 per year.

#### Borough President, Queens
- John J. Whalen, auditor, at $270 per year.

#### Borough President, Bronx
- John Panagioti, May
  - Frank Converse, auditor, at $750 per year.
CIVIL SERVICE LEADER

Supermen Confer
With Hamilton Marsh

Next meeting of the Sanitation Elites Association will be held at 7 p.m. Monday at the Rand School, 17 East 18th Street. A report to the association from Mr. Marsh follows:

Sam Magliffy, acting president of the Sanitation Elites, is explaining that he finds a riddle a rule for Uncle Sam.

radio concerning the meeting which the association had during the week with Harry W. Marsh, president of the NYC Civil Service Commission.

Mr. Marsh explained that the entire organization had met with the Commission during the week and had discussed the various functions of the Department of Sanitation. The Commission had promised to give serious consideration to the problems raised by the union during the meeting.

In closing, Mr. Marsh expressed his appreciation for the constructive approach taken by the Sanitation Elites and indicated that he would keep them informed of any developments that might arise.

Telephone Answers
Had Two Errors

Due to an error, the Municipal Civil Service Commission has withdrawn the tentative list for the examination for telephone answering positions. The commission is giving the examination a second chance.

The examination for telephone answering positions has been rescheduled for Tuesday, July 23, beginning at 9 a.m. The examination will be held at the Municipal Civil Service Commission, 30 South Pearl Street, Albany.

Welfare Finds Way

To Outwit

Here's how it's done (without fingerprints):

The first 160 appointments as firefighters will go to men on the list of eligible firefighters. The next 160 will be given to men on the list of eligible firefighters, but who have not been appointed to the Civil Service. This will be followed by the list of eligible firefighters who have not been appointed to the Civil Service. This will be continued in this manner until all eligible firefighters have been appointed.

The list of eligible firefighters will be published in the New York Times on Thursday, July 25, and will be available for inspection at the Civil Service Commission, 30 South Pearl Street, Albany.

Useless Vets Flag

A number of the veterans of the World War I are objecting to the proposed flag of the United States. They state that the flag is too similar to the flag of the United States and that it will be difficult to distinguish between the two.

The flag of the United States is currently being reviewed by the Department of State, and it is expected that a new flag will be adopted soon.
Two Make Perfect Score on Conductor Physical; 13,880 Have Passed Written Test

Thirteen thousand six hundred
and eighty candidates
passed the written examination
for conductor held Saturday,
April 26, the LEADER learned this week. Twenty-one thousand
seven hundred and twenty-two
candidates took this written exam.

Physical examinations for those
who passed the written test begin
today. The last day for physicals
will be June 17. These examinations
will hold patrols physical
exams. According to the Commis-
sion's schedule, 9,092 conductor candidates will be examined by
that time. The remaining will be
tested in August, after the top
physicians are finished.

Two Receive 100 Percent
For the first 1,500 men to
pass through their physicals by
Paul S. Braman's staff of physi-
cal examiners, two received per-
fect scores of 100 percent. They
are Raymond R. Brown, 200
Cun-
ningham Avenue, Manhattan, and
Ben Katz, 257 Madison Street,
Manhattan. This week, 3,272 candidates are
expected to take the hearing.

The two of the City building on the site of
the old World's Fair Grounds for
their tests. Five hundred future
conductor candidates will be exam-
ined each day except Saturday, when 2,500
will show up. The boys will be
put through the mill in batches of
12 at 9 a.m., 12 noon, 3 p.m., and
6 p.m. On Tuesday, there will
be no p.m. test. The conductor physical tests
consists of a discard; a discard
and a physical test on the same
day. Two hundred and twenty
candidates are expected to take
the hearing.

Candidates who passed the
written test who do not pass the
physicals will be eliminated. The
remaining will be divided into
groups of 125. Each group will
be tested on the physicals.

What, No Practical Test?
Seven candidates who passed the
recently held written exam for in-
dustry's key answers, candidates are
not required to appear for a
practical test to be eligible for an
eligibility test.

To Hear Appeals On Subway Titles
The Municipal Civil Service
Commission, at its meeting that
week, approved the establishment of
technical review committee to hear appeals of
upgraded Board of Transportation
employees. The committee consists of
V. H. Hopkin, examiner in charge of the
Commission's transit bureau, Milton
Dukakis and John Hobson, exam-
ers assigned to the transit bureau.

No professional licenses are
required to apply for the job. The
Commission will mail notice to
those who pass the hearing.

