SportsFriday

By Mike Herman

Tommorrow night, Albany will have a major shooting明星 game when it hosts the in-state rival Stony Brook Seawolves in a key Miss America Conference game. The Seawolves are coming off a 4-1 loss at Maine and need a win to stop their losing streak. Albany is coming off a 4-3 win over Maine and will be looking to continue their winning streak.

The Danes defense will be key in this game. Stony Brook has scored 22 goals in their last three games and the Danes have held them to nine goals in their last two games. The Danes have also allowed the fewest goals in the conference.

Offensively, the Danes have scored 44 goals in their last three games and the Seawolves have scored 30 goals in their last three games. The Danes have been led by senior forward John Johnson who has scored 12 goals in his last three games. The Seawolves have been led by senior forward Richard Lee who has scored 10 goals in his last three games.

This game is a must-win for both teams. The winner will have a huge advantage in the conference standings and the loser will be in a difficult position.

The Danes will be looking to continue their winning streak and the Seawolves will be looking to end their losing streak.

Netmen topple Engineers; host ECACs today

By Keith Mordue

After losing 1-0 to Harvard in the ECAC Classic final Saturday, the Albany men's hockey team has had a tough time getting back on the horse. They lost to Quinnipiac 4-1 last night and are now 2-2-1 for the season.

The Danes will be looking to get back on track when they face off against the Rensselaer Polytechnic Institute Engineers tonight. The Engineers are 1-2-0 for the season and are in a similar position as the Danes.

The Danes have been led by senior forward John Johnson who has scored 12 goals in his last three games. The Engineers have been led by junior forward David Gross who has scored 10 goals in his last three games.

This game is a must-win for both teams. The winner will have a huge advantage in the conference standings and the loser will be in a difficult position.

The Danes will be looking to continue their winning streak and the Engineers will be looking to end their losing streak.

SA misses anti-semitic poster

By Liz Murphy

A number of anti-Semitic posters have been stuck around campus recently and the Student Association (SA) is investigating them.

The posters have been found in several locations on campus and the SA is looking into who is responsible for them.

The posters have caused concern among students and the SA is working to address the issue.

This is an unfortunate situation and the SA is taking it very seriously. We will continue to investigate the matter and take appropriate action.

**Nuclear freeze walk draws hundreds Saturday**

By Rob Behrff

About 2,010 people gathered at the steps of the Capitol Building in Albany Saturday for the start of a 6.2-mile walk to call for a nuclear freeze campaign.

Drew Miller, president of the Student Peace Union, which organized the walk, said, "This is the first time that so many citizens have come together to demand an end to the nuclear arms race." Miller added, "The walk is a symbol of our commitment to a world without nuclear weapons." Miller also thanked the local community for their support.

The walk started at the Capitol Building and ended at the University at Albany, with stops along the way to speak with local community members.

In total, the walk was about 6.2 miles long and included stops at several locations along the route.

The event was supported by several local organizations, including the Albany Student Peace Union, the University at Albany, and the local chapter of the National Peace Foundation.

The walk was a peaceful protest against nuclear weapons and was organized by local community members.

The event was attended by dozens of local community members and attracted a diverse group of people from all walks of life.

The event was a massive success and helped raise awareness about the dangers of nuclear weapons and the importance of a nuclear freeze campaign.

The event was a powerful reminder of the urgent need for action to address the threat posed by nuclear weapons.

The event was an inspiring demonstration of the power of peaceful protest and the importance of working together to create a world free of nuclear weapons.

The event was a powerful reminder of the importance of standing up for what is right and working together to create a better future for all.

The event was a powerful reminder of the urgency of the nuclear freeze campaign and the need for action now to create a world without nuclear weapons.

The event was a powerful reminder of the importance of working together to create a better future for all and the need for action now to create a world without nuclear weapons.

