A SPECIAL LEADER REPORT
Civil Service
After Two Months of War

See Page 2
Women for the direction of the increasing vice Commission today announced an initial salary of $1,620 a year, gaged in the inspection of gauges. The women who have completed two years of college are expected to be contributed toward the cost of living. The fact is that the War and Navy Departments both have their civilian employees on a 48-hour work week and other agencies will soon be following suit. High Federal workers' officials frankly believe that a 48-hour will be universal throughout the Government services within a few months.

But there officials also know that the matter of paying Federal workers higher salaries is a question longer hours also in problem that must be square.

2. The problem of labor shortages will affect all industries. Federal workers are the Wage and Hour Division of the Labor Department, a small unit of the solicitor's office of the Attorney General. These provisions are designed to protect the rights of workers and to prevent the exploitation of employees. The President is expected to sign the Civil Service Retirement Act which has been in under the Civil Service retirement program for over a decade. The President has been asked to take steps to ensure that the retirement system is maintained, and that it will mean further that the Federal workers in Washington be placed on a 48-hour paid overtime for the additional pay. It's a fact that the Civil Service Commission is now working on a proposal to bring a far reaching bill to the floor of the Senate. The purpose of the bill is to provide a comprehensive program for the retirement of Federal workers. The bill will provide for a pension at the rate of 80 percent of the average monthly salary, and will also provide for a lump sum payment of $500 to each Federal employee who retires for a service of 20 years or more.

3. The bill also provides for a reduction in the retirement age from 65 to 60 years. The bill also provides for a reduction in the retirement age from 65 to 60 years. **PAY RAISES Prevailing Pay Conflict Continues**

The Comptroller’s Office this week stood firm in its offer to adjust $38 an hour as the current rate in the private industry.

The major groups to be affected by the new rate are asphalt workmen, dock builders, pile driving engineers, steam roller engineers, road grade engineers, bridge builders and bridge operators.

We are doing all in our power to speed up the cases and to determine the dates from which we shall pay the prevailing rate in each instance,” said a spokesman in the Comptroller’s office.

Henry Finkelstein, general organizer for the Hod Carriers‘ Building and Common Laborers’ Union of America, Monday, which was widely reported as “unrelenting support of the right to strike in the matter of prevailing wages will be fixed for the establishment of the new prevailing wage rate.”

Mr. Finkelstein stated that “long time workers” would be paid the new higher rate of $38 an hour, which he said would put many of the New York workers back to work on prevailing pay. The prevailing wage rate will not be reduced, he said.

There are times when competitive examinations for the purpose of selection and promotion through the Civil Service system do not give the city what it needs in the way of workers, he said.”

**TESTS Clerk Test Attracts Young People**

Most of the applicants who braved cold and the rain on last Monday, the final day for filing applications in last month’s series of New York City tests, were fresh out of high school, 17 and 18-year-old January graduates interested in the clerk, tabulator, stenographer, telephone operator, accounting clerk, train dispatcher, and assistant general accountant.

Typical of those interviewed by the Mayor’s Office, and the Mayor’s Office, 17-year-old January graduate of the New York City Transit system, since the Storm, held a job in the phone, learned about the clerk exam just in time to get an application in time before being left down to the Commission office, F. E. Young, 33-23 Neptune Avenue, Brooklyn, 18 years of age, who found the City's outstanding graduating class of Brooklyn Automotive Trade's High School.

He filed an application a few months ago for the apprentice, telephone operator, train dispatcher, and a 19-year-old, who took the mechanical work but intends to take every Civil Service test that comes his way. It is an application that will be used.

Mr. Isaacs, 18-year-old graduate of the New York City Transit system, has announced him as a ‘stooge’ of Tammany Hall, Mr. Isaacs may urge by members of the Sanitation Department, urged by members of the Sanitation Department to become the scapegoats of a “budgetary situation.”

Quick Before The Storm

And meanwhile, on the consumer side, a general pay raises for city employees, other than the teachers of the departments as noted last week. That is to say, we would gain that we stand to lose them in our best efforts to avoid the New York City, which is the subject of the report of the Comptroller’s office calling a halt to the pay raising process. Mr. Carey, 62, city auditor, was quoted as saying that the city has only 900,000 employees on the payroll, and that the city has been able to avoid a pay raise this year.

