Halt GE Day Work Attack
In WSB Spray Paint Case

Exactly one year ago in the day that a petition was filed, approximately 27 spray paint workers working out of Biloxi, MS have had a 14% cost of living adjustment approved by the Wage Stabilization Board. It runs retroactive pay to Feb. 18, 1952.

Three times a petition was filed with the WSB in an attempt to get negotiated increases approved. The last petition was filed two months ago.

On the first file, the Union, Local 655, filed a petition for increases for five additional employees. The Board approved the increase, making six employees in the job. The reduction was made because the Union had not reached an agreement with the Company.

On the second file, the Union, Local 655, filed a petition for the same group of employees. The Board approved the increase, making six employees in the job. The reduction was made because the Union had not reached an agreement with the Company.

On the third file, the Union, Local 655, filed a petition for the same group of employees. The Board approved the increase, making six employees in the job. The reduction was made because the Union had not reached an agreement with the Company.

When the union stepped up their work en masse, the plants were shut down for a day to protest the unfair labor practices. The protest is the first in the organized labor movement for the local area.

The union made the protest outside the gate where the workers entered the plant. The protest lasted several hours and was observed by the management and police.

The management said they would not cross the picket line and the workers went on strike. The strike lasted two days and ended without a settlement.

The management made the protest outside the gate where the workers entered the plant. The protest lasted several hours and was observed by the management and police.

The Wage Freeze Board Is Stripped Deck for Workers

GE workers have found much to their sorrow what life is like under the wage freeze. But the story of their trials to get approval of their 3.5 percent increase is one that millions of workers are joining. More than 200,000 workers have been in the strike across the country.

The board, which was formed to handle the issues of the wage freeze, has been criticized by many for being too lenient. It has approved the increases for many of the workers, including those at GE, but these increases have been rejected by the majority of the workers. This has led to a feeling of frustration and anger among the workers.

$100 Back Pay for Unequal Rates

The workers at GE have been left out of the increase, and they are now feeling the effects of it. Some workers have reported feeling less motivated to work, and others say they are considering quitting. The union is working to get the back pay for the workers, but it is not clear how long it will take.

$444,000 Won By Union

The union has been working hard to get the back pay for the workers, and it has been successful in some cases. In one case, the union was able to get $444,000 for a group of workers. The union is now looking to get back pay for other workers who have been affected by the wage freeze.

Notice on Dues

It is important to note that while the workers are currently being affected by the wage freeze, the union is still working hard to get the back pay for the workers. The union is encouraging its members to continue to pay their dues, as this is one way to support the union and help to get the back pay for the workers.
