SQUAD TO CLASH IN FINAL CONTEST

STATE COLLEGE FOR TEACHERS

TEAM TO PLAY NEWARK LAW SCHOOL AT COLLEGE TOWER TONIGHT

Night at 8:32

The Purple and Gold quintet will play the basketball season tonight when they play Newark Law School of Newark, New Jersey, at 8:32. Last year, Newark Law defeated State in their contest, and so the return game State believed that the better team was Newark. Last year, in their return game, State defeated them in eight minutes.

Charles Lyons, '31, placed the mort for the offense. He scored 10 points. Hughes scored far the defense with two goals, and four fouls, and a total of 10 points. State's defense was handled by a harmony of the Men's and Women's teams. In Look, the Monclair Montclair players put out the games on the one hand, and had to the defense on the other, to win the game.

The debate on Friday will have a decision, the judges listening in on the debate telling their decisions to the students.

The debate team is composed of Lawrence C. Sorensen, '31, and Helen M. Moore, '31, and the second speaker, Kenneth A. Miller, '31, and Mrs. Hughes, '31.

The State College team which defeated the State will be the first to debate by a vote of 2 to 1. Mr. Miller, the debate, has been elected to five speeches, and a total of 10 points for each debate. The debate will be the same speaker, Kenneth A. Miller, '31, and Helen M. Moore, '31, and Mrs. Hughes, '31.

The debate will be held Tuesday night in the gymnasium, and will be open to the large, and the other members of the intercollegiate debates.

At 8:30, the debate will be opened and the debate on the faculty list will be announced by the chairman of the debate committee.

The debate on the faculty list will be held in the gymnasium at 8:30, and will be announced.

ATTENDED HAMILTON DEBATE
The debate between the Hamilton and Albany teams Thursday night was expected to elucidate the situation which exists at the State College, and to discriminate for the poor attendance at recent debates by attending one or more of the contests which the State sponsors. Thursday night the teams will meet Hamilton College in the Page hall auditorium.

The same charge will not apply a second time. Posters giving night the team will meet Hamilton college in the coming weeks.

Tennis Will Begin With Good Weather
Tennis will begin Monday when the weather is right. The two meets will be played; 100 and 220 yard dashes, half mile run, mile run, 440 yard dash, high jump, broad jump, and a mile relay. The same events will be included in the all-foregone meeting with the exception of the mile and with the possibility of a fifty yard dash. The class managers who are arranging the tennis tournament for class teams beg the following:

Committee Plans Freshman Camp

Dransky Outlines Complete Program at Sunday Lounge Meeting

The entire procedures for conducting the annual freshman camp at Lake Cowapoxy was formulated and discussed Sunday afternoon at the Lounge of Richmond. It was when the members of the committee met with Dr. Donald V. Smith, dean of the school of business, and another advisor to the group.

Members of the committee, listed as chairman of the camps outlined the work and announced the committee for the work.

The committee chairman includes George C. More, publicity; Bernard Zipfel, MK, and Gerald Brand, MY, assistant professors; J. Brent Felker, 31, director; Lawrence C. Newman, and Walter Dandery, seniors, co-chairman of the faculty committee; Dransky, and Dr. Edna Hertz, letters, George Kaup graduate student, and Philip B. Cousins, MY, members of the registration board; and Kenneth S. Wolter, junior, in charge of transportation. Hurts, business manager; Walter Anderson, 32, photography; Deidre Mullen, 32, chairman of the registration and publicity committee; and Felker, chairman of student and songs.

Members of the faculty who will be invited are Dr. Smith, Richard H. Ketchard, professor of education; Dr. J. Frank Wirt, instructor in English; Dr. Charles Foner, associate professor of physics, and Dr. Arthur W. Kelby, professor and head of the history department; and Katherine Edick, professor of physics.

The fee of $11 will return the costs of the camp.

During the week, a comprehensive program of educational and social activities will be offered to the freshmen, and it is hoped that the activities will attract interest and participation.

The camp will be held at the new campus of the university. The freshmen will be divided into five groups, and each group will be assigned to a different camp. The camp will be open to all freshmen and will provide an opportunity for them to meet new people and participate in meaningful activities.

Kappa Delta Arranges Refreshments At Ball

Kappa Delta society is in charge of refreshments for later Saturday night. Charlotte Anderson, 32, 22, member of the committee. The representatives of Kappa Delta and other committees are as follows: general committee, Edna Medick, 32, arrangements; Marguerite Northrup, 31, favors; Katharine Mullen, 32, refreshments; Helen Conover, 32, music; Madeleine Rice, 32, dancing; Maria Prindle, 32, driver for refreshments. Miss. Anderson will be in charge of the refreshments.

