1955 — The Year of Decision

(Continued from Page 11)

There were no pay cuts. Lunches, holidays, and vacations have been assured and improved, and all plant activity has been resumed.

And there is hope for the future. The management has stated that if this agreement is accepted, it will be the first step toward the establishment of a permanent plan for the future of the company. The union and management have agreed to meet at least once a year to discuss the progress of the company and to work toward the establishment of a permanent plan for the future.

PROTEST FOR COMMUNITY

"We understand that the company plans to make some changes in the plant, but we do not agree with all of them," said one of the union leaders. "We think that the changes should be made gradually and that the workers should have a say in the matter."

The union has called a meeting for Thursday evening to discuss the matter further.

WOMEN'S MEETING

24 Years of Loyal Service Pays Off

With Wage Cut for Lathe Operator

IUE Local 301 member Howard Funke was promoted to the position of foreman just this year. He has been with the company for 24 years, and his loyalty and hard work have paid off.

Howard was born in Schenectady and has been with the company since he was 16 years old. He started as a lathe operator and worked his way up to the position of foreman.

Local 301 Vice President Frank H. J. Smith presented Howard with a plaque to commemorate his 24 years of service. Howard was very surprised and touched by the gesture.

OVER 9,000 SIGN... No Contract — No Work!

LOCAL NEWS

The Voice of GE Workers, Local 301, Schenectady, N. Y.

February 15, 1955

RETURN OF SHOP STewARDS
to the Union office, was being scheduled by

Robert Landor of the Union office, shown above. At the right, IUE-CIO Local 301 Officers are seen with the Return to Work Committee, which represents the union shop stewards.

The shop stewards, who represent the workers, are back at the Union office, according to the statement issued by the union. They have been ordered to return to work immediately, and they are being given a chance to express their views on the strike.

REFERENDUM TAKEN IN PLANT

Signatures Authorize Strike Action

The Schenectady G.E. workers, members of IUE-CIO Local 301, voted by an overwhelming majority to strike if necessary, provided the company does not give up in good faith on the Union's contract demands in September of this year.

The referendum vote was taken in the plant by members of the shop stewards' committee. The vote was unanimous, and the majority of workers endorsed the shop stewards' right to strike if necessary.

Senator Makes Promise Good: Calls For Legislation To Stop Transfer of Jobs By Withholding Government Contracts

Senator Tom Campbell introduced a resolution in the State Legislature last week requesting endorsement of Federal legislation to prevent the transfer of work causing and aggravating the unemployment problem. Senator Campbell had presented the essence of the UFL Local 201 Arthur R. Melton, in his first speech which was made in the State Senate last December. The resolution is in part, "We have been informed that some manufacturers are transferring work from one state to another to evade the laws of this state and the laws of the nation which, in our opinion, is a violation of the right of the people to work for a living wage. We therefore, urge the passage of similar legislation in the State of California, and we will do all in our power to support such legislation." The resolution was adopted by Senator Campbell. It is hoped that the law will prevent the transfer of work from one state to another in order to evade the laws of the state and the nation which are designed to protect the right of the people to work for a living wage.

Union Dollars Build Camp For Children

A new camp for worker children at Lakeport, Oxnard, was made possible by a $1,000 gift from the United Automobile Workers Union. The camp is called "Camp Union." The camp was established to provide a place for children of union workers to enjoy outdoor games and activities.

Bivarial Bobbing

Bobbing is a popular amusement in the United States. It is a game in which players take turns trying to hit the bobbing sticks with a club. The player who hits the stick the most times wins. The game is played on a court or field and requires players to have good hand-eye coordination.

Additional Facilities for Mental Health in State and County

The people of the state of California are fortunate to have access to a wide range of mental health facilities. These facilities include hospitals, clinics, and community centers. The state and county governments work together to ensure that these facilities are available to those who need them. The state government provides funding for these facilities, and the county government is responsible for running them. The facilities are staffed by trained professionals who can provide the care and treatment that individuals need to recover from mental illness.

Local IUEC 301 Standing Committees

Standing committees for Local IUEC 301 have been appointed. The committees are: Local Organizing Committee, Plant Safety Committee, Labor Relations Committee, and the Political Action Committee. The committees will work together to ensure that the interests of the members are protected and that the union is strong and effective.

Unemployment

According to the latest report from the Labor Department, the number of people receiving unemployment benefits has decreased. This is a positive sign for the economy, as it indicates that more people are able to find work and support themselves.
