To The Editor:

The athletic program at Milne should be greatly improved and enlarged. A high school today should not only educate a person mentally but should improve him physically and thus offer an outlet for school spirit and pent up emotions. Milne has failed miserably in developing the athletic ability and spirit of keen competition in its student body. I am not informed on Milne's financial status, but what we certainly do need is a gymnasium of our own and an athletic field. Needless to say, such a program would be useless without a competent athletic director. Coach Hatfield is engaged in taking care of State's athletic program, not ours. We need a coach that would give all his time to his job. With a gym of our own, interscholastic sports would flourish, and we would be able to turn out a good basketball club. Understand, I do not say that the coaching now is poor and all the material is good, but with more practice and a devoted coach our teams would win more ball games.

LET'S DANCE

As long as there will be a dance coming up before long, it might be a good idea if we jot down a few vital conventions.

First of all, give the dance a gay setting. If you have to use the gymnasium, don't despair over it's bigness and grayness, though that may seem to be the main trouble. Exaggerate everything and the results will be superb. Make the setting so gay and striking that the guests will want to romp and play.

If you want to be a success, act as though you're having a good time. The wilted expression looks well only on a wallflower. Half the dance is in stepping out determined to have fun. If you宗旨 around the floor looking bored you kill your chances.

Never forget the chaperones for they're acting as hosts and hostesses and it would be rude to ignore them. After all, they want to enjoy themselves too.

If you must journey to the powder room to repair, by all means do it, but don't stay. Your escort brought you to dance with him, not to tie yourself up gossiping.

Don't leave the scene, but if you do leave, go in a crowd. What kind of a dance are you going to have if everyone leaves it from time to time? This is the occasion to be with lots of people and have a good time.

The more things you can do to make the dance unusual the better. If you have spotlights, get 'em out and set 'em up. Turning out the main lights and playing the spotlights all over the floor is a lovely, dreamy idea for that last dance.

FASHIONS

IN THE NEWS

It seems as if Spring is just around the corner, because everyone is sporting something different. Although John Jansing doesn't exactly belong in this column we couldn't pass that lovely tie of his unnoticed. Yes, we mean the lavender one! I guess Easter will be here soon.

Of course, you've seen the new shoes most of the girls have. They're called "Loafers". Lois Ambler has a new pair and she says "they're so comfortable."

Jerkins—well, they're the latest thing. Did you see the black one on Marilyn Potter Saturday night? We think it's very becoming, too.

The last piece of news we had was that the Sigma girls will soon be wearing new "crew caps" if the vote is passed. At last, we'll be able to tell the girls of one society from the other.

Speaking of "crew caps", quite a few of the boys also have them. Art Phinney and Robert Clarke can be seen modeling theirs in a while. As a rule, their motto is "No Hats". That goes for the girls, too.

DO YOU KNOW

-----That the girls are catching right up to the boys with their bowling scores
-----That Jane Davis' car has actually stayed together? — but she still has those March winds to think about.
-----That Wagar's has seen some of its old friends once more? After gym-nite lots Ambler, John Poole, Marilyn Potter, John Jansing, Marion Horton and Bob Clar spent the evening there "sipping cokes".
-----That Glenna Smith was soon dancing at the Edgewood Friday night. It looks as if there won't be any dancing there for awhile.
-----That a few Minites were seen at the St. Patrick's dance at State College Friday night. Marcia and Duncan were seen among them.