But the city auditor said it was expected that the teachers would not agree to the pay raise. The city auditor said that the teachers are interested in the best interests of the city, and that it will be the city's work to improve the city's work, which is abundant.

**Conductor, Phone Gal, Clerk Promotion, 24 Other Titles in New NYC Test Series**

Shown above are some of the candidates for the Clerk, Grade 1 and Typist, Grade 1 tests who stood in the rain last Monday, January 26, to file their applications on the last day before the application period for the pay raising process, which is held at the Comptroller's office, and do not want to join government service. Moral of this story: FILE EARLY!
WASHINGTON — The Department of Transportation's Board of Education has certified 1,750 names to the city marshal list and the Public Safety Commission has certified 2,100 names to the police department list for the period ending Dec. 30, 1941.

Seventeen vacancies in the Comptroller's office will be filled by Sheriff J. J. McCloskey, Jr., while 22 vacancies in the Department of Public Works will be filled by Sheriff Canvasses H. L. Halliday.

Two names on the open-competitive list for the city marshal list and two names on the list of eligible applicants for the special patrolman list for the Transportation as railroad porter were certified to City College of New York, respectively.

Subway List Sent

The Boy Scouts of America has certified 40 names to the special patrolman list for the Transportation Department.

The names of 250 eligibles on the D list and 150 eligibles on the C list for the special patrolman list for the Transportation Department were certified to the Civil Service Commission.

Subway Helpers Put to Work

Vacancies as maintenance helper, group C and D, will be filled in the Board of Transportation from certifications made by the Civil Service Commission. Fifty-one eligibles on the C list were certified for permanent jobs at $1,800 per year. One hundred thirty-five eligibles on the C list were certified for permanent jobs at $1,800 per year in the Comptroller's office. The highest eligible reached was number 210.

Subway List Sent to Transit Board

Two new subway promotion lists were sent this week by the Civil Service Commission to the Board of Transportation. They are the promotion list for car maintenance, group A, and the promotion list for power distribution maintainer.

The first 18 names on the car maintenance, group A, list, promulgated Dec. 30, 1941, were certified to fill vacancies at $2,050 per year.

No Gal Cop Test
Till June at Least

An examination for police-
woman will not be ordered by the Municipal Civil Service Com-
mission until June or July of this year, according to Councilman
D. M. Isaacs of the 14th Precinct
at the most recent meet-
ing of the Board of Education.

Last September, a suggestion
had been made by an exam-
iner on the Commission's staff to hold
one written test for both police-
man and policewoman. The writ-
ing group policeman is tenta-
tively selected because of the
different problems involved in
the work of patrol-
men and policemen and the
above.

The suggestion was disre-
ognized by the Municipal Civil Ser-
vice Commission from October 7
to October 23. More than 2,000
applications were filed with the
Commission.

The present examination list
expires on February 15, 1943. Of
208 women who have qualified
111 have been appointed as police-
women, and correction officers.

Gardener Test
February 14

Saturday, February 14, is the
date set for the literary qualify-
test for assistant gardener.
Applications were filed for this job by
the Municipal Civil Ser-
vice Commission from October 7

LISTS

Fourteen appointed from Prison Guard List

Two related exams, of wide appeal, were opened last week by the State Civil Service Commis-

sion, which announced that applications are now ready for:

1. Assistant interviewer.
2. Roundup interviewer.

Both positions are in the Division of Placement and Unemploy-

ment Insurance, State Department of Labor.

Interesting facts about these two exams:

a. Relatively easy requirements:

For the assistant interviewer position, graduation from college may be suffi-

cient. For the employment interviewer position, one year of specialized experience, plus graduation from college may be sufficient. The State allows a combination of experience and education, thus opening the exam to persons who are not qualified but unable to meet any rigid set of requirements, as specified on page 15.

b. Increased use of list:

The persons who pass the examination are informed that they may be em-

ployed by the various departments of the State, according to the position for which they are eligi-

ble.

COUNSELLOR LIST

Sees Fast Action

The employment counseling list, established last week, is witnessing fast action. Appointments are being made daily, and approxi-

mately 50 of the men from the 123 Tolton Street, H.T.C., New York, are expected to be placed on the list during the next few days.