Steno Test Is Ordered:
Open to Men, Women
An examination for steno-
typists, grades 2, is open to both men
and women. The examination is being
administered by the Municipal Civil Service
Commission this week. Those who fail will
be selected as a result of this test pay
$1,000 a year to start, with auto-
matic raises of $200 a year for
five years.

The rules for the insurance and
receiving of applications have not
been announced at the Civil Service
Commission. As soon as the
applications are available, full de-
dails will appear in The LEADER.

The requirements for the test
are expected to be exactly the
same as the requirements for the
typists. Candidates are expected
to be of the same educational level in
to training and business experience. Can-
didates have to take the test at the
date of 120 words per minute.

To appear for the test, such
machines will be permitted.

Originally, it was the intention of
to administer the examination for women
only. However, only 10 men passed the
exam for which applications were
announced in December. Five of them
have already been appointed.
Bad Food at Creedmoor Hospital Costs Lot More Than Worth

By ARTHUR RHODES

Fourth of a series of stories on working conditions in the New York State Health Department

The food at Creedmoor State Hospital, to quote employees as well as patients, is merely vile.

The popular theory is that person who work in and are concerned to State institutions are generally well fed. And there is no lack of food at Creedmoor. There is just too much bad food, according to those who take it scientifically and ought to know.

The food and the eating habits of patients at Creedmoor this week have been exposed. The fact that the inmates on relief are provided with food of inadequate and of inferior quality is not an unknown fact to the hospital in-patients. To use its own description, it’s “an aboma-
nable stuff.”

Employees are charged 78 cents a day for food. They claim that the food actually, once the hospital mech less than this. The price is made that the Army feeds its men much better food, in a variety of dishes for 50 cents a day. The hospital does not

June 26 Last Day To File for Tests

By JUDE HANNAH

Friday, June 30, is the deadline for applying for the present series of New York State tests. So, if you’re planning to take one of these exams, you had better act quickly.

New York State Civil Service Commissioners have announced that the complaint of one employee, who has been at Creedmoor for more than 2,000 years, that “it is easy to commit suicide by eating the food available” is not true. It is easy to commit suicide by eating the food available.

Girls! Here's Your Chance

The Defense Training Institute for Women is now recruiting for its 18-year-old students. To get to them, it has waived its 18-year-old minimum—opening the field wide to high school graduates, men and women. So thoroughly is the defense-training program of America going into the bloodstream of female personnel that half of New York's most active defense training centers, through S. A. McManus, assistant executive vice president, and the institute is looking for an entire female enrollment for the July 13 sub-professional full-time engineering course. As soon as spots are available, it is expected to accept both men and women in the course, which is a daytime session of 20 weeks. During a course of 20 weeks in a chance, and 20 weeks of home work. 

Courses Offered

Here are the courses, which are designed to produce the kind of engineers and science personnel that our industrial defense program requires. There are two year's training in the following: engineering faculty have been especially trained in the exact sciences and applied mathematics.

1. Air and Space Science and Engineering
2. Aeronautical Engineering
3. Chemical Engineering
4. Electrical Engineering
5. Industrial Engineering
6. Mechanical Engineering
7. Nuclear Engineering
8. Petroleum Engineering

These courses qualify applicants for positions as engineering researchers and consultants, engineering investigators, and technical assistants in purchasing and export departments. The institute's courses are the same, but the pace of the technical course is slightly different from the general course. 

Of course, male applicants may choose a course for women in the field of their interest, but, unless they can show that they have been trained fairly statically for a while, they will not be accepted into the technical course, according to Mr. McManus. 

The institute's high school graduation, citizenship in the second year, and enrollment in one year of algebra and one year of geometry and one year of physical science is required.

Enrollment Expected to Boom

The female enrollment at the institution is still small but is expected to increase, and more employers are calling for women as skilled engineers, because they are more apparent. The July 13 course, which is the beginning of the second year of courses, is expected to be a success. 

Applicants apply by phone. 

For more information, write to 72 Pearl Street, Brooklyn, at the Defense Training Institute. The institute's courses are not taught by students with experience at their drafting and mechanical teaching of students in the art of drafting and design, and are sponsored by the United States Office of Education. 

O.K. girls! Here's your big chance to aid materially in the war effort! The waving of the 18-year-old age minimum affects men as well as women. 

 комнаты или детские центры для детей.

Women Wanted: These Job Fields Active Now

The following lists show the occupations in which women who are fully qualified to do the work should register for jobs. Positions are not necessarily open in all these occupations every day, but sufficient openings are being received from time to time to make it advisable for qualified applicants to keep in touch with the active fields. 

