The G.E. Works News says you
are fortunate working for a com-
pany which has always known how to
control costs and maintain a
high level of service. It is true
that a rise in the number of
employees is not desirable, but
it is true that the cost of service
to the customer is not increased
in the same proportion.

pany Office News). Well, we
think back over the years, the
Union and the Community, are
necessary and deserve the whole-
based support of all G.E. work-
cores.

We do agree, however, with
part of the article in the G.E.
Works News which said, "Satis-
factory service throughout the
Company is rumored to be
growing on the part of employees,
even though some of the rumors
are false. It is true that
the service is really that
regarded by some as
a trade-off."

CIO State
Convention

U.E. Offers Anti-Labor Plan to Control Union Hogs

The U.E. has announced that it will offer a plan which would enable the company to control union activity. The plan would operate through the use of a "puppet union" which would be elected by the employees, but would be under the control of the company. The puppet union would have the power to negotiate settlements, but would be subject to the approval of the company. The plan is designed to enable the company to maintain a union without the need for formal elections, and to prevent the formation of independent unions.

Injured Workers Should Note New Procedures in Worker's Compensation

The new procedure for handling workers' compensation cases is a significant improvement over the previous system. The new procedure is designed to speed up the processing of claims and to make it easier for injured workers to receive the benefits to which they are entitled. Under the new procedure, claims are filed through the company's insurance company, and the company is responsible for ensuring that the claims are processed in a timely manner. In the past, claims were filed with the state department of labor, and the company had no control over the processing of the claims. The new procedure will allow the company to take a more active role in the claims process, and to ensure that the claims are handled in a fair and efficient manner.
