INSULATED MATERIALS DEPARTMENT TO BE MOVED IN JANUARY

The General Electric Company has just announced plans to locate its Insulated Materials Department in Somerdale rather than transfer the operation out of town as was formerly contemplated.

In the union, we are very happy with this decision because this not only means keeping the present jobs in Somerdale but may provide additional jobs for the future.

We are in the midst of the 1960 negotiations...and this can only be secured by unity.

CASHING IN on YOUR MONEYS?

In times like these...and under some of the conditions that exist in the GE plants...it pays to belong to a union.

October 1st is the beginning of a chain-wide membership drive to inform our members that a new union is being formed to protect the rights of all workers. We urge all members to join and to help organize the new union.

The only thing that GE understands is money...and they can only be secured by unity.