The event was a powerful reminder of the importance of standing up for what is right and working together to create a world free of nuclear weapons.
By Robert Longobocco

The city's capital serves as the focal point of this page's content, discussing the importance of Albany's history. The charter was signed in 1683 by the Duke of York, which created the Albany Corporation. This event is seen as significant because it was the first time in American history that a governmenal document recognized the word "people." Under his leadership, Thomas Dongan oversaw the creation of the charter. Roseberry noted that the establishment of Albany was an important development in American history, stating that the city of Albany is always a Dutch community to an important city in American history. Roseberry also highlighted the significance of Albany being the capital of the state of New York. This page emphasizes the importance of Albany's history, the charter, and its role as the capital of New York State.

For many, the celebration of Albany's 300 Years has never been as significant as this year. Roseberry spoke before 36 people at the University at Albany's College of Arts and Sciences. His lecture centered on events in New York State, with a focus on the history of Albany. He noted that the city had a long and rich history, and that it had been a significant part of American history. Roseberry also emphasized the importance of Albany's role as the capital of New York State, stating that it has always been a Dutch community to an important city in American history.

On the American side of the ocean, New York governor George Clinton was a major player in the creation of the Albany Corporation. Roseberry noted that the city of Albany is always a Dutch community to an important city in American history. Roseberry also highlighted the significance of Albany being the capital of the state of New York. This page emphasizes the importance of Albany's history, the charter, and its role as the capital of New York State.

The city of Albany has a rich history, with a long and proud tradition. Roseberry emphasized the importance of understanding Albany's history, as it is an important part of American history. He noted that the city had a long and rich history, and that it had been a significant part of American history. Roseberry also emphasized the importance of Albany's role as the capital of New York State, stating that it has always been a Dutch community to an important city in American history.

On the American side of the ocean, New York governor George Clinton was a major player in the creation of the Albany Corporation. Returning students on the increase at SUNYA

By Mike Taylor

Mary Smith, student activities director at SUNY Albany, said that over 14 percent of this fall's incoming class are students who have already graduated from SUNY or other colleges.

Smith said that this is the largest number of returning students in recent years, with more than 1,100 students returning this fall.

"This is a testament to the quality of education that SUNY provides," Smith said. "We are committed to supporting returning students and helping them achieve their academic goals."
Hilary's Obscene Pop Rock

Y

OCTOBER 4, 1983

Shriekback Music

The first Shriekback album, "Shriekback," was released in 1983.

Lisianne Sokolowski

Hilary is a Los Angeles native, who moved to San Francisco in 1980. She created the album "Shriekback" with Hilary and several other musicians. Her music features a distinctive style of percussion, vocals, and instrumentation.

Shriekback's music are global and historical. Their songs are inspired by the Yin and Yang relationship, each capable of opposing and complementing the other. Their influences include a variety of genres, such as punk, folk, and world music.

The blatant, clear vocals, combined with a straightforward approach to the message of the music, are hallmarks of Shriekback's style. They aim to tear down the walls of social norms and expectations, and to encourage listeners to question and challenge the status quo.

As with anything experimental, the forms may change during the process of creation. But the core of Shriekback's music remains a consistent message of empowerment and liberation.

The film opens with women of all ages and backgrounds, each telling their own story. The film explores the beliefs and experiences that shape their lives, and the challenges they face in navigating the world.

Ken Dormann

On Wednesday night, September 27, a movie was shown to a packed audience at the Lincoln Theater in Milwaukee. It was "Primal Fear," a satirical look at the judicial system.

The movie tells the story of a man who is wrongly convicted of murder and spends 10 years in prison. When he is released, he discovers that his conviction was based on perjured testimony and sets out to find the truth.

The film explores themes of justice, corruption, and the power of the law. It also examines the ways in which the legal system can fail to protect the rights of those who have been wronged.

A Woman's Primal Fear

OCTOBER 4, 1983

A Lyrical Look At Gano's Music

H

OCTOBER 4, 1983

Michael Greenfield

The last song, "I'll Never Forget," is a touching tribute to the late actor Forest Whitaker. It was recorded by the band as a memorial to the man who brought the character to life in the film.

