TRAFFIC CLUB DISCONTINUED

The Student Council opened for the second semester with the announcement by Martin Creesy that the Traffic Club had broken up. After this, order will be kept by certain dependable people, appointed by him, who will receive five service points. This will not be a club.

A list of full club petitions was read by Wilson Hume. The petitions not yet filled were voted upon.

John Hawkins announced that there are ten dates still open. The programs presented by homerooms will be given the full thirty minutes, but clubs will be allowed only fifteen minutes in which to present their programs.

It was decided that the Junior High School should have a correspondent to an Albany newspaper. This person will be appointed by Miss Moore.

ARE YOU INTERESTED?

The Capitol District Press Association is holding its spring convention tomorrow, February 16. Each student who attends must pay a registration fee of ten cents. It will be possible to bring your own lunch.

Transportation should be arranged by groups who attend the convention.

EIGHTH GRADE GIRLS
MAKE USEFUL ARTICLES

The eighth graders are making articles which their mothers can use at home such as hot dish holders and tea towels. Some of them are making clown suits which will be used in the annual antics.

Did you ever hear the little saying—"A woman always gets her way?" That proved itself true right here in Milne when the girls won from the boys the right to use the shop during club period and so we have a girls' shop club. Here's to you, ladies! Long may you live!

TRAFFIC SYSTEM CO-OPERATION

What is the matter with the students of this school? What is the cause of the great lack of co-operation with the most essential club of your school which is the Traffic Club, under its leadership of Martin Creesy.

When matters come to such a crisis that a club under capable hands must be disbanded, it is time for the students to "make up." It is now time for the pupils of this school to show some respect and courtesy to the efforts of others.

We have reasons to believe that the laws of the Traffic Club were made for our benefit. They were meant to prevent an untidy looking school and to stop the daily disturbance of candy eating and gum chewing during class periods.

Through lack of consideration for the efforts of the members of this club and through lack of co-operation with the president, a new plan has been introduced. With the efforts and planning of the Student Council and with your help the plan should and will succeed. Let's all "pitch in" and help to make up for our recent mistakes.

CHARACTER SKETCH

This week we find a seventh grader "sound asleep."

He (for she) at homeroom period runs right up the halls to Homeroom 27. It has black hair and big eyes. Likes the boys very much.

If you guess this character sketch write your solution on a sheet of paper with your name and give it to a person who comes around during the period.

NOTICE: Miss Easton requests that first semester library dues be paid at once.

5. The "man hating" E. Egro has suddenly taken to writing "smooth" under the name of one of our prominent students?

6. Shirley Baldwin is quite the "belle" of the eighth grade boys, especially Jack?

THE STAR OF HALICH

There was a city which was named Halich. It stood on a hill near a river in Poland that overlooked the surrounding countries which were fighting for its possession. The ownership of this little country was being torn to pieces.

Into the midst of all this came a little boy to find out what the mysterious "Star of Halich" was. Men came from all parts of the world to answer the call of the golden star of Halich. The solution of this mystery may be found in the book, "The Golden Star of Halich," by E. P. Kelly. It will thrill you with mystery, love and adventure.

You will also probably like "The Trumpeter of Krakou" and "The Blacksmith of Vilno," by the same author.

All these books may be found in the Milne library.
It happened the day of the Junior High party.

A girl, who for convenience sake, we shall call Mary, and her friend (Alice to you) were on the balcony. But they were not supposed to be on said balcony, and so a boy (Leopold for short) tried to chase them off. (Mind you, I said "tried"), however these girls being firm believers in the motto, "Time wasted is well spent," proceeded to stall. And as they stalled, Mary caught sight of two glaring masculine faces peering through the grating of the door labeled (or should be, anyway): STATE COLLEGE GIRLS ATHLETIC ROOM

Mary, having an innocent mind, was greatly shocked, and started an investigation at once. But no one would believe her except Alice. Now Alice was a true friend and believing that her pale-pisty honor should not be stained, she called the janitor to open the door of the mysterious room.

The door was opened and out walked specimens of Milne's finest - six freshman. Perhaps you know them. Just look around the room and any boys who are giggling or blushing (oh, girls) probably were inmates of the room. What were those dear little boys doing in that room?

At any rate, children, you have heard the tale of Mary, Alice, and the six freshmen.

Note: This story is entirely true and proof may be had from any of the girls.

ANSWERS

1. Because there can be no beauty without them.
2. A cluck.
4. Against his will.
5. The bridge of your nose.
6. She is full of airs.

NOTICE

Now that the second semester is well under way, everyone knows his schedule. Be sure the office knows it! If your schedule has been changed, go to the office and the library and see that your schedule cards are correctly made out.

Miss Nicos has keys of every kind and description in the lost and found box in the office. She also has pens and pencils and other articles which you may claim by identifying them. They will be sold at auction in the spring, so if you want them claim them now!