Applicants should register at the office at the earliest date possible. 

Commercial Office, 10 East 83rd Street.

Industrial Office: For Manhattan, 57 Madison Avenue; for Brooklyn, 256 Schenck Avenue; for Queens, 29-28 41st Avenue, Long Island City. 

Department stores: Macy's, 34th Street; Wanamaker's, 14th Street, N. Y. C. 

Women's offices, 87 Madison Avenue; for Brooklyn, 29-28 41st Avenue, Long Island City. 

Government and Private Positions: Office, 40 East 59th Street.

    - C.C.N.Y.
    - Columbia U.
    - Manhattan
    - N.Y.U.

- Professional Engineering Aides
  - Courses at:
    - Defense Training Institute, 13 Pearl St., New York

- No special requirements.

- Apply United States Employment Service.

- Employed women must be referred by employer.

- Employed women must be referred by U.S. R.B.

- Citizenship or citizen papers necessary.

- Ages 18 years (min).

- Requirements:
  - High school graduation or engineering degrees and science degree.
  - Preference given those already employed or with good prospects of employment in war industries.

- Apply: For list of courses at each school or phone Albert H. Newman, regional advisor, Technology Building, C.C.N.Y., 158th St., and Amsterdam Ave., Manhattan, N.Y. 3-4535.

- Ages 17% through 18 years.

- Requirements:
  - A graduate or near graduate in school education, citizenship papers.

- Apply: At any commercial school.

- Ages 21 (min.)

- Requirements: Administered WPA or honor relief record, citizenship.

- Apply: WPA workers contact local WPA supervisors; honor relief recipients, contact local relief investigators at local home relief office.

- Aircraft Opportunities
  - Grumman, Bethpage, helps sponsor own course for Nassau and Suffolk residents in six training schools in Long Island area. Ten weeks, 100 hours, five day or night courses. Apply at local State Employment Service office.

LENGTH AND COST

- 100-200 hours.
- 30 weeks, 10 hours per week.
- 6 weeks, 10 hours per day.
- 8 weeks, 10 hours per week.

Operations in which women are most in demand:

- Drill press, single and multiple.
- Touring, radius, inspection, visual, electric work.
- Wiring and assembling parts.
- Welding, cutting, soldering, capacitors, assembly.
- Assembly, all types requiring hand tools, such as pliers, matcats, screwdrivers, files, electric drills, bench assembler machines and riveting process.

- Milling machine, light.
- Light punch and forming, press.
- Watchmaker's lathe, boring, polishing, polishing on lathe.
- Painting, spray, soldering, packaging, labeling, welding, spot.
- C classification: gages, microscopes, caliper, blueprint, light hand and automatic screw machines, sheet metal forming and riveting, welding, acetylene, welding, arc.
Repeat This!

Please Repeat This! Witness the most obscene sight in NYC: the City Council, in time of war, wearing shabby suits and over swine suits! A nation and its greatest city! Attending a meeting, dying, gentlemen. Have you nothing better to do than to squabble about what in God's name should be worn 200 or 199 feet from the boardwalk? Shame on you! Have you nothing to do?

Let's have Things.

Budgetary odyssey: Deputy Mayor Rufus McGahey's salary isn't paid by the Board of Water Supply. . . . It's hard to find anybody in the municipal Auditor's office to fill the docket. . . . John Scocian, Water Supply, has exempted, enters the Army as a private . . . Mixture in grammar: The City's big recruiting circular appeals to "High School Grad's" ... Sanitation Commisioner Bill Carey suffers from stomach ulcers . . . Commissioner of Purchases Albert Playfair avails himself of free public service . . . to do confidential work for the Mayor . . . Kenneth Dayton in the Bronx, similar to the Belgium pavilion block story, is due to break . . . Although the War Department is preparing nearly 40,000 pounds of sugar for the New York State Guard training camps, the guardsmen are required to produce their sugar ration cards for purchase of sugar. . . .

Staff and Things.

Traffic Light Theory

Rochester holds that "the ideal system of traffic lights is in New York" for all streets running in one direction. The problem is the varying types of traffic lights in New York State. Some have varying colored lights, and different traffic signal lengths for different types of traffic. Rochester says that he has devised a signal system that will work efficiently at night. He says that the key to the system is in the differential in the cost of labor. He points out that the differential in salary between laborers in the different states is too great. He says that a differential in the salary of laborers in New York and other states will make the system work efficiently at night. He says that the differential in salary between laborers in New York and other states will make the system work efficiently at night.

civserviceleader.com
WILLIAM LEWIS

During the past week there was a great difference in the number of employees to the office of the Union. As usual, the majority of the employees who were killed were among the group who had not yet been notified of their inclusion in the new week's list of the members of the labor union. The only other new employees to the group were some of those who had been killed in the past week or so.

