Committee Prepares Field Day Program

Peace for the annual Field Day of Local 301 a lot behind this year because of shortages of supplies and equipment.

Forrest Campbell, chairman of the Administrative Committee of the stewards, said he will announce the date and place soon. Following the tradition of other years, the affair will start at 11 a.m. and run until midnight.

Campbell also said that "any day now" he may reveal what the big prize will be. It was very important for the 301 stewards to give the new stewards the same spirit of cooperation and interest in their welfare that they have shown in the past.

This is an annual event that has been a tradition for the past three years and is one of the highlights of the year for the Local 301 stewards.

**They Have to Sit Up Nights To Think Up Tricks Like This**

Here is an easy way for the letter writer of the year contest: A woman who was employed at the GE plant for four and a half years was laid off. After she had been out of work for a week she cast ballots and was offered a job in Building 24, winding tape around coils. Later she was sent to Building 34 where she was given work withmix and varnish which she could not do because of other work which made her unable to work.

The interviewer at Building 1 put it on the record that the woman had too much work and had resigned. According to the Local 360 office, which has taken the case with much regard as a grievance, the interviewer would be disciplined for writing so many cases with the record and his guilt voluntarily.

**Contract Brings New UE Victory**

A contract with the General Cable Co., signed by the national UE, provides a general pay increase of 25 cents per hour and a paid holiday and the union shop and reserves all plant work not covered by the terms of average earnings.

Representatives of GE, General Cable has a plant at Rome, R.I. The contract was described at the recent UE convention on the best union contracts signed anywhere in the country this year.

**Want to Smoke? Then Obey Rules**

It has been read to the members of the Local 360 office that some members are not living up to the agreement between the company and the union concerning smoking in restricted areas.

The union office has issued a warning that continued violations of this agreement will result in the State Labor Department reaching the offending parties.
