Tension over the economic situation in de-industrialized areas is increasing. The AFL-CIO has decided to form a task force to deal with the problem. The task force will meet regularly to discuss the situation and develop strategies for dealing with the issues.

The AFL-CIO Resolution

The resolution on political action was adopted by the State CIO convention at Saratoga Springs last week. The resolution called for increased political activity to support the Taft-Hartley law and the AFL-CIO's political arm.

The resolution noted the importance of political action in the labor movement and called for greater efforts to elect pro-labor candidates at all levels of government. The resolution also called for the strengthening of political organizations and the development of a unified political program.

The resolution concluded by urging all labor organizations to support the Taft-Hartley law and to work towards its re-enactment if necessary.

Local Approves Report
On State CIO Session

A report by Leo Jandreau on the recent State CIO session at Hackensack was unanimously approved Tuesday night by the 301 membership meeting.

Jandreau declared that despite some newspaper attempts to show a split in CIO ranks, the meetings proved a "uniting and construction program," resulting in the adoption of the New York Labor and the declination of all members of Congress who voted for it.

"The delegates went out of there determined to give the people what they want," Jandreau said, "regardless of what differences of opinion they may have expressed on the floor about individual candidates and issues."

The newspapers now couldn't make their pages with the convention's foreign policy resolution, Jandreau pointed out, after the convention passed the resolution unanimously recommended by the Executive Board, as it turned their attention to distorting the story of the voting on political issues and the ALP.

The resolution adopted was printed in full in last week's "News."

"Jandreau explained, if we were to lose last year's resolution, the CIO would function through the PAC and will also make use of the ALP in New York. It is quite clear that ALP members are automatically enrolled by the resolution, so it is up to each local PAC group to vote on the resolution."

"We want to pay the price. If we agreed with the employer and never did anything as a union, in the name of the CIO, we would bring the striking example of the strike of the Brooklyn Telephone Company, General Electric and other anti-CIO groups."

The only reason our union and its officers exist is that we are the major force outside of the publicity and political attacks on us. We are the major force in protecting the rights of our members. We are the major force in protecting the rights of our members.