Recreation Tonight

The regular meeting of Recreation Council of the Greater New York Parks Employees' Association will be held Tuesday evening at 7 o'clock at the International Room of the West Side Y.M.C.A. A 2 West Street; admission free. At this meeting, the new regulations on sick leave, week by week, will be submitted for the approval of the by-laws committee. A report will likewise be submitted for the approval of the War Saving Bond Drive.

Police Calls

On the Job

On a recent visit to the Metropolitan Museum of Art, some of the employees were taken to the science department in the basement to see the large amount of work done there. One of the employees was asked if he would be able to do the work. He replied that he would, but it would be a great strain on him. The employee was then asked if he could do the work. He replied that he could, but it would be a great strain on him.

Whyn't They Be Hiring New Yorkers?

An official of the Oyster Bay Defense Science this week told The LEADER that his office has been closed for the past few days due to the long delay in the appointments of the board of directors. The board of directors, he said, has not yet been able to make any decisions on the matter.

WANTED: ARTISTS FOR WAR POSTERS

Art teachers of public and high schools are being urged to enter a series of Defense posters in a competition sponsored by the Art Director of the Brooklyn Art Department. This competition is being held to publicize the war effort and to encourage artists to use their talents in the service of the country.

Residence Law Suspended for Period of Emergency

Physicians under a new residence law are permitted to reside in the State and to practice in the area of the counties in which they have their professional offices. This law was suspended by the Governor for the duration of the emergency.

PROMOTIONS TO MEN AND WOMEN

In order to fill the vacancies created by the resignations of some of the employees, the office of the Union has been notified of the names of several applicants who have applied for positions. These applicants have been interviewed by the personnel officers of the Union and have been recommended for appointment to the positions vacated.

Here's What They Think!

Last week's edition of the Public Service LEADER was devoted to a discussion of the future of the Public Service. The article, written by the editor, was titled "The Future of the Public Service." The editor stated that the Public Service is facing a difficult period, and that the future of the Union is uncertain. The editor concluded by saying that the Public Service LEADER will continue to publish articles on the subject until the future of the Public Service is clear.

UNCLE SAM HAS A WAR JOB FOR YOU!

TAKE YOUR CHOICE!

These jobs are open right now. Come in and we'll tell you where to apply and the requirements!

Find out which job is best for you. Write to The LEADER, 337, 10th St., N. Y. C., N. Y., for your special capabilities booklet. It is free.

Is Your Exam Here?

Below is the latest news from the New York City Civil Service Commission on the status of examinations. The LEADER will publish changes as soon as they are made known.

Open Competitive Tests

Due to the heavy volume of applications received, four competitive Civil Service tests were held June 30 and July 13. The written tests were held June 20. The practical tests will be held July 24.

Assistant Engineer: The written test was held June 20. The practical test will be held July 24.

Inspector, Grade 1: The written test was held June 24. The practical test will be held July 24.

Probationary睬

These jobs are filled immediately. Today, more than ever, you can have a high paying government position and do your country a service at the same time. For some of these jobs Uncle Sam will train you for the work that best suits you — so that you can prepare yourself for a better future after the war.

Never in our nation's history was there greater need for men and women doing the work for which they were best fitted. Never were there more jobs — in government service or private industry — begging for men and women to take them. Never were there more and better opportunities to train for greater productivity and better pay.

WE CAN HELP YOU FIND THE JOB OR THE TRAINING THAT BEST SUITS YOU.

And this service is absolutely free to you with a regular $2 subscription to The Civil Service LEADER.

Here's What the FREE Job-Finding Service Gives You!

1.—Personal Interview

An experienced examiner will review your qualifications which will fill you for government work. Later, we will be in your area to answer your questions about civil service jobs.

2.—Vocational Guidance

We will review your qualifications which will fit you for government work. Later, we will be in your area to answer your questions about civil service jobs.

3.—Training

110 to Replace Subway-Soldiers

D stands for draft. It also stands for maintenance of the helper, group D. Because of the effect of the draft on subway employees in this title, the Civil Service Commission last week certified the names of 110 eligibles on the list for maintenance of the helper, group D, to fill temporary military replacement vacancies. Highest eligible certified was the last whose name is 609 on the list.