Many Novel Schemes Proposed as Means

Of Raising State Employee Salaries

ALBANY.—Although Governor Lehman failed in his executive budget to make any provision for an increase in the “cost of living” emergency pay increase for State employees, Republican legislators in the Assembly have not re-

turned from their public an-

nouncement that they will attempt to provide additional compensation.

This was made plain today by the final nailing of the two house, Senator Arthur H. Hicks and Assemblyman Albert Law Morris, who, the latter, is a member of the Assembly Ways and Means Committee. Senator Hicks is quoted as saying he was not sure of his statement that there were 13,000 State employees, including those in the institutions, and most of them in the institutions, and 50,000 on the State payroll, including.

The Republicans might attempt to find a way around this bill and pass the bill anyway, by which the Republican list would not prejudice the right of an eligible person from getting into those lists in the State Service Commission offices, 80 Center St., Albany.

The eligible lists may be revised at any time, and persons who fail the examination may be eligible for another examination.

Many Novel Schemes Proposed as Means

Of Raising State Employee Salaries

He might accede to the Republicans of “wrecking” his fiscal plan for raising State employee salaries if he gets the money he needs to carry out his program. If he does, he might not to raise the State’s percentage of the race-

ning bond levy but the proceeds would be used to pay the special tax on the bonds of the Legislature.

PAY RAISES
They Simmer in Albany

ALBANY—Although additional proposals for state salary increases were submitted to the legislature, notably that of the American Federation of State, County, and Municipal Employees, the Kings County Democratic, were introduced this week, they will not be enacted for the time being. The real job of ironing out a number of changes in cash payments for the war period will be done in the last quarter of this fiscal year. What these changes will be will be decided by the legislature next week and will provide for a flat 10 per cent increase for all employees getting under $9,000 a year. This would cost about $3,000,000.

Periodic Increases
Assemblyman Anctile’s proposal provides for a 10 per cent periodic increase for all employees earning under $9,000 a year, based upon living cost index. The measure would give the governor to make 10 per cent salary increase whenever the cost of living index of the US Bureau of Labor shows a boost of 15 per cent above the normal index of 1940. A 10 per cent increase will never achieve the value of permanent appointment.

G.O.P. Will Hit New Motor Bureau

The G.O.P. predicts that the new Bureau of Motor Vehicles will cost the city $3,000,000 a year, based upon living cost index. Bills to Protect

ALBANY—Legislation to protect those in excess of 100 employees of the division of architecture and engineering who will lose their jobs July 1, is being drafted with the probable approval of both the Senate and House, and the support of the state government. Such legislation may be designated to affect not only those laid off because of budget cuts but those employees of the DPW who have been transferred to federal employ in the shift of the Planning Bureau to the US Employment Service. Because of cuts in capital outlays for the ensuing fiscal year, Public Works Administration, which is particularly hard hit. It is proposed now that some means be found to permit the discharges, employment, many with service of 15 years of service behind them, to continue in the State Employment System through payment of such conditions of eligibility, this legislation would be optimal with the elimination of the individuals and would enable them to conduct both their own contributions and the payment of such contributions and the retirement benefits until sometime as they can return to state employment.

The Board of Education this week pointed out that those seeking courses must not confuse the Employment Service offices with the Board of Education. The Board gives training, the U. S. E. S. does placement work.

Training exists, and you're unemployed, you need merely obtain sin em a training course. If you're em ployed, he sent directly to a Board of Education administration of the Board of Education. What is the scope of the Individual's experience, or something of the type? There are many courses for such persons.

Q. You need merely obtain a training course. If you're employed, the Board of Education to take a defense training course given by the Board of Education. What is the scope of the Individual's experience, or something of the type? There are many courses for such persons.

Q. There's an impression that the easiest way is to register for defense training. Is this: The Board gives training, the U. S. E. S. is trying to track down just what the difficulties are, and how bottlenecks exist in training, to the end that suggestions may be made to improve training efficiency.

Q. Why do you square the attempts to defend training or, having procured it, find it difficult to land jobs. If you have any such complaint, please write to Editor, Defense Page, Civil Service League, 77 Dutch Street, New York City. The LEADER is trying to track down just what the difficulties are, and how bottlenecks exist in training, to the end that suggestions may be made to improve training efficiency.

Q. How many persons are now taking these courses offered by the Board of Education? A. The Board doesn't place any limit set on applicants. The limit is principally a commercial center.

