Industry Unites In Effort To Cut Compensation, Unemployment Benefits; Calls Awards "Sensational"

Example Cases Of Workmen's Compensation Awards:

Case #: Mabeline H.

Mabeline was struck by a truck and a fall. 

Report Of Medical Examination By State's Doctor:

"Mabeline was operated on and has been under proper treatment since her accident. She is in a satisfactory condition, and has not suffered from any injury other than the one she received in the accident last year."

Award: $1,000 for services rendered from March 1, 1921, to March 1, 1922.

Case #: Catherine B.

A 10 year old girl was struck by a truck and a fall.

Report Of Medical Examination By State's Doctor:

"Catherine was operated on and has been under proper treatment since her accident. She is in a satisfactory condition, and has not suffered from any injury other than the one she received in the accident last year."

Award: $1,500 for services rendered from March 1, 1921, to March 1, 1922.

Unemployment and Compensation Benefits, Industry's Targets:

The measure holds true, of course, if they can be made to suit compensation benefits. There is a growing desire to make them a little more reasonable. A campaign has been launched for the purpose of getting a law passed which will make the compensation benefits more reasonable for workers. The benefits are not as high as they should be, and there is a strong feeling that they should be increased. Many employers are willing to cooperate in this campaign, and are willing to pay a little more for the benefits of their employees.

Many workers are ready to welcome the idea of a law which will make the compensation benefits more reasonable for them. They understand that the benefits are not as high as they should be, and they feel that they are entitled to more. The workers are willing to make some sacrifices in order to get the benefits they are entitled to.

Boulware Blueletters Begin in Schenectady

Like every other G.E. department manager, Mr. Stevens has been inducted into the hall of fame of the New York office of General Electric, handed down by the G.E.'s Club! No matter how many employees are in the company, there is always room for growth and improvement. Mr. Stevens, the company's G.E. manager, is making a sincere attempt to come to terms with the union's demands for a fair wage and better working conditions for the employees. Mr. Stevens, the company's G.E. manager, is making a sincere attempt to come to terms with the union's demands for a fair wage and better working conditions for the employees.

Mr. W. R. Smith, the Manager of the G.E. plant in Pittsfield, cited in a News Letter that is similar to the letters sent by other department managers, is in trouble. It is a very serious matter and one that will have to be dealt with immediately. The company's G.E. managers are worried, and that is why G.E. workers are getting ready to protect themselves from the attack by National G.E. against their wages and working conditions.

Manager Smith from Pittsfield sends most of his propaganda letter in rather a different style and does not even mention the company's plan to transfer the entire Volta Department out of Schenectady.

These are the only examples of the hundreds of complaints that are referred to the company's management for solution. Every one is initiated by representatives of management. While Mr. Stevens is the only one to whom the News Letter is referred, he is officially warned about the work stoppage. The Federation of Electric Workers is in close touch with the company's management and is ready to do its duty.

Mr. Stevens has been ordered, along with other G.E. managers, to start a propaganda campaign to weaken the G.E. workers by causing discord in their ranks. The National G.E. management under the direction of Mr. Boulware has asked the company's G.E. managers to disrupt the performance of employment, to dip their quill in salver and start writing.

1955 — THE YEAR OF DECISION

Faced with the determination of the vast majority of G.E. workers in IUE-CIO, G.E. is daily becoming more disturbed. That this year it will have to share some of its record profits with the workers is evidenced in the rise of union activity and other attempts to full employment to sleep with a single voice.

CREEPING BOULWAREISM

For the past 5 years, honest collective bargaining has been denied G.E. workers. As Boulware took ruthless advantage of this advantage, the National G.E. workers have been engaged in the past few months in a propaganda campaign to weaken the leadership of the National G.E. workers. It has been said that this is a great victory for G.E. workers. But the fact is that the company's management is the same. They are not interested in the employees' welfare. The company's management is interested in the company's profit and the workers are not interested in the company's profit. The company's management is interested in the company's profit and the company's management is interested in the company's profit.

In a booklet entitled "Year-End Review", issued by National G.E., with tongue to cheek, they talk of a new policy of doing right voluntarily. Now if you're a G.E. employer, you are supposed to believe that you are an important factor in this program of Better Balanced Interests. Yet they admit in this very same booklet, that even if the company's management is not interested in the company's profit, the company's management is interested in the company's profit.

RECORD OF CHISELLING

G.E. never states truthfully when they are taking advantage of the company's management's position. As Boulware took ruthless advantage of this advantage, the National G.E. workers have been engaged in the past few months in a propaganda campaign to weaken the leadership of the National G.E. workers. It has been said that this is a great victory for G.E. workers. But the fact is that the company's management is the same. They are not interested in the employees' welfare. The company's management is interested in the company's profit and the company's management is interested in the company's profit.

Since the Union has been organized, G.E. workers have