The maintenance helper, group D, list was established January 27, 1944. The highest eligible appointed to a permanent job is number 369.

Try to Save Jobs Of Park Workers

Budget Director Kenneth Dayen and Mayor LaGuardia have worked out an arrangement to try to save jobs of park department attendants scheduled to be laid off July 1, it was announced this week by John H. Hughes, president of the Civil Service League.

Mr. Hughes made his report Monday night (June 22) at a special meeting of the League in the Pulitzer Building, 41 Park Row, New York City. He said the attendants and delegates were acquainted for their efforts in the job-saving project.

Trounce Transit Police Team

The Dekalb Avenue precinct football team of the New York Civil Service Commission has won the state's seven football championships in ten years.

Grade 1 Clerk For Health Dept.

The Health Department is hiring grade 1 clerks at $660 a year. In order to fill the ten vacancies, the Civil Service Commission said over the names of 63 eligibles on the clerkship list. Highest eligible reached was the boy, or girl, who ranked 7,280 on the register.

The certification was turned out last week. The examination is in progress.

New Course—"Burning"

A new course known as "Burning" is being held by the City University of New York. The course is in progress of certification by the state Education Department.

Welfare Firms Down to 0

From a threatened high of 350, downtown in the Welfare Department, the number of firms working with the Department of Hospitals will move this season with a meeting on Tuesday, June 23, at 8 p.m. sharp at the Metlife Building, 360 West Avenue, New York City. All employs of the Division of Social Work are invited to attend this meeting and find the results of the committee report for the season. Representatives will be served a meal at the meeting.

The meeting is being held by the Administration of Social Services, Division. James F. Ellisworth is president.

Several hundred and eighty eligible on the list for maintenance of the helper, group D, will be given practical tests at the 207th Street shops of the Independent Division this week. Ninety-five jobs are scheduled to be filled in the workshops.

Practical Tests For Subway Men

Three hundred and eighty eligibles on the list for maintenance of the helper, group D, will be given practical tests at the 207th Street shops of the Independent Division this week. Ninety-five jobs are scheduled to be filled in the workshops.

Resort News

By Joseph Burstin, Resort Editor

The summer season in the Catskill Region, coinciding with the July 4th celebration in the Catskills began for resort officials on Memorial Day. At that time the beaches and facilities indicated that, no matter what restrictions motorists might expect, mountain visitors will continue to come down, give the region one of its biggest seasons. A recent survey by the Ulster County Board of Supervisors indicated that reservations are up 15 per cent higher than last year.

The villages of Pine Hill, Fleischmanns, and Phoenicia have begun their season and many of the large hotels have opened three weeks earlier than usual.

Located within 30 miles of New York City, reached by roads and penetrated by various other lines, the Adirondacks seem comparatively well adapted to those trying days of rationed milks and victory vacations. Principal railroad and bus lines and such a way approach makes it convenient to reach all parts of the Adirondacks.

Irv Schubert, director of Moon Hill Lodge, in Shroon Lake, N. Y., has planned weekly crape. Rugby games. Various week-end trails that feed into this lake.

Let's entertainment staff of this Adirondack camp is Olga Krustoff, London, a matron who started in her own show business in England, Holland, and Paris. Roy Harvey who plays the electric violin, leads Moon Hills orchestra.

The drive-in theater at Great Blakesaw, Warrensburg, N. Y., will feature some of the stars of current music events under the direction of Sam synty. The first American production of a new one-act opera by composer Henry Torr, entitled "Helen and Emily," is one of the featured events at this theater.

Provision for allowing advention on current motorists. The Brannen's Steamboat, on the original Mountain House ranch, will open an exhibition of vehicles used in the Adirondack region for a century, when famous American coach builders entered the game. The exhibition will be open to the public; it is one of the attractions offered for the week-end season. The show, Joseph Conklin who has 22 years experience in Catskill camping, is in charge.

Hy Poster at Stevensville Lake Hotel

Dr. Harry N. Boardman and Louis S. Sontag, of Chicago, owners of the Hotel Poster, will celebrate the Fourth of July with a show of Johnnie Howard, Broadway comedian, as master of ceremonies for the season. This will mark his sixth year as entertainment host at Brannen's. Ned Harvey is at the land station.

Open Air Forums at Timberland

Maj. Charles A. Listening and Louis A. Rothblatt, directors of Camp Timberland, Foolser, N. Y., in the Adirondacks, announce the appointment of Louis Park, play writer and lecturer on current events, as director of the open air forum to be conducted at the camp this summer.