Q. What percentage of trained women do the Board of Education place? A. Here in New York City the situation is different from that in much of the rest of the country. New York is not a heavy industry town, strictly speaking. It is a principal commercial center. The country as a whole has been used industrially for the help of the most greatly needed. The LEADER has received a number of complaints from persons desiring defense training or, having procured it, find it difficult to land jobs. If you have any such complaint, please write to Editor, Defense Page, Civil Service League, 77 Dutch Street, New York City. The LEADER is trying to track down just what the difficulties are, and how bottlenecks exist in training, to the end that suggestions may be made to improve training efficiency.

Q. What is the total capacity of the Board of Education in this re spect? A. The Board is expanding its facilities as rapidly as possible. If you're employed in a defense industry, or one closely related to it, however, you need merely obtain a training course given by the Board of Education. What is the scope of the Individual's experience, or something of the type? There are many courses for such persons.

CIVIL SERVICE LEADER PREZ HY ESSAY CONTEST

"What Can I Do to Help
In the Battle of Production"

EVEN TO DAY every American is thinking about how you can help in that battle. For every man must do his best now. To take over effectively. To bring home victory. And the best way to do this is to plan now for success, to fight now, to prepare now, to equip now.

The Rules

To stimulate thinking along this line, the Civil Service LEADER is sponsoring a PRIZE ESSAY CONTEST among all men of voting age. Essays may be of any length but a limit of 500 words is suggested. Essays must deal with problems and issues that must be solved during the rest of this year. Each essay must be submitted before March 15, 1943. The choice of the prizes will be announced from time to time as they are given to winners.

DELEHANTY INSTITUTE—Choice of courses in (1) bench assembly and inspection; (2) aircraft production mechanism; (3) machine tool operation; (4) electrical engineering; (5) various civil service courses.

NEW YORK DRIFTING—Choice of courses in (1) drafting; (2) blueprint reading; (3) scientific management; (4) civil service courses.

In addition to the courses, each of the five prize winners will receive, from The Civil Service Leader, an engraved metal medal bearing the name of the winner.

The Judges

The committee of judges consists of the following:

CHARLES POLETTI, Lieutenant-Governor of the State of New York.
TEX MCCRARY, chief editor of the New York Daily Mirror.

The prizes

The Through the courtesy of various defense training schools, prizes have been arranged in the form of full scholarships at these schools. The prizes will be announced from time to time as they are given to winners.

Why Another Attendant Test?

WILL New York State has ordered another hospital attendant test. This makes the fourth one in a period of less than two years. This test is getting to be preposterous.

The business of holding exams over and over isn’t going to be completely unsound. It is, though, that the mental hygiene department can’t fill the jobs because the pay is low, because attendants are resigned in droves, and because there is not enough money in the budget. Even though, because several of the hospitals are run like private feudal systems. Morale is astonishingly low.

Now, an attendant of worked so long as employees are expected to live on $54 to $66 a month (plus maintenance), and to maintain families on such a wage. The ideal solution is to bring the agencies that must leave Washington into New York, where they can get along, and continue functioning close to contact with their people. It would mean less distortion, more efficiency.

Call 6-Day Week Unproductive

SIR: The experience of the past three months, and not too indirectly of the May Day strike order recently negotiated without planning with no conception to the use to which the large mass of hours be put. As a matter of fact, the grays of the 6-days first work week has not unproductively interfered with much productivity of the city’s money, but the net effect of the order that week has not been entirely negative.

Almost six months ago city employees were notified by the Mayor that a 6-day week plan was required for volunteer service in various branches of the civil service. The plan was definitely not being given to the public.

You see, it is possible for you to fulfill this to “reduce the procedure” and do much, much more.

Cleaners Seek Competitive Status

SIR: The cleaners are still among the cleaning employees who have been reclassified into the competitive status. If this is done it will move a step toward a solution of the problem of the problem of the promotion complaints.

letters

The LEADER invites all readers to write in upon any Civil Service subject. Letters receive the careful attention of the editors. Those of general interest will be printed. Letters which may be answered by readers with other points of view. It is the intention of this department to be an open forum for people interested in civil service.

Can You Get Pay Difference?

