CONCERT TO BE TONIGHT

Big Musical Event Of Season At Hall

Many talented State College follows its recent dramatic success by a musical treat tonight at 8:30, when the Music Association in its mid-winter concert will present at Chalmers’s Hall, the Women’s Chorus, a Mixed Chorus, and the College Orchestra, under the direction of Professor T. Frederick T. Ockey. The Hungarian violinist, Zoltan Szekely, will be the assisting artist in connection with the college organizations. Zoltan Szekely is famed for his technique and tone production. Early in the evening, he will present guest soloist with the Detroit Symphony Orchestra. In addition, Szekely is a noted composer who has traveled in England, Italy, Holland, Germany, and Hungary. He is returning in the near future to his native country for a concert tour.

It has been arranged that the falloons at the hall be reserved for State College students who will be admitted on presentation of student tax tickets. Fifty cents will reserve a seat on the main floor.

Previous concerts given by the State College musical organizations have been highly praised for their excellence. Be so kind as to bring an open note to the concert. The additions of the Women’s Chorus, Largo and Allegro, and the Concerto in E flat, Mozart, and Szekely’s Concerto in G minor, Saint-Saëns, have added a decided interest to the evening’s program. The orchestra, under the direction of Professor Ockey, will be assisted by a large number of musical students.

The Famous Farrar To Deliver Talk Here

John Farrar, playwright, poet, and editor of “The Bookman,” will give an informal talk Saturday evening in the college auditorium upon the subject of the modern play and modern production. Mr. Farrar has the value of his own acquaintance with the famous and illustrious of the day, which gives him a distinctive and ever-fresh insight into the characters and lives of outstanding contemporaries. Very likely he will point out his own recent experiences in New York play production. Whatever he presents, one may feel assured that his talk will have a wide appeal, whether or not one is up to date in theatre-going.

Junior Prom Leaves No Doubt Of Success

The night of January 30 marked the evening of Junior Prom, the closing event of the career of 1926. It fulfilled the keenest expectations among the most enthusiastic supporters. The guests were received by the ex-officio faculty members of the class, President and Mrs. Abram R. Bruchscher, Dean Alma E. Pierce, the elderly members of the class, Miss J. Isabelle Johnston, Miss Maid Malcolm, and Mrs. Margaret Betts, orchestra, Hilda Klindt, Mary Cannick, and Margaret Benjamin. Under the direction of the president, Mr. W. Wood the grand march was led by Hilda Klindt. Setting a dashing precedent the patriarchesses wore eights of tea roses, tokens of respect passed upon the golden day. The music furnished by McHenry’s band was truly a jazzy, providing stolid, with the organization admirably lent themselves to the creator’s wish. A post mortem reveals the theme and past Lent were the profoundest colors, and Miss V. K. Van Roon found her coiffs in all its charming modes was deservedly popular.

Byrne Bill To Be Acted On Later

The fate of the Byrne bill appropriating $350,000 to begin work on the proposed three building addition to State College hangs in doubt. State Senator William T. Byrne, of Albany, who introduced the bill three weeks ago, told the State College News this week that he does not know whether it will be passed. Its chances, he declared, are not better than last year.

The bill will probably fall into the so-called "thirty-day limit." He said: "It will be one of those bills which are acted upon just before the legislature closes its session so that the bill of the season plays itself within the thirty day limit." At present, Senator Byrne said, "I do not know if the bill will be passed. The needs of the college are appreciated, but the question is whether the state can afford the money this year. The failure of the bill to pass last year has been generally attributed to a jam of business in the last few days in which it lost out. I believe, however, that the chief reason it failed of passage, along with a number of other measures, is because of the question of ways and means."

"The measure," he said, "will probably not be acted upon by the Senate Finance and the Assembly Ways and Means Committees until just before the close of the session, probably sometime between March 15 and April 1."

"With the approval of those two committees and the support of Governor Smith," Mr. Byrne said, "passage of the bill by the Assembly and Senate would be virtually assured."

Editorial support of the bill has been given in Albany by these papers: The Evening News, the Knickerbocker Press, and the Times-Union.

DIPLOMAS AND EDUCATION

Now that final examinations are past and a new semester is opening, such remarks as these are heard in college corridors: "Is Professor X a good marker? Can you get by with much in his courses? I registered for this class because I hear you can pull a passing grade without the slightest effort." Of course we take such remarks with a grain of salt, for they are largely hyperbole, but the fact remains that most of us, who are striving to secure a college education, seem to have let ourselves believe that college hours are easily secured than the general information gained. If securing an education is reduced to a game of chance where the student risks nothing, and reaps a piece of paper known as a diploma, then an education is worthless. Cramming a lot of useless and desultory knowledge in our craniums, and then expelling it hurriedly into examination booklets, is futile effort and wasted time. Unless we aim to broaden our intellectual horizons, unless we take those courses which will better develop us and to solve the problems of life, our degree is not worth the letters that compose it. And so, in making out this semester's schedule, let us choose those courses from which we shall derive the most benefit, regardless of the work in­

Girls' Varsity Wins Against Alumnae

The annual Alumnae-Varsity game of January 31, offered the first opportunity for State to view the girls' varsity in action. That the game was closely contested is shown by the final score of 18-16 in favor of the varsity. Despite the fact that close guarding and brilliant shooting featured the match, the game was slow, due to the constant shifting of positions on the varsity.

The Alumnae played a better organized game than is usual. Hilda Leibich, 21, crack pivot of last season's squad, usually succeeded in getting the tip-off and passing the ball to the forwards. Helen Walsh, 22, rolled up all the points for the Alumnae.

