We Fight Back Tomorrow
GE Continues It's Excuses

In an all-out bid for public and employee sympathy, the company has returned to deliberate misrepresentation of facts. The concern which it now expresses for the welfare of the employees and the public is on its face false and dramatized more than ever for the determination of this strike. The company's statement with Governor Buildis does not hold for all.

Powerhouse & Guards Must Go In To Protect Union

In accordance with general union policy throughout the country and especially the program of our own international union, the General Strike Committee of Local 6R, has instructed certain workers to stay on the job throughout the strike. The big reason for this is that property may be preserved. As a matter of fact they are on duty rather than normal strike duty.

Bus Drivers, Others
Pledge Full Backing

A small group of drivers in the New York area has consented to remain on the job during the strike. This group is composed of members of the International Association of Machinists and is composed of members of the International Association of Machinists. The group is composed of members of the International Association of Machinists and includes members of the International Association of Machinists.

Office Workers Join
Fight For Better Pay

A large group of selected workers of the GE served strike on the Company that has no intention of doing pay to the Company. The group is composed of members of the International Association of Machinists. The group is composed of members of the International Association of Machinists.

Beware of Rumors

It is to rumored that certain statements are made by the Company. The statement is made by the Company. The statement is made by the Company.

To the Union members who are on the job at this time, it is to rumored that certain statements are made by the Company. The statement is made by the Company. The statement is made by the Company.
State Street Gossip

The following are rumors reported heard along State Street in public meeting places, and omitted without comment or substantiation. This type of communication should not be taken seriously...it's just the way of the company's Channels response to the battle for public sympathy.

These are the common:

Spouses: You know what they say. They say your husband's a swell fellow, but behind that face he's a devil. They say your wife is the one who really runs the show.

Women: Women will always be the weak link in a company. They say men are more efficient, more capable, and more productive.

Women Exploited

By General Electric

The General Electric Company is known to be exploiting women workers in its factories. The company has been accused of paying women lower wages than men for the same work. The women workers are also said to be subjected to unequal treatment and sexual harassment.

NOTE

From Picket Captains

Every member must be at the assigned post Tuesday, 6 a.m. for full picketing. Build us strong! BUT PAY our lines.

Food Committee

Already Active

The Food Committee is already active in providing food for the picketers. They are collecting donations and distributing food to those in need.

G. E. POLICY:

Divide 'Em and Rule 'Em

This policy is said to be in effect at General Electric. The company is divided into departments, each managed by a different manager. This creates a sense of competition among the departments and keeps them from working together.

Picket Instructions

Picket Captains are responsible for maintaining order and ensuring that picketing is conducted peacefully. They should be familiar with the company's policies and procedures.

Rt. 1

State Street

Suits/their heads are the only thing standing between the workers and the company. If you're going to picket, make sure you're not blocking anyone's path. If you're not sure, ask a fellow picketer.

Open Letter Protests Giving Foremen Club

To United Electrical

Employee Group

25 East 42nd St.

New York, N.Y.

Attention: Mr. Donald C. Miller

Dear Sir:

We, the members of the United Electrical Employees Group, are writing to express our concern about the recent decision to establish a Foremen's Club within the company. This move is seen as a threat to our rights as employees and raises questions about the company's commitment to fair treatment and equal opportunity.

The establishment of a club specifically for foremen is seen as a form of discrimination and a violation of the company's own policies. It is also seen as a step towards weakening the power of the employees' union and eroding the rights of workers.

We urge the company to reconsider its decision and to ensure that all employees are treated equally and fairly. The United Electrical Employees Group will continue to work towards ensuring the rights of all employees.

Yours sincerely,

[Signature]

Pay Checks Prove Ford Edwad Plans Effective Strike

The General Electric Company's payroll department is due to make payments to workers this week. The company is said to be preparing for a strike, and workers are being paid in advance to ensure that they have enough money to cover the cost of living.

The strike is expected to be effective and workers are being encouraged to participate. The company is said to be prepared to meet the demands of the workers and to negotiate a fair contract.

E. O. Mohr

Regional Manager
