Something Old...

Once upon a time, a marauding panther was driven into the woods by a group of hunters. For years people have been searching for the panther, but it has managed to hide and survive. The hunters were so impressed by the panther's abilities that they decided to release it back into the wild. This was a difficult decision, as they knew that the panther might not be able to survive on its own. But they felt it was the right thing to do, and they released the panther back into the wild.

And so it was decided by the hunters that the panther should be released back into the wild. This was a difficult decision, as they knew that the panther might not be able to survive on its own. But they felt it was the right thing to do, and they released the panther back into the wild.

Unfortunately, this was not the case. It was obvious to the hunters that the panther was not able to survive on its own. They decided to release the panther back into the wild, but they realized that they needed to do more to help the panther.

In order to do this, the hunters decided to set up a panther sanctuary. This sanctuary would provide food and shelter for the panther, and it would also provide a place for people to visit and learn about the panther. The sanctuary was a great success, and it helped to ensure that the panther would be able to survive in the wild.

And so it was. The panther was released back into the wild, and it was able to survive. The hunters were pleased with their decision, and they felt that it was the right thing to do.

But there is a moral to this story. It is important to remember that we should always be mindful of the consequences of our actions. We should always try to do the right thing, even if it is difficult. And we should always be willing to learn from our mistakes.

Something Nice...

The students in Beta Sigma Gamma are working on a community project. They have been invited to speak at the State College News, and they are excited to do so. They are working hard on their presentation, and they are looking forward to sharing their ideas with the students.

KB Battles for League Laurels

By JOE L. SCHNAVETZ

As the AMIA football league swings into full gear on Monday, Kappa Beta will again assume their perennial role as epis-teme. This year, however, they appear to have a much stronger team and Captain Phil Shepherd has assured this writer that KB will come plenty of trouble especially for defending champions, Potter Club.

Returning backfield men, Tony Corcella and Bump LaVelle, will make up the nucleus of the team. Bill Hohn and Garry Lynch are being counted on to back KB's threat, and Harry Williams is another valuable asset to the KB team. The Service also administers tests for the Alpha Pi Alpha Phi Lambda Sigma fraternity.