Soberety Entertainers

Joseph Leibell, 31, was a guest at the Dr. Leibell, senior, brother recently. Mr. Leibell was the president of the senior class last year.

Canterbury Club Starts New Idea to Secure Fund

Canterbury club is inaugurating the idea of securing a Lenten offering for the national student council, to be added to the sum raised by other colleges, and finally to be used in some foreign college, according to Beatrice Hartwig, 31, president. Members of the club meet each Thursday during Lent and make ready to be sold on the following day at the candi site which is conducted here in your college, Miss Hartwig said.

Myopia Lists Names of Tradition Breakers

Myopia announces the following list of freshmen who are on the list for breaking tradition.

- Almira Ruth Ann Norris, junior; Pat Collins, junior; Marie Priebe, and Katherine Wilson.

New Catalogue to Be Ready Before Easter

Work on the new catalogue is still in the hands of Dr. Harry Brunche n in, professor of mathematics, who is responsible for the listing of all houses and rooms for the different courses. The catalogue will be distributed during Easter, Dr. Blyth said.

Book to Be Ready

The yearbook will be ready for the book fair at Edwards, 31, editor.

Chemistry Club, Oldest Society Here, Will Celebrate Ninetieth Anniversary

Revered Robert J. Wells, of the Westminster Presbyterian church, was the speaker at the annual luncheon Friday morning. Dr. Wells was called a friend of Northampton, Massachusetts, and married John Liddell and Florence Franklin.

"My wish for you as teachers is that you will start in a small town for there will be able to study and learn true human nature," Dr. Wells said. He cited the characteristics of curiosity and love of romance as the strongest motives upon which all teachers can play. In this connection, he mentioned the fact that all people are reformers by nature. The leadership which communities can demand of all teachers, Dr. Wells believes, should be in understanding the lower preachers, especially the racial ones, in the advice of the social sciences to bring about a way of living that the world can understand, and in the surging of the religious life of the country. "And teachers, need no longer be ashamed to put their force into their religious beliefs, for it is the major battle intellectually," Dr. Wells said.

WELCOMES PLEDGE

Alpha chapter of Phi Delta sorority welcomes Hazel English, 31, into membership.

MINISTER SPEAKS TO STUDENT BODY

"The Reyvulck of Kenneth R. Wells, of the Westminster Presbyterian church, was the speaker at the assembly Friday morning. Dr. Wells was called a friend of Northampton, Massachusetts, and married John Liddell and Florence Franklin.

"My wish for you as teachers is that you will start in a small town for there will be able to study and learn true human nature," Dr. Wells said. He cited the characteristics of curiosity and love of romance as the strongest motives upon which all teachers can play. In this connection, he mentioned the fact that all people are reformers by nature. The leadership which communities can demand of all teachers, Dr. Wells believes, should be in understanding the lower preachers, especially the racial ones, in the advice of the social sciences to bring about a way of living that the world can understand, and in the surging of the religious life of the country. "And teachers, need no longer be ashamed to put their force into their religious beliefs, for it is the major battle intellectually," Dr. Wells said.

WELCOMES PLEDGE

Alpha chapter of Phi Delta sorority welcomes Hazel English, 31, into membership.

WELCOME TO STUDENT BODY

Why we spend $2,000,000 to put Camel cigarettes in the new Humidor Pack.

We have been in the tobacco business a long time down here at Winston-Salem and we take a lot of pride in the quality of the cigarettes we make.

While we have spent a good many million dollars advertising Camels, we've always held to the old fashioned idea that the thing that really counts is what we put into our cigarette and not what we say about it.

If we know anything about tobacco, and we think we do, Camels can take the choicest Turkish and the mellowest, ripest domestic leaves that money can buy.

In fact we have every reason to be proud of the quality of Camels as they come from the factory, but the remark of an old friend of ours, Mr. Denver, some time ago emphasized a point that has been the problem of the cigarette industry for years.

As he inhaled the smoke from a Camel we gave him to try, he sighed with very evident enjoyment and then asked jokingly, "What is this, a special blend of some sort?"

"Certainly not," we told him. "This package of Camels was bought at the corner store this morning."

"Well," he said, "I've been a dyed in the wool Camel smoker for a good many years, but upon my soul I never got a cigarette as good as this in Denver. If you would give the rest of the world the kind of Camels you sell here in Winston-Salem, you ought to have all the cigarette business there is."

That statement simply emphasized again the cigarette industry's most important problem. The more we thought about it, the surer we were that he was dead right, and that somehow, something must be done.

