WELCOME FROSH!
Probably one of the greatest and most permanent faults of the Chilton and White since its beginning in 1904 will be corrected this year. This is the method by which positions on the staff are filled. The method which is being replaced provided that members could present for the board's approval the name of their assistant. This might have been all right in some cases, but often good friends and popular students did not make good journalists. The yearbook, therefore, is a distinct step forward, for this class will be open to any student in senior high school. From this group the most deserving and capable will be selected as reporters and assistant department heads. This system is certainly democratic, and it is hoped that a large number of students will be interested in the class.

Miss Katherine Wheeling, faculty advisor

Published weekly by the Chilton and White staff and the senior Journalism class of Milne High School, Albany, New York.

Terms: $1.00 per year, payable in advance. Free to students paying student tax.

EDITORIAL POLICY

Although the roman numeral lxix appears on the banner of this issue, it is only the beginning of the second year of the Chilton and White in the form of a newspaper.

The pool-ok staff, Miss Katherine wheeling, advisor, and the teacher of the two journalism classes deserve a great deal of credit. They started an ambitious unheard-of project in Milne High School, and successfully carried it out.

It is, however, now up to this year's staff to take up the work where it was left off and to greatly improve the paper. For, although there is no doubt that last year's staff was a good one, many mistakes were naturally made which should be corrected this year. The work has been begun. It is the present staff's duty to strive for every improvement possible and to attain as near perfection as possible.

The editorial policy for lxix-30 can very easily be outlined. As is the aim of every newspaper, the Chilton and White will attempt to present to the student body and faculty a fair and accurate summary of the news of the school. As far as is possible for a weekly newspaper, the news will be presented while it is still news. In any case, facts, not fiction, will be printed.
