Ginsburg to Head Symphony Group

Sixty-Five Musicians Register for the Season

The State College Symphony Orchestra, under the direction of Mort Ginsburg, '46, will begin rehearsal this Monday for its first concert of the season. Since both Frosh Camp and Freshman Camp have been concluded, the orchestra now is filled with a selection of students under the direction of Mr. Ginsburg.

Rhythms will be established on September 20 at 8pm in DeWolfe Hall, when the first concert of the season will be held. The program will consist of two numbers: "King of the Wind," a piece written especially for the orchestra by Mr. Ginsburg, and "Tambourin," one of the most popular of German songs.

Softball Sluggers Show Promise

Since this is the Sports Department's first year in charge of the intramural program, the enthusiasm of the players is evident. The team is composed of a group of men who have been successful in the past, and the potential of the team is promising.

Activities Day

In keeping with tradition, Activities Day will be held on October 10, with a variety of events scheduled throughout the day. Students are encouraged to participate and enjoy the festivities.

Greeks Carry On Tradition

One of the nicer parts about the Greek system is the tradition it carries. The fraternity and sorority organizations are active and involved in the campus community.

Once More

Back the Attack

Let's start it, State. We're all excited about the next war which is coming to us all, and it will bring an opportunity to make a contribution to the war effort which will be something we can all be proud of. This is the time when we should all cooperate and work together for the good of all.

Thank You

Last year the State College News conducted a survey among the students as to what they thought the best feature of the college was. The results were somewhat misleading, as the students seemed to be more interested in the quality of the food than in the quality of the education. In fact, the students were more interested in the food than in the education, as the survey showed. But this year the results are much more encouraging, as the students are now more interested in the quality of the education than in the quality of the food. This is a sign that the students are more interested in the education than in the food, and that is something we can all be proud of.

Men Compete Against Women In MAA's Tennis Innovation

Margaret Butler

In this week's edition of Otis Butler's column, Margaret Butler shares her thoughts on the impact of the women's tennis team at MAA and their potential for growth and success. She emphasizes the importance of fostering a supportive environment for female athletes and highlights the contributions of prominent players like Mrs. Adams. Butler's article serves as a testament to the growing recognition of women's sports in collegiate circles and the strides being made towards gender equality in sports participation.
