"In 16 years we can do it all again!"

At Union Hall which was mobbed by the workers with a demonstration, Joe Ramirez, a member of the executive committee commented: "If this strike is not won, we will affect the company, we will strike for what we need."

Much of the talk was about how the pay scales increase for the workers and the need for the company to understand the workers' demands. It is now up to the company to decide if it will make a decent offer... without strike.

A meeting with a GE official in New York yesterday resulted in no decision. The workers said that they would not only strike to improve their working conditions, but also as a protest to the company's failure to meet their demands.

Several union representatives were scheduled to meet with company officials throughout the country and here are going ahead with their strike efforts.

Issue In Dock Strike Is...

The union is still trying to reach an agreement with the company over wages and working conditions.

The workers in the dock strike are demanding higher wages, improved working conditions, and an end to the use of cheaper foreign labor.

UE Attorney Gives Legal Facts of Vote

A number of workers who were in the hall and recalled that the strike was taken for several reasons: the accreditation of H.W. C. was not done as expected; the company's refusal to accept the agreement; and the company's failure to negotiate.

In the past few years, Congress has passed the Smith-Connally Act which makes it more difficult for workers to organize unions without a majority vote. However, workers also have been trying to organize unions in other industries with similar problems.

Joe Ramirez said that the strike was taken because of the company's refusal to negotiate and the workers' desire to improve their working conditions.

The strike is expected to continue for several days and is being supported by several union locals in the area.

Workmen's Compensation

The Workers' Compensation Act is a federal law that provides for payments to workers who are injured on the job. The law was passed in 1910 and has been amended several times since then.

The act provides for two types of benefits: temporary total disability benefits and permanent partial disability benefits. Temporary total disability benefits are paid to workers who cannot work because of an injury. Permanent partial disability benefits are paid to workers who cannot return to their original job after an injury.

The law also provides for medical care and rehabilitation services for workers who are injured on the job.

UE Pulls Out of Erie Poll

The UE has decided to pull out of the primary election in Erie, Pennsylvania, and has not endorsed any candidate.

The UE is a labor union that represents workers in various industries, including steel, auto, and defense.
