THE UPPER CRUST

by HENRY METZEL

A recent visitor in Building 12 of the United Electrical Workers of America was greeted by the sight of a Christmas tree with lights and ornaments. The tree was located in the union's main office area, where it was visible to all who entered the building. The display was part of the union's efforts to spread holiday cheer and provide a festive environment for its members.

ANNUAL REPORT OF OFFICERS FOR YEAR 1940 SHOWS GREAT PROGRESS

(continued from page 3)

G.E. employees are ceilings - We have said before that our employees are ceiling workers as well as all other people. Our ceiling covers are a beautiful thing to produce. We have to be careful that they are not damaged, and we have to be careful that they are not torn. This is a beautiful ceiling. It is made of a beautiful material.

FORD REFUSES LINCOLN PLANT ELECTION - HIT IN KANSAS CITY

DOWNTOWN (E.P.) - Following another violation in the Kansas City affairs, the management of the Ford Lincoln plant refused to recognize the UAW-CIO locals at the union's request. The plant is located in Kansas City, in the heart of the union's territory. The local union has been organizing in the area for several years, and has made some headway. The management of the Ford Lincoln plant has consistently refused to recognize the local union, despite the fact that the union has won several elections in the area. The local union is determined to continue its fight for recognition, and will not give up without a fight.
