**About Robes...**

Today in Assembly, Music Council will ask that the money which has accumulated in the Robe Fund is used for the purchase of robes for the men's singing groups (at present the choir, glee club, and glee chorus). No money has been used in this year and the fund is now considerable.

The fund was started in the last year as a result of the results of the first Robe Fund Drive. This money was used to buy tuxedos for the men's singing groups. As there is not a question of whether Music Council officers plan to use the total Robe Fund of $366.60 to buy tuxedos for the men's singing groups or not, they should consider the budget for the tuxedos that were bought last year. The fund should have the line for tuxedos as there is money that should be used for equipment under this line. It would be helpful if there would be a line for tuxedos.

In 1943, a tuxedo was used for the first time, and the fund was started to buy tuxedos. So it is also the first for the new staff. The new fund should have the budget for tuxedos, that should be used for equipment under this line. The new fund should have the budget for tuxedos, that should be used for equipment under this line. **For Taste and Mildness Camel's**

In recent years a great deal of attention has been given to the popular tobacco, Camel's, for its mildness and lack of harshness. This article will explore the reasons why Camel's is considered to be a mild and easy-to-smoke cigarette.

**Camel's**

Camel's is the cigarette that's easy on the throat. It's a mild and easy-to-smoke cigarette. Camel's is the cigarette that's easy on the throat. It's a mild and easy-to-smoke cigarette.
