The University Mourns...

by Ed Deady

Outside the Campus Center the sky was a clear blue, brushed occasionally by white. The sun glanced down on a perfect day, a lazy, breezy day. You could hear the fountain's unceasing din above the sound of people talking and a dog's bark. An excited uproar broke out briefly from one of the many groups seated and standing idle on the podium and around the fountain. It was noon and many students were spending their free moments between classes enjoying the good weather, good talk and good friendship and feeling life that only a day such as yesterday could bring.

In the Campus Center Ballroom, on the second floor at the top of the stairway going up from the main lobby, there were still vacant seats. Only a few people stood by the main doors, not from necessity, but for convenience. Finding Cockrell stopped playing the piano, and Rabbi Bernard Bloom gave the invocation for those eleven Israelis who "died on the field of peaceful competition." The Albany County District Attorney Arnold Proskin rose to speak about the eleven new martyrs and the six million old ones, who hopefully have made us all more aware of the need for brotherhood and peaceful relations among nations. He felt we had enough martyrs and did not need any more. "Martyrdom must cease," said Proskin.

President Benezet spoke next, condemning hatred and the feuding among people and nations as being "senseless" and "without resolve." He expressed hope and prayers for the people of the world and stressed the importance of the university in working to end hatred by bringing all people together. There was silence in the ballroom.

The next speaker read a poem written with the Olympic massacre in mind. It was composed by Reverend Harvey Bates of University Chapel House and entitled "Munich and the Day of Atonement." The poem spoke of the cruel, hating and wicked ways of us human beings, and of a hope that someday we will rid ourselves of this hatred, and atone for what has been done in the past. Except for a few shedding tears, it was quiet in the ballroom.

Leonard Weiss, an attorney from the Albany Jewish Community Council and Mayor Corning of Albany also addressed the gathering and condemned the dastardly killings and the senseless wars that plague our world today. They too hoped for peace and a time of friendship and brotherhood for people of all nations. There was silence in the ballroom.

There a psalm was read and a Kaddish by Rabbi Zimand and it was quiet in the ballroom.

Outside one could hear the unceasing din of the fountain above the sounds of people talking and a dog's bark. But there is no need to go on. You cared. You were there. You know how it felt.

**Bookstore Brass Explain ODS Breakdown**

by Robert Decherd

Perhaps the most commonly asked question regarding the long booklines situation is how it all got to be that way. According to several sources of information, the booklines would not have been so long had it not been for a series of events which occurred over the past few years.

One of the major factors contributing to the long booklines situation is the decision to shut down the ODS (Old Dominion Student) system. This decision was made in an effort to reduce the amount of space required for the bookstore. According to a spokesperson for the bookstore, this decision was made as a way to save money and improve efficiency.

Another factor contributing to the long booklines situation is the increased demand for textbooks. According to the bookstore, the demand for textbooks has increased significantly over the past few years, and this has put a strain on the system.

The bookstore has also had to cope with a number of other problems, including a lack of adequate staffing and a shortage of space. According to the spokesperson, these problems have made it difficult to keep the booklines open.

The bookstore management is aware of the problem and is working to address it. The spokesperson said that the bookstore is working to improve the situation as quickly as possible.

**1972 Master Plan Released: BOYER SEES MORE SUNY INNOVATION**

by Glenn von Nauert

In a move that some have called innovative, the SUNY Board of Trustees has released the 1972 Master Plan. The plan calls for an increase in the number of students attending SUNY institutions, as well as an expansion of the educational programs offered.

The plan is intended to help SUNY institutions keep up with the demands of a changing society. The plan includes proposals for new programs in areas such as computer science, environmental studies, and health sciences.

The plan also calls for the creation of new centers and institutes, as well as the expansion of existing ones. The new centers will focus on areas such as sustainability, renewable energy, and public health.

The plan is expected to cost $2.9 billion, with funding coming from a combination of state and federal sources.

The Reaction to Munich

The once industrious community now and then seems to be falling in upon itself. The community has formed an integral part, a part of itself. It has become a community in its own eyes. Its own society are now its own society. The community is itself. It is no longer a mere subject of another society. It is a new society in its own right. It is its own society. Its own laws, its own rules, its own actions, its own thoughts, its own feelings, its own beliefs, its own values. Its own society is its own society.

Welcome Students. We wish you good learning, good experiences, good times, good friends—a memorable year.

We'd like to bring you up to date about changes at STUYVESANT PLAZA SHOPPING CENTER, as they involve SUNYA community.

First, our bus service. We're still providing FREE bus service to and from the campus three evenings a week and on Saturday. If you used the busses last year, please note that we're now using a school bus charted from the L.C. Smith Transportation Co. Look for the STUYVESANT PLAZA sign on the boarding side of the bus. The bus schedule has been prepared in poster form and is inserted in this issue of the ASP. If you need another copy of the poster/schedule, ask at any of our stores—quantities are limited.

Then, our new store. In August of this year, Wells & Coverly of Troy took over the McManus & Riley store. These nice folks have an excellent reputation as a men's clothier, and are planning a young men's boutique at Stuyvesant Plaza for the 18 to 30 set. Good news for students.

