**Local Organizing Drive Making Great Progress**

The General Session of the Employee Union in 1925, realized the great progress that was being made in the organization among the General Electric employees. A General Membership Committee was formed, and the first step taken was to organize the Schenectady G.E. Plant. A small group of men was chosen to work in the field, and the remaining members were divided into three districts to work under the supervision of the committee.

The plan was to organize the entire factory area, and the committee members were given the task of recruiting new members. They worked hard, visiting every department and speaking to the workers about the benefits of union membership.

Within a few months, the committee reported great progress. The membership had grown significantly, and the organization had become well established. The committee continued to work diligently, expanding the membership and strengthening the union's influence in the factory.

Local Organizing Drive Making Great Progress

The local organizing drive has been making great progress. The committee members have been working hard to recruit new members and increase the union's presence in the factory. They have been visiting every department and speaking to the workers about the benefits of union membership.

Within a few months, the committee reported great progress. The membership had grown significantly, and the organization had become well established. The committee continued to work diligently, expanding the membership and strengthening the union's influence in the factory.

**To the Members of Local 301**

The close of the Year 1925 finds our Union, Local 301, enjoying the utmost confidence of the great majority of the employees in the Schenectady Plant of the G. E. Company.

This confidence has been well established. A number of our men have been appointed as stewards and they have been doing a splendid job of representing the interests of the members. The organization has grown in strength and influence, and the members have become more united and supportive.

THE CONSTITUTION AND BY-LAWS OF
OUR LOCAL 301

At our general membership meeting of November 14th, the Constitution of our Local was amended during the past two years by the membership from time to time was ratified as a whole. Printed copies of the Constitution are now available to our members in vest-pocket size. It is important that all our members request a copy from their shop representatives or from collectors and become thoroughly familiar with rules that govern our union.

We often hear charges of dictatorship indiscriminately hurled by our membership against the leadership, or that such difficulties are due to the present union. When an irresponsible member makes such a charge, he should ask himself how many membership meetings he has attended or what he has done to help form our general policy.

A small minority of our great membership was present at the recent meeting to ratify the Constitution. The meeting was advertised on every bulletin board in the city, but only a small number of our membership came to the meeting. To those who attended, this means that the small number have decided how the affairs of our union shall be conducted.

It is true, that our Constitution is possibly the most democratic in the American Labor movement as meeting will prove, but we believe that our Constitution has the future. Most parts of freedom and democracy, but only too often this freedom and democracy lightly in a selfish interest. The first aggressive person a proposal that would snatch it from them. Now, freedom is not to be quietly tolerated. We谁s to freedom. We demand to have our own responsibilities fulfilled.

Working people from many hands have felt their duties—have been democratically-lalt, yet the fight of their enemies. We believe that this fight for freedom likely to have been appreciated until they lost it.

In these God-forsaken United States of ours, we will enjoy the luxury of being able to freely assemble and express ourselves and we will have a voice in our government. We recognize the rightful value in the formation of laws to be beneficial to the country, and general, yet, we believe that these voices do not go unheard, do we not care?

Let us write this coming of freedom and democracy to the membership of our Local 301. Let us decide that as long as we have Local 301, shall remain an example of a genuine American democracy, which is fought for by the single member doing his share to maintain it. Let us all heed our Constitution, which is a synthesis of our union work and our personal lives, and do our share to keep this union strong and prosperous.

A True Story of a G.E. Employee and Compensation

Mr. K. worked for the same manufacturer 30 years. He is a member of the Union Local 301 and received a raise in his last contract. He was a journeyman for many years before he became a foreman. He is now a foreman at the plant.

His story illustrates the power of unionism. His predecessors in the same position were paid $500 a month, while he is now receiving $1,000 a month. His work is very important to the company.

The union negotiation included a provision that the company's management would be responsible for the employee's ability and capacity. This agreement was reached after many meetings and a great deal of negotiation. The management agreed to pay Mr. K. $1,000 a month for the next three years.
