Use of Leaks, Water Sheds, etc., against management.

Local 83's president, John J. Parrott, announced that the company will no longer use leaks, water sheds, etc., against management. The company will now use more effective methods to prevent and control leaks and water sheds.

GE's Assets Prove Ability To Pay Healthy Increase

GE's assets have increased by 15% from last year's $100 million to $120 million. This increase is due to the company's successful growth and expansion.

Campbell Turns Back on Voters

State Rep. Thomas F. Campbell has decided to run for the state Senate seat vacated by the retirement of former state Rep. Albert B. Kerr. Campbell, a long-time Democrat, has decided to challenge the incumbent, Republican state Rep. John F. Quinn, in the upcoming election. Campbell has promised to work hard to serve the district and to bring new jobs and investments to the area.

AMENITIES.

Local 301 members who come to the Union Hall after the March 4 decentralization meeting are encouraged to bring their own dinner, as there are no restaurants nearby. The union hall will provide refreshments.

Employers Changed Tune On Skilled Job Rates

Employers have changed their tune on skilled job rates, according to a survey conducted by the National Labor Survey Association. Employers now agree that skilled job rates should be increased to reflect the increased demand for skilled labor.

Plan Social Affairs

Members of the social affairs committee have been meeting to discuss various social issues. The committee has recommended that the company implement a social program that includes a weekly social hour and a monthly social event.

Punchin' It Out

Mars Inc. is planning to increase the price of its chocolate bars by 10% to cover the cost of increased production and transportation costs. The company has decided to implement the price increase effective immediately.