The film's message is one of hope and resilience. Although many women have been silenced by the pressures of society, they are still capable of fighting back and reclaiming their power.

Primal Fear is a film that speaks to the need for reform in the legal system. It shows that the truth is not always easy to find, but it is absolutely worth fighting for.

The film was nominated for several Academy Awards, including Best Picture and Best Actor for Whitaker's performance. It is a powerful and thought-provoking film that will resonate with audiences for years to come.

The music of Shriekback is an integral part of the cinematic experience. Their recordings feature a range of sounds from 60's, 70's, and 80's music. Their live performances are loud, fast, and energizing.

The music of the Violent Femmes is an integral part of the punk rock scene. They have been a leading voice in the genre for over 30 years, and their music continues to inspire fans around the world.

The music of Shriekback are a unique blend of genres, and their songs often feature a distinct percussion style. Their music is a reflection of the diverse experiences and perspectives of the women who are part of their community.

The University production of The Glass Menagerie, written by Tennessee Williams, will be playing at the PAC tonight through Saturday. Also, The Wiltshire, directed by Peter Bennett, will be playing at the PAC from Tuesday October 11 until Saturday October 15.
EDITORIAL
The answer still is no

The Albany Student Press Editorial Board decided Tuesday to continue not running military advertising in this paper, in spite of our student body's wishes.

Every student who is of voting age was denied the right to vote in the nation's most recent presidential election. Every student who is of voting age was hit by the latest round of budget cuts. Every student who is of voting age is still earning, instead of learning, for the majority of their time. Every student who is of voting age is still unable to vote in their college communities. This is no accident. It is a conscious policy decision of elected representatives who are elected by students in this country votes, and the vast majority cannot.

We, as students, are all victims of "learned apathy". We, as students, are all products of a political socialization, the education system, and Madison Avenue which have ebbed and flowed, the role of students within the political structure, the education system, and Madison Avenue which may limit their potential courses of action. PIRGs provide the kind of fundamental skills of citizenship and organizing on a grass-roots level. PIRG volunteers, organizers, teachers, lawyers, and organizers to train and work with students, addressing the issues that students/citizens deem to be of major importance. In addition, by being nonpartisan, students are not locked into a strict ideology or dogma; we are an independent newspaper in politics and finances.

We've always made it clear to the military that we'll run military advertising only if the military admits that they don't accept gays or lesbians. They refused to do so, and we refused to run the ads.

We estimate that our removal of advertising revenue isn't enough to prevent the military from spending $100,000 to $200,000 a year on local newspaper advertising. That's about 8 percent of our annual budget — quite substantial, especially for a paper that gets all of its students. Because our goal is to provide a potent force for driving open opinion.

We will not cut ads that lie, or those that are not justified by the military. The military and intelligence agencies have not followed our instructions. But we don't let people on our editorial board put their hands on them. Whether the advertisements are for a product, a service, or political candidate, we don't let people lie on our pages. That's about 8 percent of our annual budget — quite substantial, especially for a paper that gets all of its students. Because our goal is to provide a potent force for driving open opinion.

**Interview:**

**Pam Kruse**

**Olympic Medalist**

Pam Kruse swam in the 1984 Summer Olympic Games. Her experience as an Olympic athlete offers invaluable insight into what participating in the Olympic trials was like for her. She discusses the Olympic experience and life as a professional athlete.

ASP: You speak of being disappointed only because it was such a great feeling. I found that the 400 meters isn't really your event. I'm really 200, 400, 800, and I didn't make the 200, which I should have. I was a little more uptight about it because I expected of me in the 400, that I didn't meet what I think the coach expected of me. I didn't think there was as much pressure on the 400, but then I had a feeling that I hadn't done that very well.

ASP: The way the Trials are run in our country, there is a tremendous pressure there. Actually, they didn't try and bull in and tell me what I should do. Maybe they tried to give me suggestions, but I had to decide what was better for me. They gave me as much help as possible, but they didn't force me to do anything. If I went in there and I couldn't come close to. If I went in there and I couldn't come close to the point where I should have been putting it into gear, then I would have said that I didn't want to swim.