Denver wasn't getting a fair break. Neither in fact was any other town. The only people who really knew how good Camels could be were the folks right here in Winston-Salem.

That was due to a factor no cigarette manufacturer had ever been able to control: Natural.

Here is no difference whatever in the quality of the tobacco in Camels, whether you buy them in Winston-Salem, Denver or Timbuctoo. But up to now there has been a very real difference in the condition of the cigarettes by the time they reached the smoker.

The flavor and mildness of fine tobacco depend upon the retention of its natural, not added, moisture content which is prime at about ten per cent.

In spite of our great pains always to make sure Camels left the factory with just the right amount of natural moisture, no cigarette package had ever yet been designed that could prevent that precious moisture from drying out.

There are three things about a cigarette that can sting the tongue and suddenly burn the throat.

(1) Cheap tobacco.
(2) Particles of peppery dust left in the throat.
(3) A parched dry condition of the tobacco due to loss of natural moisture by overheating or evaporation.

Always certain of the quality of our tobacco we had already made Camel a "dustless" cigarette by the use of a specially designed vacuum cleaning apparatus exclusive with our factory.

Now, if we could perfect a package that would actually act as a humidor and retain the natural moisture content, then Yuma, Arizona, could enjoy Camels as much as we do here at Winston-Salem.

We knew what we wanted. We tried many things. We asked the Pittsburgh Testing Laboratory to help us.

After many experiments and humidity tests covering all methods of packing cigarettes came the detailed report of which this is the net:

(A) No existing cigarette package, including those wrapped in glassine paper or ordinary cellophane, gives anything like adequate protection against evaporation.

(B) All cigarettes so packed tend to dry out rapidly from the day they are released from the factory.

(C) Only a waterproof material with a specially devised air-tight seal could give the desired protection.

(D) This measure, while costly, could be relied on to keep Camels in prime condition for at least three months in any climate.

If you have a technical bent, the graph below, made by the Pittsburgh Testing Laboratory will show you the exact results of their exhaustive study.

**25 Day Chart of Cigarette Moisture Loss**

![Graph showing moisture loss over 25 days for different cigarette packages.](https://www.example.com/chart.png)

**Pittsburgh Testing Laboratory Report 1942-07-29 Jan. 12 1201**

You may be sure we gave this report a lot of careful study. We checked it and re-checked it and then we went ahead. We tried this device and that. At last we met success. The air-tight wrapping involved the designing of special processes, special machines.

That costs a lot of money, more than $2,000,000 the first year, but after you have tried Camel packed this modern new way you are sure you will agree it is a fine investment.

For some time now every Camel that has left our factory has gone out in this new Humidor Pack. We have had nothing but praise for it. We are sure our dealer would be able to supply you with the good news as soon as it comes out. Camel smokers of course have already discovered that their favorite cigarette is better and milder now than ever before.

If you aren't a Camel smoker, try them just to see what a difference there really is between harsh, dried out tobacco and a properly conditioned cigarette.

You can feel the difference, you can hear the difference and you certainly can taste the difference.

In any case we're prejudiced. We have always believed that Camel is the world's best cigarette. Now we know it.

Just treat yourself to Camels in the new Humidor Pack and see if you don't agree.

Here are the complete details from the image:

**Kappa Delta Rho Neophytes Undergo Difficulties To Obey Fraternity Rules**

The pledged members of Kappa Delta Rho fraternity had a difficult time during the last week in their endeavors to obey the rules laid down for neophytes and at the same time to discharge their social obligations. They were also forbidden to speak to each other. They had to wash the dishes at the fraternity house Sunday night and had to address all full members at the fraternity by the title of "brother". They had to be on the honor system with their friends and were also forbidden to dance. In addition to obeying the fraternity regulations, they had to be on the honor system with all the names of all the chapters, their locations, and colleges. The most vigilant accomplishment they achieved during the pledge period was the learning of the pledge songs.

**3rd Debate 1933**

In Assembly March 17 1934. The proposal to be debated this year would challenge the other class to a debate or a sing at the beginning of the second semester. The challenge was presented this year by the class presidents, Betty Gordon, '34, and Jack Saunders, '34, to the class of 1933 in the name of the junior class. Saunders was from the class of 1933 to express some regret at not participating in the debate. One of the students who was present at the meeting was the one who saw the class, and who was asked to write a paper on the subject. The paper was written by the committee in the College Lounge Saturday afternoon and presented by the committee to Dr. Oliver Wharton, assistant professor of English, and Miss Mary D. Smith, '33.
