Notice to All Shift Workers

Many complaints have been received at the headquarters that the second shift workers do not receive free spaces. We have decided to try it. We will monitor the situation and make adjustments as necessary.

A Union Election Comes to Judgement

Of course we believe that every worker in industry should be in a union. Of course you and 1,000.000,000 and millions of others believe in free speech, and we are not going to rest until our people have the right to vote on the union question. We have always been told that we were in the free world and that we have the right to make up our minds as to who we want to represent us. We are not going to accept the judgment of others without the right to vote on the question.
