15 Percent Bonus Plan

(continued from Page One)

Mr. Whitaker was giving away his inheritance to the War Production Board and this would mean a loss of $40,000 a day. Mr. Whitaker was given a choice between the two, and he chose to give up his inheritance. The War Production Board would be able to purchase the equipment and then the money would go back to Mr. Whitaker.

The agreement was made with the War Production Board and the money would be used to purchase 100,000 tons of steel.

UNION NEGOTIATIONS

UNION NEGOTIATIONS

The Steel Workers of America (SWA), the largest union in the country, has called a strike against the Steel Company. The SWA has 1.5 million members and is demanding an increase in wages of 15 percent.

The company has offered a 5 percent increase, but the SWA is demanding more. The negotiations are expected to continue for several days.

TO ARBITRATION

The Steel Company refused to negotiate with the SWA, saying that it would be too expensive. The SWA then filed a complaint with the National Labor Relations Board, which is responsible for arbitrating such disputes.

The board issued a ruling that the company must negotiate with the SWA. The company then agreed to negotiate, but only under certain conditions. The SWA was satisfied with the conditions and the negotiations began.

THE ROLLER

One of the major issues in the negotiations is the company's demand for a reduction in the number of workers. The SWA is determined to maintain the current number of workers, but the company is pushing for a reduction.

The negotiations are expected to be lengthy, and it is possible that the dispute will end up in court.

ELECTRICAL UNIONS

LIGHTING UNIONS

On November 23, 1946, the Electrical Unions announced their stance on the labor dispute. The unions called for a boycott of all electrical products until the company agreed to negotiate.

The unions said that they would not participate in any negotiations until the company agreed to their demands. The unions had previously called for a strike, but the company refused to negotiate.

The unions were able to negotiate with the company on November 29, 1946, and a tentative agreement was reached.

WAGE INCREASE DEMANDED

The membership of Local 316 of the Electrical Workers Union (EWU) is demanding a wage increase of 15 percent. The union represents workers in the electrical industry and has 10,000 members.

The union said that it is necessary to increase wages in order to keep up with the rising cost of living. The union has been demanding a wage increase for several years, but the company has refused to negotiate.

The union said that it is ready to take strike action if the company does not agree to negotiate. The union has asked the National Labor Relations Board to intervene in the dispute.

Tuberculosis... Christmas Seal Drive

The Schenectady County Councils on Tuberculosis and Public Health opened the 86th Annual Christian Red Cross Ball on November 29, 1946, in Schenectady.

The ball was a success, raising $50,000 for the Schenectady County Tuberculosis and Public Health Association. The association is dedicated to the prevention and control of tuberculosis.

The Schenectady County Tuberculosis and Public Health Association was founded in 1914 and has been active in the fight against tuberculosis ever since. The association has made significant contributions to the prevention and control of tuberculosis.

The association's main goal is to provide education and prevention programs to the community. The association also provides financial assistance to those in need.

The Schenectady County Tuberculosis and Public Health Association is a member of the American Lung Association and is affiliated with the National Tuberculosis Association.

Life of Living... Bad Boys

A man was reported to have shot and killed a woman in the town of Schenectady. The man was arrested and charged with murder.

The man was a well-known figure in the community and had a history of violence. The community is shocked and grief-stricken by the tragic event.

The man was expected to be tried in the near future and is facing a long prison sentence.

Wages:

The average wage in the United States is $15.00 per hour. The average wage in the electrical industry is $17.50 per hour.

The electrical industry is one of the largest industries in the country and employs over 1 million people. The industry is experiencing a labor shortage and is offering high wages to attract workers.

The electrical industry is expected to grow in the coming years and is expected to create thousands of new jobs. However, the industry is facing a labor shortage and is offering high wages to attract workers.

The electrical industry is expected to grow in the coming years and is expected to create thousands of new jobs. However, the industry is facing a labor shortage and is offering high wages to attract workers.

The Labor Issue

QUESTION

Are Labor Unions a benefit or a hindrance to the war effort? Are they progressive or reactionary? What are they to America?

ANSWER

by M. V. MILLER

Labor Unions have been more than a hindrance to the war effort. They have raised the wages of workers, but have not raised the productivity of workers. The unions have not been able to bring in new workers, but have kept out entire groups of workers who would have been productive. The unions have not been able to bring in new equipment, but have kept out entire groups of equipment which would have been productive.

The unions have not been able to bring in new methods, but have kept out entire groups of methods which would have been productive.

It is true that the unions have been a hindrance to the war effort. They have raised the wages of workers, but have not raised the productivity of workers. They have not been able to bring in new workers, but have kept out entire groups of workers who would have been productive. The unions have not been able to bring in new equipment, but have kept out entire groups of equipment which would have been productive.

The unions have not been able to bring in new methods, but have kept out entire groups of methods which would have been productive.

The unions have not been able to bring in new materials, but have kept out entire groups of materials which would have been productive.

It is true that the unions have been a hindrance to the war effort. They have raised the wages of workers, but have not raised the productivity of workers. They have not been able to bring in new workers, but have kept out entire groups of workers who would have been productive. The unions have not been able to bring in new equipment, but have kept out entire groups of equipment which would have been productive.

The unions have not been able to bring in new methods, but have kept out entire groups of methods which would have been productive.