Margaret Hutchins, captain of the varsity, shuffled her players in an attempt to try out possible combinations for the coming combat with Russell Sage. This constant change in formation, which kept down the varsity's score, is shown by the lineup.

Russell Sage College of Troy has daily challenged State's women's varsity to a basketball game. Manager Janette Wright, 26 announces March 6 as the date set. The match will be played on the Troy floor.

Remembering last year's victory and State's defeat in 22, the game this year should be of particular interest. In view of past experience, the student body is planning a wholesale invasion of the rival college on the stated day, Saturday, March 7.

"28 TO PLAY R. P. I. FRESHMEN"

The freshman men's basketball team, which lost a close game to the Rensselaer Polytechnic Institute previous at Troy Friday night, will play a return game either February 13 at State, or March 21 at Troy. The score of the game Friday was 22 to 16. The contest was closely played throughout the freshman's work showing a marked improvement over the game with Waterford High School. At half, the Engineers' cubs were leading, 11 to 8, and in the second half, each team scored eight points. The Purple and Gold freshman worked in finding the basket in the opening period and the opponents ran up a lead which they maintained to the final whistle. Nephew was high man for the freshmen with eight points. Kucey, Goff, Griffin, and Dobris also played.

STORY OF STATE ENDS

The News' small contribution to the observance of State College's eightieth birthday ends in next week's issue with the publication of the final chapter in "The Story of State." These brief notes have tried to bring out some of the more vital points in the varied story of almost a century, and to bring into light facts of which any college could boast. The college's record in the Civil War, related in a former number, is excelled only by that in the World War, described in the last chapter. These and similar anecdotes should be familiar to students.

Winning the West

Irrigation by electrically driven pumps has made hundreds of thousands of acres of desert land in the Intermountain West blossom like the rose.

For a few cents a month per acre, electricity—the giant worker—brings the life-giving water from distant lakes and rivers to rainless valleys, producing rich harvests of fruits and vegetables, cereals and forage.

What electricity is doing for the farmer is only a counterpart of what it is doing for Industry, Transportation, City and Country life or any of the professions. It is a tool ready for your use and which, wisely used, will make the impossible of today an accomplished fact tomorrow.

How electricity does these things is important to the student in a technical school—but what electricity can do is important to every college man or woman, no matter what their life's work may be.
STATE COLLEGE NEWS, FEBRUARY 6, 1925

G. A. A. Frolic Friday
Woodville—Anything from tragedy to slapstick farce may be included under that heading. State has had plays, concerts, and bazaars. G. A. A. is setting a precedent.

The responsibility for this affair lies with Lorna Shaffer, 26, general chairman. Several committees are assisting her in arranging for the event: Stunts: Bertha Zajen, 27; lighting, Dorothy Hoyt, 23; house, Georgianna Maas, 27; stage set, Mary Flannigan, 26; costumes, Dorothy Taylor, 25; flowers, Marion Schmatz, 25; music, Beatrice Wright, 28; publicity, Marion Chesnutt, 26; program, Helen Elliott, 26.

ATHLETIC WORK COMMENDABLE

The work of the varsity basketball team this season has been gratifying to the college. At the present time the team has played eight games, and has won three of them. Five of the games have been played in Albany and in its home court the Purple and Gold stands with three wins against two losses.

Admittedly, this is a good record. It must be remembered that under the circumstances the team has played only one game. Since the abolition of the state tournament, the college is menaced with a poor schedule. With four more games to play, the college is in a position to have its best schedule yet. The team practices faithfully, its schedule has been well chosen and it works hard in all its activities.

Cheering should be better than it was. The varsity has a right to be cheered. The team suffers from the student apathy towards the Alumni game. Attendance should be better. The team practices faithfully, its schedule has been well chosen and it works hard in all its activities.

INTERESTING STATISTICS

Opponents of State College for Teachers' basketball team have scored 116 points in the five home games to date this season, while the Purple and Gold has run up 118 in the same contests, a.tabulation shows. State dropped its first two games here to Union and to Brooklyn Law, and won the next three from St. Michael's and Jamaica Teachers and the Alumnae. The tally shows:

State, 15; Union, 33; State, 23; Brooklyn, 40.
State, 32; St. Michael's, 16.
State, 32; Jamaica, 11.
State, 25; Alumnae, 16.

REV. DUNNEY TO ADDRESS CLUB

The next regular meeting of the Newman Club will be held February 11, in room 211, at four o'clock, not on February 4 as was hitherto announced. Rev. Joseph A. Dunney will deliver a lecture on religion, at that date. Matters of importance concerning the religious and social activities of the club will be brought up by Mary Driscoll, club president.

READS AT GLOVERSVILLE

Miss Agnes Futcher was in Gloversville last week-end, where she gave a reading of "Quality Street" before the usual interested audience which her appearance always attracts. She arranged for the reading are to be donated to the dormitory fund.

MATH CLUB DISCUSS EXAMS

"Coming events cast their shadows before," but past events cast their shadow over Math Club meeting Thursday, February 5. A paper on "Correcting Examination Papers," was read by Elly May Greenway, 26 and one on "What the Tests Do Not Test," by Isabelle Ames. The rest of the period was given over to a discussion of these papers.

SENIORS TO HOP IN GYM

Committees are already actively engaged in making this year's senior hop, scheduled for February 21, in the gymnasium, one of the most successful. The following committee, chairmen vouch for a hop perfect.
