CHAPERONES VOLUNTEER FOR JUNIOR HIGH PARTY

Three very satisfactory chaperones, two women and one man, readily offered today to be present at the next Milne High party being held on April sixteenth. These familiar supervisors about the school are Miss Virginia Smith, Miss Frances Browning and Mr. David Kroman, all of whom were kind enough to grant us this favor.

It seems that as this coming party was only recently decided upon, chaperones had not been chosen. There was an immediate need for them so that we might reserve the State Commons. The Milne Junior Student Council expresses its gratitude to these three supervisors who readily replied to their request.

DR. FREDERICKS NAMES NEW CAMPUS REGULATIONS

Dr. Fredericks issued a statement upon the subjects of walking and playing ball on the campus. He requests you not to walk on the lawn for any reason as the grass upon the campus will not grow if everyone tramples upon it.

ASSEMBLY FEATURES HOBBY TALK

Yesterday the Junior High School had the pleasure of hearing two interesting talks on hobbies. First, Armon Livermore gave a talk on the game of ping-pong, describing how to play it and the articles used in playing it. He was followed by Robert Nattell who talked on his hobby, tropical fish.
In the near future another party for the Junior High will be held. There is usually a large attendance and everybody has a good time. Near the end of the party someone always has to start rapping down the decorations. It may be good fun for the persons tearing them down, but little thought is given to the janitors who have to clean up afterwards.

There are plenty of games continually going on, and there is dancing for those who want it. There has been plenty of talk about good sportsmanship; this is one time to show it. Probably if the guilty persons were forced to clean up, they would realise what unnecessary work and trouble they are causing, and would stop.

We are looking forward to many more really good parties in the future.

**MORE PARTIES IN SIGHT**

In the near future another party for the Junior High will be held. There is usually a large attendance and everybody has a good time. Near the end of the party someone always has to start rapping down the decorations. It may be good fun for the persons tearing them down, but little thought is given to the janitors who have to clean up afterwards.

Probably if the guilty persons were forced to clean up, they would realise what unnecessary work and trouble they are causing, and would stop.

We are looking forward to many more really good parties in the future.

**STILUS**

Spring is here and so we see roller skates and bicycles occupying the streets. Of course, you should have at least one pair of culottes for your bicycling. For this cooler weather you can buy or make wool culottes. A short coat and small hat, that will not blow when a little wind does come along, should be worn to complete the outfit. A skirt may be worn but culottes are much more comfortable.

You girls who roller skate can wear the same kind of outfit that the ones bicycling wear. You will feel more comfortable in skirt than they will, however.

The shoes that you wear should be the kind that can stand a great deal of wear. If you have old shoes, they will be all right, too.

Your stockings should not be chiffon. Have the kind that will not run the minute you bend your leg a little. If you wear ankle socks, all the better, but be careful of the bare legs.

If you follow or try to follow these suggestions you can have fun and won't have to worry about not looking good.
A SHORT BIOGRAPHY OF MR. KROMAN

Mr. Kroman was born in New York City in 1914, but he attended the Schenectady public schools. In 1936 he graduated from the New York State College for Teachers. After graduation he taught mathematics and general science at Bloomingdale, N.Y.

His favorite sports are basketball and skiing. He also likes to take long walks and look for birds. His favorite game is chess, and his hobbies are stamp collecting and reading. Much of his free time is taken up with various choral organizations, and he enjoys dancing.

CRIMSON AND WHITE
TO PUBLISH "FUN ISSUE"

For every week so far there has been regular issues by the regular staff of the Crimson and White. Next week, though, will be special. It is called a "fun issue" which is put out by reporters in the editors' positions and editors in reporters' positions. An extra special feature will be the Style Column. This is usually written by a girl but a boy will have a chance in the next issue. This issue is expected to be of extra interest to readers.

HOBBY TALKS FROM HOMEROOM 127

This week's assembly will be given by Mr. Raymond's homeroom. There will be hobby talks from the following: Armon Livermore Jr., a talk on ping pong; Robert Nattell, a talk on stamps; and Robert Mettall, a talk on airplanes.
