THE TRUTH ABOUT ESCALATORS

"U.S. workers as a whole, and its disposition as a result of the situation has led U.S. to see things, like..." The American Electrician talks about the situation in the U.S. concerning the IUE-CIO strike.

The March 201 textile union news issued an article under the title, "Strike at Milliken's," claims that the major factor in the strike is the U.S. textile industry's struggle to remain competitive.

The IUE-CIO News reports that the U.S. textile industry faces tough times as its costs continue to rise, putting pressure on its workers. The union is fighting for better wages and working conditions.

The IUE-CIO News also reports that the U.S. textile industry is facing tough times as its costs continue to rise, putting pressure on its workers. The union is fighting for better wages and working conditions.
