Stevens Concerned Over How to Vote

Mr. Stevens, according to the Works News last week, is concerned over the method that is used in rating employees for the purpose of determining who is to be transferred from one department to another. At the same time, he mentioned that he feels the method is not perfect and that some employees may be given unfair ratings. He also mentioned that he is working with the management to improve the system.

Delegate台 Elected

Area 10 CIO Council

The Delegate Elected Area 10 CIO Council met recently to discuss various topics. One of the main topics was the need for better communication between the employees and management. The Delegate mentioned that there is a lack of trust and respect between the two parties, which is impacting the productivity of the company. He also mentioned that the management needs to be more open and transparent in their decisions.

Satisfactory Settlement of 11 Points Best Answer

Injured Workers Do Not Lose Protection When Case Is Closed

When a compensation case has been completed in Compensation Court, the case is "closed," even though the worker has been paid a cash settlement. The court does not mean that the worker has the right to move any further claim, which may arise out of the same accident.

The worker who has been injured or who has been "compensated" is protected for 10 years after the occurrence. Although the worker himself is not injured, the employer is liable for compensation. To avoid a second payment if he re-enters through a new accident, his condition has been worse since the time of the original accident.

In order to avoid such a re-opened case, the worker should observe the following advice: the settlement must be made for the full amount that is claimed. If the case was previously handled by a lawyer's agency, the matter is advisable to consult with the workers' compensation commissioner for further information.

Shearers, there are two possible conditions: that the injured worker may have been made to accept a settlement that did not cover the full amount; or that the injured worker may have been made to accept a settlement that did not cover the full amount.

In either case, it is important to consult with the workers' compensation commissioner for further information.

Large Motor-Generator Dept. Members Held Meeting at Union Hall Last Week

About 150 members from L&MG Dept., Bldgs. 65-69 and 62, attended a Section Meeting at Union Hall last Thursday night.

Vermont GE Shop Joins Us

THE VERMONT GENERAL Electric shop in Hardwick, Vt., was swarmed with visitors the other night. Great interest was shown in the unusual array of equipment which was brought to the shop by GE officials.

The division is now in the process of converting to the new voltage level, and the recent visit was made to acquaint the workers with the new equipment. The meeting was held in the auditorium of the hardwick shop.

The meeting was attended by some 500 workers, who were given a detailed explanation of the new equipment. The meeting was well received by the workers, who were eager to learn more about the new equipment.

Industrial Commissioner Lubin Tells Senate Committee Need for $1.25 Min.

Industrial Commissioner Lubin, head of the New York State Department of Labor, is urging that the federal minimum wage level be raised to $1.25 an hour when he testifies before the Labor Committee of the United States Senate which is holding public hearings on the measure.

The following are the main points of his testimony:

1. A higher standard of living for the lowest paid workers is an important consideration.
2. The current minimum wage levels are not adequate to support a basic minimum of living standards.
3. The current minimum wage levels are not adequate to support a basic minimum of living standards.
4. The current minimum wage levels are not adequate to support a basic minimum of living standards.
5. The current minimum wage levels are not adequate to support a basic minimum of living standards.

Schulenberg's Knocks "Nine-Five-Nineteen" Job Program for Loop Workers

Schulenberg's Knocks "Nine-Five-Nineteen" Job Program for Loop Workers

Schulenberg, owner of the Loop Workers' Association, has spoken out against the "Nine-Five-Nineteen" job program for Loop workers. The program, which was introduced by the Loop Workers' Association, has been met with resistance from the workers.

Schulenberg believes that the program is not in the best interests of the workers and that it is not a fair representation of the labor market. He has expressed his concerns to the Loop Workers' Association and has urged them to consider other options for improving the working conditions of the workers.

March Of Dimes

The March of Dimes is an organization that raises funds for the treatment and research of birth defects. The organization is supported by events such as the March of Dimes Walk, which is held annually in communities across the United States.
