16 Steel Workers Operate Big Plant

The new plant, with its production capability of 16 steel workers, is located in the heart of the U.S. steel industry. The plant is fully automated and is equipped with the latest in steel-making technology. It has a production capacity of 20,000 tons per year.

Building 85 Incentive Plan

The Incentive Plan, which was announced for Building 85, has had an immediate impact on productivity. Workers have responded positively to the new incentives, resulting in increased output and higher morale. The plan is expected to continue to yield positive results in the future.

Arbitration Hearing

An arbitration hearing was held in Building 85 to address the concerns of the workers regarding their wages and working conditions. The hearing was mediated by an independent arbitrator, who listened to both sides and made a decision based on the evidence presented. The arbitrator's decision was expected to be announced within the next week.

Must Prices Rise When Wages Rise?

A significant debate has arisen regarding the relationship between wages and prices. Some argue that wages should rise when prices rise, while others believe that wages should remain constant. The debate continues, with no clear consensus.

Study Shows Big Steel Cuts Cost Lives

A recent study has shown that steel cutbacks have resulted in increased morbidity and mortality rates. The study, conducted by a team of researchers, found that workers in the steel industry have a higher risk of heart disease and other chronic conditions.

UNION DUES IS JOB INSURANCE

The Union, through its insurance program, offers its members comprehensive health and life insurance coverage. The program is designed to provide financial protection for its members in the event of illness, injury, or death.

Stevens Demands Union Statement on Stoppages

At a meeting last week attended by A. C. Stevens, Manager of Community Relations, the officers of IUE-CIO Local 301 in Schenectady met with representatives of the company to discuss the issue of stoppages. The representatives of the company agreed to issue a statement expressing their commitment to maintaining a peaceful work environment.

The Facts On Turbine Stoppages

On July 6, a new employee was hired and placed on a large layout, which carried a 50:50 rule of 80:20 per employee. He was first hired through the Employment Office in the Boring Mill Operations, where the employee claimed there were openings on building No. 23. To date the employee has been given the job.
