Albany Hearings Refute All Charges

Jandreau Statement:

It is embarrassing to the movement presently in progress wherein we are attempting to bring to a close the long-standing struggle to force the Trades Union movement in the Electrical Industry to accept the unalterable and unalterable statement of the Interallied Committee.

As nearly as I know, this is the first time any group of workers have ever made a demand to the Interallied Committee, that it not alter the statement of the Interallied Committee.

We are not asking for any change in the statement of the Interallied Committee, but we are asking that the statement not be altered.

100,000-Strong, IUE-CIO Begins GE Contract Talks

The United Electrical Workers of America, CIO, is negotiating a new contract with General Electric Company. The negotiations are expected to last for several weeks.

The union seeks an increase in wages, benefits, and working conditions. The company is expected to make concessions in response to the union's demands.

For the first time since 1930, the union and the company have sat down to negotiate a new contract.

With Local 301 in the forefront of the fight, the IUE-CIO Negotiating Committee presented its demands for better wages and benefits to GE. Major items among the union's goals are:

1. A substantial wage increase.
2. Better working conditions.
3. Health and welfare benefits.
4. Improved vacations.
5. Better retirement plans.
8. Hot fresh meals.
10. Better working hours.

The demand for better wages, benefits, and working conditions is expected to bring about a significant increase in salaries for GE workers.

The negotiations are expected to last for several weeks, and a new contract is expected to be signed in a matter of weeks.

BULLETIN

As we go to press, U.E. outside tellers are still at their posts in Allentown. They are trying to negotiate a fair settlement of Local 360's demands—which U.E. has always tried to do in Allentown. They are also trying to improve conditions for their members.

Local 360's strikers have not taken any action in Allentown or any other area. They are concentrating on improving conditions in Allentown.

When Albert Armstrong, Bldg. 35, Specialty Control, was placed on layoff in Bldg. 35, he was 8.00 a month in violation of his contract. As a result, the Grievance filed by Bldg. 35 Specialty Control, the Company agreed to pay him his rate of pay plus 50 cents.

LAYOFF HALTED IN BLDG. 68

M. Prichard of Bldg. 68 knows the real value of having a union. He's a skilled worker who has been laid off for the past three years. He was told by his foreman that he would be out of work for the rest of the year. But when the Grievance filed, he was reinstated.

"What happened to IAM?" That's a question many people have been asking these days. The IAM has not been able to sell its product to the public. This may be because of its lack of support among the workers.
