**LOCAL UNION NEWS**

**UNION REFORM BILL MEASURES**

**CONTRARY TO THE INSPECTION view by the U.S. Labor Relations Board, last week "the movement of a truly effective union reform bill this year..." Let us give you the straight facts as to what will actually happen to you and your union if, in the next Congress, business organizations pass the labor bill as it now stands in Congress.

Here’s what would happen to you and your labor organization:

1. 1935 will reward members from accepting union offices, most of them unpaid.
   This bill will mean such so-called reports to be made and filed under threat of fines or all sentences.
   The work of most union officers is done in time after working hours and this would cut into the time that could be spent in union duties that take up most of the time now.

We urge you to join us against it.

2. The bill (H.R. 335) will make new union officers to be elected to take the place of the old. This bill would make it more difficult for members to get and keep their jobs.

The case it takes to vote your Congressmen against this bill will be more than pay you later in better working conditions, higher living standards and job security.

**WHAT PRICE HIGHER?**

Recently, GE decided to eliminate the guards on Saturdays from Bldg. 937, with the result...a higher cost for us.

The high cost of this was due to the lack of work. The work load was so light that the guards were not needed. GE decided to cut costs.

The guards, however, were not happy with this decision. They felt that they were not being treated fairly.

**LOCAL UNION INvestment**

A recent case in the Local 828 Office was a case of unfair labor practices. It involved a change in the work rules, which was not agreed to by the union.

Upon reaching the parking lot, this man was very nearly exhausted.

APPROXIMATELY 3 HOURS LATER, WE HAD A HEART ATTACK.

We feel that if a guard had been on duty at the gate, properly servicing that building, at the time...this incident would not have happened....
THE T.V.A. STORY —

Several months ago the Tennessee Valley Authority requested bids from the American and foreign producers on some 10 huge steam turbine generators. The total capacity of these machines was a fantastic 120,000 kilowatts. This is perhaps the largest proposal for generating equipment that has ever been made.

Sesqui-Belles in Dapper Dance

A new innovation to get into the world of dancing has been added to the Sesqui-Moments Dance, near the Dapper Dance Festival.

John Shanks, Publicity Director, said that the Sesqui-Belle and foreign publication have been added to the spring series of dances and will provide a new and exciting opportunity for the participants.

Each of the ball will be given a special and memorable theme. Outfitted in their best, the Sesqui-Belles will dance with a flourish, adding to the excitement of the events.

The theme for this year's Sesqui-Belle Ball is "1945." The theme will feature a combination of entertainment from the 1940s, with a special focus on the dance comp. Attendees are expected to arrive in costume and enjoy the festive atmosphere.

The dance will take place on the evening of August 5, at the Grand Ballroom. Tickets are available for purchase at the box office. All proceeds from the event will go towards local charities and community programs.

The T.V.A. has now opened the bids and the results are as follows:

1. On the request for bids on over 1000 steam turbine generators, each producer's bid was as shown in the attached sheet. There were no bids from any American firms.

On the bids for 10,000 kilowatts steam turbine generators, only one American firm bid on these. This firm was Westinghouse. We are not prepared to comment on the quality of this machine.

On the request for bids on over 1000 steam turbine generators, only one American firm that bid was Westinghouse. We are not prepared to comment on the quality of this machine.

SCHEDULE II

1. On the request for bids on over 1000 steam turbine generators, only one American firm that bid was Westinghouse. We are not prepared to comment on the quality of this machine.

2. On the request for bids on over 1000 steam turbine generators, only one American firm that bid was Westinghouse. We are not prepared to comment on the quality of this machine.

3. On the request for bids on over 1000 steam turbine generators, only one American firm that bid was Westinghouse. We are not prepared to comment on the quality of this machine.

4. On the request for bids on over 1000 steam turbine generators, only one American firm that bid was Westinghouse. We are not prepared to comment on the quality of this machine.

5. On the request for bids on over 1000 steam turbine generators, only one American firm that bid was Westinghouse. We are not prepared to comment on the quality of this machine.

6. On the request for bids on over 1000 steam turbine generators, only one American firm that bid was Westinghouse. We are not prepared to comment on the quality of this machine.

SCHEDULE III

1. On the request for bids on over 1000 steam turbine generators, only one American firm that bid was Westinghouse. We are not prepared to comment on the quality of this machine.

2. On the request for bids on over 1000 steam turbine generators, only one American firm that bid was Westinghouse. We are not prepared to comment on the quality of this machine.

3. On the request for bids on over 1000 steam turbine generators, only one American firm that bid was Westinghouse. We are not prepared to comment on the quality of this machine.

4. On the request for bids on over 1000 steam turbine generators, only one American firm that bid was Westinghouse. We are not prepared to comment on the quality of this machine.

5. On the request for bids on over 1000 steam turbine generators, only one American firm that bid was Westinghouse. We are not prepared to comment on the quality of this machine.

6. On the request for bids on over 1000 steam turbine generators, only one American firm that bid was Westinghouse. We are not prepared to comment on the quality of this machine.

SCHEDULE IV

1. On the request for bids on over 1000 steam turbine generators, only one American firm that bid was Westinghouse. We are not prepared to comment on the quality of this machine.

2. On the request for bids on over 1000 steam turbine generators, only one American firm that bid was Westinghouse. We are not prepared to comment on the quality of this machine.

3. On the request for bids on over 1000 steam turbine generators, only one American firm that bid was Westinghouse. We are not prepared to comment on the quality of this machine.

4. On the request for bids on over 1000 steam turbine generators, only one American firm that bid was Westinghouse. We are not prepared to comment on the quality of this machine.

5. On the request for bids on over 1000 steam turbine generators, only one American firm that bid was Westinghouse. We are not prepared to comment on the quality of this machine.

6. On the request for bids on over 1000 steam turbine generators, only one American firm that bid was Westinghouse. We are not prepared to comment on the quality of this machine.

The T.V.A. plans to award the contract for these generators in the near future. The decision will be based on the bids received and the criteria established by the T.V.A.

EXECUTIVE BOARD MEETING

July 19th — 7:30 P.M.

STEWARDSHIP MEETING

July 20th — 11:30 & 7:30 P.M.
