ACCIDENT INSURANCE A BARGAINING MATTER

Without insurance money to help the IUE, the company would have had to pay all the costs relating to the injury. If the company had not been insured, the employer would have paid the full cost, including the cost of the insurance premium.

The company can adjust its premiums if there is a personal injury or death to one or more company employees. The company can also adjust the premiums if the injury or death is not unexpected.

In general, the company would have to pay all the costs relating to the injury if it were not insured. The company would have to pay all the costs relating to the injury if it were not insured.

IUE Wins 10 Shops in Month

Scheduling for the IUE Contract Settlement

GE SEeks Contract Settlement

According to Mr. A.C. Stevens, manager of the IUE, the union has reached an agreement with the General Electric Company on a contract settlement. The settlement covers wages and hours of work for all IUE workers.

The settlement includes an increase in wages for all IUE workers. The increase is effective immediately. The settlement also includes a provision for the continuation of the company's retirement plan.

The settlement is subject to ratification by the IUE membership. The vote is scheduled to take place in the next few weeks.

TURBINE TO HOLD SECTION NIGHT
NEXT THURSDAY, JULY 18, 7:00 P.M.

Union members of the Turbine Department will hold their "Section Night" this coming Thursday evening at the IUE Auditorium at 7 p.m.

Leo Landreau, Business Agent of Local 301 IUE, will be the main speaker. He will discuss the latest developments in the IUE-GE contract negotiations and other problems of vital interest to the membership.

Officers and Executive Board members will also be on hand to answer any questions which you might have and would like to have cleared up.

Hot-dogs, pizza, clam chowder, soda and beer will be the main items on the refreshment menu.

Ticket sales have been very good, and a big turnout is expected. Tickets can be obtained from your Shop Steward or Board Member.

A good time is guaranteed for all so be sure to come along and bring a friend or a member of the family.

The members of Turbine on the 2nd shift will hold their section night on Friday, July 19th, at 12:30 that evening.

SCHOLARSHIP APPLICATIONS
REVIEWED BY COMMITTEE

Last week a preliminary meeting of the Scholarship Committee was held at the Union Office to sort out the many applications received for the Annual Local 301 Scholarship Award.

The difficult task of trying to select a winner among the many eligible applicants got under way as Frank Masterson, chairman, John Legearf, Roy Schaefer, Joe Alois, Vinnie Bifulco met with Robert Murray, Superintendent of Schools and another member of the school staff.

When the final call of evaluation is completed the lucky student's name will be announced at the nearest membership meeting. Last year's winner is now attending State Univ. and is well up at the top of his class in scholastic ratings.

More details will be published as soon as information is available.

"WHY TO WORK ABOUT"
By Philip Masterson

Mr. Ford, or the Ford Motor Co., and a member of the GE Board of Directors, claims that the GE Co. cannot support a "Supplemental Unemployment Insurance" program for its employees who are forced off the streets because of lock-out work.

He apparently is more concerned about his own employees than he is about us since his company has adopted the SUM Plan in its contract with the UAW for its employees.

"Night-to-Work?"

You have probably read about the company propagandize on "Night-to-Work" (1) Laws in which they claim that some people (a minority group) want to work when a strike is in progress at a specific plant.

This the company claims is their privilege. Let us point out that this type of individual is more profitable to the company because in so-called Night-to-Work studies, the productiveness is much lower than in other states around the country. This means that these people earn less money for their services while the company makes more profit on their efforts.

One would be led to believe that some companies are more concerned with profits than people who make this possible or trying to provide a better standard of living for their efforts.

Think seriously about the 1958 promises made by the company and the layoffs which followed.

ATTEND YOUR UNION MEETINGS
regularly during the crucial months to come and it will pay off in extra dividends.

"GS UNION CONTRACT SETTLEMENT(Contd)"

"On the national level, for the first time since we started dealing with the IUE, there seems to be a growing awareness that the interests we have in common are far more important than any issues which seem to divide us. This is good for all concerned. Let's hope it lasts, he stated.

Referring to the recent speeches and demands by James Carey, IUE president, Stevens said he thought there were indications that Carey seemed more moderate in his actions and less demanding."

"If this is sincere and I give him credit for being so," Stevens said, "I think this is a good sign for an early settlement."
Letter From Leo Jandreau, Local 301 Business Agent,
to UE President Albert Fitzgerald –

United Electrical, Radio & Machine Workers

March 5, 1956

Dear President Fitzgerald:

As you will recall, more than a year ago the officers of Local 301
presented to the National Executive Board of your union the
concerns of the members of the enterprise with which we are
affiliated in the wire and cable business. At that time, in our
presentation, we made reference to the situation which prevailed
in the wire and cable industry, particularly in the wire and cable
business. We further stated that the situation had reached such a
degree of seriousness that a national call for action was
imperative. We also stated that the situation was such that the
members of Local 301 were in a position to take action to
protect their interests.

At the time, we stated that we were prepared to take action
to protect the interests of our members in the wire and cable
business, and we further stated that we were prepared to take
action to protect the interests of our members in the wire and cable
business.

The response of the National Executive Board was that they
were willing to support our action, and they further stated that
they were willing to support our action.
