DR. MOOSE ORGANIZES BAND
IN MILNE HIGH SCHOOL

Dr. Moose is attempting to organize a Milne High School Band. Both junior high and senior high pupils are invited to participate in this new activity. It makes no difference whether a student has had previous experience in playing an instrument or not. If he has not, he may receive expert instruction on any instrument for the nominal fee of fifty cents a week.

Dr. Moose urges everyone to try to bring his own instrument, but if this is impossible, some other arrangement may be made. He also hopes that students will prove enthusiastic over this plan and will take advantage of it.

When the band materializes it will play in assemblies and will supply the music for the singing at the basketball games, but not for the dancing afterwards. Possibly, a little later, uniforms can be obtained for the members of the band in order to give a military effect. The band may also give concerts from time to time.

This is a real opportunity which Dr. Moose is presenting to the students of Milne and it would be very advantageous to the whole school to have such an organization at its disposal.

CONTRIBUTIONS
FOR XMAS ISSUE OF MAGAZINE
DUE MONDAY
I, Joe Milton, of sound mind and body (I hope), hereby pledge my solemn support to the schoolwide senatorial and student council elections to be conducted next week; I promise to give my undivided attention to the political assembly and conscientiously to weigh the arguments for both sides before casting my vote.

Through my cooperation in this current project, I hope to show my belief in democracy and democratic training for good citizenship. I am a good citizen.

Calling all cars!
Calling all spook hunters!
Radio Patrol! Calling all sleuth hounds!
Car 20, pick up private detective Dr. Martin, solve the high class mystery, The Skeleton Talks.

"Hello, Martin, what's up?" inquired Holmes. "You're the hero in a mystery story, and I'm your assistant" exclaimed Dr. Martin.

"Sound's great tell me about it" requested Holmes.

"It's great, and what a plot! It starts out with the double deaths of Braxton Hicks, a famous mystery thriller author, and a renowned plastic surgeon, Dr. Alvin Dyer. Here we learn to prove they weren't suicides, but murders. Things move thick and fast with a good deal of the time spent in the den of a madman, beneath a cemetery. There are other important characters, as Sweeney, a wise-cracking mortician, beautiful Mrs. Hicks, an entire police force, and seven bony skeletons.

We are also trapped in a room of horrors—attached by snakes, shot by poison bullets, etc., just a load of fun.

There is no romance in the story, but you'll get plenty of chills. I couldn't bear to say any more about the fiendish plot, or describe the eleven murders in detail right now. When you see me in the story, we will solve the murderous crimes of the HAWK.

"Sound's perfect; when do we start, Martin?" asked Holmes. "As soon as you start this exciting story, The Skeleton Talks, by Frederick G. Eberhard", replied Martin.
It seems we just finished writing a clever little ditty about the last bunch of initiates, when we find a new crowd roaming bolderly, (or should we say being thrown around?), the halls. But then, that was a week last year, and time flies. (All time passes, except time which stands still, you know).

Again those clever little black ties are being sported, and we especially notice one on that flashy senior class president, Johnny Galano.

Of course, the fellows who just got in with the last batch, are much more enthusiastic about getting at the new fellows than are those veterans, Len Benjamin, Dick Peland, and Walt Sohn. You will probably notice that bored sophisticated "What childish stuff; I've seen it all" look on their faces.

We were particularly overjoyed at that gallant proposal by Eddie Langwig that day last week. Romeo El shows such a spectacular talent in the art of proposing, we suggest any of you fellows who are bashful like Miles Standish ought to hire this uprisin young sophomore to act as your John Allen.

"Shorty" Simpson seems to have most of his difficulty in the annex. Poor Dext claims he can't eat a thing in peace. (He's trying to gain weight, you know!) Hint to all Adelphian men: Take that board out of Dexter's pants before initiation.

It appears that Johnny "Cutie" Dyer has a steady book-carrying job. For proof, just go to the French 2 room any day at 11:30 a.m. and you will find Johnny struggling under the weight of Johnny Pink's books.

Oh, well, as long as the boys have fun... we must all be tolerant, as next spring we shall have to undergo the trials and tribulations of being the guinea pigs for the initiates all over again.
COMPANION

So graceful she is
So nice, yet so thin
She romps just about
Up to my chin.

Her hair is so glossy,
For tooth, how they shine
And last of all, is,
She's completely all mine.

She acts like a lady,
But not like a hog.
No, there's no other pup
That is quite like my Jen.

SONG

Mary, Mary, quite contrary
How does your homework go?
A dinner date, so boss into
Education? I don't know.

Tom, Tom, the piper's son
Want to school just for fun,
Looked at French, sang in Math
Empty pockets he now hath!

Little Miss Muffet, sat on a cuffet
Doing some physical jib.
Along came her lunch, and she had a hunch
It was only cake and a fig.

Peter, Peter, Pumpkin eater
Had a wife and couldn't keep her
He sent her to school with the rest of them.
Now she keeps Peter, because she has a job!

STEEREE FALLS ON MILNE ALUMNA?

Do. Brown, '28 is now attending Wesleyan College in Connecticut. To date, everything is fine. Only one mishap has thus far occurred.

One afternoon the fellows were being lectured by a prof when suddenly the lights began to go off and on. The wind outdoors was howling and rain began coming down in torrents. Noticing that something strange was happening, the prof dismissed the boys. Soon there was a crash and pieces of ceiling were flying all over. The steeple had crashed in! Fortunately no one was hurt.

For days they studied by candle light. They used borrowed books, because theirs were still unarranged in the gym, where the steeple had sunk in.

The engine was deployed of all the gorgeous solar lamps, which were needed for their beauty at graduation. The lanterns were always strung through the branches.

Outside of all this, school is running along smoothly for our S. P. A.

A new Arts and Crafts Club has been formed under the direction of Mr. Raymond and Miss Martin. The club meets on Friday at 2:30 in the shop. Mr. Raymond and Miss Martin plan to give an excellent course in shop and art work.

Two Courses Dropped From Schedule

Several important course changes have been made in Milne High School. Biology in the Science department has been dropped from the schedule and in the French department, Mrs. Grellin announced the discontinuation of French IV. These changes will not alter our schedules. Now courses will fill the gap.
