The Steelworkers' strike is everybody's strike. Every union man and woman will have a stake in the outcome. Industry must be put on notice that the old tactics of starving workers into submission will not work. We must make it clear that we will not permit any blackmailer to suffer harm or undue pressure.

This is a strike against all business which holds as a primary principle that rich wages are bad and that adequate living standards are not for the likes of working people.

It is a strike to halt the return of the speed-up in the plants, something that the steel industry is attempting to restore under the guise of ending alleged illegal working conditions.

The steel industry has embraced automation and all that it stands for—cost saving negotiations by the industry and a take it or leave it approach to negotiations. Steel in the talking place, we in the dustbin.

We doubt, sincerely, that the steel industry would have been successful in our long strike against Westinghouse if it were not for the financial assistance made by the UAW-CIO to the IUE strikers and its display of solidarity, certainly, helped sustain the morale of the IUE strikers at a high level.

It is requested that all IUE locals, immediate action of your committees to collect voluntary contributions from every union member in the shop; the sum of one cent per month for the duration of the steel strike. Should the President of the United Steel Workers, play a strike-breaking role, by avoiding the F-D-M Carter administration, the strike will be weakened in its existence and the contributions would be decreased during that period.

It is also, of vital importance that we visit the steel plants and wake the picket lines with our brother and sister Steelworkers and display to the public companies, public in general, and the community we support the Steelworkers.

**SUPPORT INDUSTRY CHART**

Local 301 urges your active support in the current Community Drive.

(See address, Business Agent of Local 301, released the following statement: In need of the voice of our fellow citizens in the community and to help raise stenographer a better place in which to live.

"The Community Chest represents some of the best giving organizations in our country. It struggles to find those who give their full enthusiastic support to this campaign by giving their "fair share" for a stronger, healthier Community."