Finally, something that isn't new but that we want you to know: we appreciate the patronage of the campus community; if there's anything we can do to improve our service to you, we'd like to discuss it with you.

Have a good year.

WINGERT NEW COACH

by Ralph Mohr

This fall there is a new face among the coaches at the University gym. Joining the coaching ranks at Albany will be Norm Wingert, a graduate student who will be in charge of the Booters for the year.

In the Hartwick College graduate, Albany hopes it has found the leadership, skill, and desire necessary to produce a winning soccer team.

Although last season was a disappointment for the team, Coach Wingert will try to win back confidence from last year's 2-9 record. A team that Coach Wingert feels will give 100% all the time. Larry Herzog (starting fullback), Uzi Haimoff (starting wing), and John Thayer (goalie) will be the backbone of this team.

Coach Wingert feels that John Thayer (starting fullback) will be back in the nets very shortly for the Danes. Three other veterans who have returned to the team make a difference. Mark Streeter, who has been away from Albany, has returned to play at wing back.

The talent is there; it is now up to the players to decide how far they wish to go.

Runners Look Strong Again

by Kenneth Arumino

Albany's cross country team is preparing for its eleventh season under Coach Bob Munsey and it looks like another great season. Munsey's men have a ten-year record of 87 wins and 18 losses and are the defending SUNYAC champs.

The team has lost three top runners from last year including the two Albany record holders, Brian Quinn (in the 3 mile) and Dennis Hacketl (in the 3.4 mile). Although these men, along with assistant coach Larry Frederick, were the backbone of last year's club, the team has gained three new men. They are Jack Laps, John Stanton, and John Streeter at sweeper fullback. George Keleshian (halfback) and Carlos Alvarez (starting insides) will be returning.

Although last year's team was a disappointment, it will be a step forward. Coach Wingert will try to win back confidence from last year's 2-9 record. A team that Coach Wingert feels will give 100% all the time.
FALL BASEBALL

by Nathan Neilson

There’s no better way to start the fall season than with a baseball game. The Amsterdam Basic Foundation is hosting a Fall Softball Tournament this weekend featuring some of the best teams in the area. The tournament will be held at the Amsterdam High School field and is open to all registered students.

The tournament will feature over 20 teams, each competing for a chance to win the championship. Teams will be divided into two brackets, with the winner of each bracket advancing to the championship game.

The tournament will commence on Friday, September 8th, with games scheduled throughout the weekend. It’s a great opportunity for students to get back into the swing of things and enjoy some friendly competition.

So, whether you’re a baseball fan or just looking for a fun weekend activity, be sure to come out and support the teams. It’s going to be an exciting tournament, don’t miss out!

Lady Chatterley's Lover

LADY CHATTERLEY'S LOVER was actually the third of three novels written by D.H. Lawrence between 1928 and 1930.

The second novel, written in 1920, is the longest and most ambitious of the three. It is an attempt to present a comprehensive picture of the world of the early 20th century, with particular emphasis on the role of women in that society.

New York (AP)-A federal court panel said today that voters should be allowed to register during the last three weeks before an election and said there is no reason to require that registration be done on or before Sept. 15, as required under New York's election law.

The court's order directed New York to provide a 21-day period for registration during the 30-day period before an election.

McGovern and New York State

The first is named because of the way he was named: McGovern New York State. The second is named because of the way he was named: McGovern New York State.

There are several specific reasons why we might choose to call the first McGovern New York State. One reason is that McGovern New York State is an example of how McGovern New York State can be used to represent McGovern New York State.

The reason why we might choose to call the second McGovern New York State is that McGovern New York State is an example of how McGovern New York State can be used to represent McGovern New York State.

In summary, McGovern New York State is a suitable term to use when referring to McGovern New York State. However, it is important to be aware of the potential for confusion when using this term, and to ensure that the intended meaning is clear.

Richard Nixon has a poor track record here. John F. Kennedy came out narrowly and convincingly eight years later. SHRIVER GREETES ALBANY

By Bob Mayer

On Tuesday evening, Septem­ber 5, a large crowd of people, a huge Eastern Whisperjet carrying Democratic Vice-Presidential candidate Sargent Shriver and a host of other local politicians, gathered at the Empire State Plaza in Albany, New York, to hear the candidate address the electorate.

The event was one of several planned by the campaign in the days leading up to the general election. The crowd, estimated to be over 2,000, gathered eagerly to hear Shriver's speech, which lasted for over an hour.

Shriver began by acknowledging the support of the local community, and then moved on to discuss the issues facing the country. He spoke about the need for a strong economy, a balanced budget, and a fair tax system.

The candidate also addressed the importance of education, healthcare, and national security. He highlighted the need for a strong military to protect the nation's interests.

Shriver concluded his speech by thanking the crowd for their support and urging them to vote on election day. He ended his address with a call to action, encouraging everyone to get out and vote.

After the speech, Shriver moved to the stage and shook hands with many of the attendees. The event ended with a photo opportunity for the candidate and his supporters.
