Last Thursday during club period, a representative from A. 3, Dick Co. gave a demonstration for the benefit of the Junior Crimson and White. The demonstration was on the use of the Minoscope. Dick Co. uses the Minoscope to do the cartoons and drawings in The Crimson and White. The demonstration drew quite a crowd. It was very interesting. The Crimson and White gets some stencils from A. 3. Dick Co. The representative showed us quite a few pointers on the use of the Minoscope.

COOKING CLUB MAKES SANDWICHES, DRAMATICS CLUB PLANS FOR PLAY

The people in the arts and crafts club are making birds and animals out of clay. The boys are doing metal work. The sewing club is planning a party. The glee club has two new members. They are Darvey Hakins and Donald Lago. The girls' sports club played softball. They have three new members. It seems to be one of the most popular clubs.

The cooking club made broiled sandwiches. In them were cheese, bacon, and lettuce and tomatoes. The science club made chili. Robert Lee and Walter Austin were in charge of the program. John Chancebro and George Perkins will be in charge of next week's program.

Those in charge or helping the dramatics club play are: props, John Morrison and Thomas McCracken; costumers, Laura Ducey and Joyce Hoops; make-up, Yvonne Eno Tabbas, Joan Douglas, Felita Scheila, Eleanor Nejaka, and Syraho Brown.

MRS. ROOSEVELT TO BE AT STATE

Mrs. Eleanor Roosevelt, wife of the president, will speak at State College's assembly next Friday, Armistice Day. Mrs. Roosevelt is well-known for her slum clearance and social welfare work. Thursday night, Mrs. Roosevelt will speak at Chancellor's Hall; Friday afternoon she will be at Union College.

BLACK GRADE'S HOCKEY TEAMS

The ninth grade played hockey again. Jane Hove's team, which is 9-1, played 10-1. The score was 3-0 in favor of the tenth graders. Jane's team is doing better, because last week the score was 4-0 when they played the same team. Miriam Price's team, which is 9-2, played 10-2. The score was 3-1 in favor of the ninth graders. Dorothy Sterling made two goals while Miriam Price made one. Last week when 9-2 played the same team, the score was 4-1 in favor of the tenth graders. Miriam's team took a jump in view of last week's score.
Everyone knows we have five minutes between classes. Why should it take us over five minutes to go from one class to the other? Do many people just a half minute late and have to get an excuse. It really isn't necessary. There are only three doors in Milne and we have ample time to walk from one class to another, get a drink, and still be on time to our class.

We are usually on time to all classes except history. How why should this be. There is really no excuse for anyone being late for our classes. Every time you are late it is recorded. Try not to have a bad record. Be on time to your next class for your own sake.

Banking and Saving

During the past few years, Milne has developed a banking system. This year we have noticed a lack of interest in it.

Don't you ever go by a shop window and see a bicycle standing there? Wouldn't you like this bicycle? If you had a savings account you could get it.

Even a nickel a week in the bank is a saving. After a year or so it amounts to quite a lot. In case of emergencies this comes in very handy.

Of all the banks in Albany, you can certainly pick out one to save your pennies in. Remember the bicycle in the window of the shop. You can help to get your percentage up to a higher standard.

Reporting Needs

Can you sit down? After this first report card period a lot of people will have to settle down and get better marks. After the autumn is over, we all spend more time on our homework. It sets dark early so the temptation to go out and play will not haunt us. Let's all settle down and work hard.

Last Thursday, the Sub-Club of Milne Junior High gave a fashion show and tea in State College Lounge for their authors. The girls modeled dresses from Whitneys. The models were Mary McPeck, Ellen R. McHose, Janet O'Connell, Andrine Friztak, and Natalie Stann. Marie Volah, Jean Curtis, and Patricia Doerr-willie served. Ruth Salter told about every dress as it was presented. Each girl modeled three outfits. They had a large variety in garments, ranging from sweaters and skirts to evening dresses. For school and sport wear plain skirts or jackets seemed to be the fashion. Afternoon tea and church wear violet kimono, and for formal and semi-formal evening wear taffeta dresses of all shades. One of the prettiest dresses I've seen for evening this season was modeled by Eleanor McCaff. It was black taffeta built around simplified Marie Antoinette lines. The skirt was full and made it stand out by a stiff underskirt of Turlington. Its only trimming was black and rose combined ribbons on the bodice, two rose flowers and a small piece of the rose placed underskirt in the front where it was held up by another rose.

The fashion show was very interesting, and the tea was delightful. Everyone enjoyed it.

Communication

I am referring to your article in last week's issue of the paper on the naming of the alumina pipe in the Biology room, 320. I have a suggestion for the name of the brown alumina pipe. I think "Cocoa" would be very appropriate.