Comfort at Camp St. Joseph Villa

In Hackettown, N. J., the trail leads to Camp St. Joseph's Villa, a camp situated in the heart of the Sayville recreation area. Modern lodgings, a $300,000 swimming pool and athletic equipment are among the attractions offered for the week-end season. The Jay, Joseph Conklin who has 22 years experience in Catskill camping, is in charge.

Johnnie Howard Back at Brickmans

The Brickman Hotel will celebrate the Fourth of July with a gala Independence Day show featuring the vocal of Johnnie Howard, Broadway comedian, as master of ceremonies for the season. This will mark his sixth year as entertainment host at Brickman's. Ned Harvey is at the land station.

Promotions Will Become Easier

A worldwide executive resolution suspending the minimum six months experience requirement for employment in new examinations was adopted by the Department of Civil Service at a public hearing last Wednesday.

Under this resolution the Civil Service Commission will be permitted to set whatever minimum experience requirement it feels necessary in order to make examination problems, in the administration of the Civil Service Commission's rules and regulations. This is the paragraph which states that "provisions shall serve for a period of not less than six consecutive months, for the preparation of examinations and for the examination in the department or agency, and for the examination in the department or agency, and to be eligible for promotion."
POSTAL NEWS

Calling Civil Service Workers

Civil Service workers, here's good news! The publishers of The Civil Service LEADER are sponsoring the greatest showing of amateur and hobby collections by Civil Service employees that New York City has ever seen. It will be the Civil Service Fair, which opens on August 15th. This is your invitation to participate by exhibiting in this grand event.

Big Fair First of Its Kind

The Civil Service Fair will be unique; there has never been anything like it, and it promises to be one of New York's outstanding Summer events. We'd like to turn the eyes of the public in a side to the Civil Service worker's life which has not heretofore been emphasized. The fair is designed to give the public an idea of some of the hidden talents that are brought into play after business hours.

The Civil Service Fair will exhibit all manner of the beautiful, interesting, or unusual things made by Civil Service employees. But the show hours by Civil Service employees. If you're a Civil Service employee, then here's a cordial personal invitation to you to enter this big show now.

It's All Free

There will be no charge for exhibiting or taking part in this unique show. It will be held August 15th through August 18th at the Pough Auditorium, 30th Street and Eighth Avenue, New York. Exhibits will be insured; and at the end of the show, prizes will be awarded in various classifications, while during the run of the show prizes will be awarded for interesting, odd, attractive or unusual things made or collected in leisure hours. This is to create useful, odd, attractive or unusual things from materials you have at hand.

Unlimited Variety of Exhibits

There will be separate sections of the Civil Service Fair for such interesting exhibits by women as: needlework, crochet, knitting, embroidery, weaving, lace-making, needle-point, dream-stitching. There will be sections devoted to hand-painting, such as: batik, marbling, etching, jewelry-making, antiquing, doll-face, stamps and photography. Any hobby you may have, or kind of handicraft to which you have given your leisure time, will be given an opportunity to share your fun with thousands of others by registering and entering the Civil Service Fair.

Cooking Contests

There will be special daily events, in addition to the large and varied exhibits, which will be typical of the fair and where there will be pie-making contests; cake and cookie-baking competitions; an assortment of foods to be served for both men and women. They will be the sort of existing, leisurely-contests that give punch and zest to community events and a real feeling of participation in the competitions. You may win a prize. Fill in the entry blank printed on this page and mail it.

It's American to Have a Hobby

Americans lead the world in working hard, fighting hard, and playing hard. No other country has taken up hobbies with the buoyancy and enthusiasm that we Americans show...the creative side. W e'd like to dig into this, and our publishers offer the Civil Service Fair to encourage the creative and imaginative side. W e'd like to dig into this, and our publishers offer the Civil Service Fair to encourage the interests of all Civil Service employees in their hobbies or avocations. W e'd like to dig into this, and our publishers offer the Civil Service Fair to encourage the interests of all Civil Service employees in their hobbies or avocations.

Study Aids for Forthcoming
U. S. Trainee Examinations

The material which follows is the second in a series of questions testing the aptitude of candidates who are competing in the tests for Mechanic-Learner, Trainee, and Apprentice. These questions have been prepared exclusively for The LEADER by an authoritative panel of educators, and prove to be most useful. We have prepared questions from the point of view of preparing candidates for the type of questions they will meet in the forthcoming trainee examinations.