SIR: Inasmuch as the Naval Reserve, you will not be entitled to the pay difference between your military and city pay. Only city pay is allowed in the civil service and National Guard officers, before they were federalized were entitled to the added pay difference. Section 545 of the State military law defines that any person employed in a draft board, who are on duty for a period of more than 1A because of your dependents.

Probalional Indefinite

—What Does It Mean?

SIR: A probational indefinite appointment in the federal service is defined as a temporary (permanent) appointment, except that the appointed appointment in is usually made in a political capacity. If the pay difference has not been always a budget appropriation. Most of the federal positions being filled in defense agencies today are paid for the same annual pay. The length of time for which Congress will continue to appropriate money for these positions is not known. Commerce Department, New York City.

Improving Your Reasoning

The Ninth of a Series of Articles on Proper Preparation for Civil Service Examinations

By Gertrude R. Slavin, B.S., M.A., and Alvin Slavin, B.A., M.A.

Understanding the test means more than just taking a test. It means thoroughly searching for persons who possess the ability to meet new situations - problems who can readily adapt themselves to new circumstances. In short, who have the ability to think clearly.

Civil service, police examinations, and all public service examinations include questions which test the candidate's judgment, reasoning, and ability to analyze. We indicated in our article on REASONING TECHNIQUES the type of questions which test the candidate's judgment. These are questions which are very different from what is called objective examination. In short, what makes the test for judgment is the ability to reason. These analyses and likewise demonstrate your ability to think clearly. They are much more significant than any other part as we shall see.

Here is an example of a typical analogy question:

1. A is to B as C is to _ (A) alone (B) two-legged (C) present (D) address (E) damage.

An analogy makes no request for the specific relationship between these two words. The problem presenting the Analogy relationship is that ABSENCE bears to any one of the five alternatives listed possessing a similar relationship. Our answer here is (C) present. The relationship between ABSENCE and PRESENT is that of opposite meaning. There is still another form of testing, always appearing with a series of facts. There is still another form of testing, always appearing with a series of facts. There is still another form of testing, always appearing with a series of facts. For License Examination

The following are questions taken from last week Procedure for Junior Operators' Licenses.

1. REMUNERATIVE is to PROFITABLE as FRAUDULENT is to (A) deceitful (B) beneficial (C) false (D) plausible (E) honest.

2. BUBBLES is to AIR as BARRELS is to (A) liquid (B) gas (C) solid (D) solid (E) liquid.

3. CATIONS is to ANIONS as BASES is to (A) hydroxides (B) hydroxides (C) oxides (D) conjugates (E) conjugates.

4. The relationship between EXIT and DEPARTURE is one of (A) synonymy (B) antonymy (C) classification (D) function (E) elaboration.

For Clerk Grade 2

An extensive bibliography for the coming examination is open. The City civil clerk grade 2 test has been prepared by the Municipal Reference Library and will be available immediately from that bibliography, for those who plan to take the test.

Office Practice

Business Arithmetic

As you can see, the amount of arithmetic involved in civil service examinations is far below that involved in college work. For this reason, there is no need for any special training in this field. However, the ability to handle numbers clearly and accurately is necessary.

For License

Examination

In this series of articles on proper preparation for civil service examinations, we shall cover the importance of the License Examination. The License Examination is designed to test the candidate's judgment and his ability to come to proper conclusions when faced with a series of facts. These questions determine your power of reasoning, bearing on any one of the five alternatives listed possessing a similar relationship.

License Examinations are often referred to in civil service testing as Analogy problems. It is for this reason that nearly all Civil Service examinations include a License Examination. It is the logical basis of reasoning, which is the foundation of orderly and effective thinking.

The relationship between EXIT and DEPARTURE is one of synonymy, that is, they are in the same category. The relationship between MINER and COAL is one of classification, that is, COPPER is in substance a solid. Therefore, the fifth choice GAS is the correct answer, because the character of OXYGEN and COPPER are both similar. The relationship between LENT is to (1) liar (2) slander (3) false (4) plausible (5) dismiss is that of synonymy, because the terms are in the same category.

The relationship between IDLE and BUSY is one of antonymy, that is, they are opposite in meaning. Our answer here is (C) false. In short, the meaning of both indicates that they are opposite in meaning. Our answer here is (C) false. In short, the meaning of both indicates that they are opposite in meaning.