ASP: What about all the Olympic Village? Were you able to talk to anyone and say trade and exchange stories? Was it competitive or friendly?

KRUSE: I didn't really talk to people. It was a little bit of everything. Some people who went to the other team, they have a little bit of fun, but that's part of the reason I didn't do that. Of course, you could talk to anyone and say trade and exchange stories. I think that was a part of the reason I didn't do that. If I had to do it again, I would try to do it again because I think that's part of the reason I did it. I think that's part of the reason I did it. I think that's part of the reason I did it. I think that's part of the reason I did it. I think that's part of the reason I did it. I think that's part of the reason I did it. I think that's part of the reason I did it. I think that's part of the reason I did it. I think that's part of the reason I did it. I think that's part of the reason I did it. I think that's part of the reason I did it. I think that's part of the reason I did it. I think that's part of the reason I did it. I think that's part of the reason I did it. I think that's part of the reason I did it. I think that's part of the reason I did it. I think that's part of the reason I did it.
The primary purpose towards the combination was to get the women and the men together because of the high costs of each sport. Secondarily, it was to have a strong conference, recruiting-wise, nationally and regionally. Perhaps, it was the feeling and example to combine the men and women's programs.

-Pat Rogers, chairman of the SUNYAC women's division

The primary reason for combining was to get the men's and women's programs closer to working on the same level. It's a matter of recruiting and maintaining a good quality of athletes. Combining the two programs would allow for better organization and administration.

-Rogers

The SUNY Athletic Conference was restructured to give the women's programs autonomy over their sports and to have a separate vote. This is one area that has female administrators doing things alone, which is a good example for other people to follow.

-Rogers

The SUNYAC Championship will be held this year on the same day. All sports will be included.

-Jessie Godfrey, Binghamton's women's athletic director

The SUNY Athletic Conference has grown from a two-sport conference in the early 1970s to a 11-sport conference today.

-Rogers

The SUNYAC Championships, which are held in January, will be held at the same site for the first time. The locations have not yet been determined.

-Albany Student Press

The primary concern towards the combination was to get the women and the men together because of the high costs of each sport. Secondarily, it was to have a strong conference, recruiting-wise, nationally and regionally. Perhaps, it was the feeling and example to combine the men and women's programs.

-Pat Rogers, chairman of the SUNY Athletic Conference

By MARK LEVENE

Outdoor Sports Editor

The 1983 season draws to a close, and this year has been a classic in the world of baseball. The National League has been a spectacle, with the New York Mets and the San Diego Padres battling for first place throughout the season. The Mets, led by the dynamic duo of Keith Hernandez and Tom Seaver, have been the team to beat for most of the season, while the Padres, led by rookie sensation Tony Gwynn, have given them a run for their money. The race has been so close that it will likely go down to the wire, making for exciting baseball fans everywhere.

New look for AMIA/WIRA

By RICH LUDWITZ

Sport Writer

AMIA is set to kick off another year in its second season, and the organization is looking to expand on its success from last year. The group has been working hard to attract new members and to increase participation in the various activities offered. With the addition of new sports and activities this year, AMIA is sure to continue to be a popular destination for students looking to get involved in the community.

The reason the Mets are amazin’

By ROB RAFAI

Sports Writer

Are you an average, normal, red-blooded American? Of course you are. And if you are, then you have seen the Mets play, and if you have seen them play, then you have seen the Mets win. But what makes the Mets so great? It’s not just the players, it’s the fans. It’s the way they support the team, the way they cheer them on, and the way they make game day an event. It’s the way they make it fun, make it exciting, make it unforgettable.

A runner's guide to Albany

By TOM KACANDES

Why do people run around here? Because they like it and to get in shape. I don't know what else. There's not much to do around here other than run. I do a lot of running in the fall and spring.

I run on the rural area near the city. It's got all kinds of trails and stuff. The people are friendly and they're always nice to me. I've never had any trouble with them.

