The 'Wyoming Project'  
Striving for a ModelSociety

The Wyoming Project is a socially and scientifically important cause. It is a phenomenon that may be described as a movement for change, a call for a new way of life, a call for a new society. It is a movement for the betterment of humanity, for the betterment of the world. It is a movement for the establishment of a new society, a society that is based on the principles of peace, justice, and equality.

The Wyoming Project was founded by a group of individuals who were dissatisfied with the existing society. They believed that the existing society was flawed in many ways, and that it was in need of change. They believed that the existing society was too focused on materialism, and that it was in need of a shift towards a more spiritual focus. They believed that the existing society was too focused on the individual, and that it was in need of a shift towards a more collective focus.

The Wyoming Project was founded on the principle of the New State of the Mind. The New State of the Mind is a state of consciousness that is characterized by a lack of emphasis on materialism, and a focus on spirituality and collective well-being. The Wyoming Project was founded on the principle of the New State of the Mind, and it was founded in order to promote this state of consciousness.

The Wyoming Project was founded in the late 1970s, and it quickly gained a following. It was a time of social and political upheaval, and the Wyoming Project provided a voice for those who were dissatisfied with the existing society. It was a time of experimentation, and the Wyoming Project provided a platform for those who were looking for new ways of life.

**ALBANY AIRPORT EXPANDING**

One of the objectives of local County-lobbying efforts, the Albany County Legislature approved a 1,000 foot extension of the east-west runway today. The extension of the runway will cost about $1.6 million in federal aid. The county’s share would be $780,000. The airport’s growth and services will be expanded in an effort to keep up with the increase in travelers. The extension is expected to be completed by late spring. The new runway will be available for use starting in May. The extension will be used for larger jets and will allow for greater flexibility in scheduling flights.

**ROCKY’S CAR INSURANCE BILL COULD CUT RATES 33-56%**

The New York State Bar Association (NYSBA) has proposed a new reform bill that could significantly reduce car insurance rates in New York state. The bill, sponsored by Senator Hughes and co-sponsored by other state legislators, would establish a no-fault insurance system in New York. The bill would eliminate the current system of fault-based insurance, which requires drivers to sue each other for compensation. Instead, it would create a system where drivers would receive a fixed amount of compensation for medical bills, lost wages, and pain and suffering, regardless of who was at fault in the accident. The bill is expected to save drivers a significant amount of money and reduce the backlog of insurance claims.

'71 Stickmen Hurting For Some Good Grass

by Dave Reit

ASP Attenct

Annoying rain in the weather. Lacrosse is played outdoors, on green grass, sunshine and Andy Sehe. Rain, the last several days, has been in Albany. Thursday just did not stop. The rain was so much that the game was moved to Friday. Monday is the first day of spring and the weather looks promising. The weather this week should be perfect for outdoor activities.

SUNY Applications Increase

by Bruce Infect

State University Chancellor Gerald L. Brown reported Tuesday a 13 percent jump in the number of applications for admission to SUNY. Figures given by the chancellor show there are 132,000 applications for the winter semester, 12,000 for summer students and 3,000 for graduate school applications. This compares with 118,000 applications last year and 116,000 for the previous year. The number of applications is up considerably from the previous year.

Lampert Clarifies Results

by Tom Clingan

Students who were not satisfied with the results of the ROTC exam were given the chance to retake the exam. Last year, there was another admissions "crush" that kept a large number of high school graduates out of their first choice college. This year, the admissions process is expected to be even more competitive.

GENESEE CREAM ALE

The University Senate rejected a bill to change the ROTC credit policy. The bill would have allowed ROTC students to receive credit for ROTC courses. The Senate passed a resolution opposing the bill. The Senate was concerned about the impact of granting ROTC credit on the academic programs of the university.

The University Senate approved a bill establishing guidelines for the granting of Outstanding Teacher Awards. As many as three teachers may be honored. Each teacher will receive $1,000.

SUNY Applications Increase

by Bruce Infect

The University Senate approved a bill establishing guidelines for the granting of Outstanding Teacher Awards. As many as three teachers may be honored. Each teacher will receive $1,000.

Applications for admission to the SUNY campuses have increased this year. The University Senate must now review the applications and determine which candidates will be offered admission.

SA Constitution Passed

by Tom Clingan

The Student Association (SA) constitution was passed last week. The SA constitution was passed by a vote of 1604 to 1496. The vote was taken on Tuesday, March 22, 1971. The vote was close, but the SA constitution was passed by a narrow margin.