There are a lot of different trails around here. Some of them go through the woods and others go through the city. I think it's great to have all these different options.

I've been running on the same trail for over a year now. It's really nice to have something familiar to run on. I think it's good to have a place to run that you can rely on.

I enjoy running in the fall because the weather is nice and the leaves are changing. It's a great time to be out running. I think it's important to get outside and enjoy the beauty of the season.

I try to run about 5-10 miles a day. I like to break up my runs into shorter distances. It's easier on my body and it's nice to have variety in my training.

I find it helpful to listen to music or podcasts while I run. It helps me stay motivated and it makes the time fly by.

Overall, I think running is a great form of exercise. It's a good way to stay healthy and it's fun to do. I highly recommend it to anyone who wants to get in shape or just wants to enjoy the outdoors.
Student vote would be big for Rev. Jackson

The much of the Black community moves to support Reverend Jesse Jackson for the Black candidate in the 1984 presidential primary and many are deciding to vote for him in the 1984 primaries. People are starting to believe that he can achieve a significant victory in the primaries and he is gaining the support of many Black voters and leaders throughout the country.

In the past, Black voters have tended to support the Democratic Party and its candidates. However, with the rise of Jesse Jackson's candidacy, many Black voters are considering supporting a third-party candidate. This has led to increased interest in the Black primaries and increased participation by Black voters.

Some Black voters are concerned that if they support a Democratic candidate, they will be alienated from the party. They believe that Jackson offers a fresh perspective and a new opportunity for Black voters to have a voice in the primaries. This has led to a growing number of Black voters supporting Jackson and his candidacy.

Overall, the rise of Jesse Jackson's candidacy has led to increased interest in the Black primaries and increased participation by Black voters. This has created a new opportunity for Black voters to have a voice in the political process and has led to a growing number of Black voters supporting Jackson and his candidacy.

Two SUNYA grads vie for city, county posts

By Jerry Campbell

Two SUNYA graduates, both Republicans, are vying for the Albany Democratic seat for city executive in the November election. SUNYA President Daniel Kerlikowitz has said he would support his student for the position. The seat is currently held by incumbent Jim Coyne, a Republican. Coyne has been in office since 1982 and is running for re-election.

Coyne's opponent, Daniel Klepak, is a SUNYA graduate who runs on both Republican and independent lines. He has been a political advocate for SUNYA students and has been active in local government. Klepak said he would work to strengthen the office of the comptroller, which he would hold if elected.

Coyne, on the other hand, said he would support SUNYA students and their rights, particularly in regards to voting. He said he would work to ensure that SUNYA students have the right to vote in municipal elections.

The election is set for November 8th, and both candidates are vying for the support of SUNYA students. The race is expected to be close.

City looks to renovate Shea

The city of Albany is considering renovating the facility.

"We have to improve the facility," said Mayor Erwin. "We want to make sure it's ready for the next big event." The mayor mentioned that the city is looking into upgrading the roof and improving the seating capacity.

The renovation would cost approximately $50 million, according to city officials. The city council is expected to vote on the proposal next month.

"This is a pivotal week for us," said Erwin. "We need to make sure we're ready for the big events coming up." The mayor emphasized the importance of having a world-class facility for Albany's sports teams.

The renovation would not only benefit Albany's sports teams, but also the city's economy. "We're looking at an increase in tourism and a boost to the local economy," said Erwin. "This is an investment in the future of Albany."
Presbie scores twice as booters top Brockport

By Mark Lemon

The Albany State football team knew they had to win on Saturday if they want to make a name for themselves in the SUNYAC and they did just that scoring a 24-7 win over the Mustangs. It was the second straight win for the Danes, who were coming off a 21-21 tie against North Adams in which the game-winner was scored with 10 seconds left in the game. The Danes in turn put their third win of the year.

On a hunch, the Danes decided to move Presbie to quarterback and it paid off big time. Presbie scored twice and also threw a touchdown pass to senior teammate Zane Smith. As a team, they outgained the Mustangs 372 to 240 yards.
